

Online Foundation Course

Meet Tara Read, Limitless Driving School

“

After qualifying as a driving instructor it was always my goal to work for myself, but it's a really big leap. I heard about Business Builder support from Jane in the Economic Growth team, and she encouraged me to go for it.

First, the free online Foundation course helped me write a detailed and professional business plan. After I launched, I applied for a Build Up Grant which went towards car wrapping, and an app which manages my bookings. Business Builder is just right for someone like me who hasn't run a business before or starting without much capital. Most importantly it gave me the confidence boost I needed, helped me to come over as fully professional right from the start, and now Limitless Driving is established and I'm always busy. So pleased I met Jane!
