

Build Up Grant

Meet Kate, Beeyutiful Home

“

Creating lovely craft objects which turn houses into traditional Norfolk homes has always been a passion of mine. During a spell of ill health when I had to give up hairdressing, I turned to crafts to keep me busy and it soon turned into a source of income.

Making and selling quirky gonks was a lifesaver on several levels! As was working with dried flowers and engraving personalised wooden objects. It was during this time that I met Jane from Broadland District Council, and she blew me away with how she was able to help me grow my small business; her professional approach and knowledge has made such a difference. The Build Up Grant allowed us to invest in a much better laser for applying my designs onto objects, even on cards. It's great to know that I can always come back to the Council for the kind of practical advice and help which a small business really needs.

”

Kate Nicholas is the creative force behind Beeyutiful Home. You can find her welcoming shop at White House Farm, a community of independent businesses. She's also growing her online business.
