

## Planning and Compulsory Purchase Act 2004

### Town and Country Planning (Local Planning) (England) Regulations 2012

#### Development Management Development Plan Document

#### Adoption Statement 3 August 2015

In accordance with Regulation 26 of the Town and Country Planning (Local Planning) (England) Regulations 2012, notice is hereby given that on 3 August 2015 Broadland District Council has adopted the Development Management Development Plan Document (DPD). The plan forms part of the Local Plan for Broadland and it contains policies covering the period 2015-2026. Consequential changes to the Broadland Policies Maps are also made. The plan area is the district of Broadland, excluding those areas administered by the Broads Authority. The adoption follows the resolution made by the Council on 16 July 2015 to adopt the plan, incorporating modifications, and undertake the necessary legal and administrative processes to secure adoption.

The Development Management DPD was published from 14 April to 30 May 2014 (during which time formal representations were submitted) and it was subsequently submitted to the Secretary of State, for independent examination, on 26 September 2014. The examination in public was held on 3-4 February 2015 by an independent Planning Inspector. During the examination a number of main modifications (MM) were put forward. The Council then consulted on those modifications, as well as a Sustainability Appraisal Addendum appraising those modifications, between 2 March and 15 April 2015. Comments were received and taken into consideration by the Inspector before publishing her report. The Inspector has concluded that *'the Broadland Development Management Development Plan Document provides an appropriate basis for the planning of the District, providing a number of modifications are made to the Plan.'* A copy of the schedule of main modifications forms part of this Adoption Statement. The Council has incorporated these modifications into the adopted plan.

Any person who is aggrieved by the adoption of the Development Management DPD may make an application to the High Court under Section 113 of the Planning & Compulsory Purchase Act 2004, on the grounds that the document is not within the appropriate power and/or a procedural requirement has not been complied with. Any such application must be made promptly and no later than 6 weeks after the date on which the Development Management DPD was adopted, i.e. **by 15 September 2015**.

Copies of the adopted Development Management DPD, the changes to the Broadland Policies Maps (also referred to as Proposals Maps), a schedule of additional (minor) modifications that have also been made to the DMDPD, an Environmental Statement, and the Sustainability Appraisal and the Habitats Regulations Assessment, are available for public inspection at Broadland District Council offices, Thorpe Lodge, 1 Yarmouth Road, Thorpe St Andrew, Norwich, NR7 0DU, during normal office hours (8.30am - 5pm), tel: 01603 431133. They are also available on the Council's website at [www.broadland.gov.uk/dpds](http://www.broadland.gov.uk/dpds)

Copies of these documents can also be found at all libraries in Broadland District, including Plumstead Road Library and the Millennium Library, Norwich (details at [www.norfolk.gov.uk](http://www.norfolk.gov.uk)).

## Schedule of (Main) Modifications to Development Management DPD – Proposed Submission

Following the Hearing on the Development Management DPD the following Main Modifications are proposed. Main Modifications are more substantive changes which significantly alter a policy or text (e.g. rewording policies, adding new sites or deleting existing ones).

The modifications below are expressed either in the conventional form of ~~strikethrough~~ for deletions and **underlining and bold for additions of text**, explanatory notes (i.e. text that is not to be included as part of the modification) are expressed in *italics*.

The page numbers and paragraph numbering below refer to the Proposed Submission local plan, and do not take account of the deletion or addition of text.

| Ref. | Page | Policy / Paragraph | Main Modification  |
|------|------|--------------------|--|
| MM1  | 7    | 2.6                | <p>Water Resources <b><u>and Water Quality</u></b></p> <p>Paragraphs 94 and 99 of the NPPF require local planning authorities to take into account water supply and demand. <b><u>Paragraph 110 of the NPPF states that ‘In preparing plans to meet development needs, the aim should be to minimise pollution and other adverse effects on the local and natural environment.’ All new developments will ensure that there will be no adverse impacts on the water environment, including European and Ramsar sites and other designated sites through surface and storm water runoff, water abstraction, or sewerage discharge in accordance with the Habitat Regulations Assessment (HRA). All new development will ensure that the requirements of the Water Framework Directive (WFD) are met within the wider water environment.</u></b> Policies 1 and 3 of the JCS emphasise the need for development to take into account <b><u>water quality</u></b>, the availability of water resources and the impact of increased abstraction.</p> |
| MM2  | 7    | 2.7                | <p>Advice received from the Environment Agency <b><u>and Natural England</u></b> will be taken into account in the determination of development proposals. Development <b><u>will</u></b> not be permitted where there is significant risk to water resources <b><u>or water quality</u></b>.</p>  |

|     |    |      |   |
|-----|----|------|---|
|     |    |      |   |
| MM3 | 11 | 2.24 | <p><i>Replacement of paragraph:</i><br/> Adequate green space should be provided within schemes that is publicly accessible and links to surrounding areas.</p> <p><b><u>Appropriate infrastructure should be provided including adequate greenspace provision and other green infrastructure linking to the surrounding area, in accordance with Policy EN3 in the Environment chapter of this DPD.</u></b></p>  |
| MM4 | 12 | 2.29 | <p>It is important to ensure sufficient protection for the particularly distinctive and sensitive <b><u>biodiversity and landscape</u></b> areas. The impact of renewable energy projects upon such areas should therefore be considered carefully taking account of the Landscape Character Assessment SPD <b><u>and biodiversity information.</u></b></p>   |
| MM5 | 14 | EN1  | <p>Policy EN1 – Biodiversity and Habitats</p> <p>Development proposals will be expected to protect and enhance the biodiversity value of the district, avoid fragmentation of habitats and support the delivery of a co-ordinated green infrastructure network <b><u>throughout the district.</u></b></p> <p>Where harmful impacts may occur, it should be adequately demonstrated that:</p> <ul style="list-style-type: none"> <li>(i) The development cannot be located where it would cause less or no harm; and</li> <li>(ii) Adequate mitigation is incorporated, <b><u>including specific mitigation requirements to address impacts upon international wildlife sites (Natura 2000 sites);</u></b> and</li> <li>(iii) The benefits of the development clearly outweigh the impacts.</li> </ul> |
| MM6 | 16 | EN2  | <p>Policy EN2 – Landscape</p> <p>In order to protect the character of the area, development proposals should have regard to the Landscape Character Assessment SPD and, in particular, consider any impact upon <b><u>as well as seek to protect and enhance where appropriate:</u></b></p> <ul style="list-style-type: none"> <li>(i) Gaps between settlements;</li> <li>(ii) Visually sensitive skylines, hillsides and</li> </ul>  |

|     |    |     |  |
|-----|----|-----|--|
|     |    |     | <p>valley sides and important views including the setting of the Broads Area;</p> <ul style="list-style-type: none"> <li>(iii) Nocturnal character;</li> <li>(iv) Conservation Areas;</li> <li>(v) Scheduled Ancient Monuments;</li> <li>(vi) Historic Parks and Gardens; and</li> <li>(vii) Green spaces including natural and semi-natural features as well as geological/geomorphological features which make a significant contribution towards defining the character of an area.</li> </ul>  |
| MM7 | 14 | 3.6 | <p>Paragraph 61 of the NPPF states that planning policies and decisions should address the connections between people and places and the integration of new development into the natural, built and historic environment. Paragraphs 109 – 125 set out the Government's view on conserving and enhancing the natural environment. In particular, <b><u>paragraph 110 of the NPPF states that 'In preparing plans to meet development needs, the aim should be to minimise pollution and other adverse effects on the local and natural environment.' All new developments will ensure that there will be no adverse impacts on the water environment, including European and Ramsar sites and other designated sites through surface and storm water runoff, water abstraction, or sewerage discharge in accordance with the Habitat Regulations Assessment (HRA). All new development will ensure that the requirements of the Water Framework Directive (WFD) are met within the wider water environment. Paragraph 112 states the economic and other benefits of best and most versatile agricultural land should be taken into account and that where significant development of agricultural land is necessary, local planning authorities should seek to use areas of poorer quality land in preference to that of higher quality.</u></b> Paragraph 113 states that local planning authorities should set criteria based policies against which proposals for any development on or affecting protected wildlife or geodiversity sites or landscape areas will be judged. In addition, paragraph 117 states that planning policies should plan for biodiversity at a landscape-scale across local authority boundaries; identify and map components of the local ecological networks, including the hierarchy of international, national and locally designated sites of importance for biodiversity, wildlife corridors and stepping stones that</p> |

|      |       |                     |   |
|------|-------|---------------------|---|
|      |       |                     | connect them and areas identified by local partnerships for habitat restoration or creation; promote the preservation, restoration and re-creation of priority habitats, ecological networks and the protection and recovery of priority species populations, linked to national and local targets, and identify suitable indicators for monitoring biodiversity in the plan. Paragraph 165 states that planning policies should be based upon up-to-date information about the natural environment. This should include an assessment of existing and potential components of ecological networks. |
| MM8  | 15    | 3.9                 | All proposals should consider protection and enhancement of biodiversity from the outset. Avoidance of potential harm to habitats and protected species will be expected. Where appropriate, adequate evidence, <b><u>normally in the form of an Ecological Assessment</u></b> , should be submitted to demonstrate the proposal will not result in any significant adverse impact upon internationally, nationally and locally designated sites/areas. This may include acceptable safeguarding measures to be included, and mitigation or compensatory measures where impacts are unavoidable.    |
| MM9  | 15    | After paragraph 3.9 | <b><u>3.9A Proposals likely to have a significant effect on N2K sites should be accompanied by sufficient information to enable the LPA to undertake an Appropriate Assessment as required under the Conservation of Habitats and Species Regulations 2010 (as amended). Proposals which would result in significant harm to biodiversity, having appropriate regard to the ‘mitigation hierarchy’, should not be permitted. Proposed development likely to result in significant harm to a SSSI will be considered in light of paragraph 118 of the NPPF.</u></b>                                  |
| MM10 | 15/16 | After paragraph 3.9 | <b><u>3.9B Housing developments will be required to implement or contribute to measures to mitigate the adverse effects of recreational disturbance impact on N2K sites identified through the strategic HRA, or subsequently identified through project level HRA. Measures will include the provision of suitable alternative natural greenspace that provide a viable alternative to visiting N2K</u></b>  |

|      |       |                     |  |
|------|-------|---------------------|--|
|      |       |                     | <p><u>sites for daily recreational needs. Green Infrastructure provision will be in line with Policy EN3 Green Infrastructure requirements and have regard to green infrastructure projects identified within the Greater Norwich Infrastructure Plan or future iteration of this. Green Infrastructure provision or contribution to this will be secured through planning permissions, including S106 obligations or unilateral undertakings, or CIL.</u></p>   |
| MM11 | 15/16 | After paragraph 3.9 | <p><b><u>3.9C All new developments will ensure that there will be no adverse impacts on the water environment, European and Ramsar sites and other designated sites in the area and beyond including by storm water runoff, water abstraction, or sewerage discharge in accordance with the Water Framework Directive (WFD). The particularly sensitive N2K sites are: The Broads SAC, The Broads RAMSAR Site, The Broadland SPA, The River Wensum SAC, Winterton-Horsey Dunes SAC, Breydon Water SPA RAMSAR, Norfolk Valley Fens SAC and Great Yarmouth North Denes; as identified in the HRA.</u></b></p>  |
| MM12 | 18    | 3.17                | <p>Improving the quality and accessibility of informal open space is of such importance that residential development consisting of five dwellings or more is expected to provide a contribution towards its enhancement and maintenance. The Council will seek to ensure the provision of adequate informal open space to meet the recreational needs of existing and future residents and to mitigate the potential impacts of visitor pressure upon sensitive internationally designated sites <b><u>(Natura 2000 sites) as identified in the HRA and referred to in Policy EN1 of this DPD. Where appropriate on-site provision will be expected, and this will need to be adequate to provide a viable alternative to visiting Natura 2000 sites or contribute to the provision of a viable alternative as part of a wider green Infrastructure network. On sites where adequate provision cannot be achieved, off-site provision is necessary.</u></b> The requirement for informal open space set out within this policy is in addition to the formal recreational provision requirement set out in Policy RL1 of this DPD. However, in general new areas of open space created should be multi-functional serving</p> |

|      |    |      |   |
|------|----|------|---|
|      |    |      | a variety of purposes e.g. where appropriate they could incorporate formal and informal recreational provision <b><u>as well as sustainable drainage areas where appropriate (in accordance with paragraph 99 of the NPPF).</u></b>   |
| MM13 | 19 | 3.20 | As part of the background work underpinning the JCS, a Green Infrastructure Study and Green Infrastructure Delivery Plan were produced which development proposals should have regard to. In addition to necessary green infrastructure being provided related to the development, other strategic elements of green infrastructure will be sought. This may include some of the priorities identified in the Greater Norwich Green Infrastructure Study, the Greater Norwich Green Infrastructure Delivery Plan, the Green Infrastructure Topic Paper and the Local Infrastructure Plan and Programme (LIPP) <b><u>and the projects formalised within the GNIP, or future iterations of these. Strategic green infrastructure provision will be funded through the Community Infrastructure Levy (CIL) or other funding sources. Delivery of the informal recreational provision to provide mitigation that has been identified as being necessary will be secured through s106 obligations or other legal agreement or appropriate mechanism.</u></b> |
| MM14 | 47 | 9.3  | The policies contained within this document do not repeat those set out within the NPPF and JCS. Therefore, in addition to the policies contained within this chapter, development proposals should also pay adequate regard to the guiding principles contained within those higher level documents. Of particular relevance in respect of this chapter are the references to telecommunications, <b><u>climate change, flooding and coastal change as well as</u></b> the integrity of tidal or fluvial flood defences and infrastructure.  |
| MM15 | 47 | 9.4  | <i>Replacement title:</i><br><b><u>Climate change, flooding and coastal change</u></b> Integrity of tidal or fluvial flood defences<br><br>Paragraphs 93-108 of the NPPF provide extensive guidance for local planning authorities on climate change, flooding and coastal change. <b><u>Paragraph 99 states that 'Local Plans should take account of climate change over the longer term, including</u></b>  |

|      |    |      |  |
|------|----|------|--|
|      |    |      | <p><b><u>factors such as flood risk, coastal change, water supply and changes to biodiversity and landscape. New development should be planned to avoid increased vulnerability to the range of impacts arising from climate change. New development should incorporate suitable adaptation measures, including through the planning of green infrastructure.</u></b> Paragraph 103 <b><u>states that flood risk should not be increased elsewhere as a result of development and gives high priority to the use of SUDS.</u></b> Policy 1 of the JCS states that to address climate change and promote sustainability, <b><u>All development will be located and designed to be adapted to a changing climate and more extreme weather; and be sequentially located to minimise flood risk from all sources of flooding in accordance with policy 1 of the JCS.</u></b> In accordance with paragraphs 93-108 of the NPPF and Policy 1 of the JCS, planning permission will not be granted for development that <b><u>adversely</u></b> significantly affects the integrity of tidal or fluvial defences. <del>Where</del> <del>planning permission is given, the developer must ensure that the stability and continuity of the defences is maintained.</del> <b><u>The Environment Agency will be consulted on applications within 20 metres of a defence and any development within 9 metres of a flood defence requires Flood Defence Consent from them. Additionally in considering flood risk issues, regard will be had to the Norwich Surface Water Management Plan. Other relevant surface water management plans/guidance produced by the County Council as lead Local Flood Authority, including the emerging Local Flood Risk Management Strategy, will also be taken into account. The overall aim is to reduce the risks of flooding across the catchments. Advice received from the Environment Agency and the Lead Local Flood Authority will be taken into account in the determination of planning applications.</u></b></p> |
| MM16 | 11 | 2.22 | <p>Paragraphs 109-125 of the NPPF set out the Government's view on conserving and enhancing the natural environment and the considerations that apply when assessing the potential impacts of pollution. Development will therefore not be permitted which would result in any significant unacceptable impact upon the environment, health, or amenity. In particular, the degree of overlooking, over shadowing and over massing should be taken into account in considering the impact of new development upon</p>  |

|      |    |                      |   |
|------|----|----------------------|---|
|      |    |                      | neighbouring properties. Also the potential impact associated with light, noise, odour, dust and other atmospheric pollutants arising from any new development should be considered. Regard should also be had to Policies <b>EN1 and EN4</b> in the Environment chapter of this DPD.   |
| MM17 | 19 | After paragraph 3.19 | <b><u>3.20A</u></b> <b><u>The Council will ensure the provision of adequate informal open space to meet the recreational needs of future residents and to mitigate the potential impacts of visitor pressure upon sensitive internationally designated sites (Natura 2000 sites) as identified in the HRA and referred to in Policy EN1 of this DPD. Where appropriate, on-site provision will be expected and this will need to be adequate to provide a viable alternative to visiting Natura 2000 sites or contribute to the provision of a viable alternative as part of a wider green Infrastructure network. On sites where adequate provision cannot be achieved, off-site provision is necessary.</u></b> |
| MM18 | 19 | After paragraph 3.19 | <b><u>3.20B</u></b> <b><u>The provision of green infrastructure is of particular importance to address the potential impacts of increased visitor pressure on Natura 2000 sites, as identified in the HRA. Therefore, it will need to be ensured that the type of green infrastructure provided includes attractive, accessible greenspace that gives a credible alternative to visiting those sites. This may include some of the priorities identified in the Greater Norwich Green Infrastructure Study, the Greater Norwich Green Infrastructure Delivery Plan, and the projects formalised within the GNIP, or future iterations of these.</u></b>   |
| MM19 | 18 | 3.18                 | The Council recognises that there may be some circumstances where it is not appropriate to meet the green infrastructure requirement on-site. <b><u>In addition, it may not always be necessary to provide allotments for example, where there is a surplus in an area.</u></b> Consequently, it is acknowledged that a flexible approach will need to be adopted in applying   |

|      |       |          |   |
|------|-------|----------|---|
|      |       |          | <p>the policy. Therefore in seeking to apply this policy the Council will negotiate the provision on individual proposals taking into account matters such as the scale of the development proposed, characteristics and location of the site and the standard of existing provision within the area. Where there is an identified deficit the Council will seek to address this if possible. On larger sites meaningful on-site provision is more likely to be achievable. However, it is more likely that the requirement will need to be commuted for smaller developments.</p>  |
| MM20 | 19    | EN4      | <p>Policy EN4 – Pollution</p> <p>Development proposals will be expected to <del>undertake</del> <b>include</b> an assessment of the extent of potential pollution. Where pollution may be an issue, adequate mitigation measures will be required. Development will only be permitted where there will be no significant adverse impact upon amenity, human health or the natural environment.</p>  |
| MM21 | 10/11 | 2.20     | <p>Paragraph 50 of the NPPF states that local planning authorities should seek to create sustainable, inclusive and mixed communities. Policy 7 of the JCS also states that integration and cohesion within and between new and existing communities will be promoted. Development proposals should therefore create sustainable, inclusive and mixed communities by, for example, seeking to ensure that affordable housing is well integrated with market housing and creating opportunities for people to meet formally and informally. New living accommodation should be designed to <del>meet the reasonable amenity needs of</del> <b>meet the reasonable amenity needs of</b> <del>allow potential future occupiers, to live comfortably and conveniently with</del> <b>allow potential future occupiers, to live comfortably and conveniently with</b> <del>sufficient internal and external living space</del> <b>should be provided that is</b> <del>should meet the reasonable needs of occupiers i.e. not excessively over looked, over shadowed or adversely affected by noise etc.</del> <b>and therefore allows occupants to live comfortably and conveniently.</b></p> |
| MM22 | 52    | New CSU5 | <p><i>Insert new policy:</i></p> <p><b><u>Policy CSU5 – Surface water drainage</u></b></p> <p><b><u>Mitigation measures to deal with surface water arising from development proposals should be incorporated to minimise the risk of flooding on</u></b></p>  |

|      |    |                      |   |
|------|----|----------------------|---|
|      |    |                      | <p><b><u>the development site without increasing flood risk elsewhere.</u></b></p> <p><b><u>In particular, within the Critical Drainage Catchments and other areas at significant risk of flooding as identified by the Lead Local Flood Authority, all development proposals involving new buildings, extensions and additional areas of hard surfacing should ensure that adequate and appropriate consideration has been given to mitigating surface water flood risk.</u></b></p> <p><b><u>Developers will be required to show that the proposed development would:</u></b></p> <p><b><u>i) not increase the vulnerability of the site, or the wider catchment, to flooding from surface water run-off from existing or predicted water flows; and</u></b></p> <p><b><u>ii) wherever practicable, have a positive impact on the risk of surface water flooding in the wider area.</u></b></p> <p><b><u>Development must, as appropriate, incorporate mitigation measures to reduce surface water runoff, manage surface water flood risk to the development itself and to others, maximise the use of permeable materials to increase infiltration capacity, incorporate on site water storage and make use of green roofs and walls wherever reasonably practicable.</u></b></p> |
| MM23 | 52 | After paragraph 9.19 | <p><b><u>9.19A The use of permeable materials, on-site rainwater storage, green roofs and walls will be required unless the developer can provide justification to demonstrate that this would not be practicable or feasible within the constraints or configuration of the site, or would compromise wider regeneration objectives.</u></b></p>   |
| MM24 | 52 | After paragraph 9.19 | <p><b><u>9.19B Development proposals will be required to maximise the use of soft landscaping and permeable surfacing materials unless the developer can provide justification to demonstrate that this is</u></b></p>  |

|      |    |                      |  |
|------|----|----------------------|--|
|      |    |                      | <b><u>not feasible.</u></b>  |
| MM25 | 52 | After paragraph 9.19 | <b><u>9.19C This policy requires surface water drainage issues to be addressed in planning applications, both to ensure that surface water drainage issues and associated flood risk are considered and to ensure that the impact of drainage measures on the form and visual appearance of developments is properly taken into account in the assessment of new development.</u></b>  |
| MM26 | 52 | After paragraph 9.19 | <b><u>9.19D The Norwich Surface Water Management Plan investigated flood risk surface water sources in the urban area of Norwich (which includes parts of Broadland District) the investigation highlighted three particular catchments, which are especially prone to surface water flooding (and which will flood in extreme rainfall events). One of these three catchments lies entirely within Broadland and another one extends, in part, into Broadland district. The ‘Drayton Critical Drainage Catchment’ extends from a high point along Beech Road Taverham (in the west) to a high point on Reepham Road, near Westwood Drive, Hellesdon (in the east), with a low point south of St Margaret’s Church in Drayton. The ‘Catton Grove and Sewell Critical Drainage Catchment’ extends from a northern extremity near Beeston Lane, in Broadland District, down through Old Catton to a low point within the centre of Norwich City. Critical drainage catchments will be identified in the Local Flood Risk Management Strategy. Those parts of the District falling within the Critical Drainage Catchments will not necessarily flood in extreme rainfall events, but any development within them has the potential to increase the risk of</u></b> |

|      |    |                      |   |
|------|----|----------------------|---|
|      |    |                      | <b><u>flooding in the most flood vulnerable areas, unless appropriate mitigation measures are implemented.</u></b>  |
| MM27 | 52 | After paragraph 9.19 | <b><u>9.19E The modelling evidence supporting the SWMP provides justification for requiring new development in these areas to incorporate higher standards of flood resilience than are necessary elsewhere.</u></b>  |
| MM28 | 52 | After paragraph 9.19 | <b><u>9.20F The policy also allows for the emergence of more extensive technical evidence on surface water flood risk to be taken into account over the plan period, so that in areas or sites outside of the Critical Drainage Catchments where available evidence indicates that there is likely to be elevated risk of surface water flooding (e.g. as a result of specific topography) the same policy requirements would apply.</u></b>  |
| MM29 | 21 | 4.10                 | Policy 4 of the JCS requires a proportion of affordable housing, including an appropriate tenure mix, on all sites for 5 or more dwellings (or 0.2 hectares or more). <b><u>However, following a change to national planning policy in March 2015, contributions cannot be sought from developments of 10-units or less, and which have a maximum combined gross floorspace of no more than 1000sqm (gross internal area), (except in specific designated rural areas of which there are currently none in Broadland District).</u></b> The proportion of affordable housing, and mix of tenure sought will be based on an up to date needs assessment for the plan area. Finally, at appropriate settlements, sites that would not normally be released for housing will be considered for schemes that specifically meet an identified local need for affordable homes. Such schemes must ensure that the properties are made available in perpetuity for this purpose. Policy 17 also makes provision for exception sites. |
| MM30 | 27 | After paragraph 4.40 | <b><u>4.40A The District Council will be undertaking a review of gypsy and traveller accommodation needs in 2015/16, updating the Gypsies and Travellers</u></b>  |

|      |    |                      |  |
|------|----|----------------------|--|
|      |    |                      | <b><u>Accommodation Assessment (GTAA) published in 2012. This will be undertaken individually or jointly with other authorities, and in accordance with the Duty to Co-operate.</u></b>  |
| MM31 | 27 | After paragraph 4.40 | <b><u>4.40B Any future needs for gypsy and traveller accommodation that are identified through the work will be addressed, in planning terms, through the review of the Broadland Site Allocations Plan or a focussed Local Plan dealing specifically with this matter.</u></b>  |
| MM32 | 27 | After paragraph 4.40 | <b><u>4.40C The current need for gypsy and traveller accommodation, identified through the Gypsy and Traveller Accommodation Assessment (GTAA) 2012, have been addressed through a number of planning permissions given in recent years and this approach will continue if further demonstrable needs arise in the meantime.</u></b>   |
| MM33 | 9  | Policy GC3           | <p>Policy GC3</p> <p>Outside settlement limits proposals for the conversion of buildings for employment uses and tourist accommodation will be permitted where:</p> <p>(i) The building is capable of conversion without substantial alteration.</p> <p>Proposals for residential use will be permitted where criteria (i) above is satisfied <del>in addition to the following:</del></p> <p><del>The building is within 1km of a settlement limit and the conversion will lead to an enhancement of the immediate setting; or</del></p> <p>(ii) <del>The conversion will maintain or enhance the clear architectural or historic merit of a building which is more than 1km from a settlement limit.</del></p> |
| MM34 | 9  | 2.15                 | The adaptation to new uses of buildings in the countryside can be undertaken to bring them back into productive use and so be of value in  |

|      |    |                      |   |
|------|----|----------------------|---|
|      |    |                      | <p>diversifying the rural economy. <b><u>In determining proposals for the re-use of redundant or disused buildings for residential purposes the Council will have regard to paragraph 55 of the NPPF as well as the requirements set out in this policy.</u></b> However, <del>†</del>The building must be suitable for conversion i.e. without major rebuilding and/or extensions. <b><u>In addition,</u></b> <del>†</del>the conversion should not be detrimental to the character of the building or the surrounding area for example through the introduction of ancillary structures or means of enclosure associated with the use into the countryside. Where conversion is allowed, a condition restricting permitted development rights may be imposed.</p> |
| MM35 | 9  | 2.17                 | <p><i>Delete paragraph 2.17:</i></p> <p><del>Residential use will be considered in the case of buildings of particular significance which are within reasonable walking distance of a nearby settlement, provided that the conversion will result in a positive impact upon the character of the area.</del></p>  |
| MM36 | 52 | After paragraph 9.19 | <i>Insert Glossary – see Appendix 1 attached</i>  |
| MM37 | 52 | After paragraph 9.19 | <i>Insert Monitoring Framework – see Appendix 2 attached</i>  |
| MM38 | 43 | 8.20                 | <p><i>Delete paragraph 8.20</i></p> <p><del>The Council has adopted Parking Standards which are set out in a Supplementary Planning Document. This also provides guidance on design, location servicing and drainage (amongst others) that should be adhered to.</del></p>  |
| MM39 | 43 | 8.18                 | <p>Paragraph 39 of the NPPF states that if setting local parking standards, local planning authorities should consider the accessibility of the development; the type, mix and use of development; the availability of and opportunities for public transport; local car ownership levels; and an overall need to reduce the use of high-emission vehicles. <b><u>A Written Ministerial Statement in March 2015 stated that the following text must be read alongside paragraph 39, “Local Planning authorities should only impose local</u></b></p>  |

|      |    |      |  |
|------|----|------|--|
|      |    |      | <p><b><u>parking standards for residential and non-residential development where there is clear and compelling justification that it is necessary to manage their local road network”</u></b>. <b><u>Consequently, the acceptability of the parking provision within developments will be considered as part of the overall assessment of the development proposal and the impacts that may arise from it.</u></b></p> |
| MM40 | 43 | 8.19 | <p>Policy 9 of the JCS seeks to restrain parking in areas with good standards of public transport accessibility, especially in and around the city centre. <b><u>This will be applied to accord with current national planning policy.</u></b></p>   |

## **Glossary**

Term

Description

### **Accessible**

Easy to travel to and enter by whatever means of movement is appropriate (including public transport, cycle, on foot or (for buildings) in a wheelchair or with limited mobility).

### **Adopted**

Formally approved. Assume responsibility for future maintenance.

### **Affordable Housing**

Social rented, affordable rented and intermediate housing, provided to eligible householders whose needs are not met by the market. Eligibility is determined with regard to local incomes and local house prices. Affordable housing should include provisions to remain at an affordable price for future eligible households or subsidy to be recycled for alternative affordable housing provision.

### **Allocated**

Land which has been identified in a Local Plan and the Policies Map (or Inset Map) for a specific form of development. Allocations are contained in the Site Allocations DPD and Growth Triangle Area Action Plan DPD.

### **Amenity**

Those qualities of life enjoyed by people which can be influenced by the surrounding environment in which they live or work. "Residential amenity" includes for example a reasonable degree of privacy, freedom from noise nuisance, air pollution etc. normally expected at home.

### **Annual Monitoring Report (AMR)**

Annual Monitoring Report: Part of the local development framework. Local authorities are required to produce an AMR each December with a base date of the previous March showing progress towards the implementation of the local development scheme and the extent to which policies in local plans are being achieved.

### **Appropriate Assessment & Habitat Regulations Assessment (HRA)**

Analysis of the impact of plans and strategies on areas of designated European environmental importance such as **Special Protection Areas (SPAs)**, **Special Areas of Conservation (SACs)** and **Ramsar** sites.

## **Area Action Plan**

Should be used to provide the planning framework for areas where significant change or conservation is needed. A key feature of AAP's will be the focus on implementation.

## **Biodiversity**

The variety of life on earth or any given part of it.

## **Brownfield land, Brownfield Site**

See Previously Developed Land

## **Built Environment**

Surroundings which are generally built up in character. The collection of buildings, spaces and links between them which form such an area.

## **Business (B1) Use**

Use for light industry, offices (where the office does not provide a service directly to the visiting public) and research and development (as defined in the Use Classes Order). Light industry is industry which is capable of being carried out in a residential area without causing nuisance, including as a result of traffic movement.

## **Commercial Centre**

The centre of larger market towns and villages where there is a concentration of shops and other services which cater for customers for a group of nearby settlements.

## **Community**

(As used in this context) All of those living and working in Broadland. This includes the general public, parish and town councils, businesses, community groups, voluntary organisations, developers, statutory agencies etc.

## **Community Facilities**

Services available to residents in the immediate area to provide for health and wellbeing, social, educational, spiritual, recreational, leisure and cultural needs of the community. This includes village halls, post offices, doctors and dentists' surgeries, recycling facilities, libraries and places of worship.

## **Community Infrastructure Levy (CIL)**

Community Infrastructure Levy (CIL) is a planning charge, introduced by the Planning Act 2008 as a tool for local authorities in England and Wales to help deliver

infrastructure to support the development of their area. Broadland District Council in combination with Norwich City Council and South Norfolk Council has implemented a CIL charging schedule with a list (known as the 123 List) of infrastructure projects on which the funds will be spent.

### **Conservation Area**

Area of special historic and/or architectural interest which is designated by the Local Planning Authority as being important to conserve and enhance. Special planning controls apply within these areas.

### **County Wildlife Site**

Wildlife habitat identified and designated as being of particular local interest of importance by Norfolk County Council and the Norfolk Wildlife Trust but which is not of sufficient national merit to be declared as a **Site of Special Scientific Interest (SSSI)**.

### **Development**

Defined in planning law as “the carrying out of building, engineering, mining or other operations in, on, over, or under land, or the making of a material change of use of any building or land” (see also Permitted Development).

### **Development Brief**

See Supplementary Planning Guidance

### **Development Plan**

The primary consideration for the Council in determining planning applications. Comprises of the Joint Core Strategy and other Development Plan Documents (including Minerals and Waste DPD's produced by Norfolk County Council).

### **Development Plan Document (DPD)**

Development Plan Documents: These are planning documents forming part of the local development framework and which have the status of being part of the development plan. In order to acquire this status they will be subject to independent scrutiny through a public examination. Certain documents within the local development framework must be DPDs, for example the Core Strategy, Development Management Plan, Site Specific Allocations of land and Area Action Plans where produced. There must also be an adopted Policies Map which will be amended as successive DPDs are adopted.

### **District Centre / District Shopping Centre**

A group of shops, containing at least one supermarket or superstore and other services, providing for a catchment extending beyond the immediate locality.

**Employment Area**

Industrial estate or other area which is used primarily for industrial, warehousing, office or other business uses falling within Classes B1, B2 and B8 of the Use Classes Order, and/or where such development is proposed.

**Employment Use**

Use primarily for industrial, warehousing, office or other business uses falling within Classes B1, B2 and B8 of the Use Classes Order. In the context of the local plan employment use specifically excludes retail, financial or professional services, food and drink, waste disposal or mineral extraction.

**Rural Exception Site**

A small site to be used specifically for affordable housing that would normally be used for housing, because they are subject to policies of restraint. Exception sites should only be used for affordable housing in perpetuity.

**Geodiversity**

The variety of different types of geology, landforms, soils and physical processes in a particular region.

**Green Infrastructure**

Green spaces and interconnecting green corridors in urban areas, the countryside in and around towns and rural settlements, and in the wider countryside. It includes natural green spaces colonised by plants and animals and dominated by natural processes and man-made managed green spaces such as areas used for outdoor sport and recreation including public and private open space, allotments, urban parks and designed historic landscapes as well as their many interconnections like footpaths, cycleways, green corridors and waterways.

**Greenfield Land**

Land which has not previously been built on, including land in use for agriculture or forestry and land in built up areas used for outdoor sport and recreation (including public and private open space and allotments). Does not include residential garden land.

**Infrastructure**

The network of services to which it is usual for most buildings or activities to be connected. It includes physical services serving the particular development (e.g. gas, electricity and water supply; telephones, sewerage) and also includes networks of roads, public transport routes, footpaths etc.

**Institution**

Premises (not including residential) used for health care, crèche, day nursery or day centre, galleries, libraries, museum, exhibitions or worship. See also Residential Institution.

### **Joint Core Strategy (JCS)**

The Joint Core Strategy (JCS) is a strategic local plan document produced between Broadland District Council, Norwich City Council and South Norfolk Council. This strategy sets out the key elements of the planning framework for the area. It comprises a spatial vision & strategic objectives for the area, a spatial strategy, core policies and a monitoring and implementation framework. It sets out the long term spatial vision for the area. It is a development plan document, with which all other development plans documents must conform.

### **Listed Building**

A building of special historical and/or architectural interest considered worthy of special protection and included and described in the statutory list of such buildings published by the Secretary of State (for Culture, Media and Sport). Alteration, demolition or extension of such a Listed Building requires special consent.

### **Listed Building Consent (LBC)**

Listed Building Consent is required from Local Planning Authorities where development involves the demolition of a listed building or a listed building is altered or extended in a manner which would affect its character as a building of special architectural or historic interest.

### **Local Development Order (LDO)**

An Order made by a local planning authority (under the Town and Country Planning Act 1990) that grants planning permission for a specific development proposal or classes of development.

### **Local Development Scheme (LDS)**

Local Development Scheme: Sets out the programme for preparing LDDs. This document is available to view on the Council's website ([www.broadland.gov.uk](http://www.broadland.gov.uk)).

### **Local Nature Reserve (LNR)**

Local Nature Reserve: Area of botanical or wildlife interest where access and use by local people is encouraged through designation by the local authority.

### **Local Plan**

The plan for the future development of the local area, drawn up by the local planning authority in consultation with the community. In law this is described as the development plan documents adopted under the Planning and Compulsory Purchase Act 2004. Current core strategies or other planning policies, which under

the regulations would be considered to be development plan documents, form part of the Local Plan. The term includes old policies which have been saved under the 2004 Act.

### **Local Planning Authority (LPA)**

The public authority whose duty is to carry out specific planning functions for a particular area.

### **Local Shopping Centre**

A group of shops or services forming a centre of purely local significance. See also **District Shopping Centre** and **Commercial Centre**.

### **Monitoring**

Regular collection and analysis of relevant information in order to assess the outcome and effectiveness of Local Plan policies and proposals and to identify whether they need to be reviewed or altered.

### **National Planning Policy Framework (NPPF)**

The National Planning Policy Framework is the Government's national planning policy document setting out the key principles for sustainable development.

### **National Planning Practice Guidance (NPPG)**

National Planning Practice Guidance is provided by the Government issuing guidance on the practical implementation of planning practices.

### **Natura 2000 Sites**

Natura 2000 (N2K) sites network is an EU-wide network of nature protection areas established under the 1992 Habitats Directive. The aim of the network is to assure the long-term survival of Europe's most valuable and threatened species and habitats. It is comprised of Special Areas of Conservation (SAC) designated by Member States under the Habitats Directive, and also incorporates Special Protection Areas (SPAs) which they designate under the 1979 Birds Directive.

### **Northern Distributor Road (NDR)**

A dual-carriageway road proposed to the north of Norwich, linking the A47 to the south-east of the city with the A1067 in the north-west.

### **Norwich Area Transport Strategy (NATS)**

Norwich Area Transportation Strategy: Statement of strategic transportation policy for Norwich and surrounding area, most recently adopted in 2004, which was prepared jointly by Norwich City and Norfolk County Councils in discussion with Broadland and South Norfolk Councils.

## **Norwich Fringe**

Area next to the city of Norwich comprising parts of Broadland and South Norfolk which are predominantly developed, including open spaces encompassed within the developed area. For Broadland this includes the continuously built up parts of Hellesdon, Drayton, Taverham, Old Catton, Sprowston and Thorpe St Andrew.

## **Norwich Policy Area (NPA)**

Part of the County which is centred on and strongly influenced by the presence of Norwich as a centre for employment, shopping and entertainment. In Broadland this includes 17 parishes, comprising the fringe and first ring of villages around the city of Norwich.

## **Outline Planning Permission (OPP)**

Outline Planning Permission: This gives an outline of the proposed development, such as the Permission size and height of a building, for example. Full details of the building must be provided and approved before building work can start. Detailed planning permission must be applied for within three years.

## **Permitted Development**

Certain categories of minor development as specified in the General Permitted Development Order, which can be carried out without having to first obtain specific planning permission. This may include specified building guidelines or change of use.

## **Planning Obligations**

Legal agreements between a planning authority and a developer, or undertakings offered unilaterally by a developer to ensure that specific works are carried out, payments made or other actions undertaken to mitigate the impacts of development proposals. Often called **Section 106 obligations**. The term legal agreements may embrace S106. Planning obligations are also collected through **Community Infrastructure Levy (CIL)**.

## **Policies Map**

The adopted policies map illustrates all the proposals contained in development plan documents and any saved policies. It will need to be revised as each new development plan document, which has a spatial content, is adopted. As development plan documents are submitted, they will include within them a submissions policies map showing the changes which would be required upon adoption of the document.

## **Preferred Options**

Produced as part of the preparation of Development Plan Documents. It sets out the Council's preferred options relating to the DPD and is made available to the public in order that representations can be made.

### **Previously Developed Land**

Any land which is or was occupied by a permanent structure (excluding agricultural and forestry buildings) and associated fixed surface infrastructure, including the curtilage of (land attached to) buildings. Includes defence buildings and land used for mineral extraction or waste disposal when there is no requirement for subsequent restoration. Often called Brownfield land.

### **Protected Species**

Any species which, because of its rarity or threatened status is protected by statutory legislation (The Wildlife and Countryside Act 1981 (as amended) and the Conservation (Natural Habitats etc.) Regulations 1994).

### **Public Rights of way**

Public footpaths and bridleways as defined in the Countryside Rights of Way Act 2000 and permissive routes where there is no legal right of way but access is permitted by the landowner.

### **Ramsar Site**

A European designation that protects areas of wetland.

### **Renewable Energy**

In its widest definition, energy generated from sources which are non-finite or can be replenished. Includes solar power, wind energy, power generated from waste, biomass etc.

### **Reserved Matters**

These relate to design, external appearance, siting, means of access and landscaping where outline planning permission has already been granted. Conditions attached to the permission may require other details to be approved (e.g. materials).

### **Residential Institution**

Residential establishment, (which may also provide medical care or other support) in which residents live communally with catering and housekeeping services provided centrally. Includes nursing homes, residential homes and also includes hostels where a significant element of care is involved but excludes sheltered and supported housing schemes where the dwelling units are self-contained. Also excludes hotels. See also Institution.

## **Route Hierarchy**

The County Council has categorised the roads in Norfolk according to their purpose and suitability for their purpose and has defined a network serving small parts of Norfolk (cells). The following categories are included in the plan: principal routes (routes of national importance) and main distributor routes (which provide essential cross county links).

## **Saved Plans**

Under transitional arrangements as the new style planning system is introduced, the current adopted local plan is automatically saved and retains development plan status for a period of 3 years or until superseded by development plan documents.

## **Scheduled Ancient Monument**

Ancient structure, usually unoccupied, above or below the ground, which is preserved by order of the Secretary of State. Works affecting an ancient monument must be approved by the Secretary of State.

## **Section 106 Obligation (S106)**

Section 106 Obligation. See Planning Obligations.

## **Settlement Hierarchy**

A way of arranging settlements into a hierarchy based upon a number of criteria, such as population and services offered.

## **Settlement Limit**

Settlement limits are identified on the Policies Map. These are areas where development appropriate to the settlement in question will usually be permitted subject to consideration of the policies of the NPPF, JCS and Development Management DPD.

## **Site of Special Scientific Interest (SSSI)**

Site of Special Scientific Interest: Site or area designated as being of national importance because of its wildlife plants or flower species and/or unusual or typical geological features. SSSIs are identified by English Nature and have protected status under the Wildlife and Countryside Act 1981.

## **Site Specific Allocations**

Allocations of sites for specific or mixed uses or development. Policies in the Site Allocations DPD will identify any specific requirements for individual sites.

## **Site Specific Policies**

Where land is allocated for specific uses (including mixed uses), this should be highlighted in one or more DPDs. The identification of sites should be founded on a robust and credible assessment of the suitability, availability and accessibility of land for particular uses or mix of uses.

### **Special Area of Conservation (SAC)**

Special Areas of Conservation are defined in the European Union's Habitats Directive (92/43/EEC), also known as the Directive on the Conservation of Natural Habitats and Wild Fauna and Flora. They are defined to protect the 220 habitats and approximately 1,000 species listed in Annex I and II of the Directive which are considered to be of European interest following criteria given in the Directive.

### **Special Protection Area (SPA)**

Special Protection Areas are strictly protected sites in accordance with Article 4 of the EC Birds Directive, which came into force in April 1979. They are classified for rare and vulnerable birds (listed on Appendix I of the Directive), and for regularly occurring migratory species.

### **Stakeholder**

(As used in this context) Any individual or organisation that has an interest in development matters relating to part or all of Broadland District.

### **Statement of Community Involvement (SCI)**

Statement of Community Involvement: Sets out the standards which authorities will achieve with regard to involving local communities in the preparation of local development documents and development control decisions.

### **Strategic Environment Assessment (SEA)**

Strategic Environmental Assessment: The term used to describe environmental assessment applied to policies, plans and programmes. In compliance with European SEA directive, a formal environmental assessment of land use planning proposals and plans is required. In practice SA and SEA are often combined.

### **Strategic Housing Land Availability Assessment (SHLAA)**

A Strategic Housing Land Availability Assessment is a key component of the evidence base to support the delivery of sufficient land for housing to meet a community's need for more homes. The assessment should be realistic in identifying land for housing that is both deliverable and developable.

### **Strategic Housing Market Assessment (SHMA)**

A Strategic Housing Market Assessment is an assessment to establish the housing need through a comprehensive understanding of what is required to address demographic change, taking into account an area's achievable economic potential.

When a local planning authority undertakes this exercise, it should work with neighbouring authorities where housing market areas cross administrative boundaries.

### **Supplementary Planning Document (SPD)**

A Document which expands on policies set out in a DPD or provides additional detail. For example: Parking Standards, Affordable Housing, Design Guides, Area development brief etc. SPDs are not statutory requirements and do not form part of the Development Plan.

### **Sustainability Appraisal (SA)**

Appraises policies to ensure they reflect sustainable development objectives (social, environmental and economic factors). Required by the Act to be undertaken for all local development documents. They ensure compliance with EU and UK legislation requiring Strategic Environmental Assessment.

### **Sustainable (Urban) Drainage System (SUDS)**

Efficient drainage system which seeks to minimise wastage of water, including the use of appropriate groundcover to enable maximum penetration of clean water run-off into the ground and, where appropriate, recycling grey water within the development. Designed to minimise the impact of development on the natural water environment.

### **Travel Assessment**

An assessment which may be required in connection with major development proposals which looks at how people are likely to access the development and its effects on travel patterns. It will also look at how any undesirable consequences can be mitigated. It should consider how access on foot, by cycle or public transport can be promoted and how the demand for car parking can be minimised.

### **Use Class Order (UCO)**

Use Classes Order: The Town and Country Planning (Use Classes) Order, 1987, a statutory order made under planning legislation, which groups land uses into different categories (called Use Classes). Changes of use within a use class and some changes between classes do not require planning permission. Some uses (known as sui generis) do not fall within any use class.

### **Water Framework Directive (WFD)**

The Water Framework Directive set through European legislation, requires member states (including the United Kingdom) to meet certain objectives including the improvement and the protection of the water environment. The water environment includes all rivers, canals, lakes, estuaries, wetlands and coastal waters as well as water under the ground.

## **Windfall Site**

Sites which have not been specifically identified as available in the Local Plan process. They normally comprise previously-developed sites that have unexpectedly become available.

**DM POLICIES MONITORING FRAMEWORK**

| <b>Policies</b>   | <b>JCS Objectives</b>      | <b>SA Objectives</b>   | <b>Indicator</b>   | <b>Target</b>         | <b>Comments</b>  |
|---|----------------------------|--|--|-----------------------|--|
| GC1 -<br>Presumption in favour of sustainable development | 1,2,3,4,5,6,7,8,9,10,11,12 | ENV1, ENV2, ENV3, ENV4, ENV5, ENV6, ENV7, ENV8, ENV9, SOC1, SOC2, SOC3, SOC4, SOC5, SOC6, SOC7, SOC8, EC1, EC2, EC3, EC4 | No specific indicator  | N/A                   | See indicators for JCS objectives.                         |
| GC2 – Location of new development                         | 1,2,3                      | ENV1, ENV9, SOC4, SOC7   | Number of permissions granted contrary to GC2  | None                  |  |
| GC3 – Conversion of buildings outside settlement limits   | 2,3,4                      | ENV5, ENV9, SOC 7, EC1, EC2, EC4   | No specific indicator  | N/A                   | See indicators for JCS objectives.                         |
| GC4 – Design  | 1,7,8,9,10,11              | ENV1, ENV5, ENV6, ENV9, SOC5   | No specific indicator  | N/A                   | See indicators for JCS objectives.                         |
| GC5 – Renewable energy                                    | 1                          | ENV6   | Renewable energy capacity installed by type per annum  | Year on year increase | This indicator is monitored as part of the JCS objectives. |
| EN1 - Biodiversity and Habitats                           | 9                          | ENV2, ENV4, ENV5   | Number of planning applications granted contrary to the advice of Natural England on the grounds of recreational impact on N2K sites | None                  |  |
| EN2 – Landscape   | 8,9                        | ENV2, ENV4, ENV5, ENV9   | No specific indicator  | N/A                   | See indicators for JCS objectives.                         |
| EN3 – Green   | 8,9                        | ENV2, ENV4,  | No specific indicator  | N/A                   | See indicators for JCS                                     |

|  |       |  |   |   |  |
|--|-------|--|---|---|--|
| infrastructure                                       |       | ENV5, ENV9                                     |   |   | objectives – see also indicator for recreational open space (RL1). |
| EN4 – Pollution                                      | 1,7,9 | ENV1, ENV2, ENV3, ENV4, ENV5, ENV6, ENV7, ENV9 | Number of permissions granted contrary to the advice of the Environment Agency (on pollution grounds)                     | None                                    |  |
| H1 – Dwellings connected with rural enterprises      | 2,3   | ENV1, SOC6, SOC8, EC1, EC2, EC3, EC4           | No specific indicator   | N/A                                     | See indicators for JCS objectives.                                 |
| H2 – Removal of occupancy conditions                 | 2     | ENV9, SOC4, SOC7                               | No specific indicator   | N/A                                     | See indicators for JCS objectives.                                 |
| H3 – Replacement dwellings outside settlement limits | 2,9   | ENV9, SOC4, SOC7                               | Number of units granted planning permission for replacement dwellings outside of settlement limits                        | No target                               | Monitoring to include a commentary on confidence with the policy.  |
| H4 – Change of use of a dwelling                     | 2     | ENV1, SOC6, SOC8, EC1, EC2, EC3, EC4           | Number of dwellings lost through change of use.   | No target                               | Monitoring to include a commentary on confidence with the policy.  |
| H5 – Residential institutions                        | 2     | SOC1, SOC2                                     | No specific indicator   | N/A                                     | See indicators for JCS objectives.                                 |
| H6 – Sites for Gypsies and Travellers                | 2     | ENV1, SOC1, SOC3, SOC8                         | No. of net new pitches permitted  | Maintenance of at least a 5 year supply | This indicator is monitored as part of the JCS objectives.         |
| E1 –Existing strategic employment sites              | 3     | EC1, EC2, EC3, EC4                             | Amount of floor space (m <sup>2</sup> ) granted planning permission for non-employment uses on strategic employment sites | None                                    |  |
| E2 - Retention of employment sites                   | 3     | EC1, EC2, EC3, EC4                             | No. of permissions granted contrary to Policy E2  | None                                    |  |

|   |        |                                 |   |  |                                    |
|---|--------|---------------------------------|---|--|------------------------------------|
| E3 – Tourist accommodation                          | 3,8    | EC1, EC2, EC3, EC4              | No. of permissions granted contrary to Policy E3                          | None   |                                    |
