

Development Grant

Meet Paul Suggitt, Norfolk Football

“

I found myself in a situation where my printing supplier had pulled the printing service right at the beginning of the busy football season. So, I had to set up the fabric printing process inhouse at short notice and invest in this specialist (and expensive!) printer which creates the transfers for applying to fabric. Each order is bespoke of course and I need to be responsive and deliver a high quality result every time.

Jo from the council was so helpful. The Development Grant was organised in a matter of days, everything was accepted almost immediately, with funds available within a week, which enabled to us to get the equipment and carry on.

We probably wouldn't have been able to continue without it. As it is, the printer is a big stepping stone for the future of my business.

”

Paul Suggitt is the founder and owner of Norfolk Football Ltd manufacturing bespoke football kit, for teams mainly across Norfolk.
