Settlement Limit: Heywood

**a) Are the settlement limits proposed suitable and justified given their policy function?**

There are no settlement limits for Heywood due to the parish being very sparsely populated and rural in nature. The parish also has very limited services, being reliant on those in nearby Diss, and does not justify the inclusion of a settlement limit.

**b) Where changes to settlement limits are proposed, are these:**

**(i) Justified by development on the ground? or**

**(ii) Where potentially allowing further development, that development would be in a suitable location relative to services and facilities, would not harm the character and appearance of the area and would not have any other adverse planning effect?**

No changes to the settlement limits are proposed as part of the VCHAP.

**c) Should any other settlement limits be included in the plan to reflect other hamlets or existing areas of development in the cluster?**

No. There are no hamlets or existing areas of development that are of a significant enough scale to justify a settlement limit.
