In accordance with Regulation 14 of the Town and Country Planning (Local Planning) (England) Regulations 2012, notice is given that South Norfolk Council adopted the South Norfolk Landscape Susceptibility in relation to Energy Generation, Storage and Transmission Supplementary Planning Document (SPD) on 18 February 2026.

Any person with sufficient interest in the decision to adopt the SPD may apply to the High Court for permission to apply for judicial review of that decision. Any such application must be made promptly and, in any event, not later than 3 months after the date on which the SPD was adopted.

What is the South Norfolk Landscape Susceptibility in relation to Energy Generation, Storage and Transmission SPD?

This SPD assesses the susceptibility of the different landscapes within the South Norfolk district to change from a range of energy-related development scenarios including solar photovoltaic panels, anaerobic digestion plants, battery storage facilities, overhead powerlines, underground cable routes and substations. The SPD is supplementary to national and local policies including policies in the Greater Norwich Local Plan (GNLP) (Adopted 2024) and the South Norfolk Development Management Policies Document (Adopted 2015).

Where can I see a copy of the South Norfolk Landscape Susceptibility in relation to Energy Generation, Storage and Transmission SPD?
