

South Norfolk Village Clusters Housing Allocations Plan

Heritage Impact Assessments

Regulation 19 Pre-submission Addendum

Introduction

South Norfolk Council is publishing its Regulation 19 Pre-submission Addendum to the Village Clusters Housing Allocations Plan (VCHAP) which includes alternative and amended sites proposed for allocation when the VCHAP is submitted to the Planning Inspectorate for examination.

The alternative and amended sites were previously included in the Regulation 18 Alternative Sites and Focused Changes Consultation between December 2023 and February 2024 which sought to replace the losses resulting from the removal of VC ROC2 and the reduction at VC TAS1 as well as potentially make a modest increase to the numbers in the VCHAP.

Understanding the potential impact of new development on an identified heritage asset is an important part of the site assessment process. Heritage Impact Assessments (HIAs) have been prepared for new and amended sites in this Addendum where necessary. These are included in **Part A** of this document.

Some HIAs for sites not included in this consultation have been subject to review since they were published as part of the Regulation 19 consultation in response to comments received. However, these revisions are not considered to be significant. These HIAs are included in **Part B** of this document.

The remaining HIAs for sites within the VCHAP have also been included in this document in **Part C**. These HIAs have not been subject to any changes since their publication at Regulation 19 in 2023.

The HIAs for any sites that had been previously considered for inclusion within the VCHAP but have not been included in this Addendum or the proposed final version of the VCHAP have been included in **Part D**.

Part E of this document provides a summary of the mitigation measures identified through the HIAs for each site, a summary of the comments received from Historic England, as well as the Council's response. This section identified where proposed mitigation measures have been omitted from site-specific policies, alongside the Council's reasoned justification for these decisions.

These HIAs have been prepared by the Council to support the production of the VCHAP. They are tools to identify both designated and non-designated heritage assets and provide an initial assessment of the impact that development may have on the significance of the asset and/or its setting (heritage assets can include, for example, listed buildings, Conservation Areas and archaeological finds). The HIAs also include identification of mitigation measures which have been included in the final site-specific allocation policy where appropriate. HIAs have not been prepared for all sites due to some not having any potential impacts on heritage assets.

Further detailed HIAs may be required at the subsequent planning application stage once more information about a proposed scheme is known.

The HIAs in Part A have been prepared following the same process as the HIAs prepared for the Regulation 19 Consultation and the Regulation 18 Alternative Sites and Focused Changes Consultation. Further information can be found in the previous HIA documents:

Regulation 19 Consultation: [Heritage Impact Assessments \(oc2.uk\)](https://www.oc2.uk/HeritageImpactAssessments).

Regulation 18 Alternative Sites and Focused Changes Consultation: [Heritage Impact Assessments \(oc2.uk\)](https://www.oc2.uk/HeritageImpactAssessments)

Contents

Part A – Sites included in Regulation 19 Pre-submission Addendum	5
Barford, Marlingford, Colton and Wrampingham	5
Bawburgh	11
Ditchingham, Broome, Hedenham and Thwaite	17
Earsham	27
Gillingham, Geldeston and Stockton	30
Mulbarton, Bracon Ash, Swardeston and East Carleton.....	34
Rockland St Mary, Hellington and Holverston.....	43

Rockland St Mary, Hellington and Holverston.....	271
Seething and Mundham.....	278
Woodton and Bedingham.....	288
Wreningham, Ashwellthorpe and Fundenhall.....	294
Part E – Summary of mitigation measures, comments by Historic England and responses from the Council for sites in the VCHAP	300

Part A – Sites included in Regulation 19 Pre-submission Addendum

Barford, Marlingford, Colton and Wramplingham

Site Details

Site Reference Number:

VC BAR2

Site Address:

Land north of Chapel Street, Barford

Site Size:

4.82ha (includes residential development and new community centre and playing pitch provision)

Proposed Housing Numbers on site:

40

Note on Heritage Impact Assessment: Following a review of the representations submitted in response to the Regulation-18 Focused Consultation in December 2023 the Council has reviewed the proposed site allocation and considers that an alternate layout would provide a better design solution for the development of the site. The Heritage Impact Assessment has therefore been updated to reflect this alteration, as well as to reflect the representation submitted by Historic England in response to the Regulation-18 Focused Consultation. The map produced to support the initial HIA is included in this assessment as Map 1 whilst Map 2 updates this information to reflect the updated proposed allocation and the findings of this HIA. **Any amendments to the textual information are highlighted below.**

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Whilst there are no designated heritage assets within the site boundary, there is a grade II listed building, School Farmhouse, to the south east of the site. The development has the potential to impact the significance of this heritage asset via a change in its setting. We welcome the preparation of the Heritage Impact Assessment for the site. However, the HIA doesn't really explore the relationship between the farmhouse and the former farmland. The HIA says that there will be no harm to the significance of the heritage asset. However, we consider this underplays the relationship between the farmhouse, the barns to the rear and the former agricultural land beyond. We consider that some open space/landscaping to help protect the setting of the farmhouse would be helpful. We suggest that the HIA is revisited to address this. We note that part of the site is to be used as a recreation ground. Careful rearrangement of the layout of land uses could be used to both deliver housing, open space and protection for the setting of the heritage asset. We look forward to seeing a revised HIA and hope that this will address our concerns.

The policy wording should include provision of open space/landscaping in the south eastern corner of the site to provide an appropriate setting for the farmhouse and maintain some connection to the former agricultural land. There should also be a requirement for archaeological desk-based assessment to inform any planning application and investigation prior to commencement of development.

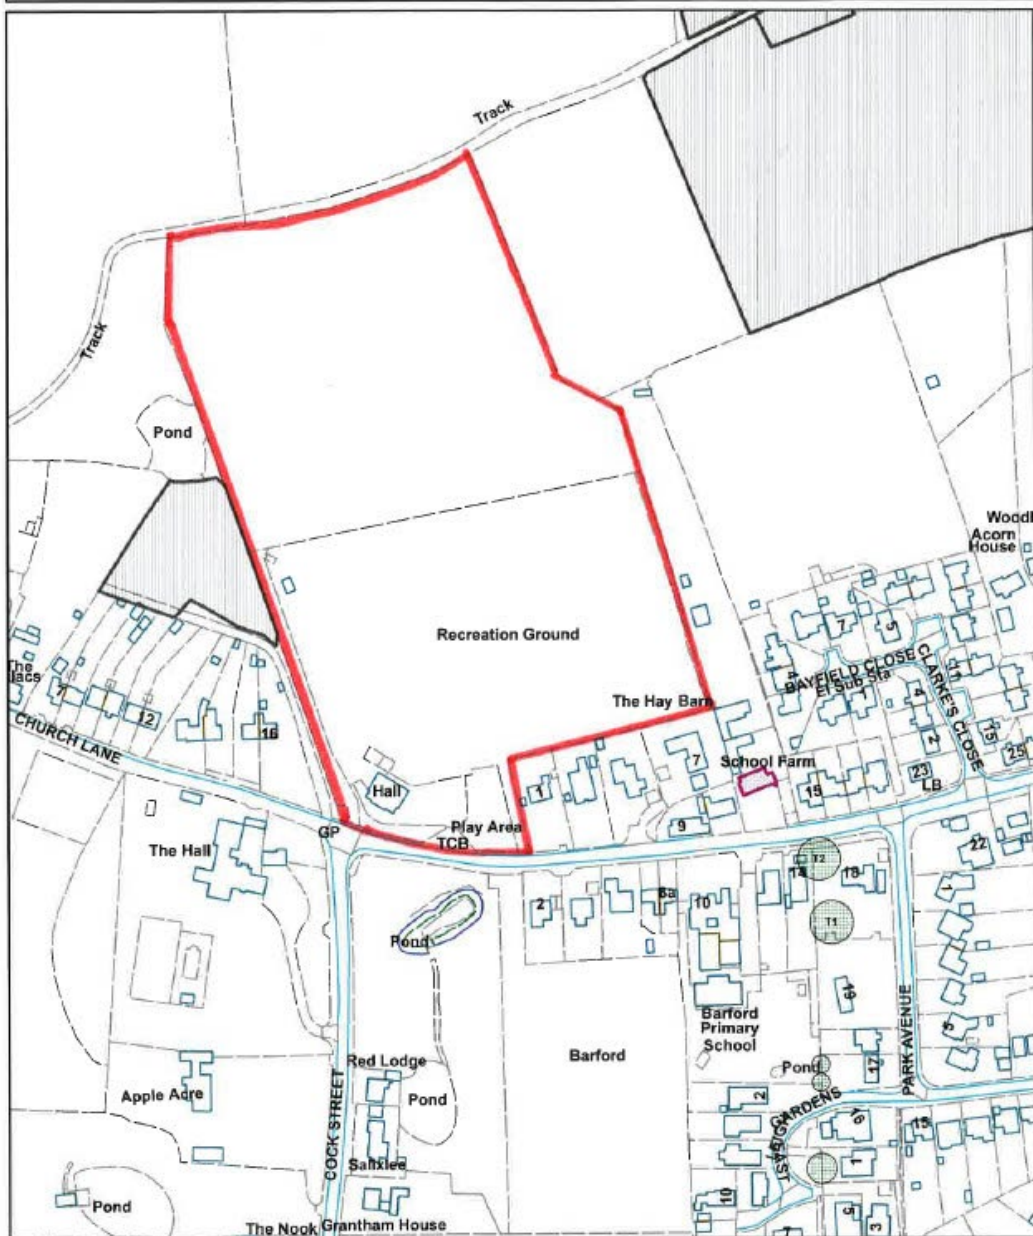

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage: N/A

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

No objection on heritage grounds. On Townscape grounds would be quite a significant break out. Housing kept to south half of plot.

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	CONTRIBUTING ELEMENTS TO THE SIGNIFICANCE OF THE HERITAGE ASSET(S)	IMPACT OF THE PROPOSED DEVELOPMENT ON THE SIGNIFICANCE OF THE HERITAGE ASSET(S)	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT OF THE SIGNIFICANCE OF THE HERITAGE ASSET(S) WITH MITIGATION OR ENHANCEMENT IN PLACE
<p>School Farmhouse, Chapel Street</p> <p>Grade II Listed</p> <p>List Entry Number: 1050736 HER Reference: 37016</p>	<p>MEDIUM</p> <p>Its significance is derived from its architecture and age.</p> <p>A brick farmhouse of 1694. the building was much altered in the 19th century. It takes its name from the nearby school.</p> <p>The house was originally isolated when first built but now resides in the centre of the village.</p> <p>House is enclosed by development to the east and west. The buildings to the north are barns which contribute to relationship with the former farmland in the surrounding area, which includes the proposed site.</p>	<p>MINOR</p> <p>Located to the south east of the site. The property has a road frontage with substantial front garden and is visible from the road. The building and its setting is part of the streetscene and contributes to the local character.</p> <p>The site forms part of the former farmland and is therefore part of the setting of the farmhouse and barns along with the wider countryside. Development is being proposed on the northern part of the site beyond the existing hedgerow, retaining the existing open space adjacent to the asset. Therefore it is considered that the impact</p>	<p>None identified.</p>	<p>NEUTRAL</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	CONTRIBUTING ELEMENTS TO THE SIGNIFICANCE OF THE HERITAGE ASSET(S)	IMPACT OF THE PROPOSED DEVELOPMENT ON THE SIGNIFICANCE OF THE HERITAGE ASSET(S)	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT OF THE SIGNIFICANCE OF THE HERITAGE ASSET(S) WITH MITIGATION OR ENHANCEMENT IN PLACE
	The heritage asset is bordered by, and visible from, Chapel Road to the south.	of development will be neutral.		
Multi-period flint and pottery finds HER Reference: 32928	LOW Prehistoric material consisting of two flint blades, one flake and two pot boilers. Fragments of post medieval pottery were also found. All found in fieldwalking in 1997.	UNKNOWN Finds were discovered to the south east of the site, outside of the boundary. No other finds have been recorded in the area. However, the potential impact is listed as unknown as it is not clear if further finds will be discovered on site.	No mitigation identified. Require archaeological investigation on site prior to development commencing.	UNKNOWN
Post medieval coin HER Reference: 9271	Charles II sixpence (1660-1685) found in nearby area, however date of find is unknown. No further detail available.	Finds were discovered to the south east of the site, outside of the boundary. No other finds have been recorded in the area. However, the potential impact is listed as unknown as it is not clear if further finds will be discovered on site.	Require archaeological investigation on site prior to development commencing.	UNKNOWN

Bawburgh

Site Details

Site Reference Number:

VC BAW1 REV

Site Address:

Land to the east of Stocks Hill, Bawburgh

Site Size:

1.97Ha

Proposed Housing Numbers on site:

35 dwellings

(NOTE: This site proposes the same number of dwellings as VC BAW1 on a larger site area)

Regulation 18 Consultation Comments

(NOTE: These Regulation-18 and Regulation-19 comments relate to VC BAW1 and relate to the same number of dwellings on a smaller site area. They remain of relevance to this assessment and have therefore been included for context in this HIA).

Historic England comments at Regulation 18 consultation stage:

Regulation 18 Consultation: Whilst there are no designated heritage assets within this site, the site lies immediately to the south of the boundary of the Bawburgh Conservation Area. Any development of this site therefore has the potential to affect the Conservation area and its setting including views into and out of the Conservation area.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the Conservation Area and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Regulation 18 Alternative Sites and Focused Changes Consultation: Whilst there are no designated heritage assets within this site, the site lies immediately to the south of the boundary of the Bawburgh Conservation Area. Any development of this site therefore has the potential to affect the Conservation area and its setting including views into and out of the Conservation area. We note that the revised allocation boundary has been extended to enable a lower density of development. We broadly welcome this approach. We reiterate our previous comments in relation to archaeological investigation for this site. Bullet point 3 states that the HER should be consulted to determine the need for any archaeological surveys prior to development. However, this is different to the recommendation in the HIA which states that 'Require investigation on the proposed site prior to development commencing to identify and further historic activity'. In our view, some assessment is needed to inform any planning application. We therefore advise that bullet point 3 should be amended to read, 'Planning applications should be supported by archaeological assessment including the results of field evaluation where appropriate.'

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

Some potential to affect wider setting of Bawburgh CA – however sensitively design development would not result in any significant impact. In terms of rural open setting of the village that already been affected by the development further south along Stocks Hill.

Regulation 19 Publication Comments

Historic England comments at Regulation 19 consultation stage:

Whilst there are no designated heritage assets within this site, the site lies immediately to the south of the boundary of the Bawburgh Conservation Area. Any development of this site therefore has the potential to affect the Conservation area and its setting including views into and out of the Conservation area.

We welcome the preparation of an HIA for the site. The HIA makes several recommendations. These have been included in bullet point 2 and 4 which is welcomed.

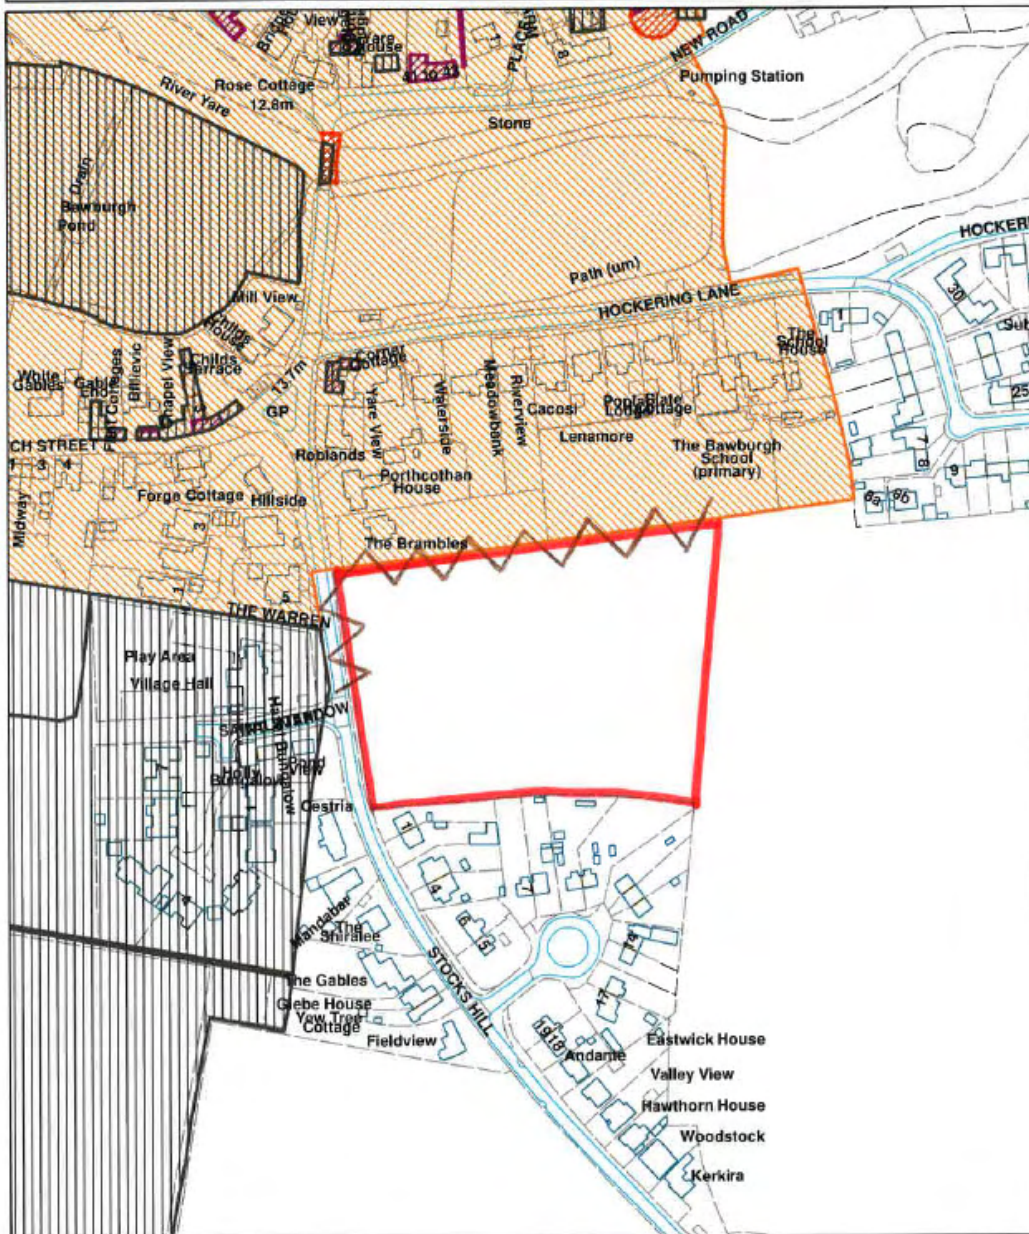

Bullet point 3 states that the HER should be consulted to determine the need for any archaeological surveys prior to development. However, this is different to the recommendation in the HIA which states that 'Require investigation on the proposed site prior to development commencing to identify and further historic activity'.

In our view, some assessment is needed to inform any planning application.

We therefore advise that bullet point 3 should be amended to read, 'Planning applications should be supported by archaeological assessment including the results of field evaluation where appropriate.'

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Bawburgh Conservation Area</p> <p>It is situated in the valley of the River Yare and has two ranges of historic buildings grouped either side of an 18th century bridge over the river, with attractive river meadows either side.</p> <p>Key Characteristics;</p> <ul style="list-style-type: none"> • River meadows • Valley with key views from higher land • Two key ranges of historic buildings linked by river bridge • Village greens • Linear patterns of development clustered either side of river meadows within river valley • Open landscape punctuated by groups of mature trees 	<p>MEDIUM</p> <p>Bawburgh Conservation Area is one of the most attractive and relatively unspoilt small villages in South Norfolk.</p> <p>The landscape approaching the village from the north or south, cradles the village which clusters on both sides of the river bridge. Trees and hedges frame the roads of these approaches and continuing downhill the view closes so that the enclosure of the settlement predominates.</p> <p>The impact of any new development should be assessed from the wider viewpoint to the north and south of the village.</p>	<p>MINOR</p> <p>The proposed site is wholly outside but adjacent to the CA, with the CA forming the northern boundary of the site. It is to the south of the bridge and historic buildings, located fronting Stocks Hill where modern housing has been located. The village hall and a new development are opposite, and the proposed site would relate most closely to these.</p> <p>Most of this area is not visible in key views from the road due to the layout and mature vegetation along Stocks Hill. Travelling north towards the CA the proposed site is visible to the east as its frontage is initially open but changes with vegetation on either side of the road drawing you down towards the CA.</p>	<p>The dwellings should be considerate of the village vernacular, with reference to the CA Appraisal and in terms of local materials.</p> <p>Retain and reinforce the green hedgerow along the northern part of the frontage travelling towards the CA, as well as the hedgerow along the northern boundary.</p>	<p>MINOR IMPACT</p> <p>If the mitigation measures are used with careful consideration, a bespoke development can be successfully integrated with the village, respect its relationship to the conservation area and reflect the transition from old to new, then it will result in very low harm.</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Roman cemetery and prehistoric finds</p> <p>HER Reference: 9288 and 9293</p> <p>Cropmarks of possible prehistoric or Roman enclosures & ditches</p> <p>HER Reference: 54441 and 54442</p>	<p>LESSER</p> <p>Bawburgh is rich in local history. The archaeological excavation of the vicinity of the Roman road east from Bawburgh in the 1970s revealed evidence of Roman cremation burials. The dig showed that the site had been in use from the late Neolithic and early Bronze Age to the Roman period. A strong indication of historic activity in the wider area. The village is also associated with the 10th Century Saint Walstan and pilgrimages.</p>	<p>NEUTRAL</p> <p>The finds and features were some distance to the north of the site. No impact of the proposed development on this area.</p> <p>As no finds recorded on the proposed site the impact there is UNKNOWN.</p>	<p>No mitigation required for existing find sites.</p> <p>Require investigation on the proposed site prior to development commencing to identify and further historic activity.</p>	<p>NEUTRAL/NO CHANGE: no harm</p>

2.7ha

Proposed Housing Numbers on site:

Approximately 40 dwellings.

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 focused consultation stage: N/A

Regulation 18: Bullet point 3 states that the HER should be consulted to determine the need for any archaeological surveys prior to development. In our view, some assessment is needed to inform any planning application. We therefore advise that bullet point 3 should be amended to read, 'Planning applications should be supported by archaeological assessment including the results of field evaluation where appropriate.'

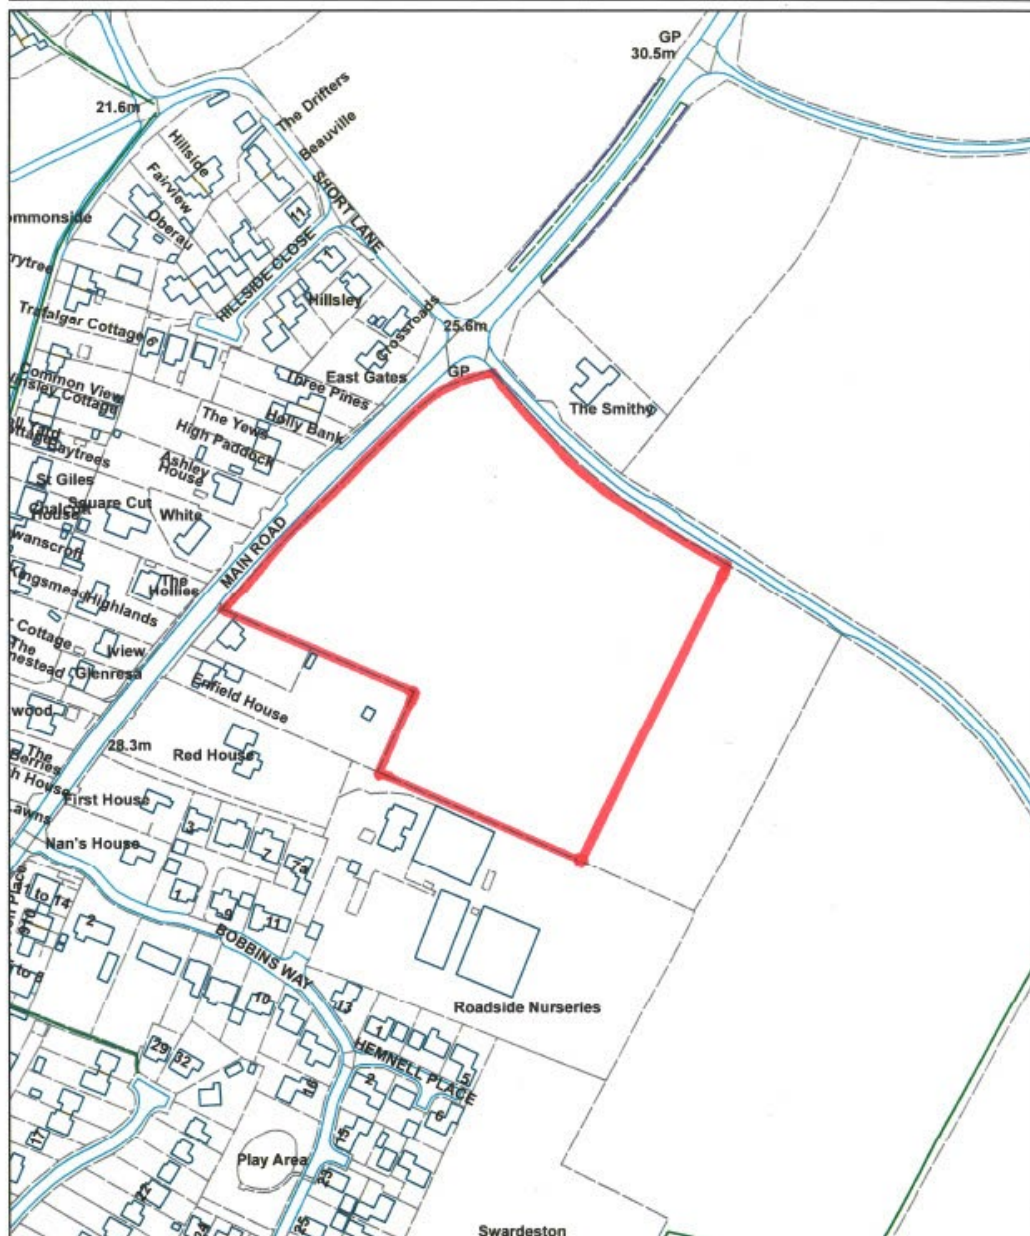

Regulation 18 Alternative Sites and Focused Changes: We reiterate our previous comments in relation to archaeological investigation for this site. Bullet point 3 states that the HER should be consulted to determine the need for any archaeological surveys prior to development. In our view, some assessment is needed to inform any planning application. We therefore advise that bullet point 3 should be amended to read, 'Planning applications should be supported by archaeological assessment including the results of field evaluation where appropriate.'

Rockland St Mary, Hellington and Holverston

Site Details

Site Reference Number:

VC ROC1

Site Address:

Land south of New Inn Hill, Rockland St Mary

Site Size:

1.47Ha

Proposed Housing Numbers on site:

Approximately 25 dwellings

Note on Heritage Impact Assessment: Following the close of the Regulation-19 publication period (January-March 2023) the Council reviewed all representations submitted in response to the Plan. The Council subsequently considered it appropriate to review the Heritage Impact Assessment for the site in response to concerns raised by interested parties, including by Historic England as statutory consultee. The map produced to support the original HIA is included in this assessment as Map 1 whilst Map 2 has been updated to reflect the findings of this HIA. **Any amendments to the textual information are highlighted below.**

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Whilst there are no designated heritage assets within the site boundary, three grade II listed buildings (Old Hall and two barns) lie around the western end of the site. We therefore have concerns about built development of the western end of the site.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed buildings and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

Comments for SN2007: Townscape – logical location for next development. Rockland a very linear settlement. That being said, you shouldn't necessarily just keep expanding settlement in linear fashion along lanes as it is not efficient. 15 houses planned here. Maybe too many? I would say 10-15 with scope to expand to 15 if it can be shown to work without too high a density? Amber given 15min stated in submission. No Heritage Impact – Green.

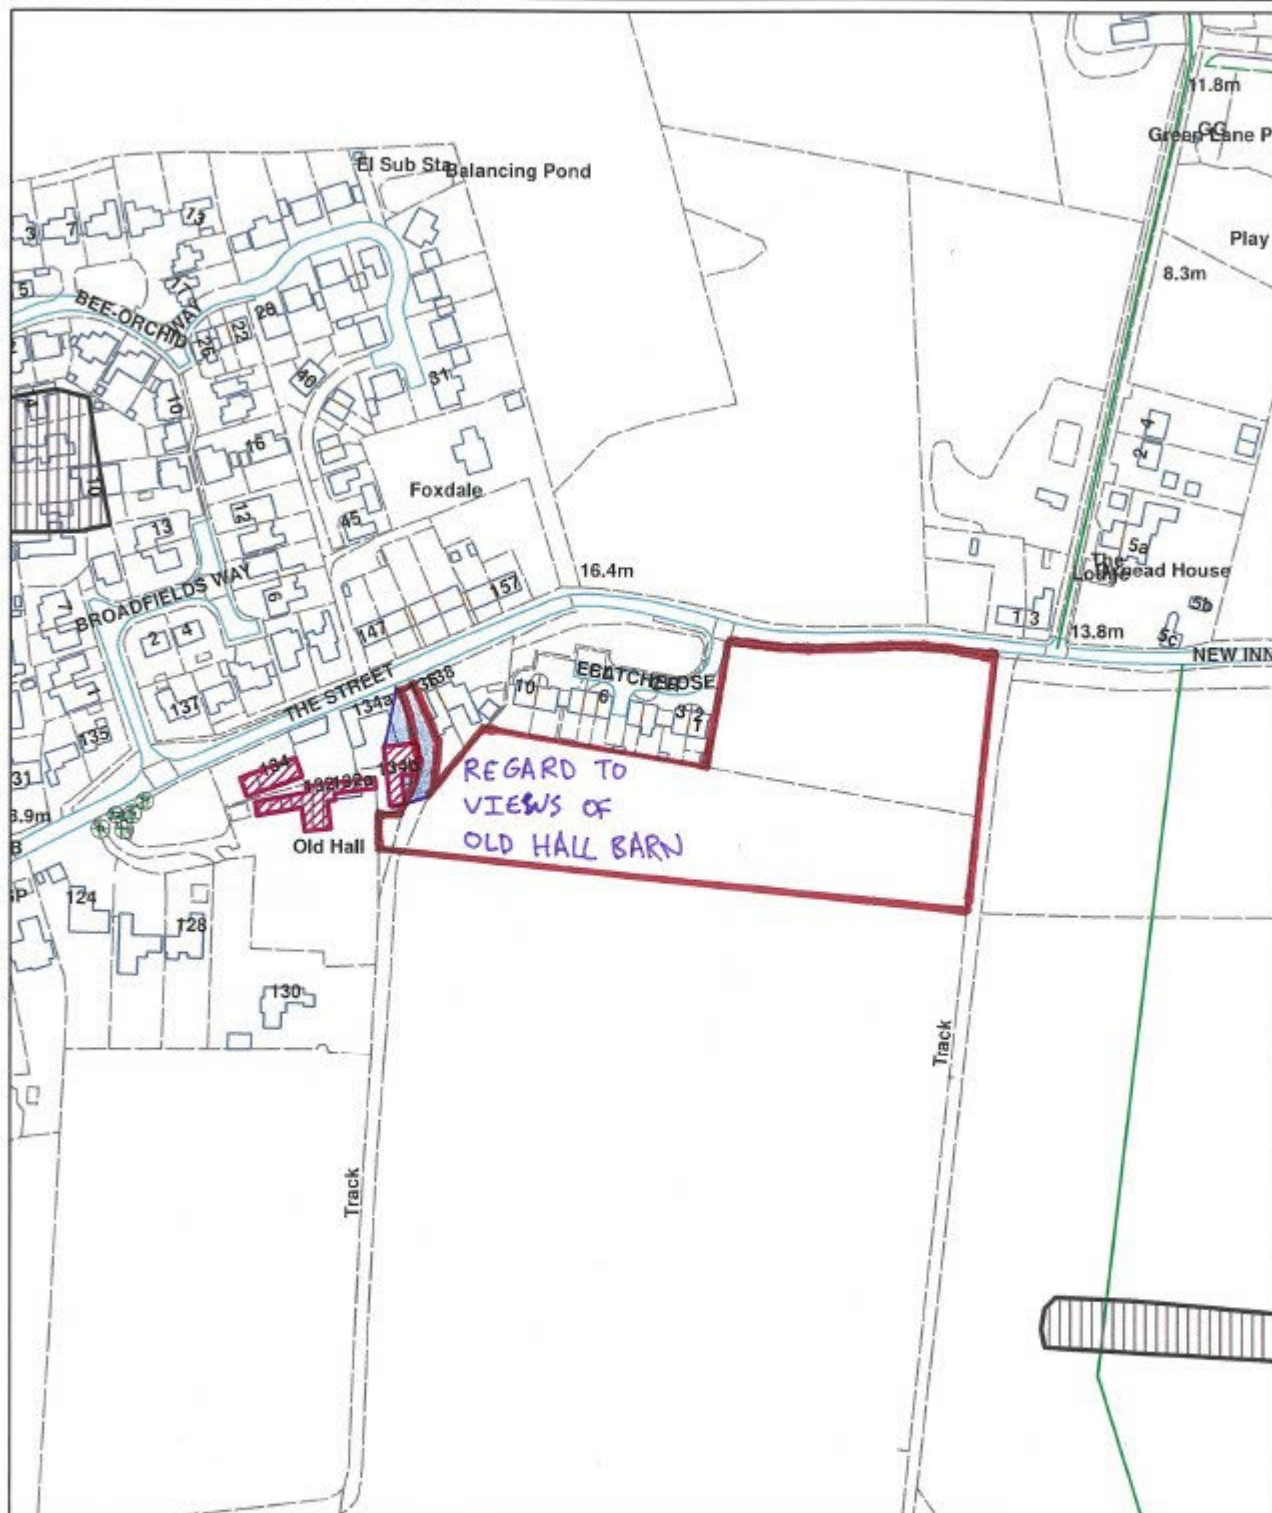

Regulation 19 Consultation Comments

Historic England comments at Regulation 19 consultation stage:

Whilst there are no designated heritage assets within the site boundary, three grade II listed buildings (Old Hall and two barns) lie around the western end of the site. We therefore have concerns about built development on the western end of the site. We welcome the preparation of the HIA. However, we disagree that the impacts Old Hall Barn and Farmhouse will be negligible. The collection of farm buildings has a relationship to the wider landscape. There needs to be a degree of set back and open space in the far western portion of the site to reduce the impact on these listed buildings. This should be added as a new policy criterion. The HIA also suggests that the footpath link near the barn would need to consider the relationship to the barn and use appropriate materials. This should be included in the policy at criterion 4 to read 'Careful consideration should be given to the relationship of the footpath to the listed barn and appropriate materials used'. Bullet point 5 states that the HER should be consulted to determine the need for any archaeological surveys prior to development. In our view, some assessment is needed to inform any planning application. We therefore advise that bullet point 5 should be amended to read, 'Planning applications should be supported by archaeological assessment including the results of field evaluation where appropriate.'

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Old Hall 132 and 132a The Street</p> <p>Grade II Farmhouse. C17, enlarged early C18. Brick, partly rendered and partly colour- washed. Pantiled roofs. North side comprises 2 gables of 2 storeys and attic. The west gable has a C17 door. Fenestration of casements dating from C18 to C20.</p> <p>List Entry Number: 1050427 HER Reference: 13166</p>	<p>MEDIUM</p> <p>Its significance is derived from its traditional architecture and age and also with its historic grouping with the adjacent barns. The house is a high-status farmhouse evidenced by its size and architectural treatment (for example, dutch gables).</p> <p>The house has an associated domestic garden to the south and east, enclosed on the east side by a brick boundary wall. The entrance to Old Hall is from The Street to the north; however, the principal elevation of the building is orientated to the west, facing away from the former barns as noted below.</p>	<p>MODERATE</p> <p>Old Hall is located to the west of the proposed site. It is orientated with its principal elevation and entrance facing west and situated within a domestic garden with boundary wall to the east. A field track access is to the rear of this wall which leads to The Street and separates the house from the development site. A detached dwelling shares a vehicular access with Old Hall and has been constructed to the south of the heritage asset.</p> <p>The relationship between the building and the wider agricultural setting will become separated to a degree and this will have some impact on the significance of the wider setting of the listed building.</p>	<p>Retain an area of open space in the western section of the site to reduce the impact of the development on the wider setting of the group of former agricultural buildings. This will enable long views through the proposed development site towards (and from) the listed buildings thereby preserving some of the former relationship to the land.</p> <p>Development should not extend further south than the area proposed for allocation in order to avoid enclosure of the group of listed buildings and a severance from the wider parcel of agricultural land.</p>	<p>MINOR</p> <p>With an appropriate area retained as informal, undeveloped space to the west of the site separating the new development from the existing curtilages of the heritage assets this will preserve some of the linkages to the wider agricultural land.</p> <p>Longer views from Rockland St Mary footpath FP3 towards Old Hall and the associated group of buildings will be achieved through the open space on site.</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
	<p>The farmstead barns are physically close to the hall although historically there was a clear separation of function (see below).</p> <p>The wider rural agricultural setting to the south and south-east provides the historical context and associations of the house in terms of setting however it is clear that the building had its domestic garden as an immediate setting.</p>	<p>However, the proposed development is limited in scale and site area and an extensive parcel of agricultural land will be preserved to the south and south-east of the group of heritage assets, serving as a reminder of the former relationship between the farmhouse and its farmed land.</p>		

<p>Old Hall Barn 134 The Street 10 metres north-west of Old Hall, The Street</p> <p>Grade II barn circa 1800. Converted to dwelling Brick with pantiled roof. Double timber sliding doors in east gable wall. North carriage entrance is boarded and glazed. One diamond ventilation panel left and right. South doorway blocked.</p> <p>List Entry Number: 1050429</p>	<p>MEDIUM</p> <p>The significance of Old Hall Barn is derived from its architecture, age and grouping with the adjacent buildings. The barn is positioned in the southeast corner of the plot. A brick wall runs along the northern boundary and provides a clear sense of enclosure of the barn and its curtilage when viewed from the north.</p> <p>The two barns (134 The Street and 134b The Street) share a vehicular entrance from The Street and face inwards towards each other. Together the two C19th brick barns contribute towards the cluster of former agricultural buildings.</p> <p>The wider agricultural setting to the south and south-east provides the historical context of the buildings, reflecting the previous use of the</p>	<p>MINOR</p> <p>Old Hall Barn (no. 134 The Street) is located to the west of the proposed site, closest to The Street but set back from the road frontage. The end of Old Hall Barn is orientated towards the opposite barn (no. 134b), the position of which contributes to the separation of Old Hall Barn from the proposed site.</p> <p>When considered in isolation the proposed development will have a negligible impact on this individual barn however there will be some impact on the overall grouping of buildings when viewed from the south.</p>	<p>Due to its position within the cluster of identified heritage assets no specific mitigation is required for 134 The Street; however, an area of informal/undeveloped open space in the western section of the site should be retained to reduce the impact of the proposed development on the wider setting of the group of former agricultural buildings.</p>	<p>MINOR</p> <p>With an appropriate area retained as informal, undeveloped space to the west of the site separating the new development from the existing curtilages of the heritage assets this will preserve some of the linkages to the wider agricultural land.</p> <p>Longer views from Rockland St Mary footpath FP3 towards Old Hall and the associated group of buildings will be achieved through the open space on site.</p>

Spooner Row and Sutton

Site Details

Site Reference Number:

VC SPO1 REV

Site Address:

Land west of Bunwell Road, Spooner Row

Site Size:

2.31Ha

Proposed Housing Numbers on site:

Approximately 35 dwellings

Note – Historic England Regulations 18 and 19 comments relate to VC SPO1 site area but are of relevance to this HIA and have therefore been included for context.

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Regulation 18 Consultation: Whilst there are no designated heritage assets within the site, the site lies immediately to the north-east of the grade II listed property, The Orchards. Therefore, any development of this site has the potential to impact upon the significance of this heritage asset. We appreciate that the property is well screened by existing landscaping.

However, a heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed building and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Regulation 18 Alternative Sites and Focused Changes Consultation: We re-iterate our previous response in relation to the smaller site. Whilst there are no designated heritage assets within the site, the site lies immediately to the north east of the grade II listed property, The Orchards. Therefore, any development of this site has the potential to impact upon the significance of this heritage asset. We appreciate that the property is well screened by existing landscaping. We welcome the preparation of the HIA. We welcome paragraph 34.8 and the second bullet point of the policy in relation to strengthening boundary vegetation.

As advised in our previous response, Bullet point 5 states that the HER should be consulted to determine the need for any archaeological surveys prior to development. In our view, some assessment is needed to inform any planning application. We therefore advise that bullet point 5 should be amended to read, 'Planning applications should be supported by archaeological assessment including the results of field evaluation where appropriate.'

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

No objection to this – setting of The Orchards grade II should be respected and retention of good field hedgerow to the west of site.

Regulation 19 Publication Comments

Historic England comments at Regulation 19 publication stage:

Whilst there are no designated heritage assets within the site, the site lies immediately to the north east of the grade II listed property, The Orchards. Therefore, any development of this site has the potential to impact upon the significance of this heritage asset. We appreciate that the property is well screened by existing landscaping.

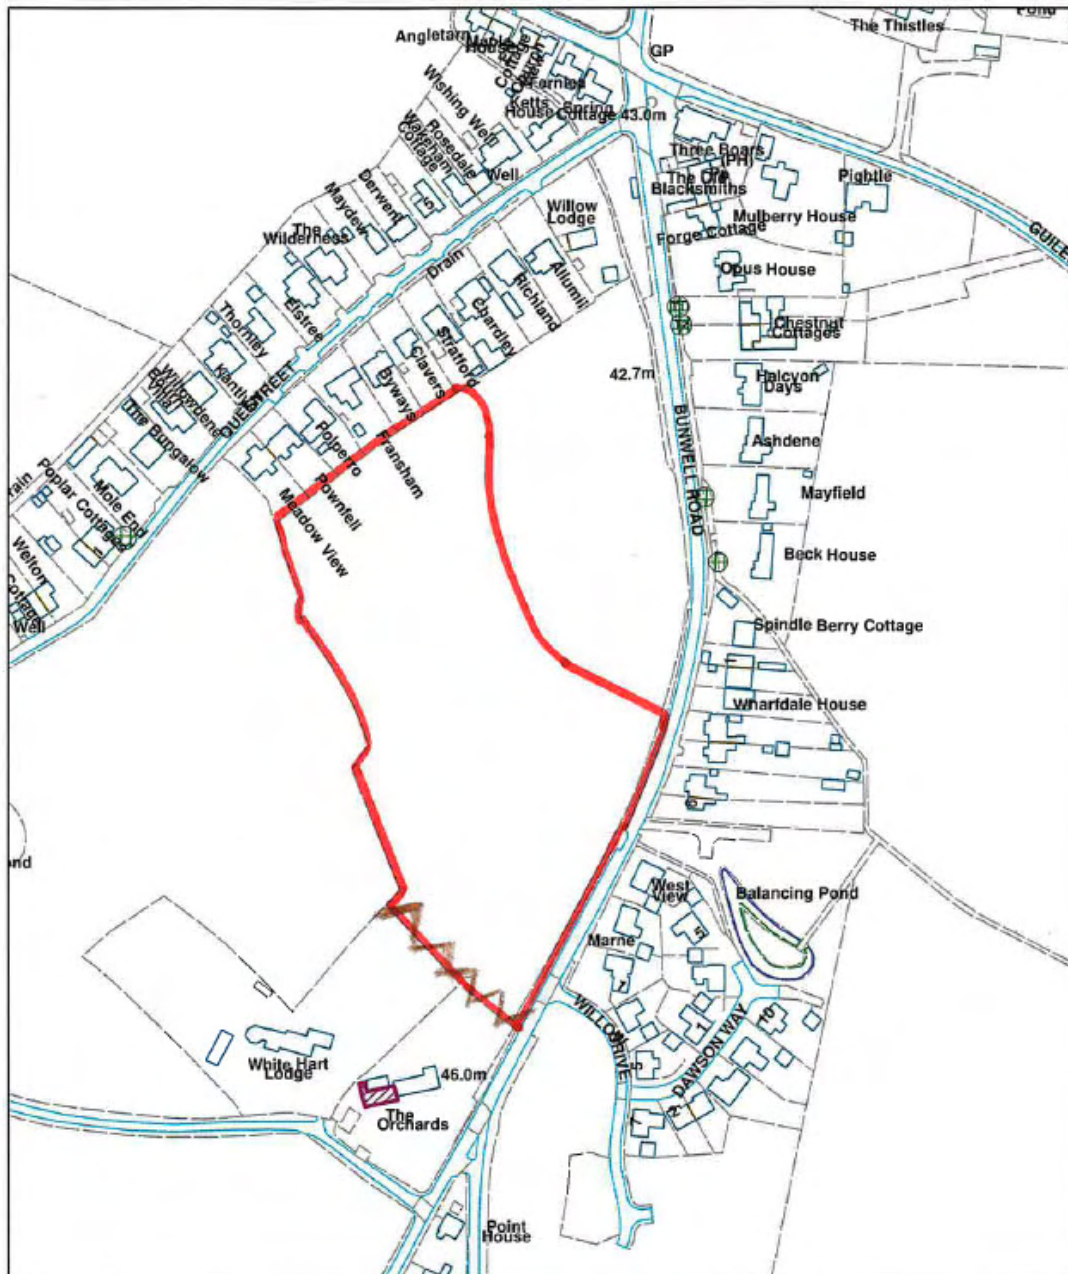

We welcome the preparation of the HIA. We welcome paragraph 34.8 and the second bullet point of the policy in relation to strengthening boundary vegetation.

Bullet point 5 states that the HER should be consulted to determine the need for any archaeological surveys prior to development. In our view, some assessment is needed to inform any planning application.

We therefore advise that bullet point 5 should be amended to read, 'Planning applications should be supported by archaeological assessment including the results of field evaluation where appropriate.'

Tasburgh

Site Details

Site Reference Number:

VC TAS1

Site Address:

Land north of Church Road and west of Tasburgh School, Tasburgh

Site Size:

1.2Ha

Proposed Housing Numbers on site:

Approximately 20 dwellings

Note to the Heritage Impact Assessment: In 2015 the site was allocated for 20 dwellings. As part of the Village Clusters Housing allocation plan the site was originally proposed for up to 30 dwellings but after a review of the site following the Regulation-18 consultation the numbers proposed for the site were reduced to approximately 25 dwellings (a 5-dwelling uplift to the 2015 allocation). Following the Regulation-19 consultation the Council has further reduced the density proposed on VC TAS1 in order to address the comments received from Historic England. VC TAS1 now once more proposes a total of 20 dwellings and is considered to be a carried forward allocation from the earlier 2015 Local Plan site allocations (without an uplift in numbers). This HIA has been updated to reflect the reduced numbers proposed for the site. **Any amendments to the textual information are highlighted below.**

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

While there are no designated heritage assets within the site, the grade II listed Old Hall Farmhouse lies immediately to the north west of the site. In addition, the scheduled monument (a hillfort, known as 'Camp in Village', lies to the north of the site, which also includes the grade I listed Church of St Mary, and grade II listed war memorial and Rectory.

Therefore, any development of this site has the potential to impact upon the significance of these heritage assets. We are particularly concerned about the potential impacts on the Farmhouse, given its proximity. We do however appreciate this is seeking to increase the density of an existing allocation.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed buildings and conservation area and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

No objection in principle however suggest a lower number in the allocation.

Regulation 19 Consultation Comments

Historic England comments at Regulation 19 consultation stage:

While there are no designated heritage assets within the site, the grade II listed Old Hall Farmhouse lies immediately to the north-west of the site. In addition, the scheduled monument (a hillfort, known as 'Camp in Village'), lies to the north of the site, which also includes the grade I listed Church of St Mary, and grade II listed war memorial and Rectory.

Therefore, any development of this site has the potential to impact upon the significance of these heritage assets. We are particularly concerned about the potential impacts on the Farmhouse, given its proximity.

We do however appreciate this is seeking to increase the density of an existing allocation.

We welcome the preparation of the HIA. However, we disagree with some of the HIA findings. It is our view that the setting of the Old Hall Farmhouse would be affected by development across the whole site.

We would like to see approximately one third (the north-east) of the site left as orchard or, potentially a playing field extension for the school, but with no built development. Housing development should be contained within the south-eastern two thirds of the site to reduce harm to the significance of the listed building by development within its setting.

This may have an impact on the capacity of the site and it may not be possible to accommodate 25 dwellings on the site at a density in keeping with the surrounding character of the village.

The policy should be amended to include this area of open space/orchard/playing field in the north-eastern third of the site to protect and enhance the setting of Old Hall Farmhouse. The capacity of the site should be reduced accordingly.

At least 12 dwellings

Note on Heritage Impact Assessment: Following the close of the Regulation-19 publication period (January-March 2023) the Council reviewed all representations submitted in response to the Plan. The Council subsequently considered it appropriate to review the Heritage Impact Assessment for the site in response to concerns raised by interested parties, including by Historic England as statutory consultee. **Any amendments to the textual information are highlighted below.**

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Whilst there are no designated heritage assets on this site, the grade I listed church of All Saints and the grade II listed war memorial lie to the north of the site. However, the intervening trees provide an effective screen to the site. We suggest that additional planting along the northern boundary of the site would help to safeguard the setting of the church.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed buildings and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

Grade I listed church to north and war memorial. This would be within the wider setting. However, there is some existing landscaping affecting intervisibility. The main views of the church tower appear to be to the west across the landscape to the west. There are some views of the tower approaching from the south along Hackford Road and these would need to be taken into account in setting out layout etc.

Regulation 19 Consultation Comments

Historic England comments at Regulation 19 consultation stage:

Whilst there are no designated heritage assets on this site, the grade I listed church of All Saints and the grade II listed war memorial lie to the north of the site. However, the intervening trees provide an effective screen to the site. We suggest that additional planting along the northern boundary of the site would help to safeguard the setting of the church.

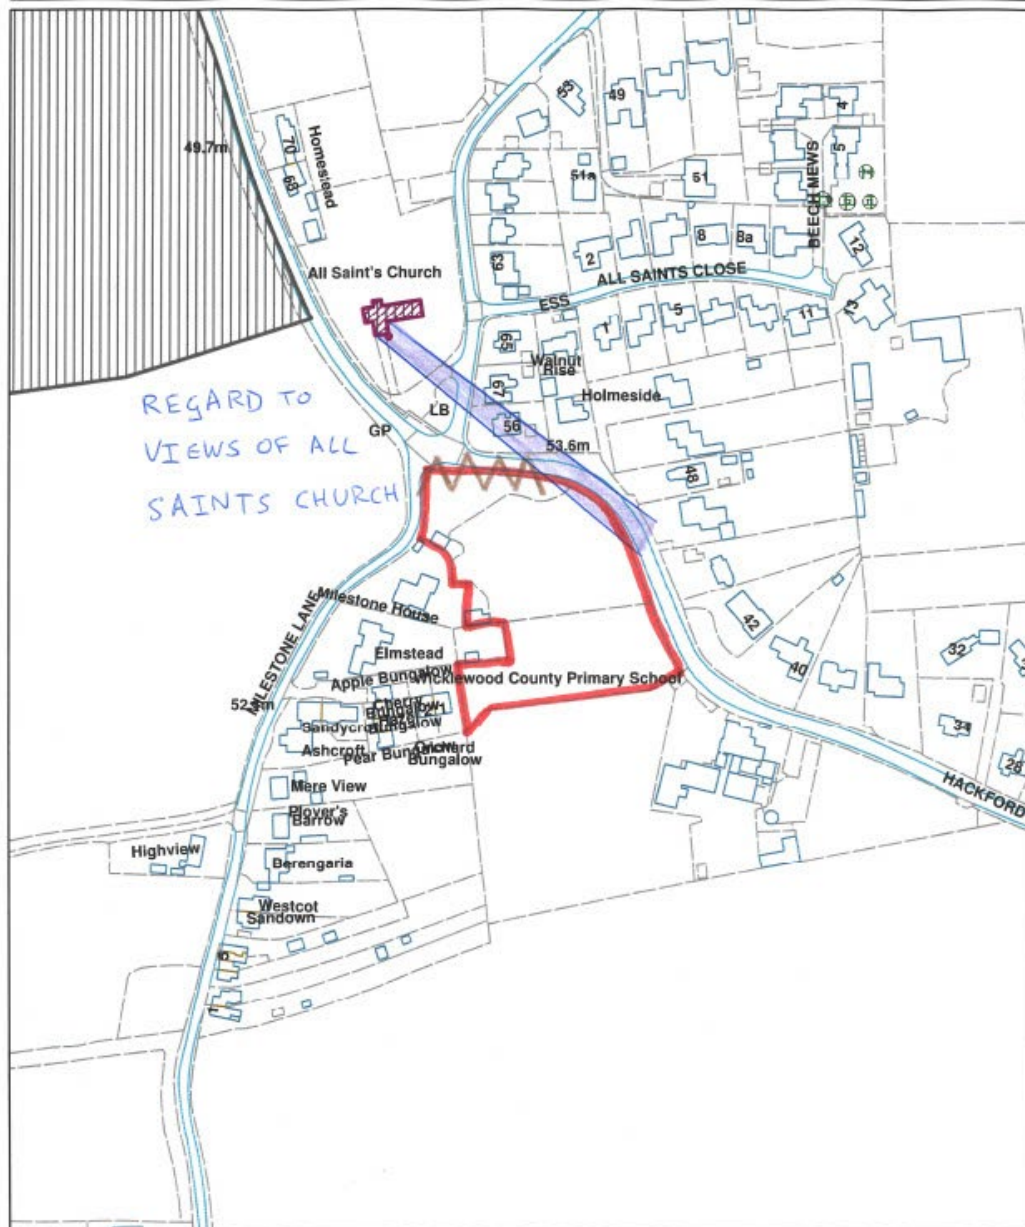

We welcome the preparation of the HIA. We welcome bullet points 1 and 2 of the policy. We suggest the addition of and words, 'and enhance' after conserve in the first bullet point to read: 'to conserve and enhance the immediate setting...' to more closely reflect the NPPF.

Therefore, there is a possibility for finding further items and the impact cannot be determined without further investigation.</p>	<ul style="list-style-type: none"> Require further investigation prior to development commencing to identify and record any further finds 	<p>UNKNOWN</p> <p>There may be further finds on the proposed site which should be investigated prior to any development.</p>

Part B – Updated HIAs for sites not included in Regulation 19 Pre-submission Addendum

Brooke, Kirstead and Howe

Site Details

Site Reference Number:

VC BRO1

Site Address:

Land at Norwich Road, Brooke

Site Size:

2.2Ha

Proposed Housing Numbers on site:

Up to 50 dwellings

Note on Heritage Impact Assessment: Following the close of the Regulation-19 publication period (January-March 2023) the Council reviewed all representations submitted in response to the Plan. The Council subsequently considered it appropriate to review the Heritage Impact Assessment for the site in response to concerns raised by interested parties, including by Historic England as statutory consultee. The map produced to support the original HIA is included in this assessment as Map 1 whilst Map 2 has been updated to reflect the findings of this HIA. **Any amendments to the textual information are highlighted below.**

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage (relating to SN0432REVA, East of Norwich Road):

Although there are no designated heritage assets on site, the site lies to the south-east of the grade II listed Brooke Lodge, dating from c1835 and to the north of the Brooke Conservation Area. Any development of the site has the potential to impact on the significance of these designated heritage assets.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed building and conservation area and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

No significant objection to these (REVA and/or REVB) coming forward. Rev B is quite close to Brooke Lodge however it is situated in the middle of large curtilage with extensive landscaping so harmful impact on setting is likely to be low or negligible. It is further extending the village in a linear manner along the Norwich Road, which is at odds with the historic east/west plan of the village however still not extending that far out. The plan submitted for Rev B looks tight with small gardens and not very sympathetic to existing grain so I would be cautious about numbers allocated here.

Regulation 19 Consultation Comments

Historic England comments at Regulation 19 consultation stage:

Although there are no designated heritage assets on site, the site lies to the south-east of the grade II listed Brooke Lodge, dating from c1835 and to the north of the Brooke Conservation Area. Any development of the site has the potential to impact on the significance of these designated heritage assets.

We welcome the preparation of an HIA for the site. However, the HIA only covers the eastern portion of the site and does not consider the land to the west of the road, the development of which is likely to have a greater impact on the setting of Brooke Lodge. We recommend that the HIA is updated to reflect this. The recommendations from the revised HIA should be used to inform the policy wording.

That said, the extensive landscaping between the proposed site and the listed Lodge would limit the impact of development on the historic environment.

<p>Brooke Conservation Area</p> <p>Historically the rural village of Brooke has a predominantly linear form running east to west from Norwich Road along The Street and High Green. More recent development has been built to the side of Norwich Road to the north.</p>	<p>MEDIUM</p> <p>The village is characterised by a mixture of dwellings with the concentration of historic buildings on The Street and The Green.</p> <p>These combine with trees, hedges, water features and undeveloped spaces which are encompassed by the CA. There are specific areas along The Street which have been excluded from the development boundary around The Meres and Brooke House to preserve these undeveloped spaces.</p>	<p>MODERATE</p> <p>The site is wholly within the Conservation Area. It is surrounded on most sides by existing development, including recent development immediately to the south.</p> <p>Development on this site would result in the loss of some trees in the area. The existing trees contribute to the overall verdant edge of the Conservation Area in this area.</p>	<p>Retention of trees where possible to retain the character of the area.</p>	<p>MINOR</p>
<p>The Warren, 45 High Street</p> <p>Grade II Listed early 17th century rendered timber</p>	<p>MEDIUM</p> <p>Significance comes from the age of the asset and as an example of a 17th century</p>	<p>MODERATE</p> <p>The site is located immediately adjacent to the identified heritage asset.</p>	<p>Retention of trees where possible closest to the heritage asset in order to retain the historic character of the area and maintain the</p>	<p>MINOR</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	CONTRIBUTING ELEMENTS TO THE SIGNIFICANCE OF THE HERITAGE ASSET(S)	IMPACT OF THE PROPOSED DEVELOPMENT ON THE SIGNIFICANCE OF THE HERITAGE ASSET(S)	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT OF THE SIGNIFICANCE OF THE HERITAGE ASSET(S) WITH MITIGATION OR ENHANCEMENT IN PLACE
<p>framed house, with 18th century alterations.</p> <p>List Entry Number: 1051158 HER Reference: 34082</p>	<p>house with rendered timber frame and black pantile roof. It is a three-cell plan with 18th century brick bay added. Facade of two storeys, irregular fenestration. Rendered plinth. Three 3-light leaded casements to ground floor.</p> <p>The house retains its rural setting within its large curtilage and well vegetated gardens.</p> <p>The house is located to the rear of its curtilage with the associated garden area located to the west and north of the building. The house predates the other buildings surrounding it.</p>	<p>Development on the site would result in the loss of some trees that contribute to the setting of the asset. However, the asset is set back within its curtilage and orientated to the west, away from the site.</p>	<p>setting of the asset as much as possible.</p>	

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	CONTRIBUTING ELEMENTS TO THE SIGNIFICANCE OF THE HERITAGE ASSET(S)	IMPACT OF THE PROPOSED DEVELOPMENT ON THE SIGNIFICANCE OF THE HERITAGE ASSET(S)	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT OF THE SIGNIFICANCE OF THE HERITAGE ASSET(S) WITH MITIGATION OR ENHANCEMENT IN PLACE
<p>Tane Cottage, High Green</p> <p>A post medieval timber framed house, with later alterations.</p> <p>HER Reference: 41653</p>	<p>MEDIUM</p> <p>Significance arises from its structure.</p> <p>Post Medieval (1540 AD to 1900 AD) Timber framed house, coated and extended in brick.</p>	<p>MINOR</p> <p>Site is located to the south of the asset and does not appear to encroach on its setting. The significance of the asset derives from its structure rather than its setting therefore the impact from development is considered to be minor.</p>	<p>Retention of trees where possible to retain the historic character of the area.</p>	<p>NEGLIGIBLE</p>
<p>Cropmarks of former Roman road</p> <p>HER Reference: 52298</p>	<p>UNKNOWN</p> <p>The cropmarks of a former stretch of Roman road are visible on aerial photographs running intermittently from Upper Stoke, across the former Poringland Heath and joining with the Roman road to Ditchingham, Stone Street, at Brooke to the southeast.</p>	<p>UNKNOWN</p> <p>The known cropmarks are outside of the site boundaries to the north. However, it is unclear if the site may have some archaeological assets due to the proximity of the cropmarks. Therefore the impact is considered to be unknown.</p>	<p>Require archaeological investigation on site prior to development commencing.</p>	<p>UNKNOWN</p>

Bunwell

Site Details

Site Reference Number:

VC BUN2

Site Address:

Land opposite Lilac Farm, Bunwell Street

Site Size:

1Ha

Proposed Housing Numbers on site:

Approximately 20 dwellings

Note to the Heritage Impact Assessment: The site remains preferred for the allocation of approximately 20 dwellings within the same boundaries as shown at Regulation-19. However, in order to address comments submitted by Historic England in response to the publication of the Regulation-19 Plan, the Council has reviewed the original Heritage Impact Assessment and updated it as appropriate. The map produced to support the initial HIA is included in this assessment as Map 1 whilst Map 2 has been updated to reflect the findings of this HIA. **Any amendments to the textual information are highlighted below.**

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

N/A

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Amber

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

Amber. This would have some impact on the setting of the adjacent listed building. However with existing built up development, the position of the listed building within its site and its existing context, I do not consider that leaving the opposite side of the road undeveloped is critical to appreciating its significance. On the other hand, with the context of the listed building it should be well designed to take into account the setting of the heritage asset and therefore amber.

Regulation 19 Consultation Comments

Historic England comments at Regulation 19 consultation stage:

There are no designated heritage assets within the site boundary. However, Lilac Farmhouse (grade II listed) lies opposite the site, and Bunwell Manor Hotel and The Cottage, also grade II listed, lie to the north of the site. Any development of the site has the potential to impact on the significance of these designated heritage assets.

We welcome the preparation of an HIA for the site. The HIA makes a number of helpful recommendations for the site. Some of these have been included in the policy (bullet points 1 and 2) but not all.

In bullet point 1 it would be helpful to make clear that the views should link Lilac Farmhouse (grade II) to the open countryside.

The HIA also advises development should be set back from the road frontage to retain an open setting. Add criterion to state this.

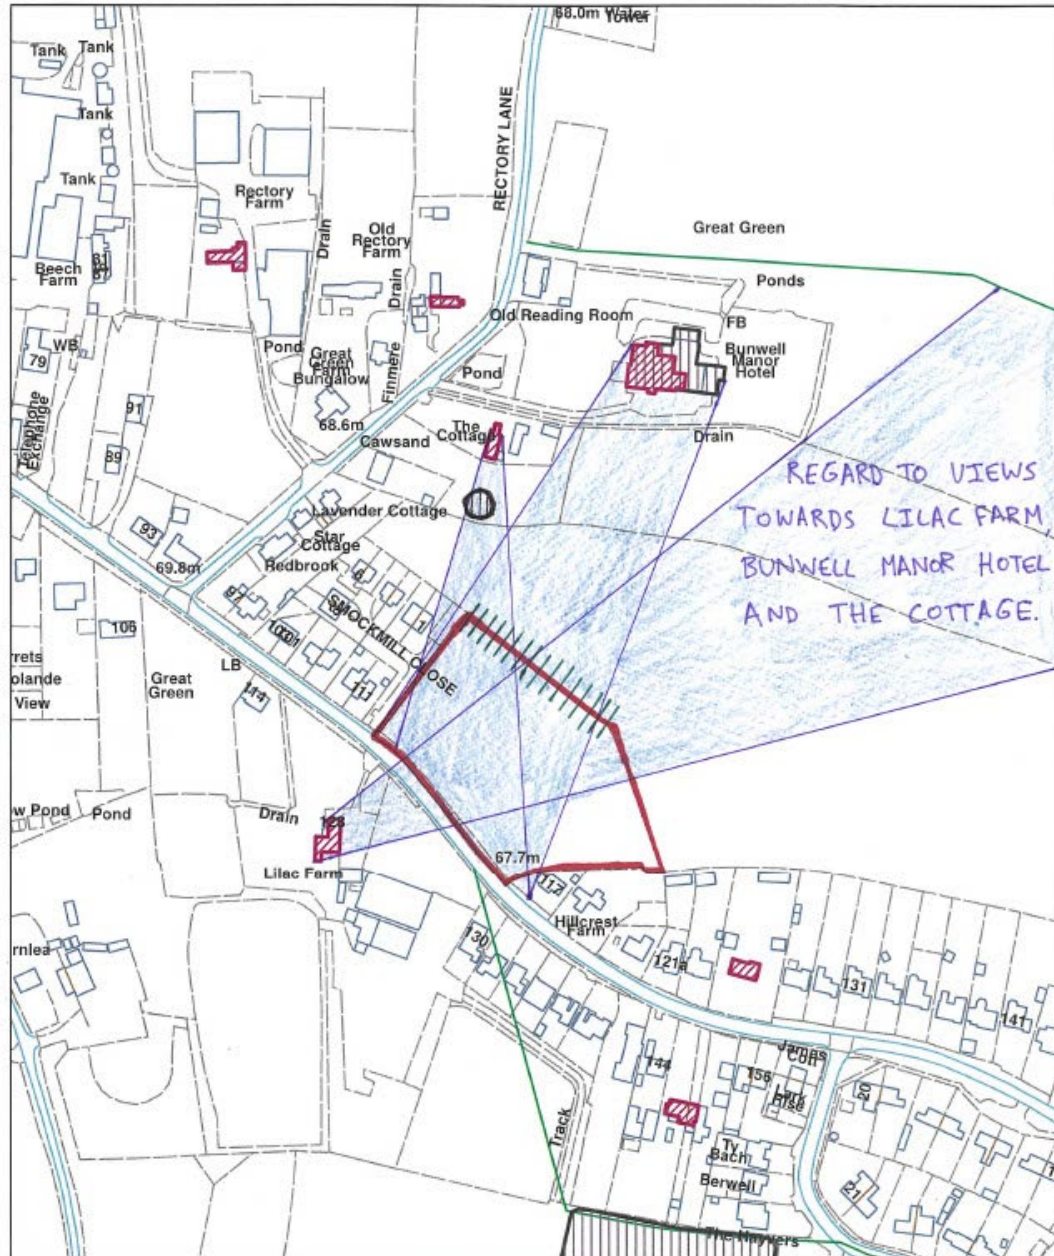

Bullet point 2 would be reworded to also reference Bunwell Manor Hotel.

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Lilac Farmhouse</p> <p>Grade II listed building. C17 timber-framed house with a thatched roof.</p> <p>List Entry Number: 1171100 HER Reference: 48508</p>	<p>MEDIUM</p> <p>The farmhouse dates from the early 17th century and is a striking two-storey gable ended building. Later additions to the property have taken place to the cottage since the early 19th century. The property has also recently been subject to recent repair and renovation.</p> <p>The farmhouse is clearly visible in views from Bunwell Street with the principal elevation facing towards the road.</p> <p>Long views towards the farmhouse, across the open fields on the opposite side of Bunwell Street are achieved through the gap in the existing built form; this retains a connection between the farmhouse and</p>	<p>MINOR</p> <p>Modern housing development and largescale agricultural/commercial units south of Bunwell Street, as well as on the opposite side of Bunwell Street, has already altered the setting of the heritage asset. Further development will have a limited impact on the significance of the immediate setting of the building which is now limited to the fenced curtilage that surrounds it. Development on the site will however reduce the visual links and historical connections between the farmhouse and the agricultural land on the opposite side of Bunwell Street.</p>	<ul style="list-style-type: none"> Careful layout design to retain a visual connection between the farmhouse and the open countryside beyond the site. Inclusion of an area of open space to the south east of the site to retain some long views across the site to the east and a visual connection to the former agricultural land. Development to be set back from the road frontage to retain an open setting. 	<p>MINOR</p> <p>If some views between the farmhouse and the open countryside are retained then this element of its significance would be protected and there would be Less than substantial harm.</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
	<p>its past association with the surrounding agricultural land. To the west a small group of established trees provide an attractive frame for the building.</p> <p>Agricultural and commercial development adjacent to the property has changed the immediate setting which is now limited to the area immediately adjacent to the farmhouse. However, the open aspect across the forecourts of these buildings ensures clear views of the farmhouse have been retained, albeit affected by the character of the hardstanding.</p>			

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Bunwell Manor Hotel</p> <p>Grade II listed building. C16 timber-framed and brick house with pantiled gable roof and a moat.</p> <p>List Entry Number: 1049613 HER Reference: 10037</p>	<p>MEDIUM</p> <p>Originally a rectory in the later 16th century, the building was altered in the late 18th century. The remains of a medieval moat surrounds the north, north-east and north-west sides of the building.</p> <p>The building is set within extensive grounds with mature trees and vegetation which provide the setting of the building. Views towards the former rectory are visible from Bunwell Street, across the agricultural land/site.</p> <p>The former grandeur of the building is apparent from the scale of the building and its grounds.</p>	<p>MODERATE</p> <p>There will remain a separation between the heritage asset, including its setting, and development on this site; however, public views towards the building will be restricted by development in this location.</p> <p>There is no public footpath with additional links or views. Although the development lies between the heritage asset and Bunwell Street, it would not significantly impact on any historic significance or connection.</p>	<ul style="list-style-type: none"> • Retain a separation between the heritage asset and its grounds and new development. • Landscaping along the north boundary of the site. 	<p>MINOR</p> <p>If a separation between the former rectory, including its grounds, and the new development is maintained, and the site is appropriately landscaped to the north, then there would be less than substantial harm.</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>The Cottage</p> <p>Grade II listed building. C17 timber-framed and thatched house with thatched gable roof.</p> <p>List Entry Number: 1171142 HER Reference: 45728</p>	<p>MEDIUM</p> <p>A 17th century cottage that has been subject to later extension and alteration. There are some glimpses of the original thatched roof from Bunwell Street, across the site, however it is the later pantiled addition that is most obvious from the south-east. The asset maintains a localised setting which is delineated by mature vegetation that surrounds the dwelling.</p> <p>The dwelling is accessed via Rectory Lane to the west, although it is also set back from this frontage and separated by mature vegetation.</p>	<p>MINOR</p> <p>Development of the site will reduce views of the cottage from the south-east however there will remain a separation between the cottage and the new development which will reduce the impact of the proposed development on the significance of this heritage asset.</p>	<ul style="list-style-type: none"> • Site layout and new landscaping to respond to the proximity of the site to the heritage asset • Consideration to be given to the materials and boundary treatments 	<p>MINOR</p> <p>If separation between the cottage and the new development is maintained, as well as appropriate landscaping, and a sensitive site layout implemented then there would be less than substantial harm.</p>

Regulation 19 Consultation Comments

Historic England comments at Regulation 19 consultation stage:

Whilst there are no designated heritage assets within the site boundary, Redenhall church (grade I listed) is very visible from the northern part of the site. We welcome the reference to the GI listed St Mary's church, Redenhall in paragraph 26.23 and the reference to design and layout including building heights to reflect the prominence of the site in the River Valley Landscape. We also welcome bullet point 4 of the policy. We recommend an HIA is prepared for this site to fully assess the impact and ensure the appropriate mitigation is in place within the policy.

Norfolk County Council Historic Environment Service comments prior to the Regulation 19 consultation stage:

No heritage assets in close proximity. Amber.

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage: N/A

Settlement Limit extension (final numbers to be determined by planning application). NB: This site was submitted during the Regulation 18 Call for Sites. Technical consultees were invited to comment on sites submitted at this time after the close of the Regulation 18 consultation.

Post Regulation 18 Consultation Comments

Historic England comments post Regulation 18 consultation stage:

None received

Norfolk County Council Historic Environment Service comments post Regulation 18 consultation stage:

Amber

South Norfolk Council Senior Heritage & Design Officer comments post Regulation 18 consultation stage:

The existing car park and access already provide a good physical separation between the site and the listed church, and the church is orientated mainly to be viewed from the front. No real issues, but require any buildings to be designed sympathetically to the setting of the chapel as still quite close proximity in terms of context.

Regulation 19 Consultation Comments

Historic England comments at Regulation 19 consultation stage:

Although this is not an allocated site in the Local Plan, the settlement limit is being amended to incorporate this land.

Although the land does not include any designated heritage assets, the site is located between two grade II listed buildings – the United Reform Church and 155 High Road. Therefore, any development of this site has the potential to impact upon the significance of these heritage assets.

There does not appear to be an HIA for this site. We recommend the preparation of an HIA for this site ahead of the EiP.

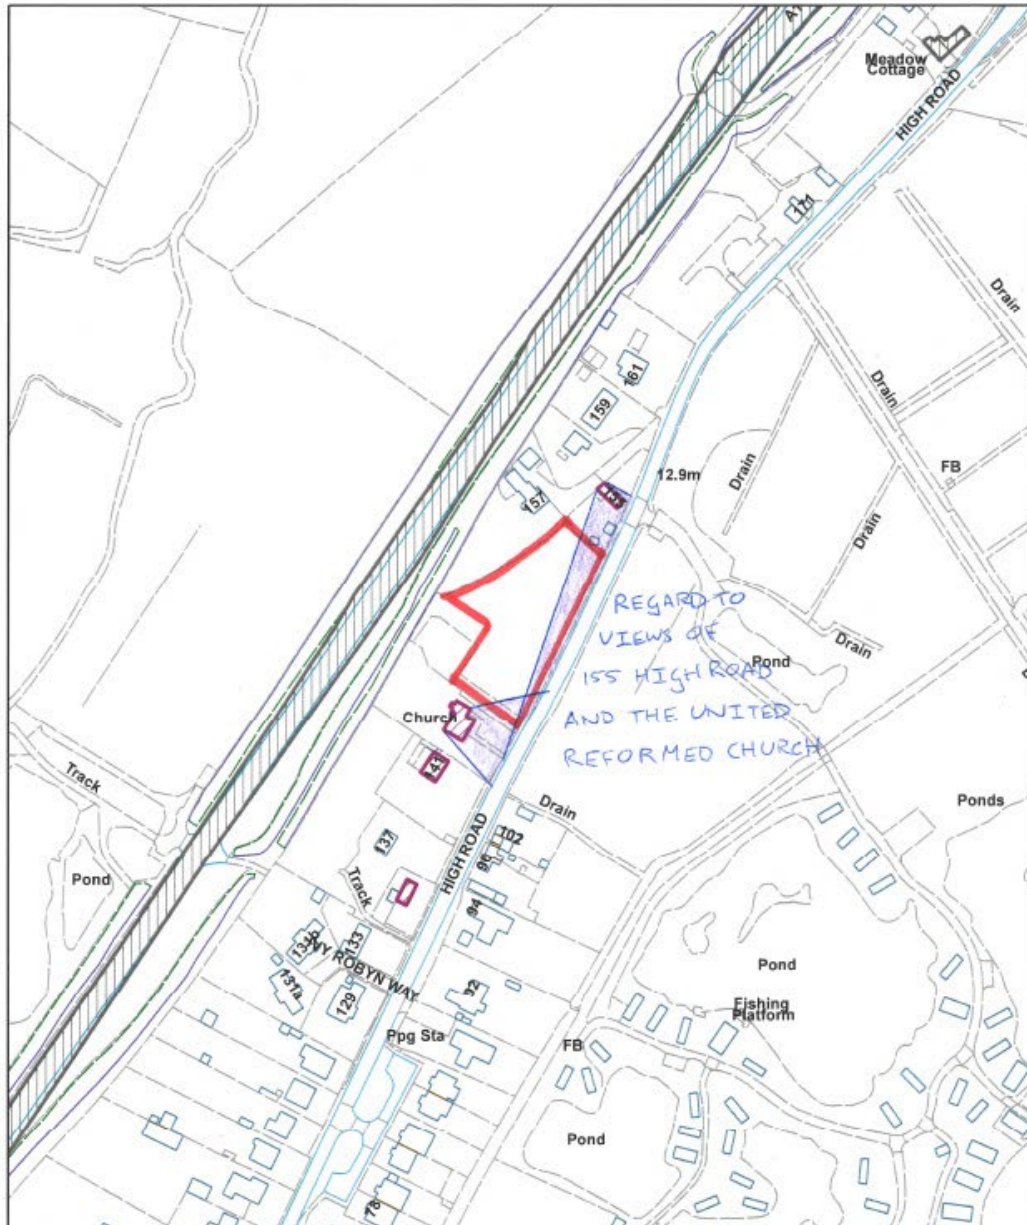

Notwithstanding this, we have some reservations about the approach to the extension of settlement limits because it is unclear how site-specific policy requirements e.g. mitigation measures recommended in an HIA, can be secured in the absence of a site-specific policy.

Post-Regulation 18 Consultation Comments

NOTE: This site was promoted for consideration during the Call for Sites that was held alongside the Regulation 18 consultation. The site was subject to a technical consultation post- the Regulation 18 consultation with those comments received reflected below.

Historic England comments at Regulation 18 consultation stage:

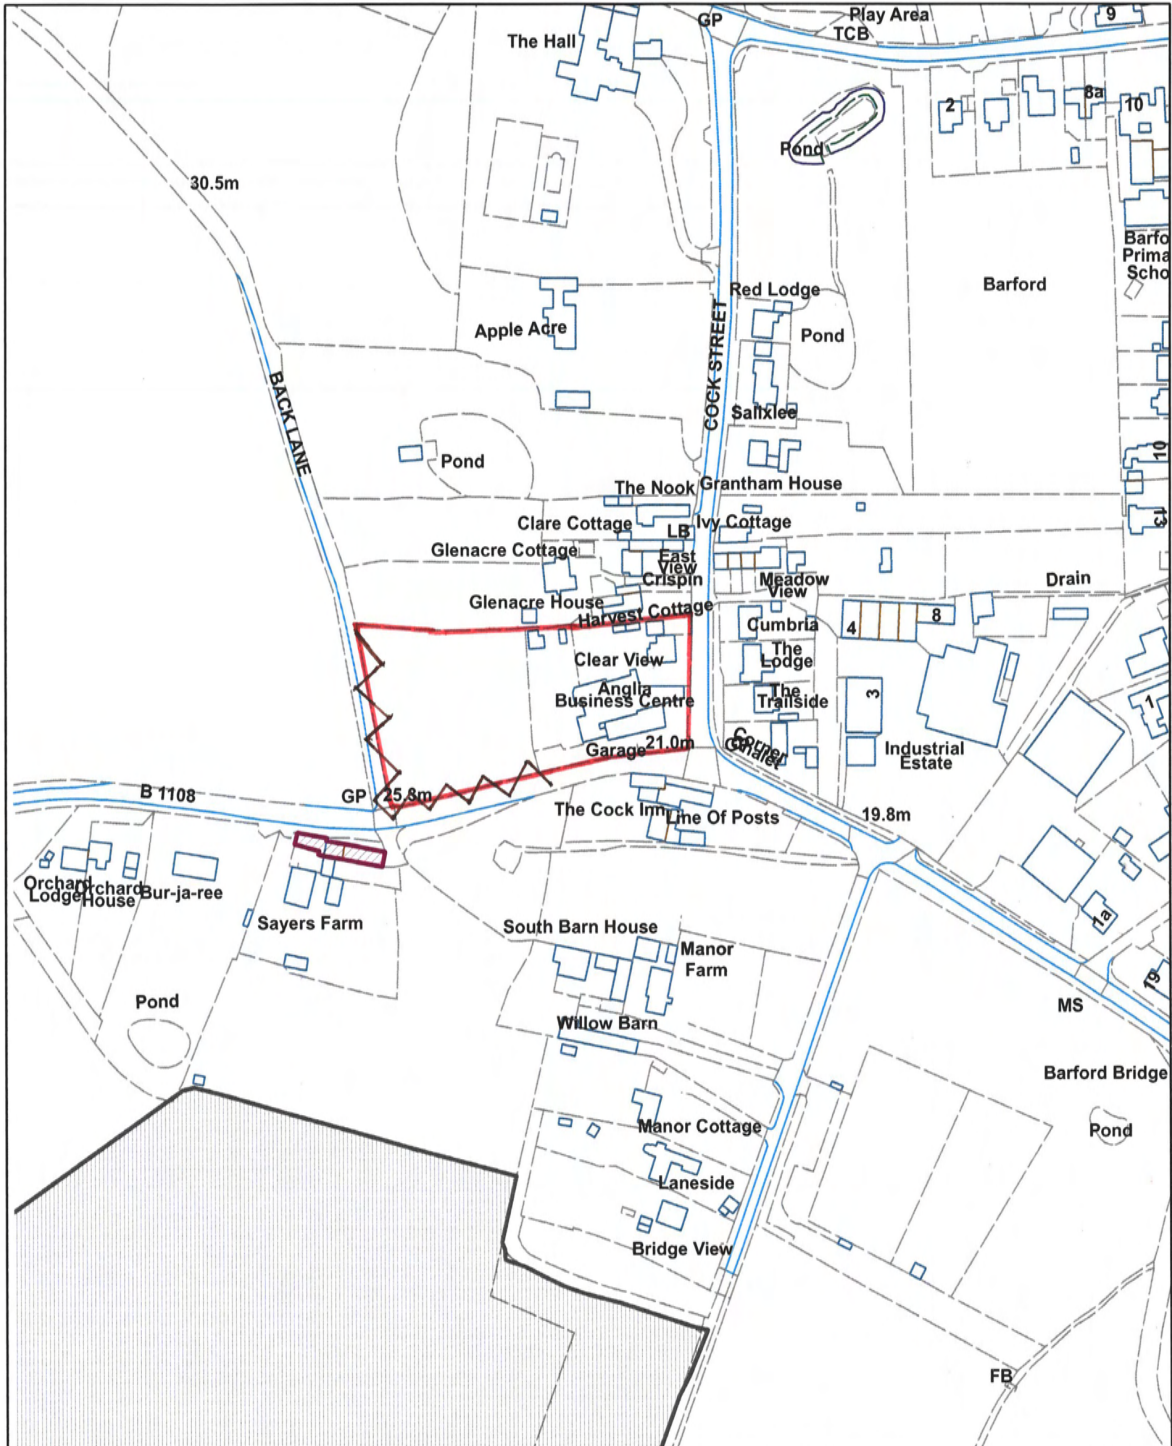

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

Even with demolition of existing garage and the house 25 does seem quite high for the area? From a townscape point of view redevelopment of the garage could be viewed as a benefit. Addressing Watton Road will be an issue – hedge will need to be retained however highways may also wish for an active frontage to the road to slow traffic coming into village? – no existing footpaths on road. With hedgeline to the field contains many trees which may be expected to be retained and this will reduce developable area with root protection. With suitable design and retention of hedge won't have that much impact on Sayer Farm as the road strongly separates area + retention of field to north-west.

SN0552REVB

Land to the east of School Road, Bressingham

Site Size:

2.06Ha

Proposed Housing Numbers on site:

40 dwellings

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Although there are no designated heritage assets on site, the site lies immediately north of the grade II listed Pine Tree Cottage. Development of this site has the potential to impact on the significance of this designated heritage assets through development within its setting.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed building and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

Bressingham is predominantly linear development, and this would result in some clustering. However, at some point linear development becomes detrimental and inefficient, and perhaps the time has come for clustering. There is no particular significance attached to the area in the village character, and the field is quite well enclosed in landscape views, however, there does appear to be some good trees around it.

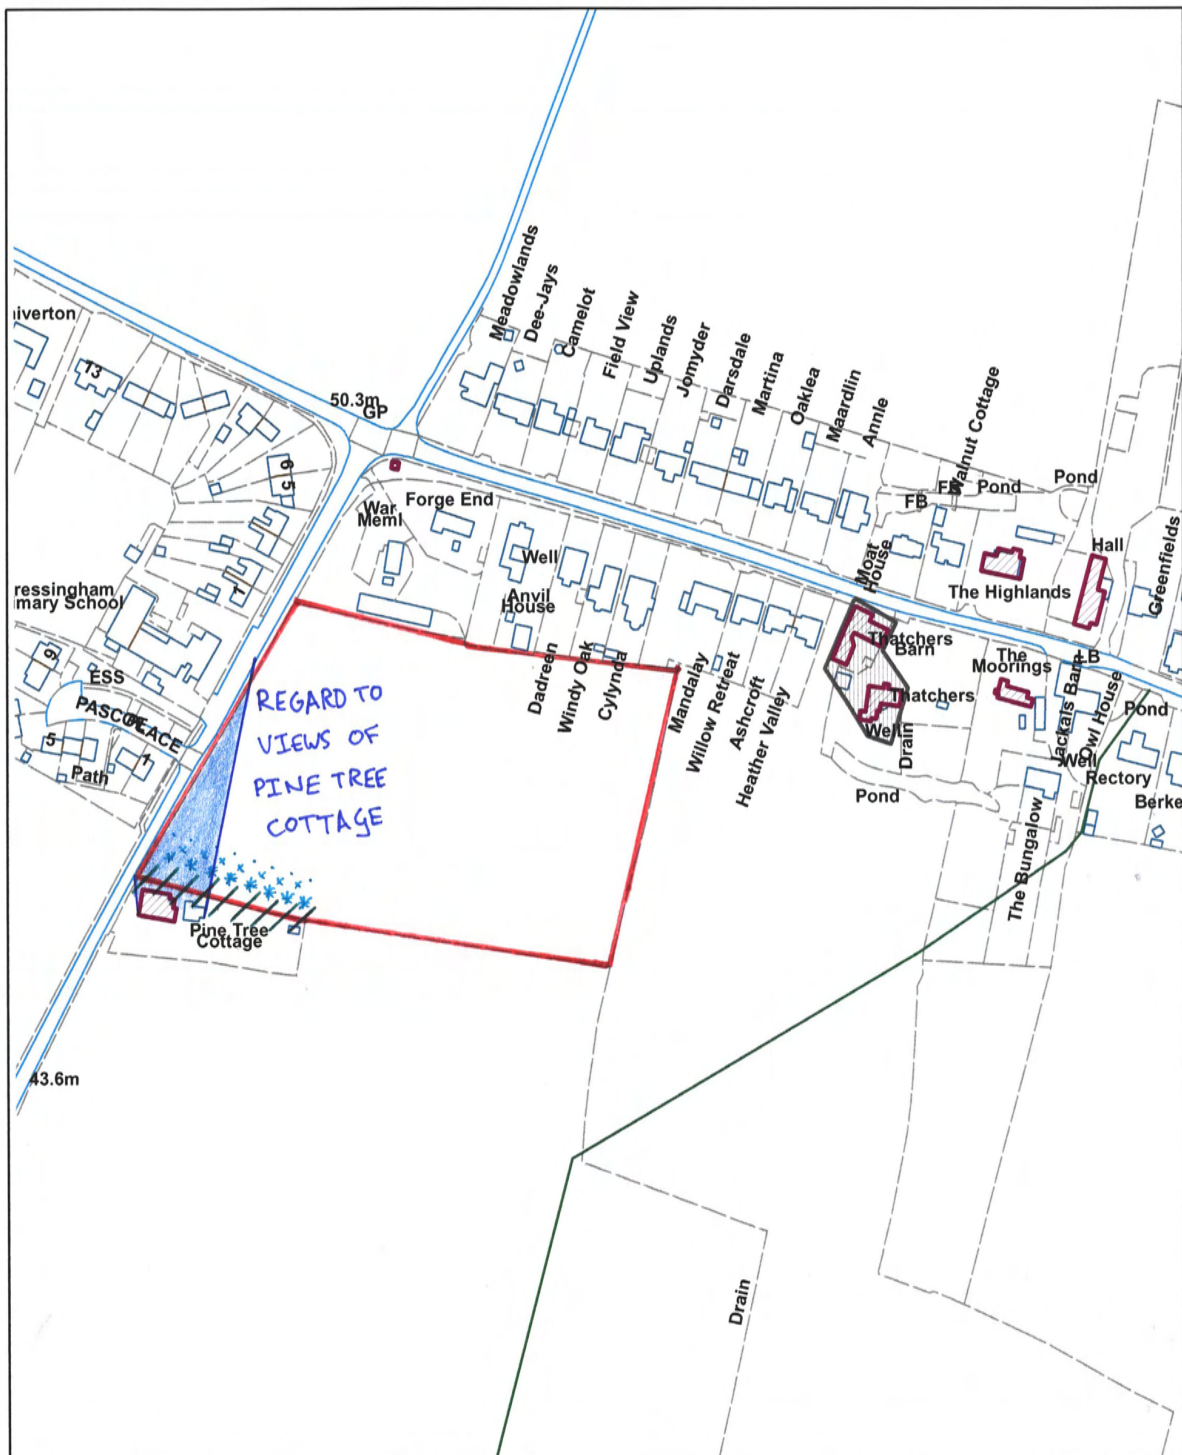

I would prefer this to SN3019 as avoid further development along the lane and the need for longer footpaths along the lane to the school etc. and will allow views of the open countryside from that lane to be preserved further south. This site would allow a more efficient layout and provision of safer public space away from the School Lane. It would be good to set building back with establishment of a frontage boundary rather than creating too much of an urban character. There would probably need to be a need for landscape buffer strip for housing to the north.

Amber for HA; with regard to heritage impact, yes it would impact upon the cottage which is to a degree isolated. But its character and setting does not depend on it being isolated. The north side is a plain pantiled roof with no windows facing north. I would however suggest mitigation at south end.

It is potentially a large allocation, which I think could overwhelm a rural village. A smaller allocation with scope to extend in future may be preferable – however this should avoid creating a ransom strip.

SN4036

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF THE PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION OR ENHANCEMENT IN PLACE
<p>Pine Tree Cottage, School Road</p> <p>Grade II Timber framed house dating from the 17th century, with later additions. The dwelling has unusual graffiti carved on the exterior timbers.</p> <p>List Entry Number: 1170621 HER Reference: 40724</p>	<p>MEDIUM</p> <p>Its significance is derived from its architecture and age; Pine Tree Cottage is a single dwelling set within a relatively narrow but deep plot that extends to the south and east of the building. The cottage lies to the north-west of its plot.</p> <p>It is located to the east of School Road and has agricultural land to the north, south and west. There are a number of mature trees in both the immediate and wider landscape and the plot is bounded by mature hedgerows. This landscaping limits wider views of the heritage asset and creates a sense of enclosure around the building. The principal elevation of the dwelling is to the south with no discernible features in the north elevation.</p>	<p>MODERATE</p> <p>Development would be located on the site immediately to the north of the heritage asset, closest to the side of the dwelling with a plain pantiled roof and no windows. The isolation of the dwelling in the wider landscape would be reduced however the building is already viewed within the context of existing development to the north, as well as on the opposite side of School Road. The building's partial rural setting does not make a significant contrition to the architectural and historic character and significance of building, which mainly derives from its appearance and historic fabric. Views of the heritage asset from the Public Right of Way to the east could also be impacted to a degree but this is considered to be negligible. Views of the pantile roof on the north side from the road, which is a prominent feature of the building, will be preserved.</p>	<ul style="list-style-type: none"> The layout of the development should take into account the cottage. There is an opportunity to provide an area of open space on this site and a small informal vehicular parking area to assist with the school overflow parking. Both these features could be located to the south of the proposed allocation site and in closest proximity to the heritage asset, creating a degree of separation. This approach to site layout would also preserve views of the building and its prominent pantile roof. 	<p>MINOR and less than substantial harm (lower end)</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF THE PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION OR ENHANCEMENT IN PLACE
			<ul style="list-style-type: none"> Landscaping along south boundary would increase the separation and soften the visual impact. 	
<p>Roman and medieval to post-medieval finds East of School Road</p> <p>Metal-detecting in 2016 recovered medieval pottery sherds</p> <p>HER Reference: 61755</p>	<p>MEDIUM</p> <p>Contributes to the historical knowledge of the local area; Roman and medieval coins; undated casting waste, a medieval mirror case fragment, medieval/ post-medieval weight, and a post-medieval book fitting.</p>	<p>NEUTRAL</p> <p>The finds were in the field immediately adjacent to the east, therefore development would not directly affect the find site. But suggests additional finds possible.</p> <p>As no finds recorded on the proposed site the impact there is UNKNOWN.</p>	<ul style="list-style-type: none"> This site would need to be investigated prior to development. 	NEUTRAL: No harm

Earsham

Site Details

Site Reference Number:

SN0390REVA (allocation reference VC EAR1)

Site Address:

Land at School Road, Earsham

Site Size:

The site was originally assessed on an area of approximately 1.1ha (as shown on map 1) but has subsequently been amended to a site area of 1.3ha (map 2)

Proposed Housing Numbers on site:

Up to 25

Note to the Heritage Impact Assessment:

This site was originally promoted and assessed as SN0390 and was considered suitable as an extension to the Settlement Limit at the Regulation 18 stage of the Plan production. During the Regulation 18 consultation, the site promoter sought to overcome identified highways constraint that limited the number of dwellings that could be achieved on this site via the submission of a revised site. The amended site boundary would improve access into the site and would include the addition of the existing residential property and associated access immediately to the west of the site. The map produced to support the initial HIA is included in this assessment as Map 1 whilst Map 2 updates this information to reflect the updated proposed allocation and the findings of this HIA. Any amendments to the textual information are highlighted below.

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Comments received in relation to SN0390: There are no designated heritage assets on site. The Close, listed at Grade II, lies to the south of the site. However, given the distance we consider that the development of the proposed allocation would have limited impact of the setting of the heritage asset.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Comments received in relation to SN0390: Amber

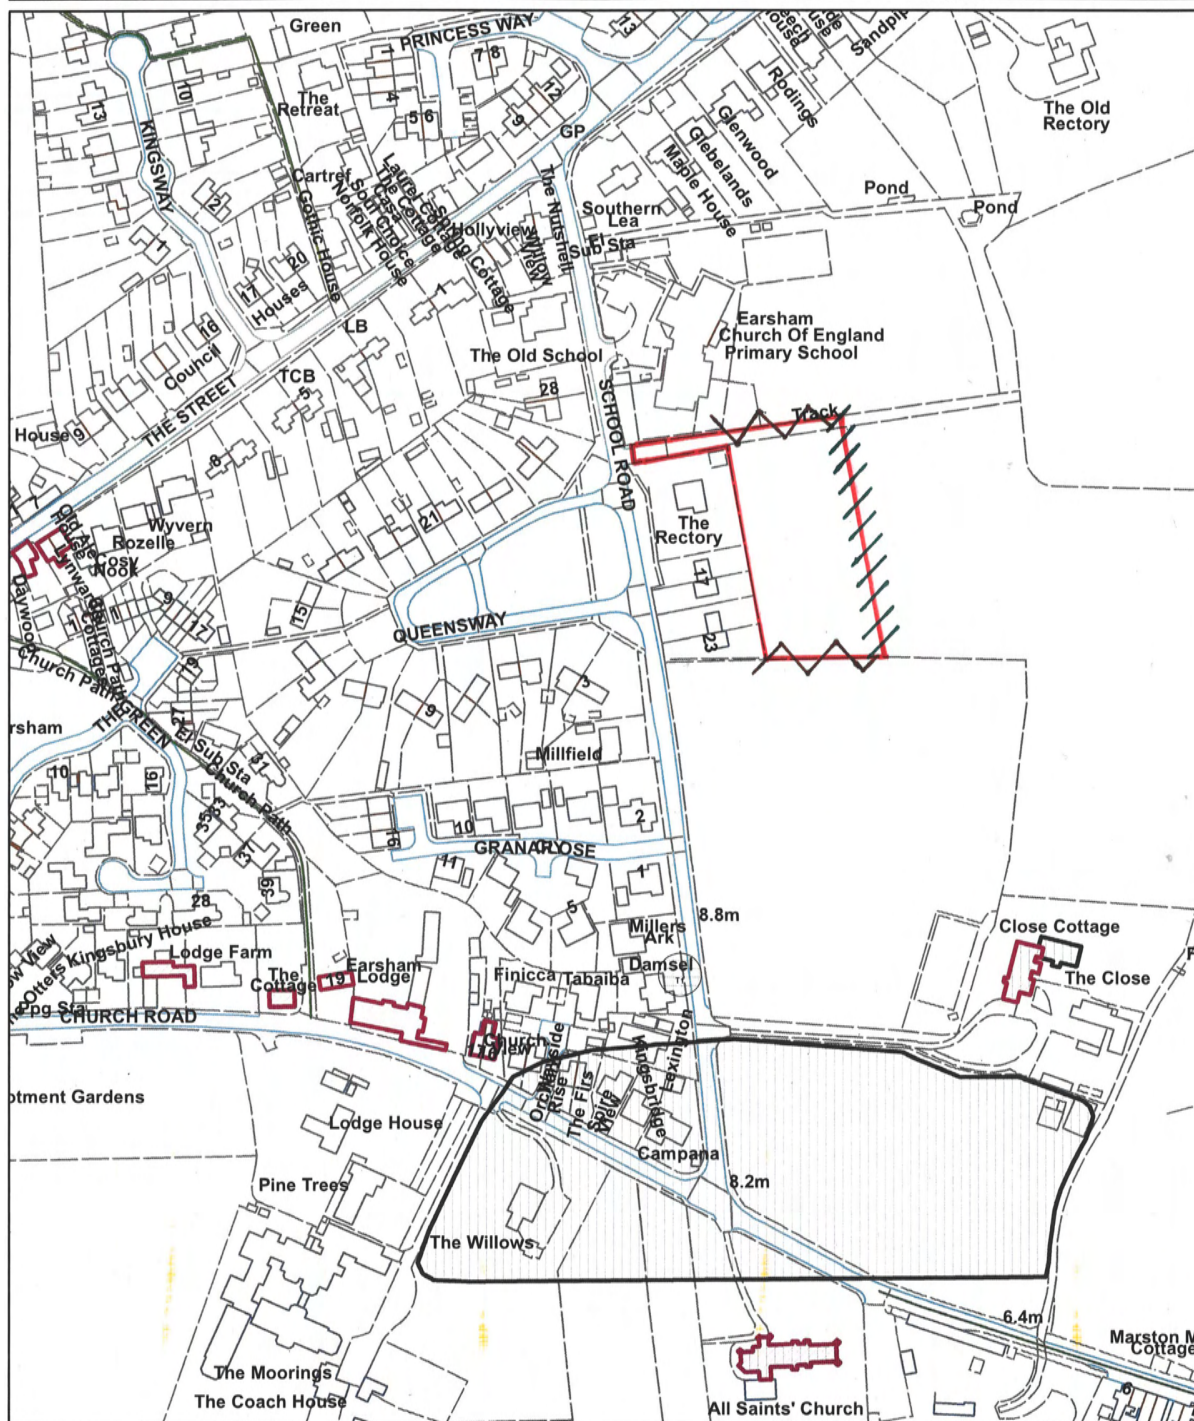

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

Comments received in relation to SN0390: More concerned about this site – there are good views along School Road south towards the church which neatly terminated the view. Although there has been some linear development along the east side of School Lane – it retains a strong rural character with the hedgerow. Branching out development to the east would establish more development on this side of Earsham which has historically benefitted from the Waveney Valley floodplains preventing development. There will be views of the church and its spire from the footpaths to the east along the Waveney Valley (Spires are unusual in East Anglia). Also historically there may have been some visual connections from the Bigod Castle site in Bungay across the site to the church. Also, the church site also has potential Saxon connections and could have been a camp. There is also the setting the listed The Close – which is currently a farmyard cluster setting within wider setting of rural fields.

Comments received in relation to SN0390REVA: Earsham church (which unusually for Norfolk has a steeple) is visible in views from the floodplain/footpath and has a much wider setting.

Proposed Housing Numbers on site:

20 dwellings

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

There are no designated heritage assets on site. However, the site is adjacent to the Geldeston Conservation Area. There is also a pair of grade II listed cottages to the west of the site at West End. Any development of the site has the potential to impact on the significance of these designated heritage assets.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed building and conservation area and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

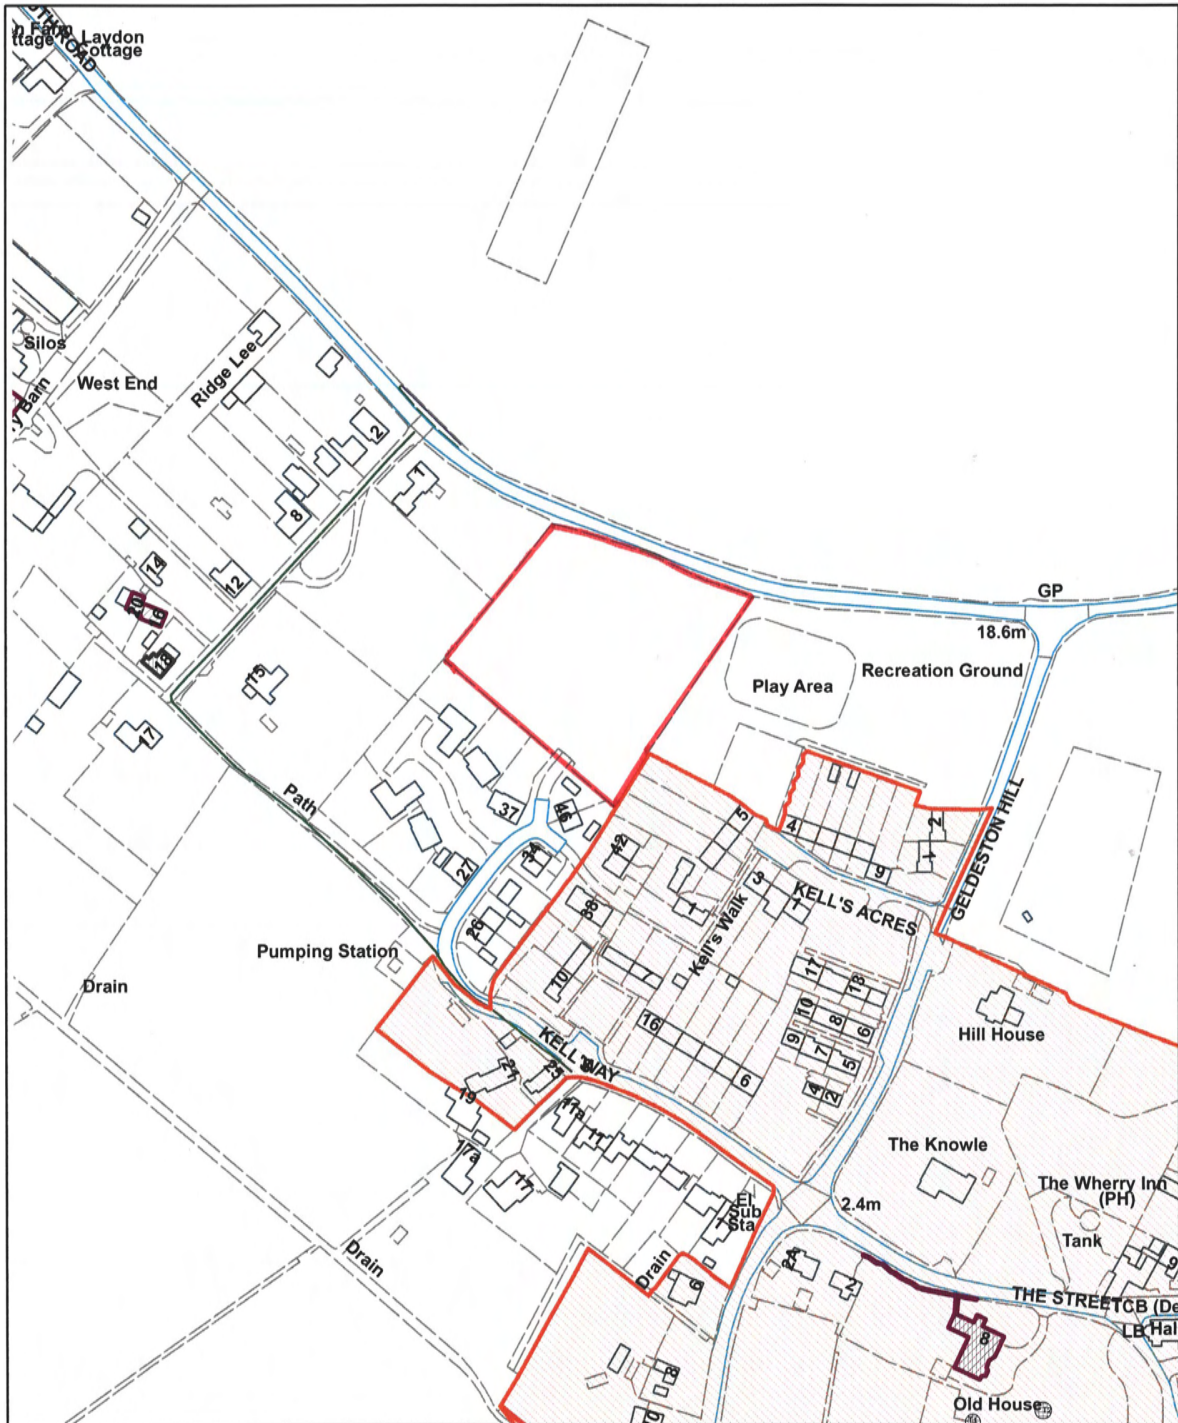

Amber score.

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

Setting of CA but not as important to setting of CA as SN0207.

SN0437

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Conservation Area</p> <p>Geldeston is a medium sized village in a rural setting, which derives its character from the river valley landscape and its industrial, agricultural and residential history. The character of the village is unusual as it does not conform to a familiar village type or pattern. In part, the absence of the huge maltings buildings which generated so much of its present form and appearance explains this. Another factor is the riverside location which is partly on the bank of the Waveney River valley but set back from the river.</p>	<p>MEDIUM</p> <p>The village form can be described as nucleated and having two elements, one eighteenth century in origin, the other twentieth century. The Kells estate is a major element in the Conservation Area. Built between 1947 and 1971, it was designed by the celebrated local architectural practice of Tayler and Green. Although the layout of this public housing in the modest terraces and groups of houses is familiar, their innovative approach to design, detailing and use of materials has resulted in a quality environment. The four elements which make it up relate closely to the topography and the landscape of the site to form</p>	<p>MINOR</p> <p>The proposed site is outside the CA with its south-east corner adjacent to both the Kells estate and the CA.</p> <p>There has been a residential allocation to the south, now included in the development boundary, closer to the CA than this site and the new properties have been built in recent years (Kell's Meadow). The proposed site is part of this parcel of land and development would have an impact on the setting of the Kells estate.</p> <p>There is a change in levels travelling up Geldeston Hill to its junction with Old Yarmouth Road where the properties in the CA on Kell's Acres can be glimpsed.</p>	<ul style="list-style-type: none"> Development needs to respect the form and layout of the Kells estate 	<p>MINOR</p> <p>The site is not in the CA but is close to the Kells estate. There would be less than substantial harm (lower end) to the Conservation Area.</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
	<p>a clear sense of place. The estate is built close to the edge of Geldeston Hill, which leads down to the crossroads at the corner of the old village, and in this way compliments the existing village without compromising it. The shape of the village has not been spoiled by these additions which are well integrated with the older fabric.</p>	<p>There would be some views of the proposed site from Old Yarmouth Road although this would not have a significant impact on the setting of the CA.</p>		

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Rush Fen Cottage and Chilverton Cottage West End</p> <p>Grade II A pair of timber framed, medieval and later cottages. Rush Fen Cottage is the earlier, possibly being the remaining bay of a medieval aisled hall. It was later encased in brick, and today, all its exterior features seem 20th century. Chilverton Cottage was added in the 17th century, and retains two original mullioned windows, one with a date of 1618 marked on it.</p> <p>List Entry Number: 1304399 HER Reference: 12663</p>	<p>MEDIUM Their significance is derived from their age and architecture.</p> <p>The cottages are accessed from West End, a narrow, unmade track and located at right angles behind 19th century bungalows and so views are very contained and there are no wider views.</p>	<p>NEUTRAL The dwellings are approx. 115m to the south-west and there is substantial mature vegetation intervening, so they are not visible from the proposed site. In any case the cottages do not have a setting in this direction. Therefore, they will be unaffected.</p>	<p>None required</p>	<p>NEUTRAL: No harm</p>

Hales and Heckingham, Langley with Hardley, Carleton St Peter, Claxton, Raveningham and Sisland

Site Details

Site Reference Number:

SN0308

Site Address:

Land off Briar Lane, Hales

Site Size:

The site was originally assessed on an area of 1.4ha (map 1) but has subsequently been extended to an area of 2.48ha (map 2)

Proposed Housing Numbers on site:

35 dwellings

Note of update to the Heritage Impact Assessment:

The site has been extended to the north, potentially having a greater impact on the former Hales Hospital which lies to the east. A requirement to adjust the original site boundary arose following the Regulation 18 consultation and technical discussions that were held with the Lead Local Flood Authority. These discussions identified the presence of an on-site surface water flowpath to the west of the site. Due to the relationship between the site and the former Hales Hospital the Council has considered it appropriate to update the original Heritage Impact Assessment (HIA) to determine what impact may arise from this amendment. The map produced to support the initial HIA is included in this assessment as Map 1 whilst Map 2 updates this information to reflect the updated proposed allocation and the findings of this HIA. Any amendments to the textual information are highlighted below.

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Whilst there are no designated heritage assets on the site, the former Hales Hospital (grade II listed) lies to the east of the site. Therefore, any development of this site has the potential to impact upon the setting (and significance) of this heritage asset.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed building and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

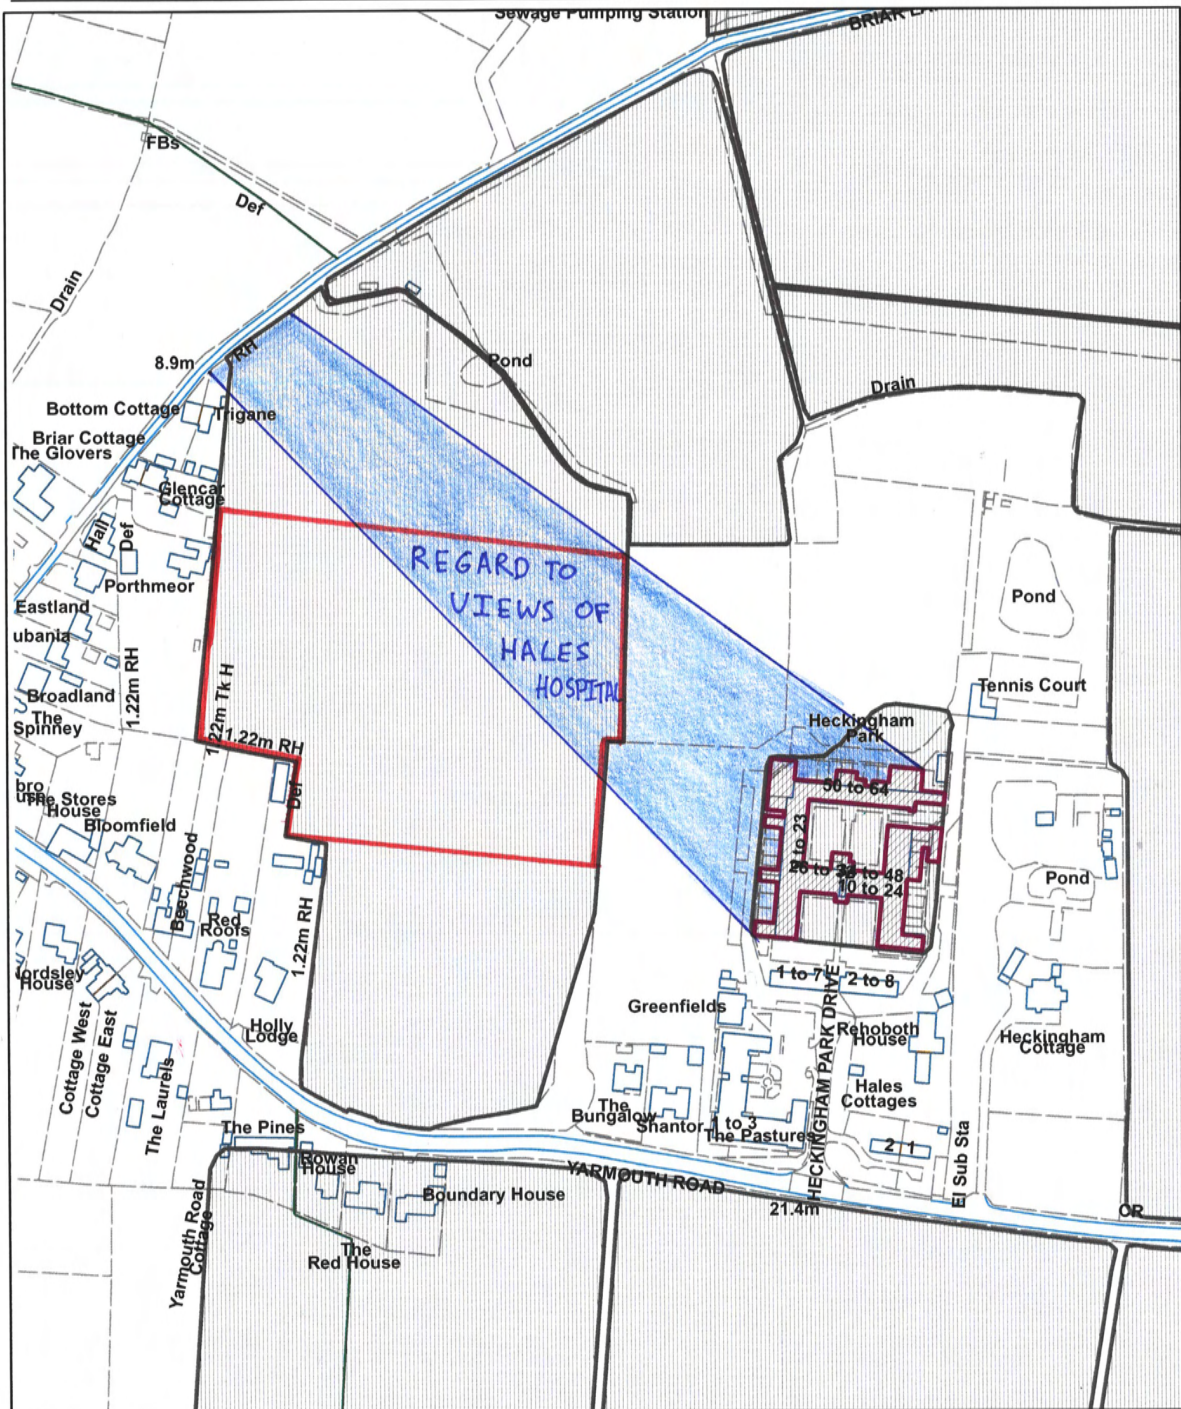

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Amber score.

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

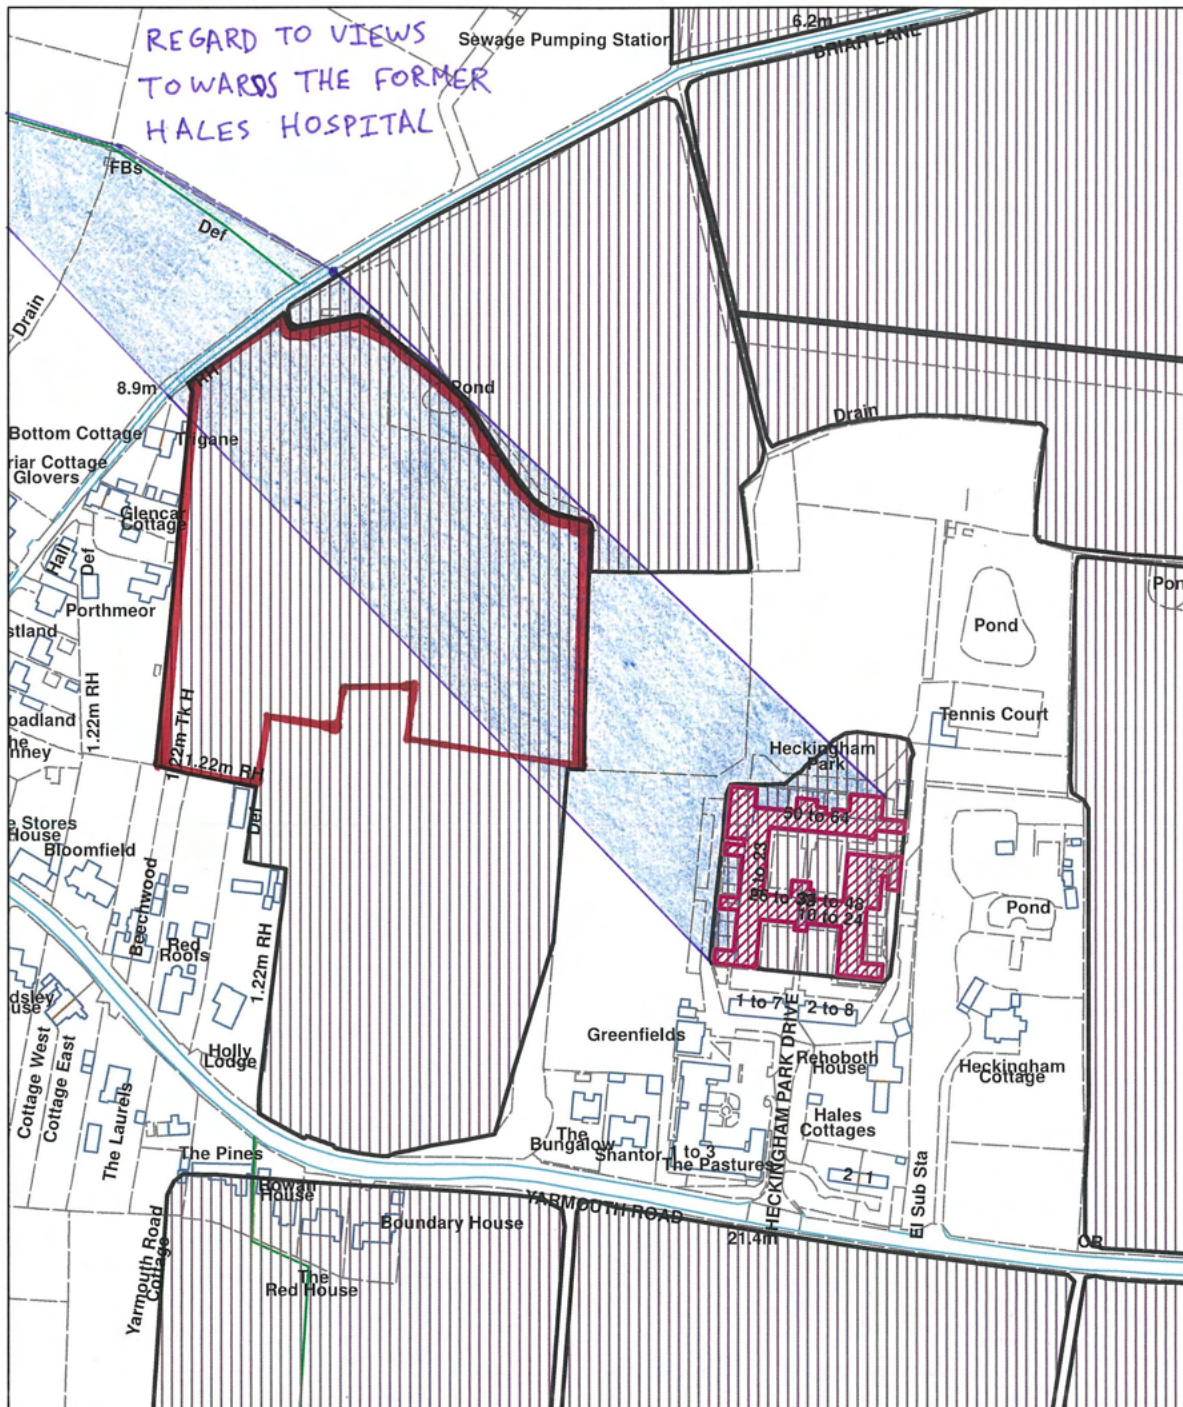

Some impact on setting of listed former workhouse to the east but nothing significant, especially with existing permission to south.

VC HAL1 (SN0308)

1:2500

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Hales Hospital Yarmouth Road</p> <p>Grade II. Workhouse built 1764 It is a substantial building that was much changed during its later use as a hospital. It was on the Buildings at Risk register and has now been converted to residential. To the north is a former burial ground.</p> <p>List Entry Number: 1373193</p> <p>HER Reference: 10539</p>	<p>MEDIUM Its significance is derived from its age, architecture and contribution to social history.</p> <p>The H-shaped, red brick, two storied building has a pedimented entrance to the south with ridge chimney stacks, symmetrically placed. Later two storey range along north side of north courtyard, with some C18 and C19 work, largely masked by later additions. The site of a pest house designed by John Harris of Ipswich in 1766 is marked on Bryant's map of 1826 although nothing can be seen at the site now.</p> <p>It is reported to be the first Union Workhouse in Norfolk. The primary view of the building would have been from the south on approaching its entrance with secondary longer public views of the rear from Briar Lane as the building is elevated.</p>	<p>MINOR The proposed development site is to the west of the listed building, separated by a parcel of agricultural land and is partially screened from this side by a tree belt. Ground levels fall across the proposed site and it has been reduced in size to minimise the impact on the setting of the listed building. It will read together with the existing allocation HAL1 to the south as part of the surrounding village development – the delegated report concluded application 2018/1934 for 20 units to have a less than substantial impact.</p> <p>The proposed development has no impact on the primary view which has been eroded over the years with housing built in front. The longer views from Briar Lane will remain.</p> <p>Whilst this site will bring development closer to the listed building it will not affect its historic value and what it represents for our social history.</p>	<ul style="list-style-type: none"> • Would require an assessment of building heights and proposed layout across the site to respond to site levels, particularly in the north-east corner, and retain existing views • Use this to inform appropriate use of landscaping along the boundaries 	<p>MINOR If any wider views identified are protected and enhanced by the layout and design then, less than substantial harm (at the lower end)</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
		<p>Update: The revision to the site boundary for this proposed allocation will extend the site to the north, potentially having a greater impact on the setting of the Listed Building in the wider landscape. This would be most evident in long views towards the site from Briar Lane. The existing tree belt provides some screening of the former Hales Hospital from Briars Lane. However, as set out above, primary views of the listed building were historically from the front aspect, and these have previously been eroded by development. The proposed amendment to the site boundary will not impact on these views.</p> <p>The changes proposed to the site boundaries do not affect the historic value of the building, or what it represents in our social history.</p>

Hempnall, Topcroft Street, Morningthorpe, Fritton, Shelton and Hardwick

Site Details

Site Reference Number:

SN0220 (allocation reference: VC HEM1)

Site Address:

Land at Millfields, Hempnall

Site Size:

The site was originally considered on area of approximately 0.48Ha (map 1) but was subsequently reduced to a site area of 0.35ha (map 2).

Proposed Housing Numbers on site:

Approximately 15 dwellings

Update Note to the Heritage Impact Assessment:

The site was originally proposed for approximately 15 dwellings on an area of land approximately 0.48ha. Subsequent discussions with the site promoter post the Regulation-18 stage of the VCHAP process have resulted in a reduced site area of 0.35ha. The Council considers that the original Heritage Impact Assessment remains valid and that the proposed reduction in the site area does not significantly alter the impact of the development on the setting and significance of the identified heritage assets. Map 1 shows the original proposed site area, whilst Map 2 updates this to reflect the amended site boundaries. Any textual changes to the assessment are also highlighted below.

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Whilst there are no designated heritage assets on the site, the disused windmill (grade II listed) lies to the east of the site. Therefore, any development of this site has the potential to impact on the setting (and significance) of this heritage asset.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed building and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy should include mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

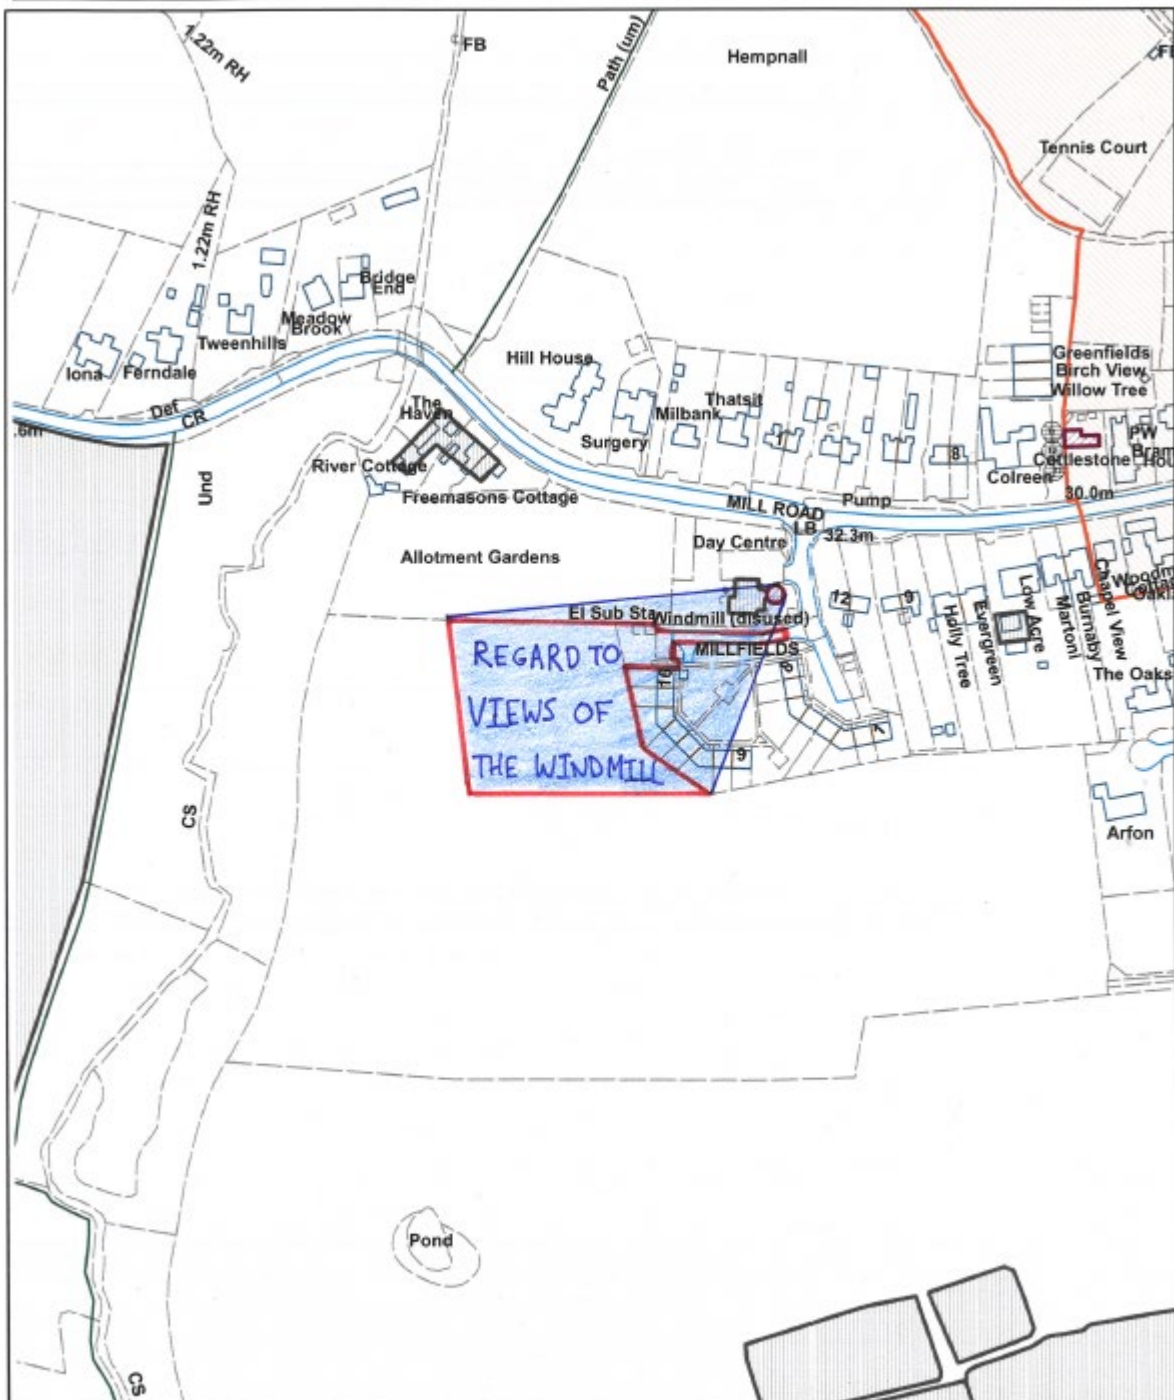

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

Likely requirement for limiting height due to neighbouring existing bungalow development around the setting of the Mill.

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Disused windmill (now part of Hempnall Mill Centre)</p> <p>Grade II listed building. C19 tower mill, tarred brick walls. No machinery. Circular on plan.</p> <p>Given a new use in 1978 when it was renovated, an extension added and opened as a day centre. The use continues today as a village hall for the local community.</p> <p>List Entry Number: 1050338 HER Reference: 10181</p>	<p>MEDIUM</p> <p>The mill is an example of an agricultural building and was used to mill corn and thresh seeds. It was built in 1814. Around 1936 the sails had been removed and it was derelict by 1972.</p> <p>Without its sails it is a less imposing building comprising just the mill tower, now painted black, and no machinery. However, its height and that it is seen from a distance as a landmark and an industrial feature in a rural context is significant.</p> <p>Residential development adjacent has changed the immediate setting to some degree and existing planting obscures views.</p>	<p>MODERATE</p> <p>The windmill would have originally been in an open undeveloped aspect, this has already changed to some degree, but the newest dwellings closest to the mill are single storey and because of its height there are still some views from and to the mill. The proposed development would be further west than existing dwellings but could impact on the longer views of the mill depending on the height of buildings. Highway improvements would be required to widen the access along the boundary with the mill. This should not have a significant impact as there is an existing road and work is at ground level.</p>	<ul style="list-style-type: none"> Careful layout design to keep views as open as possible so that the windmill retains its visual prominence in terms of height Layout designed to incorporate views of the windmill from public spaces The whole development should be limited in height to single storey Landscaping to be kept low and not obscure views of the mill, existing vegetation could be reduced in height along access 	<p>MINOR</p> <p>There would be benefit in opening up new views of the mill so that it can be experienced where previously there was not public access for those views.</p> <p>Less than substantial harm (at the lower end)</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Possible Late Neolithic/Bronze Age flint working site and multi-period finds</p> <p>HER Reference: 29412</p>	<p>MEDIUM</p> <p>The large number of Late Neolithic/Bronze Age flints present suggests that this may have been a lithic working or occupation site. Finds in the area are an indication that there has been historic settlement or working areas in the vicinity which could include the development site. It is also thought that there may be a 2nd church site.</p>	<p>NEUTRAL</p> <p>The finds have been located to the west of the site, separated by the River Tas. Also, a variety of items found to the south of the proposed site. No impact from the proposed development on areas where finds have been recorded to date.</p> <p>As no finds recorded on the proposed site the impact there is UNKNOWN.</p>	<ul style="list-style-type: none"> • No mitigation required for existing find sites • Require investigation on the proposed site prior to development commencing to identify and record any finds 	<p>NEUTRAL: No harm</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Freemasons Cottage</p> <p>Non-designated Heritage Asset.</p> <p>HER Reference: 15977</p>	<p>NEGLIGIBLE</p> <p>The site of an 18th century workhouse, on a map of 1836. There is uncertainty as to whether and when the building was demolished, or if the two-storey rendered building to the west of the site, now Freemasons Cottage, is a remaining part.</p> <p>It is the principal elevation of Freemasons Cottage, fronting north-east, which is of most significance in terms of architectural design, being in the Georgian style. The facing south elevation is of no significant architectural interest.</p>	<p>NEUTRAL</p> <p>None, the workhouse is no longer discernible, and the proposed site will be separated from the non-designated asset by the allotments and intervening vegetation along its entire northern boundary.</p> <p>The significance of the house is most appreciated in views of the building along Mill Road which would not be affected by the proposed development. With mature landscape to the south-east affecting intervisibility with the site the impact is neutral.</p>	<p>None required.</p>	<p>NEUTRAL: No harm</p>

South Norfolk Council Senior Heritage & Design Officer comments post Regulation 18 consultation stage:

Retaining an element of the openness and a rural connection would be important factors for preserving the setting of the barn; access to SN5041 if not via Burnthouse Lane would be an issue if not via a simple informal track; if the community use of the barn results in a large parking area and access that would have harmful impacts.

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Barn at Elm Farm Off School Lane</p> <p>Grade II Agricultural barn; west gable with date-stone 1768 and owl hole, wood doveholes over former opening, Flemish bond brick and pantile. 3 steads, lean-to additions.</p> <p>Farmhouse not listed.</p> <p>List Entry Number: 1373135 HER Reference: 44331</p>	<p>MEDIUM Its significance is derived from its architecture and as an example of a dated barn. It was derelict and although some renovation has taken place it is still in disrepair and only part used for storage.</p> <p>It forms a group with the other original buildings which have been altered; the farmhouse subdivided and outbuilding converted. The historic group has been eroded with a more intense residential use, but it remains of historic significance through its agricultural functional simplicity in a rural setting.</p> <p>The barn is tall and there are some public views of its roof glimpsed from surrounding roads although of minor significance.</p>	<p>MODERATE The listed barn is proposed to remain Future conversion and adaption would change its character however if it would provide a long term viable use of the building this would ensure its future preservation.</p> <p>The barn forms a group with the other buildings which are outside the proposed site and shown to be retained. However, the wider context of this agricultural group must also be considered.</p> <p>If the wider setting of the barn can be retained and it is renovated and opportunities for future renovation and reuse explored, then the impact would be positive. The existing views would also remain.</p>	<ul style="list-style-type: none"> • Potential to secure renovation and reuse of the building in the allocation site • Early liaison re: layout and amount of development to ensure the barn's rural setting in the grouping is retained and respected. This should include retaining an area south east of the listed barn free from development. 	<p>MODERATE beneficial impact which could secure the future of the heritage asset although the barn will be changed to some extent. If the surrounding development is designed to respect the rural setting of the barn to the south, including retaining an area free of development in front of the barn, its setting will be largely preserved and the outcome can be viewed as moderately beneficial..</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Undated linear ditch cropmark</p> <p>On aerial photographs on land to the north-east of Elm Farm, Little Melton.</p> <p>HER Reference: 54416</p>	<p>MEDIUM</p> <p>Contributes to the historical knowledge of the local area.</p>	<p>UNKNOWN</p> <p>This is within the proposed site and impact would depend on the extent of the cropmark, how it should be dealt with and therefore the layout. There is no record of similar features on the rest of the site. Therefore, the impact cannot be determined without further investigation across the whole site.</p>	<ul style="list-style-type: none"> Require further investigation at an early stage prior to confirmation of any layout to confirm the impact of development and what mitigation, if any, is required. This may dictate what layout is acceptable on this part of the site. 	<p>LIMITED if the mitigation is carried out and therefore no harm. However, if mitigation is not carried out the impact cannot be determined and the harm would be unknown.</p>
<p>Neolithic flints</p> <p>West of Burnthouse Lane</p> <p>A scatter of Neolithic flints including cores and scrapers found in 1977.</p> <p>HER Reference: 13413</p>	<p>MEDIUM</p> <p>Contributes to the historical knowledge of the local area.</p>	<p>NEUTRAL</p> <p>Site of Interest to west and no impact of the proposed site on the find area.</p> <p>Archaeological investigation taken place for approved site to north, also listed barn present on proposed site adds to the possibility of further finds in the area. Therefore, investigation would be required. As no finds recorded on the proposed site the impact there is UNKNOWN.</p>	<ul style="list-style-type: none"> Require investigation on the proposed site prior to development commencing to identify and record any finds 	<p>NEUTRAL: No harm</p>

Needham, Brockdish, Starston and Wortwell

Proposed Housing Numbers on site:

Up to 15 dwellings

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Whilst there are no designated heritage assets within this site, the grade I listed Church of St Peter, its boundary wall listed at grade II and Ivy Farmhouse, also listed at grade II lie to the south-west of the site. Therefore, any development of this site has the potential to impact upon the significance of these heritage assets.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed buildings and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Again, this is an important rural gap site in the village and consideration should be given to that role in combination with the setting of the heritage assets.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Roman coin Opposite the church HER Reference: 11080	MEDIUM A Roman coin of Vespasian was found in 1954.	NEUTRAL The finds have been located to the south of the site, separated by road and intervening development. No impact from the proposed development on this find area.	<ul style="list-style-type: none"> No mitigation required for existing find sites 	NEUTRAL: No harm
Prehistoric worked flints and Iron Age plaque HER record states south-east side of Wells Lane which is to the north of the proposed site HER Reference: 13940	MEDIUM Found in a ditch around 1939. Metal-detecting in around 1999 recovered an Iron Age object in the same field. The find has been mapped on the proposed site if so there is potential for further finds here. Finds in the area are an indication that there has been historic settlement or working areas in the vicinity which could include the development site.	UNKNOWN No impact on the find if it was in this field, need to investigate if there are any further items.	<ul style="list-style-type: none"> Require investigation on the proposed site prior to development commencing to identify and record any additional finds 	UNKNOWN

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Site of Roman settlement and pottery kilns On the opposite side of High Road</p> <p>Many finds over a number of years dating back to the Romans.</p> <p>HER Reference: 11071</p>	<p>HIGH Gravel extraction during the early 20th century recovered Mesolithic worked flints, a complete Neolithic vessel containing a cremation and a large Bronze Age pot in fragments. The site is most well known, however, for its Roman remains. These were first identified in 1921 and were excavated in the 1930s. These excavations revealed the presence of three Roman pottery kilns, a hearth and several ditches. These features and accompanying Roman finds have been interpreted as a small Roman settlement. This is of high significance.</p>	<p>The finds have been located opposite the proposed site, only separated by the road. No impact from the proposed development on this find area but given that it is so close there is a strong likelihood of archaeological finds on this site which must be investigated.</p>	<ul style="list-style-type: none"> Require investigation on the proposed site prior to development commencing to identify and record any additional finds 	<p>UNKNOWN</p>

Site Details

Site Reference Number:

SN2036 (allocation reference: VC WOR2)

Site Address:

Bell Field, High Road, Wortwell

Site Size:

0.4Ha

Proposed Housing Numbers on site:

5 (the site was originally assessed for 10 dwellings)

Note of Update to the Heritage Impact Assessment

The site is a carried forward allocation, originally allocated in the 2015 Local Plan. For the purposes of the Village Clusters Housing Allocation Plan the site was assessed for 10 dwellings on a larger site area. However, reflecting highways constraints that have been identified in proximity to the site, it has been considered appropriate to reconsider the site for the original proposed number of dwellings (i.e., approximately 5 houses).

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Whilst there are no designated heritage assets within this site, the grade II listed Bell Inn lies opposite this site. Another grade II listed property, known as Premises of Mr Brown, lies to the north of the site. Therefore, any development of this site has the potential to impact upon the significance of these heritage assets.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed buildings and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

None received

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

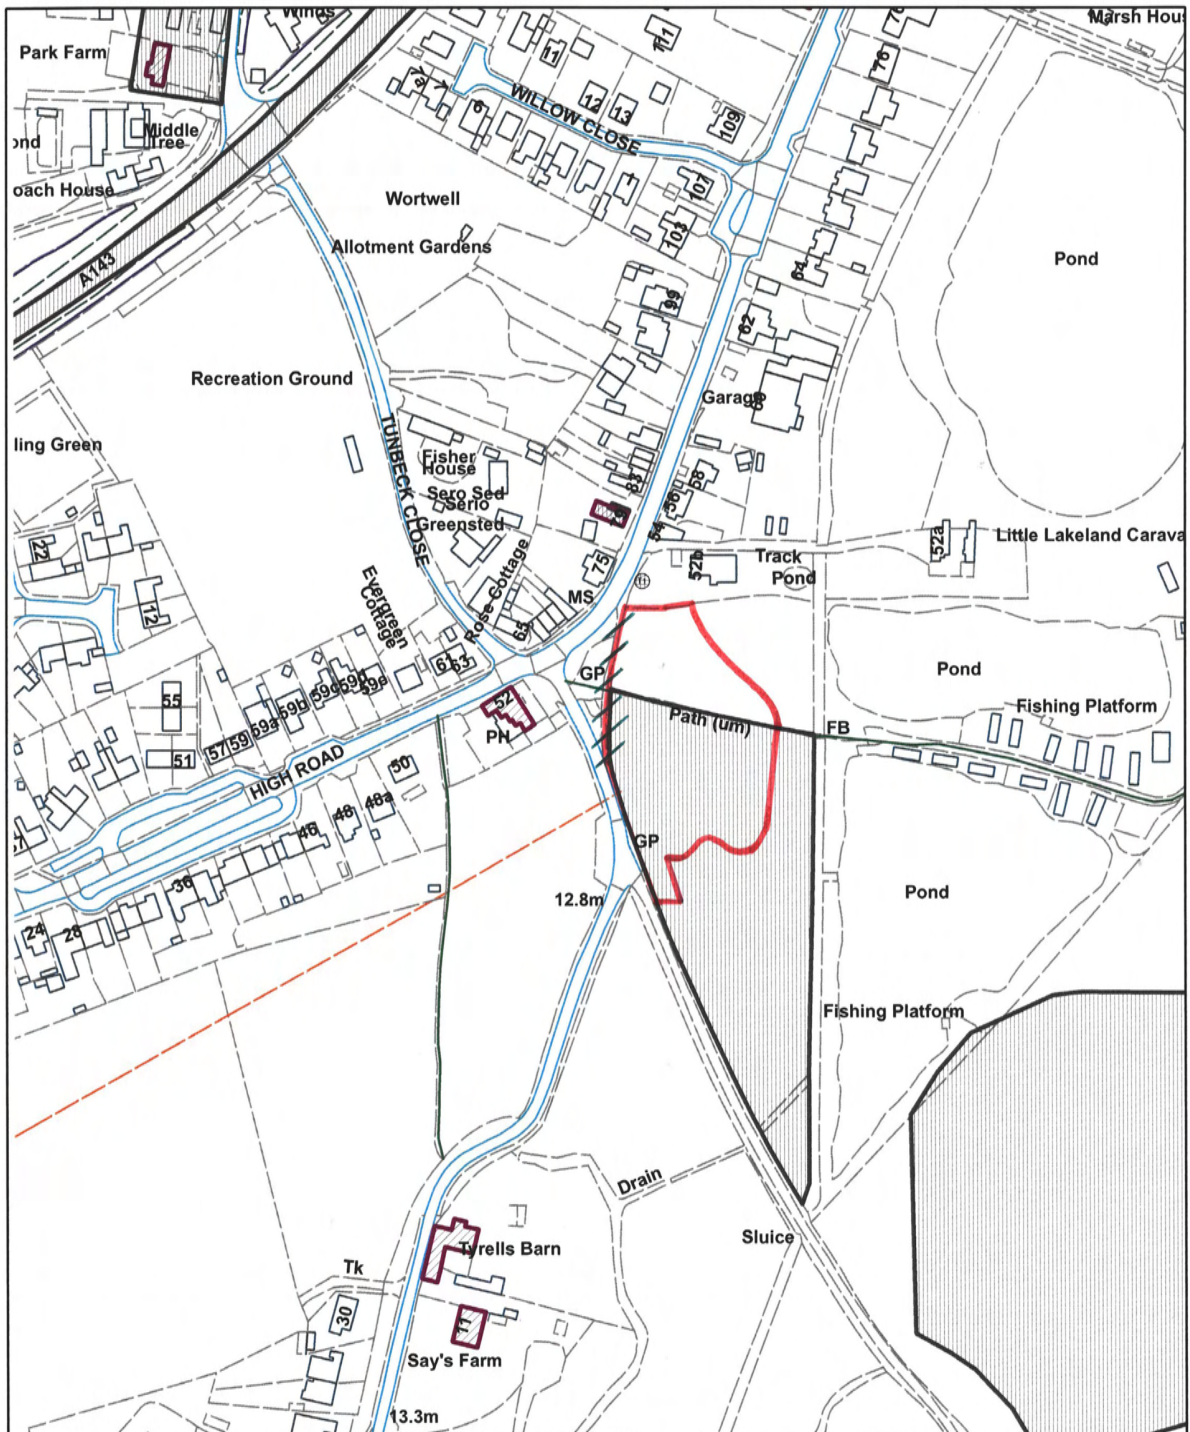

We have won appeals on the other side of the road south of the pub, partly based on setting of the pub and the listed farmhouse to the south.

Having had a look at the area, and with smaller affordable units in mind, I do think you could increase the density and have slightly more dense development to the north of the site, less so to south – with potential landscaping mitigation to the south – so a mix of development.

Even with the existing allocation, there would still be the need to take into account section 66 of the act to preserve the setting of the LBs. I think your suggestion of saying 'up to 10' is plausible as it allows any proposals to come forward where setting can still be assessed + as mentioned If you have say smaller affordable terrace or semis to the north of the site, where the existing historic grain/housing is mainly comprises of smaller c1900 workers housing, I don't see it being a problem.

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	CONTRIBUTING ELEMENTS TO THE SIGNIFICANCE OF THE HERITAGE ASSET(S)	IMPACT OF THE PROPOSED DEVELOPMENT ON THE SIGNIFICANCE OF THE HERITAGE ASSET(S)	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT OF THE SIGNIFICANCE OF THE HERITAGE ASSET(S) WITH MITIGATION OR ENHANCEMENT IN PLACE
<p>155 High Road</p> <p>Grade II C17/18 timber-frame house, plastered. Steep black glazed pantile roof with gabled ends. Brick chimney stack, two storeys.</p> <p>List Entry Number: 1373029 HER Reference: 45515</p>	<p>MEDIUM</p> <p>Its significance is derived from its architecture and age.</p> <p>Its setting is domestic, contained within its own curtilage. The side elevation can be seen from the road.</p>	<p>NEGLECTIBLE</p> <p>The cottage is located immediately to the north of the proposed site and shares a boundary.</p> <p>It faces north, away from the proposed site with its gable on to the road. These are the primary vies and are not affected by the site. Its rear elevation and garden to the south are adjacent to the site. The views of the rear are not significant and there is a timber-boarded outbuilding between.</p>	None required	NEUTRAL: No harm

<p>United Reformed Church High Road</p> <p>Grade II This church is a late 18th century chapel, thought to have been built in 1773, with an original gallery. It is square, with a red pantile roof, painted white exterior and long windows. It is a nonconformist chapel and conservative in style.</p> <p>List Entry Number: 1301564 HER Reference: 34948</p>	<p>MEDIUM</p> <p>Its significance is derived from its architecture and age and its function and position within the village.</p> <p>It faces the road and is set back with a small, neat graveyard directly in front creating a very distinctive setting when viewed from the front. This is typical of this type of chapel. The graveyard continues up the slope behind where there is a bank that restricts any views from the west. A new drive and car park area have been constructed to the northern boundary which has altered its immediate setting. It has limited longer views when travelling along High Road from the south, but views have been opened up to the north when large leylandii were recently removed.</p>	<p>MINOR</p> <p>It is located immediately to the north of the proposed site within limited grounds.</p> <p>The site would be physically separated by the new drive and carpark. Therefore, the immediate impact on the church and its principal front view would be limited.</p>	<ul style="list-style-type: none"> Carefully consider the layout, and also how this site sits between the two listed buildings. 	<p>NEUTRAL: no harm</p>

Settlement Limit extension (numbers to be determined by planning application)

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

This site lies within the Seething Conservation Area. Therefore, any development of this site has the potential to impact upon the significance of the Conservation Area.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the conservation area and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

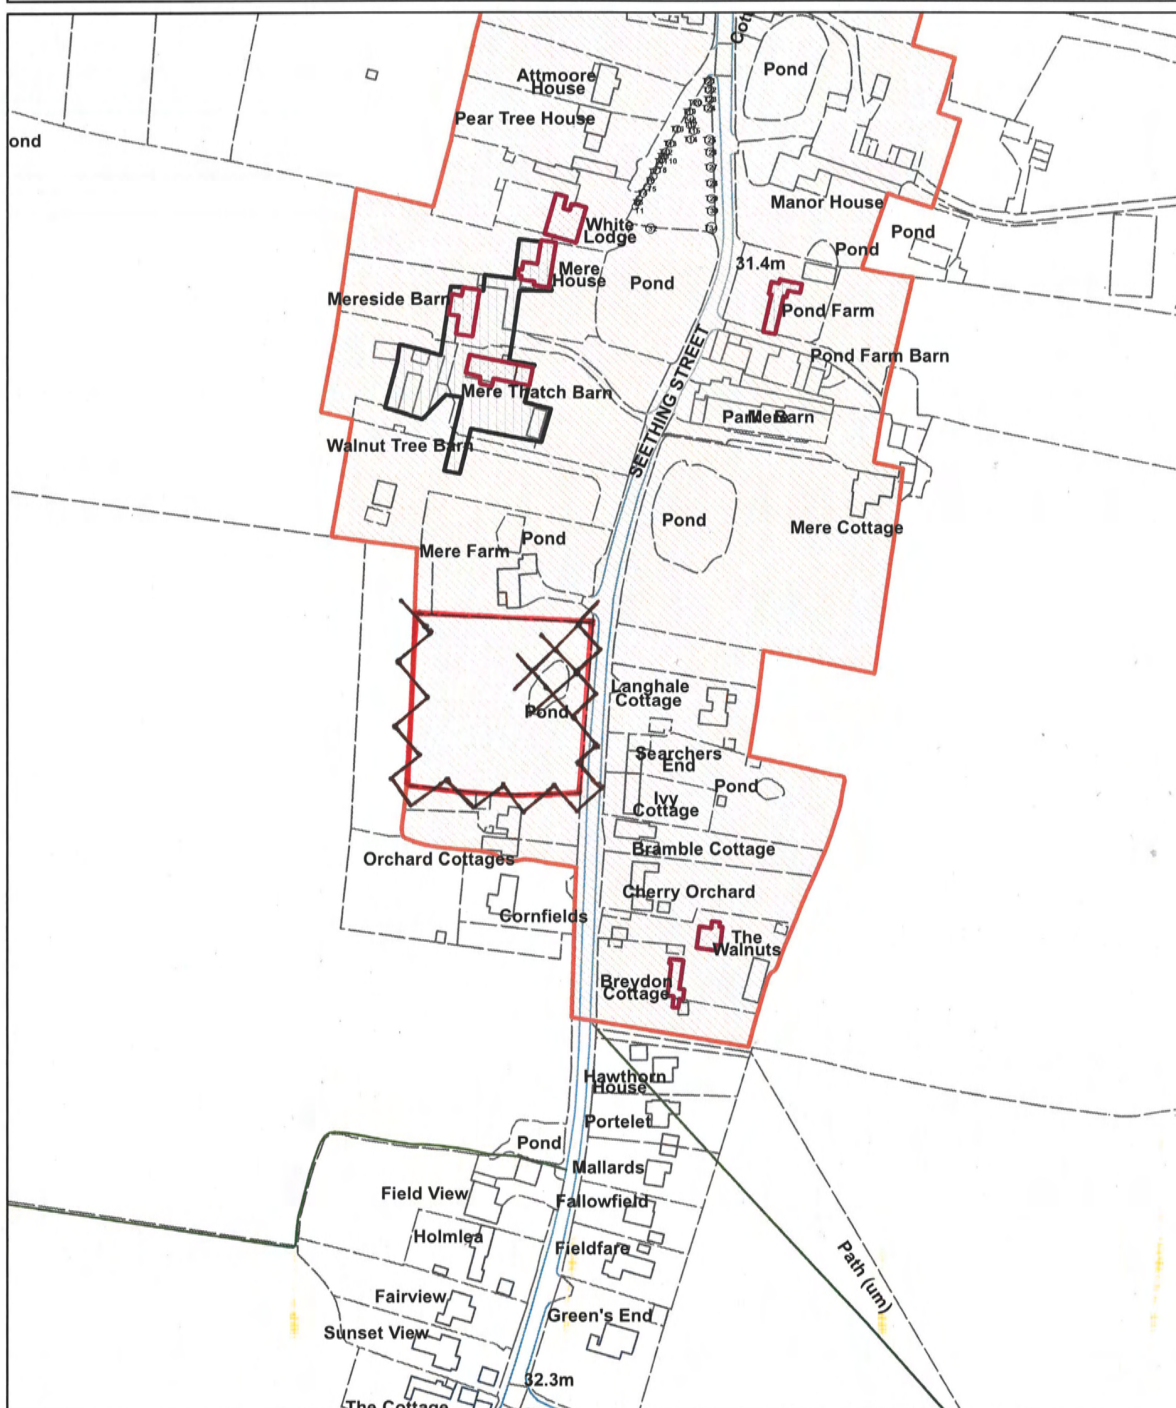

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

[As an extension to the settlement limit the site will be assessed by the Senior Heritage and Design Officer at the planning application stage]

As no finds recorded on the proposed site the impact there is UNKNOWN.</p>	<ul style="list-style-type: none"> • No mitigation required for existing find site • Require investigation on the proposed site prior to development commencing to identify and record any finds 	<p>NEUTRAL: No harm</p>

Toft Monks, Aldeby, Haddiscoe, Wheatacre and Burgh St Peter

Site Details

Site Reference Number:

SN0414 (part)

Site Address:

Land south of Beccles Road, Haddiscoe

Site Size:

The site was originally subject to assessment on a site area of 1.2Ha (as shown on map 1) and a revised site area of 3.01ha (shown on map 2)

Proposed Housing Numbers on site:

Up to 35 dwellings

Note of update to the Heritage Impact Assessment:

This site was originally preferred for up to 25 dwellings on a site area of 1.2ha at the northern end of a larger parcel of agricultural land. However, evidence has subsequently resulted in changes to the site boundaries being proposed to address an identified constraint on-site. To address amenity issues arising from the proximity of the original site to the A143 it is proposed that the allocation moves further south within the wider site. An area of open space is proposed between the new development and the A143 which could improve the resultant relationship between the site and the setting of the identified heritage assets. Map 1 shows the original site area, whilst Map 2 sets out the amended site boundaries. Any textual changes to the Heritage Impact Assessment arising from these changes are highlighted below.

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Whilst there are no designated heritage assets on site, the grade I listed St Marys Church, together with a War Memorial and monument to William Salter, both of which are listed at grade II, lie to the west of the site. Therefore, any development of this site has the potential to impact upon the significance of these heritage assets through development within the setting of the assets.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed buildings and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

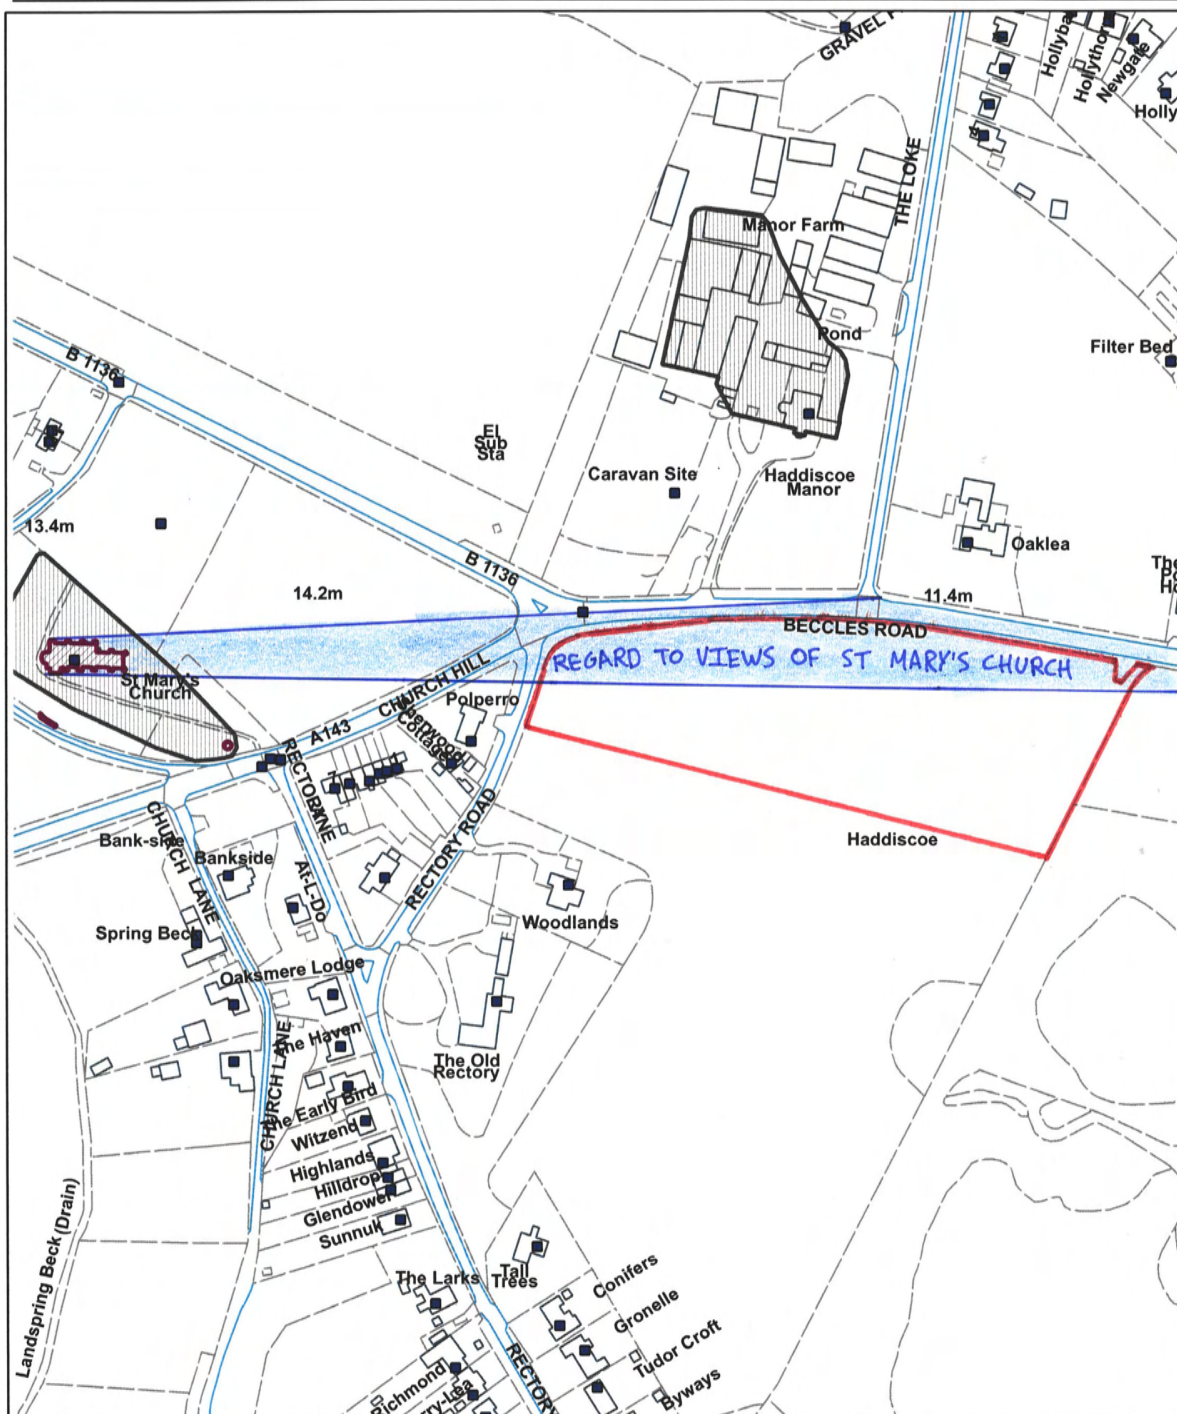

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

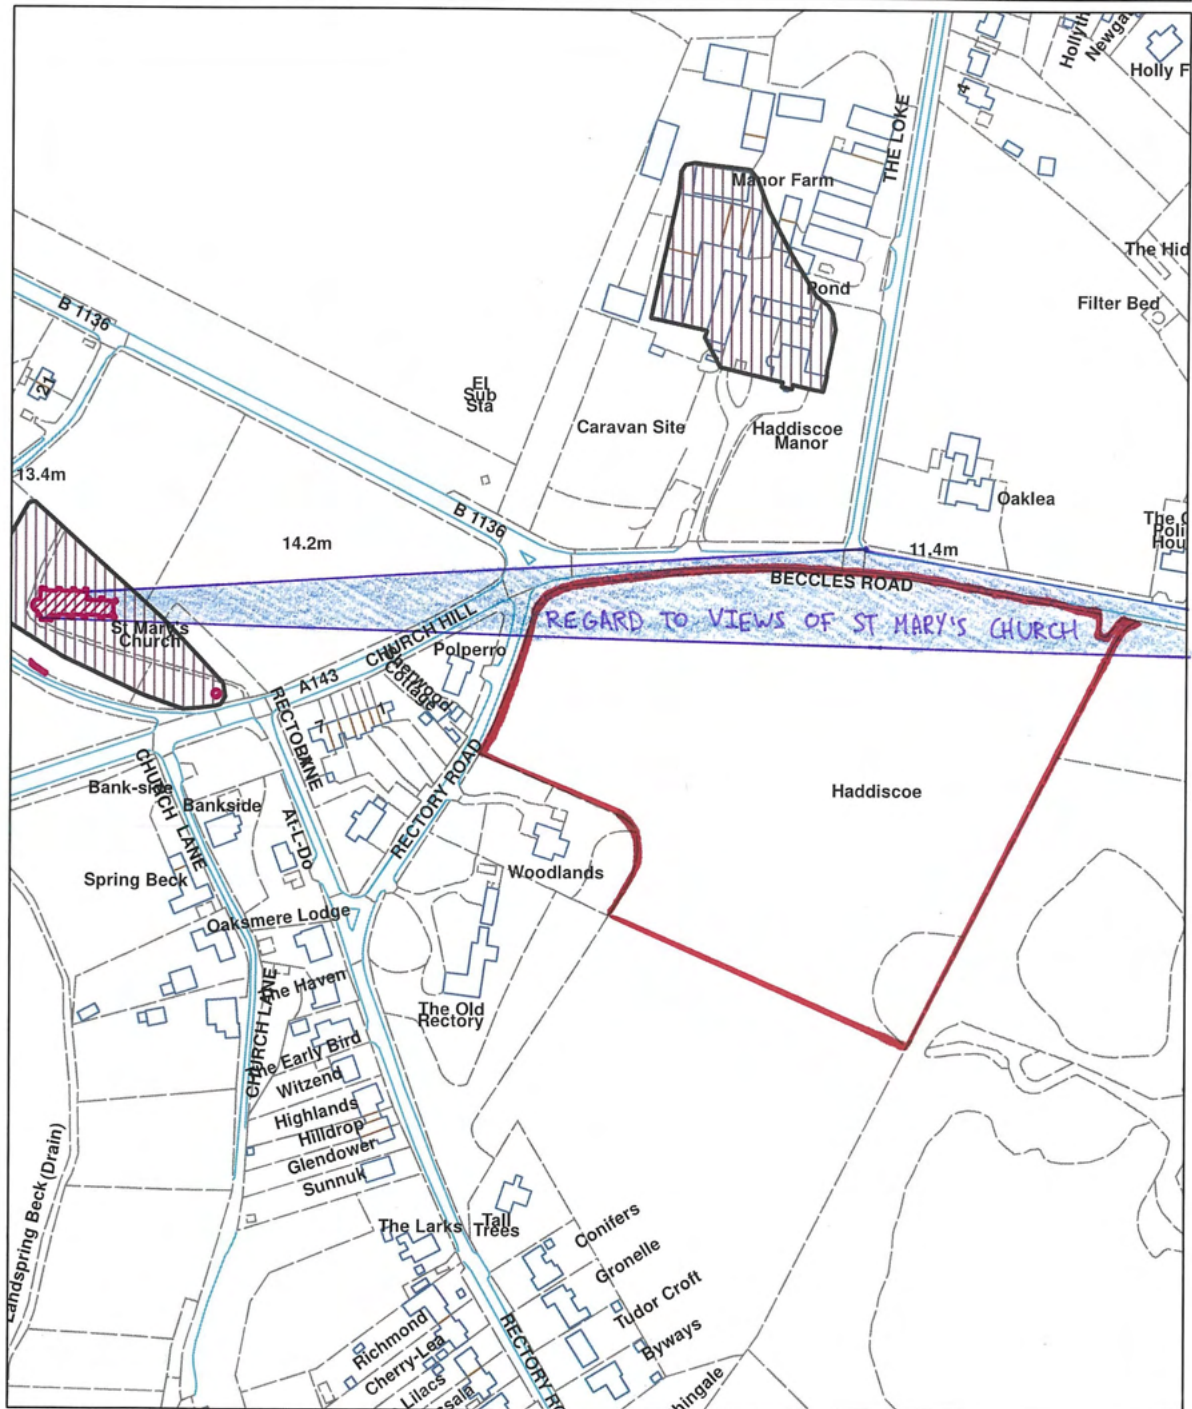

On plan the site does not look well related to the setting of the church – however, in reality when driving along the A143 west, the field is very open in views and the church is a very prominent landmark feature when seen in this rural setting. This is also quite an old route to Yarmouth with the crossing at Haddiscoe – so quite an historic view. The church will still be viewed from closer to – but I would say any development here would have a degree of harm on the setting. Potential mitigation could be setting the buildings further back from road etc.

Winfarthing and Shelfanger

Site Details

Site Reference Number:

SN4055 (allocation reference: VC WIN2)

Site Address:

Land off The Street, Winfarthing

Site Size:

0.98Ha

Proposed Housing Numbers on site:

The site was originally assessed for up to 25 dwellings but has subsequently been revised down to 20 dwellings

Update Note to the Heritage Impact Assessment:

The site was originally assessed for up to 25 dwellings on a parcel of land that extended to the west into a wider parcel of agricultural land. Following a review of the site post- the Regulation 18 consultation it was considered that a linear form of development on this site would be more appropriate in townscape terms, better reflecting the character of the village. It is not considered that this will have a significantly different impact on the setting of the heritage assets previously identified in this Heritage Impact Assessment. The map produced to support the initial HIA is included in this assessment as Map 1 whilst Map 2 updates this information to reflect the updated proposed allocation and the findings of this HIA. Any amendments to the textual information are highlighted below.

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Whilst there are no designated heritage assets on this site, the Winfarthing Conservation Area and grade II listed School house lie approximately 50 metres to the north of the site. Therefore, any development of this site that the potential to impact upon the significance of these heritage assets through development within the setting of the assets.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed buildings and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

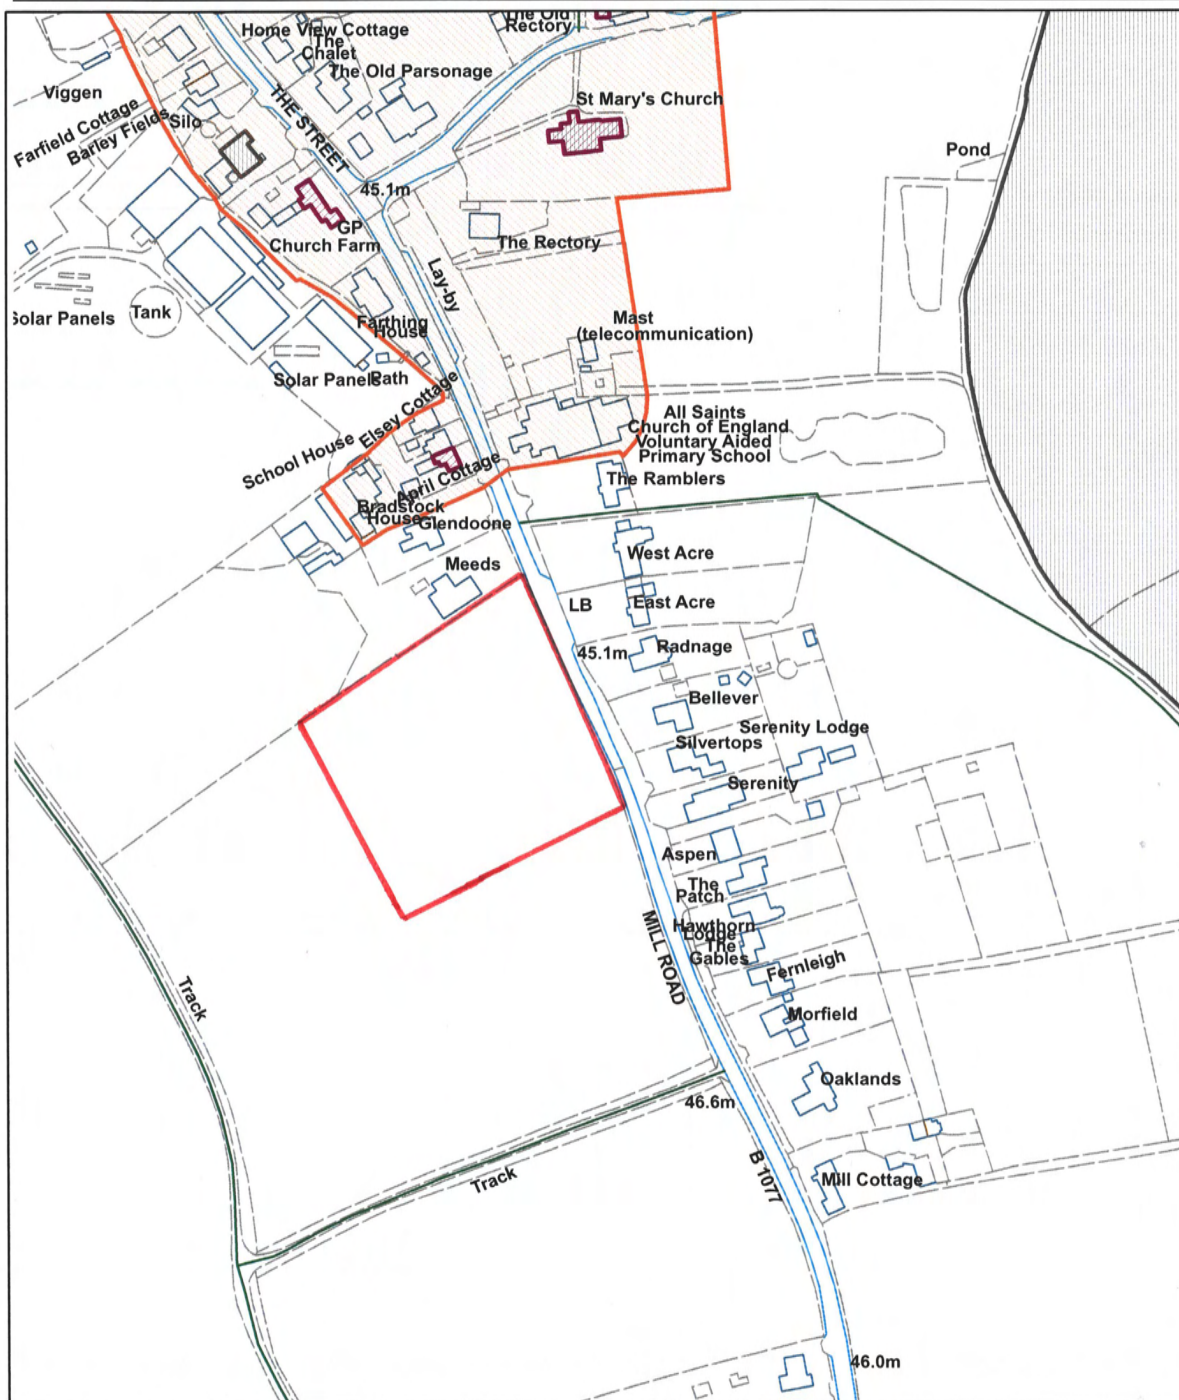

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

Amber. This should be limited to frontage linear development only to retain character of the village and fit in with existing local character along the street.

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Winfarthing Conservation Area</p> <p>The linear village of Winfarthing follows the B1077 just north of Diss. The CA covers a short section of the centre of the village on both sides of the road.</p> <p>Key Characteristics;</p> <ul style="list-style-type: none"> • Significant historic buildings in key positions • Positive contribution of trees and natural spaces • Original spaces between historic buildings largely infilled by modern dwellings 	<p>MEDIUM</p> <p>The village is surrounded by large open fields which give distant views along the shallow valley to the south forming the gently rolling northern slopes of the River Waveney. The "edge" between the village and surrounding countryside can be quite dramatic and heightened by vegetation.</p> <p>The CA encompasses The Street to generally a single plot depth. April Cottage, Schoolhouse, Elsey Cottages, with Bradstock House behind, mark the CA entrance at the south end. The school is set back from the street behind brightly coloured railings and while there has been alteration to the building, its original character is still strong. The proposed site is seen in this context.</p>	<p>MINOR</p> <p>The proposed site is wholly outside the CA and, with two modern bungalows between, does not share a boundary.</p> <p>It is to the south of the village and travelling north towards the CA the proposed site is visible to the west. It would be in the gateway view of the village leading into the CA.</p>	<ul style="list-style-type: none"> • This should have a strong street frontage to retain the character of the CA and fit in with existing local character along the street. • The dwellings should be considerate of the local vernacular and distinctiveness, especially in use of materials, with reference to the CA Appraisal. • Sensitive frontage design and careful consideration of the gateway into the CA is required. 	<p>NEGLIGIBLE</p> <p>Linear development could be successfully integrated with the village, respect its relationship to the conservation area and reflect the transition to the countryside, then it will result in no harm.</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>School House/April Cottage Mill Lane</p> <p>Grade II</p> <p>Two storey 17th century timber-framed house, plastered and has a steep pantile roof with gables. It has been subdivided.</p> <p>List Entry Number: 1050791 HER Reference: 40328</p>	<p>MEDIUM</p> <p>Its significance is derived from its architecture and age.</p> <p>Its immediate setting is protected within its own domestic curtilage. It is part of the CA street scene and visible from the south.</p>	<p>NEGLECTIBLE</p> <p>Located to the north of the proposed site and set back from the road frontage. It partly faces The Street with a wing to the rear and its elevation facing the proposed site, although at some distance so the significance of the listed building will not be affected. Taking account of the CA will also benefit School House.</p>	<ul style="list-style-type: none"> • Sensitive frontage design and careful consideration of the gateway into the CA with views of the listed building is required. 	<p>NEUTRAL: No harm</p>

Part D – Sites not included in the VCHAP

Alpington, Yelverton and Bergh Apton

Site Details

Site Address:

Land at Wheel Road, Alpington

Site Size:

circa 1.0ha

Proposed Housing Numbers on site:

12

Note: This site was previously considered for allocation at the Regulation 18 Alternative Sites and Focused Changes consultation. This site was not taken forward for allocation due to the highways requirements for the site that would require the loss of significant established hedgerows.

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Whilst there are no designated heritage assets within the site boundary, there is a grade II listed building, Stacey's Cottage to the south of the site. The development has the potential to impact the significance of this heritage asset via a change in its setting. We welcome the preparation of the Heritage Impact Assessment for the site. The assessment recommends a landscaping buffer along the southern boundary of the site to help mitigate any impact on the listed building to the south as well as retention of hedgerow along eastern border, limiting density to retain rural character and open space long eastern boundary to separate development from Wheel of Fortune PH.

The HIA has identified the need for landscape buffer along the southern boundary of the site as well as retention of hedgerow along eastern border, limiting density to retain rural character and open space long eastern boundary to separate development from Wheel of Fortune PH. These requirements should be included as a criterion in the policy for the site.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Amber

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

Wheel of Fortune can be considered an NDHA and development immediately adjacent to the building to the west would change its rural setting and therefore result in some harm. The original part of the building and thatch is visible across the field. However, as the assets is not listed a balanced judgement will be required having regard to the scale of any harm or loss and the significance of the heritage asset.

Regulation 19 Consultation Comments

Historic England comments at Regulation 19 consultation stage: N/A

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	CONTRIBUTING ELEMENTS TO THE SIGNIFICANCE OF THE HERITAGE ASSET(S)	IMPACT OF THE PROPOSED DEVELOPMENT ON THE SIGNIFICANCE OF THE HERITAGE ASSET(S)	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT OF THE SIGNIFICANCE OF THE HERITAGE ASSET(S) WITH MITIGATION OR ENHANCEMENT IN PLACE
<p>Stacey's Cottage, Reeder's Lane</p> <p>1373076 HER Reference: 44424</p> <p>Early 18th Century house. Partly rendered and colour washed brick, steep plain tiled roof, two storeys and an attic.</p>	<p>LESSER</p> <p>Significance is derived from its age and architecture.</p> <p>The house is set within a rectangular plot and orientated to the west.</p> <p>The house is enclosed on most sides by trees. The house appears to be exposed to the north, making it potentially visible from the site. However, the setting of the building appears to be limited to the plot it is located in.</p>	<p>MINOR</p> <p>The house is located to the south of the site. The site faces the only exposed side to the house.</p> <p>However, the house does not appear to have its significance based on its wider setting, therefore development on the site is unlikely to impact the elements that make the house significant. The house is also orientated towards the west, meaning the frontage of the house will not face the site.</p> <p>The reviewed site boundary will also maintain a separation between any development and the house by restricting development to the north of the site and keeping the southern half of the field open.</p>	<p>Planting along the southern border of the site to screen development from the house.</p>	<p>MINOR IMPACT</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	CONTRIBUTING ELEMENTS TO THE SIGNIFICANCE OF THE HERITAGE ASSET(S)	IMPACT OF THE PROPOSED DEVELOPMENT ON THE SIGNIFICANCE OF THE HERITAGE ASSET(S)	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT OF THE SIGNIFICANCE OF THE HERITAGE ASSET(S) WITH MITIGATION OR ENHANCEMENT IN PLACE
<p>Wheel of Fortune Public House</p> <p>Non-designated Heritage Asset.</p>	<p>LESSER</p> <p>The Wheel of Fortune is located immediately adjacent to the site to the east.</p> <p>A well established hedgerow separates the pub and the site and blocks views. However, the open nature of the site will mean that any development will affect the wider context of the pub.</p> <p>Existing development does face the pub on the opposite side of Wheel Road to the north and to the east. There is a small piece of open land and another established hedgerow between the pub and development to the east.</p>	<p>MEDIUM</p> <p>Development on the site will reduce the openness of the area and therefore impact the wider context of the pub.</p> <p>The existence of the established hedgerow will limit the direct impact on views and the setting, provided this is retained.</p> <p>There is existing development to the north and east. Development up to the eastern boundary would further enclose the Wheel of Fortune.</p>	<p>Retention of hedgerow along eastern border of the site.</p> <p>Limiting the amount of development on the site to maintain a rural character.</p> <p>Layout of development to include an area of open space along the eastern boundary to separate the development from the Wheel of Fortune Public House.</p>	<p>MINOR IMPACT</p>

Barford, Marlingford, Colton and Wrampingham

Site Details

Site Reference Number:

SN0552REVC

Site Address:

Land at Watton Rd, Barford

Site Size:

0.73Ha

Proposed Housing Numbers on site:

Up to 20 dwellings

Note – This HIA should be read in conjunction with the HIA for VC BAR1 (previously published as part of the Regulation 19 Consultation). This site was consulted on as a joint allocation with VC BAR1.

This site was previously considered for allocation at the Regulation 18 Alternative Sites and Focused Changes consultation. During this consultation, significant concerns were raised by Historic England regarding the impacts on heritage assets that had been identified through this HIA, namely Sayers Farmhouse. For this reason this site has not been taken forward for allocation.

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Whilst there are no designated heritage assets within the site boundary, there is a grade II listed building, Sayers Farmhouse, to the south of the site, just across Watton Road. The development has the potential to impact the significance of this heritage asset via a change in its setting. We welcome the preparation of the Heritage Impact Assessment for the site. However, the HIA identifies a major impact on the significance of the heritage asset. There would be considerable harm to the significance of the asset through development within its setting. Whilst we note suggested mitigation in the form of planting and open space, this is not sufficient. Therefore, we would recommend that this site should not be allocated.

We recommend that the site is not allocated but if the site is allocated, we would expect the policy criterion to include the mitigation measures recommended in the HIA including planting and open space and views to the countryside.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

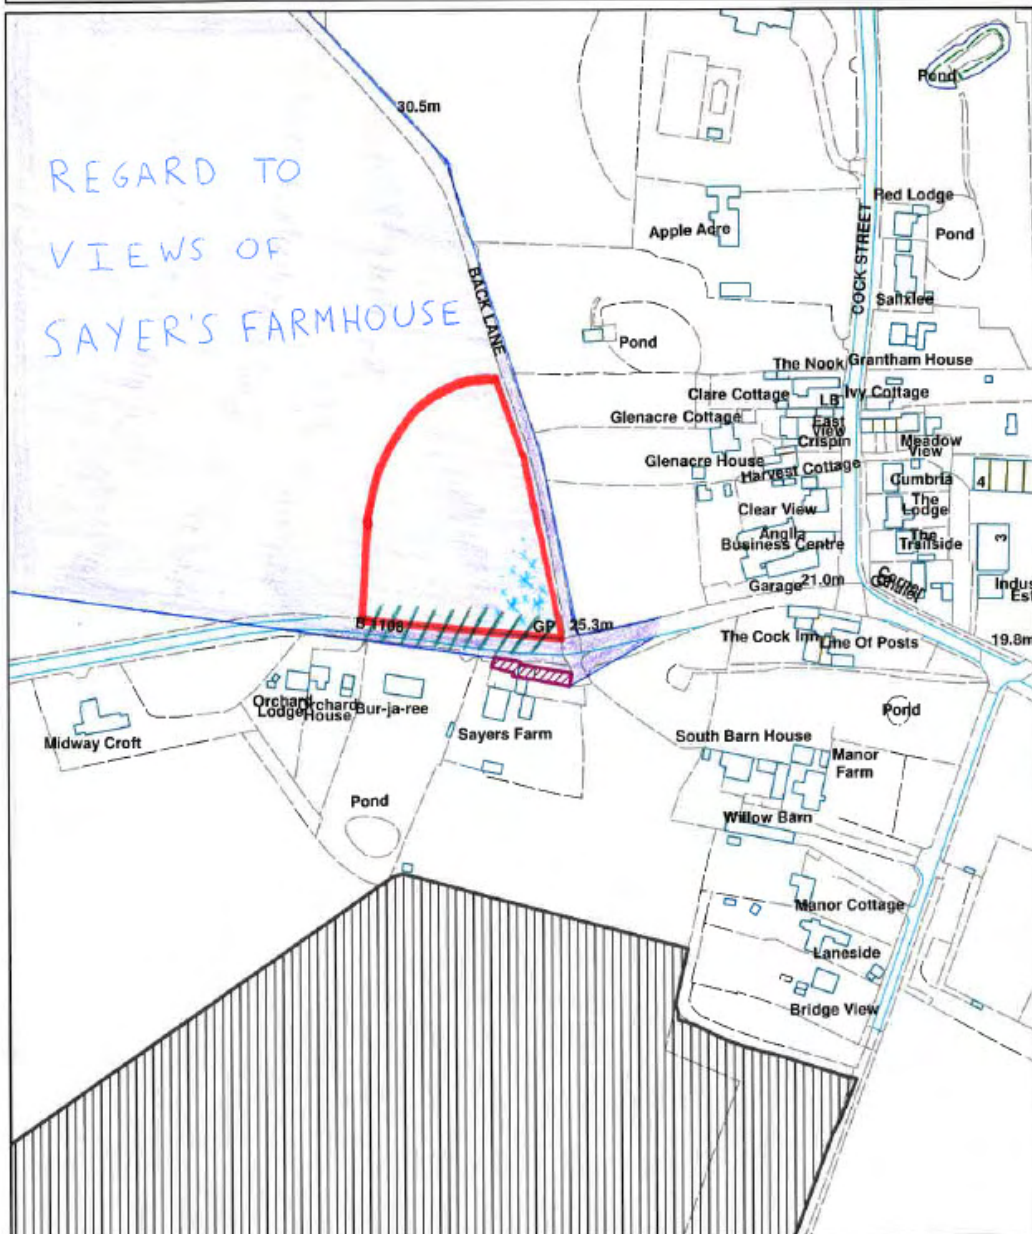

Amber

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage (on SN0552):

Concerns regarding the rural setting of Sayers Farm which currently fronts onto open countryside to the north. Back Lane is very small rural lane – more suited to walking than vehicle movements. The field is also at a higher ground level to the house and with taller modern floor to ceiling heights could result in development dominating the setting if two storey.

Land to the east of Spur Road and to the south of Norwich Road, Barnham Broom

Site Size:

1 Ha

Proposed Housing Numbers on site:

15 (15dph)

Note: This site was previously considered for allocation at the Regulation 18 Alternative Sites and Focused Changes consultation. Subsequently, this site has not been taken forward for allocation due to the frontage of the site being sold to a third-party landowner. It therefore became unclear if the frontage and the rest of the site could be delivered as a whole.

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Whilst there are no designated heritage assets within the site, Home Farm lies to the east of the site. The development has the potential to impact the significance of this heritage asset via a change in its setting. We welcome the preparation of the Heritage Impact Assessment for the site. We welcome the identification of Grove Farm as a non-designated heritage asset. The HIA also highlights the fact that the whole site is part of a World War II military site recorded on the HER. Further assessment of the archaeological significance is needed now to determine the suitability or otherwise of this site. We would like to see the further assessment before drawing any further conclusions in relation to the suitability of the site.

Depending upon the outcomes of the archaeological assessment, if the site is considered suitable for allocation, the policy criteria should include the recommendations from the HIA including tree planting along the southern boundary, low density developer to retain rural character, area of open space along eastern boundary to maintain separation between development and Grove Farm, retention of sight line from Grove Farm to Norwich Road and archaeological investigation prior to commencement of development.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Amber

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

Has the potential to affect Grove Farm which although not listed dates from before 1840 as is on the tithe map and has a range of contemporaneous outbuildings and could be considered an NDHA in the plan making process. Suggested that a gap is retained for the setting of the farm buildings.

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

Although there are no designated heritage assets on site, the site lies immediately opposite the grade II listed Pine Tree Cottage. Development of this site has the potential to impact upon the significance of this designated heritage assets through development within its setting.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed building and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

This would continue the development on this side of the road with linear development which is very characteristic of Bressingham. There is no existing hedgerow, but being peripheral and an entry to the village, re-establishment of hedgerow and setting building back from road with access drive may be beneficial to the more rural character of the settlement. Plot boundary line does appear to be drawn to allow scope for this. Don't want it to be too urban.

Setting building back would also benefit setting of LB opposite.

The Setting of Pine Tree Cottage would be affected but agree that suitable development would not result in significant harm if well designed/good materials. The house faces away from the road and has quite an immediate setting. Setting should be mentioned in allocation to ensure better design and materials.

SN3019SL

1:2500

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF THE PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION OR ENHANCEMENT IN PLACE
<p>Pine Tree Cottage, School Road</p> <p>Grade II Grade II timber framed house dating from the 17th century, with later additions. The dwelling has unusual graffiti carved on the exterior timbers.</p> <p>List Entry Number: 1170621 HER Reference: 40724</p>	<p>MEDIUM</p> <p>Its significance is derived from its architecture and age; Pine Tree Cottage is a single dwelling set within a relatively narrow but deep plot that extends to the south and east of the building. The cottage lies to the north-west of its plot.</p> <p>It is located to the east of School Road and has agricultural land to the north, south and west. There are a number of mature trees in both the immediate and wider landscape and the plot is bounded by mature hedgerows. This landscaping limits wider views of the heritage asset and creates a sense of enclosure around the building. The principal elevation of the dwelling is to the south with no discernible features in the west elevation. Although in a slightly detached location from the rest of the settlement, this is not considered that significant in terms of setting to the asset's architectural and historic character.</p>	<p>MINOR</p> <p>Development would be located on the site immediately to the west of the heritage asset across School Road, closest to the side elevation of the dwelling. The isolation of the dwelling in the wider landscape would be reduced however the building is already viewed within the context of existing development to the north, as well as adjacent to this site on School Road. The building's partial rural setting does not make a significant contrition to the architectural and historic character and significance of building, which mainly derives from its appearance and historic fabric. Views of the pantile roof on the north side from the road, which is a prominent feature of the building, will be preserved.</p>	<ul style="list-style-type: none"> A significant low level landscape buffer along the eastern boundary would soften the visual impact on the cottage and provide a more traditional rural hedge line. 	<p>MINOR and less than substantial harm (lower end)</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF THE PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION OR ENHANCEMENT IN PLACE
<p>Roman and medieval to post-medieval finds</p> <p>East of School Road</p> <p>Metal-detecting in 2016 recovered medieval pottery shards</p> <p>HER Reference: 61755</p>	<p>MEDIUM</p> <p>Contributes to the historical knowledge of the local area.; Roman and medieval coins; undated casting waste, a medieval mirror case fragment, medieval/ post-medieval weight, and a post-medieval book fitting.</p>	<p>NEUTRAL</p> <p>The finds were in a field across School Road to the east, therefore development would not affect the find site. But suggests additional finds possible.</p> <p>As no finds recorded on the proposed site the impact there is UNKNOWN.</p>	<ul style="list-style-type: none"> This site would need to be investigated prior to development. 	<p>NEUTRAL: No harm</p>

Hempnall, Topcroft Street, Morningthorpe, Fritton, Shelton and Hardwick

Site Details

Site Reference Number:

SN1015

Site Address:

Land adjacent to the primary school, The Street, Hempnall

Site Size:

1.6Ha

Proposed Housing Numbers on site:

20 dwellings

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

The site is located almost entirely within the Hempnall Conservation Area. It lies opposite two grade II listed buildings, Lime Tree Cottage, and Pevensey House and close to a third, grade II listed building, the Hollies. Therefore, any development of this site has the potential to impact upon the significance of these heritage assets.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed buildings and conservation area and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

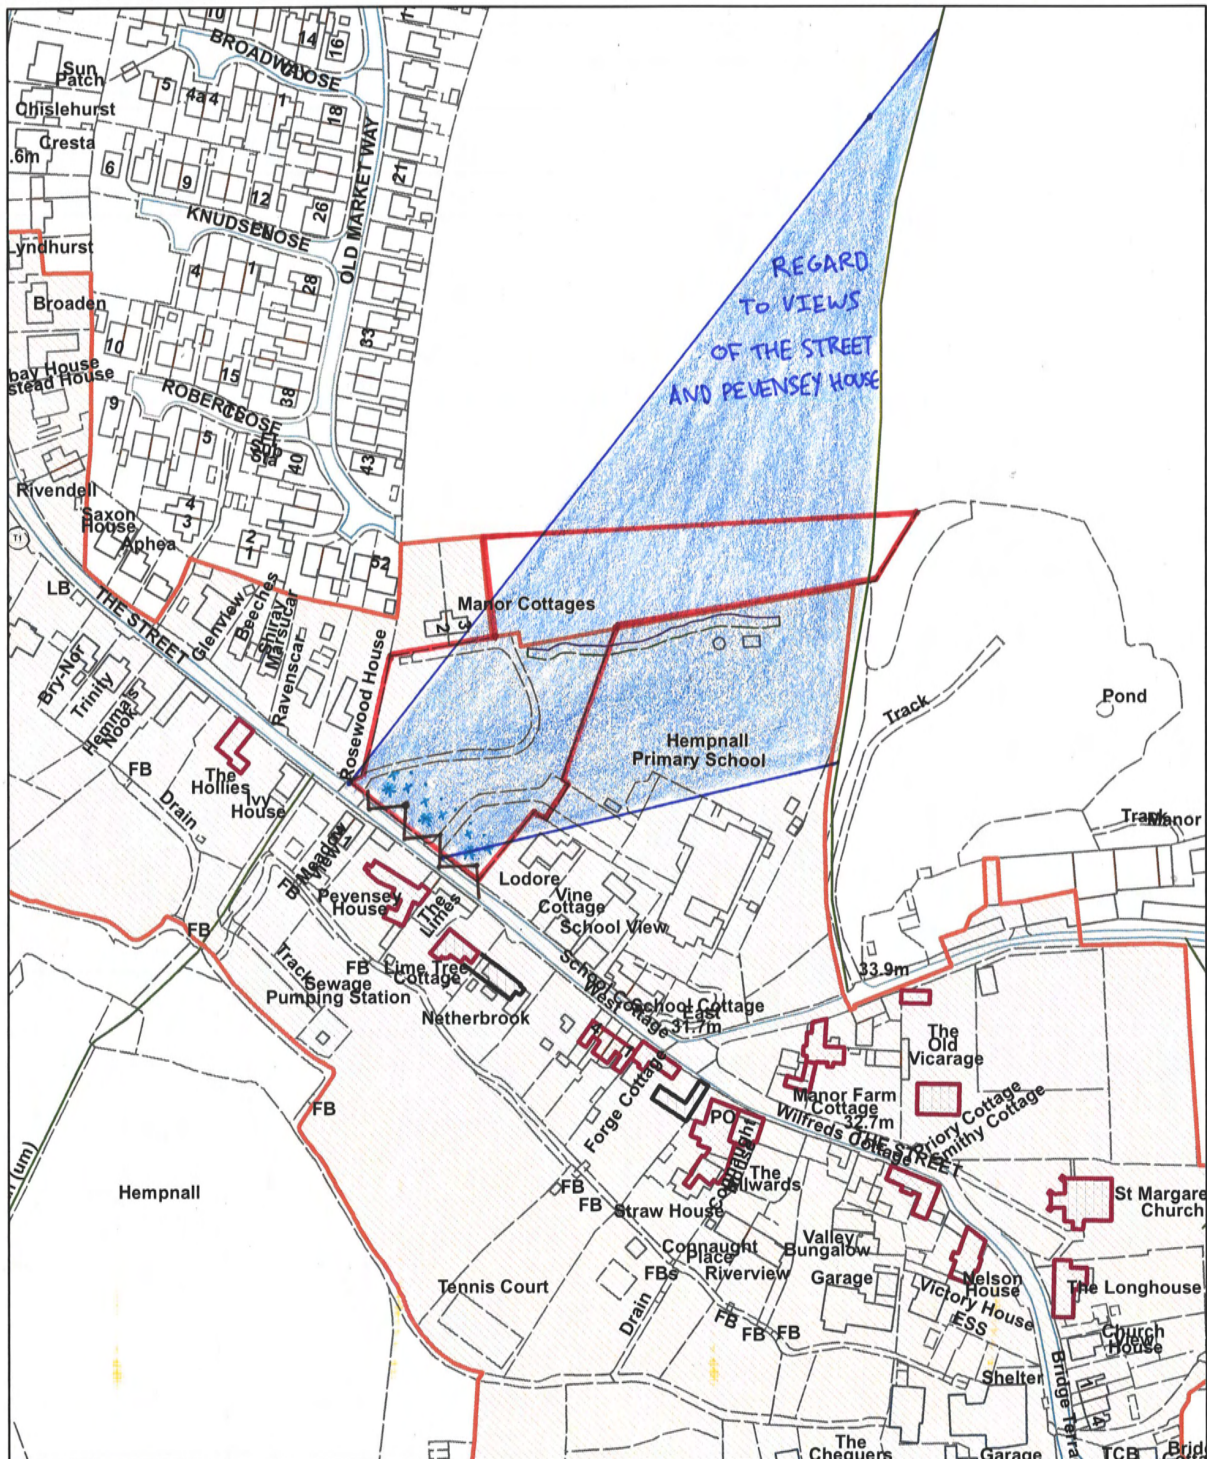

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

None received (The Senior Heritage & Design Officer has reviewed these Heritage Impact Assessments).

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Hempnall Conservation Area</p> <p>Key Characteristics;</p> <ul style="list-style-type: none"> • Buildings and walls set close to the footpath which define the streets • Farm and commercial buildings integrated into the streetscape • Key open spaces and trees • Major contribution of St Margaret's Church as a landmark • Infilling with a number of modern dwellings, which tend to be set back from the road • Views of the landscape 	<p>MEDIUM</p> <p>Hempnall has a modest village centre shaped by a range of historic buildings and walls dissected by the three primary roads. It is centred on The Street with plot depths limited to the south by the water meadows with postwar development north towards Broaden Lane and south around Field Lane. The Street has good tree and hedge planting, especially along the road frontage which contributes to the rural character of the area.</p> <p>The special character of the CA is derived from the setting of a variety of historic buildings in an attractive and varied</p>	<p>MODERATE</p> <p>The southern part of the site, fronting The Street is inside the CA with the northern agricultural field outside.</p> <p>The development in the northern area would have a detrimental impact on the CA as it would be a breakout of the village into the undulating rural landscape.</p> <p>The site is located in the centre of the village close to the more recent housing around Broadens Lane however, development would close up this key open area in the heart of the CA and reduce the wider views of the rural landscape.</p> <p>There is a public footpath which runs from Bussey's Loke</p>	<ul style="list-style-type: none"> • The layout must respond to the topography and maintain views across the site from The Street and views from the site and the footpath back to The Street • Density and height should be lower to the north beyond the ridge, responding to the topography. It is likely that this will reduce the number of dwellings • Along the frontage with The Street - retain and enhance the planting along and incorporate a village feature as a public open space 	<p>MODERATE</p> <p>Very careful design and positioning of dwellings would be essential as well as maintaining gaps so that views out to the landscape and into the CA can still be glimpsed. This is key to retain the character and appreciation of this part of the CA. If the mitigation measures are used with careful consideration, a bespoke development may be successfully integrated into the village to respect its relationship with the conservation area then it will result in less than substantial harm (medium).</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
	<p>street pattern set in a river valley landscape. Glimpses of the wider landscape can be seen through the gaps between buildings and beyond the major open spaces within the village. This contact with landscape coupled with the many mature trees and strong hedge lines, contributes to the character and appearance of the area. The Church is the primary building, and its significance is enhanced by its central elevated position. The CA Appraisal lists the school playing field to the north of The Street as an important “green” open space.</p>	<p>to the east boundary and gives long views back towards the CA and the proposed site would be visible in these views.</p> <p>The visual impact would be increased because of the ridge running through the site.</p> <p>The CA Appraisal refers to the site in 2017; ‘The new entrance to the school opposite still looks “raw” and could be improved by additional tree planting to soften its impact while at the same time framing the longer view over the meadow and playing fields’.</p>	<ul style="list-style-type: none"> • Along the Street buildings should be spaced to maintain historic grain and character. • Design of the dwellings to reflect the best of the village vernacular 	

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>St Margaret's, Church Plain, The Street</p> <p>Grade I Parish Church. Pre-conquest origin, rebuilt in C13 and C14.</p> <p>List Entry Number: 1050328</p> <p>HER Reference: 10185</p>	<p>HIGH</p> <p>Its significance is derived from its age, architecture and social history and its place within the village.</p> <p>It is in an elevated position which dominates the southern part of The Street and views from the southern part of the village.</p>	<p>NEUTRAL</p> <p>The proposed site does not impact directly on this asset. St Margaret's Church is located to the north of The Street and separated from the site by intervening land uses and vegetation. It close to the road within a contained churchyard. Whilst the tower can be glimpsed from the site there would be no significant intervisibility, and the important contextual views are concentrated on the southern part of The Street and the intersection of the roads.</p>	<p>None required</p>	<p>NEGLIGIBLE: No harm</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Pevensey House The Street</p> <p>Grade II A 17th or 18th century painted brick house with later alterations. It has a steep black glazed pantile roof and gable ends.</p> <p>List Entry Number: 1373262 HER Reference: 43233</p>	<p>MEDIUM It is significant because of its historic architecture and its general contribution to the character of the CA. Its immediate setting is relatively contained, although open at the front so it can be seen from The Street and is a significant dwelling in the street scene. It looks out over the proposed site and this open aspect adds to its significance.</p>	<p>MODERATE Located facing the street, directly opposite the site. which means its views, views of it and the openness of its context will all be affected.</p>	<ul style="list-style-type: none"> Retain views across the site so that the frontage of Pevensey House is visible from the north-east and not completely closed in. 	<p>MINOR: The immediate setting of the building will not be affected and if views across the site are retained and related to the listed building then there will be Less than substantial harm (medium).</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Manor House School Lane</p> <p>Grade II An early 17th century house with later features. The main block has stepped gables with polygonal turrets at each end. The rear wing has a 19th century brick façade, with earlier origins. There is wattle and daub walling inside. The garden wall is 17th century, there is a 19th century privy and there are reports of a demolished dovecot.</p> <p>List Entry Number: 1050542 HER Reference: 11625</p>	<p>MEDIUM Its significance is derived from its age and architecture and its position within the village hierarchy.</p> <p>This grand manor house was set in large grounds with extensive outbuildings to the north-east. These are not listed and have been converted into dwellings with separate curtilages. The manor house retains its stature within reduced grounds which lie to the front and rear. It also has mature trees and hedge lines contributing to its existing setting.</p>	<p>NEUTRAL The house is approx. 95m to the south-west of the closest part of the proposed site. The converted barns sit between part of the site and the house.</p> <p>Whilst it is a grand house and its grounds have been reduced over time it is well contained within a spacious setting and any new development outside the boundaries will not impact on its significance.</p>	None required	NEUTRAL: no harm

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Manor Farm Barns School Lane</p> <p>Non-designated heritage asset</p>	<p>LOW</p> <p>The barns' significance are derived from their age and architecture and their previous connection to the Manor House. They are an impressive group of buildings and so are considered a non-designated heritage asset. Their setting now relates to the curtilages of the dwellings.</p>	<p>NEUTRAL</p> <p>They are closer to the west of the site than the Manor and share a boundary with the proposed site.</p> <p>However, the barns face away from the site towards the Manor and it is the rear gardens which are closest to the site. In addition, there is a substantial hedge which contains the buildings. Therefore, development outside the boundaries will not impact on the barns' significance.</p>	<p>None required</p>	<p>NEUTRAL: No harm</p>
<p>Prehistoric flints and undated pottery</p> <p>East of site</p> <p>Found fieldwalking for the southern bypass and after a later watching brief.</p> <p>HER Reference: 25705</p>	<p>MEDIUM</p> <p>Contributes to the historical knowledge of the local area.</p>	<p>NEUTRAL</p> <p>There is a field in-between, so no impact of the proposed site on the find. But it adds to the possibility of further finds in the area. As no finds recorded on the proposed site the impact there is UNKNOWN.</p>	<ul style="list-style-type: none"> • No mitigation required for existing find site • Require investigation on the proposed site prior to development commencing to identify and record any finds 	<p>NEUTRAL: No harm</p>

<p>Possible post medieval linear ditch earthwork South-west corner</p> <p>On aerial photographs on land to the south east of Manor Farm, Little Melton.</p> <p>HER Reference: 54422</p>	<p>MEDIUM Contributes to the historical knowledge of the local area.</p>	<p>UNKNOWN This is overlapping with the proposed site. There is no record of similar features on the rest of the site. Therefore, the impact cannot be determined without further investigation.</p>	<ul style="list-style-type: none"> Require further investigation prior to development commencing to confirm and record if features are present 	<p>UNKNOWN There may be further evidence on the proposed site which should be investigated prior to any development.</p>
<p>Undated linear ditch cropmarks Large area to the north of School Lane</p> <p>HER Reference: 54421</p>	<p>MEDIUM Contributes to the historical knowledge of the local area.</p>	<p>NEUTRAL There is a road in-between, so no impact of the proposed site on the features. But it adds to the possibility of others in the area. As none recorded on the proposed site the impact there is UNKNOWN.</p>	<ul style="list-style-type: none"> No mitigation required for existing find site Require investigation on the proposed site prior to development commencing to identify and record any finds 	<p>NEUTRAL: No harm</p>

Needham, Brockdish, Starston and Wortwell

Site Details

Site Reference Number:

SN4069SL

Site Address:

Land south of Scole Road, Brockdish

Site Size:

0.18Ha

Proposed Housing Numbers on site:

The site would be a settlement limit extension (numbers determined by planning application)

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

The site is located entirely within the Brockdish Conservation Area and opposite the grade II listed White House Farmhouse. Therefore, any development of this site has the potential to impact upon the significance of these heritage assets including the setting of the Farmhouse.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed building and conservation area and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

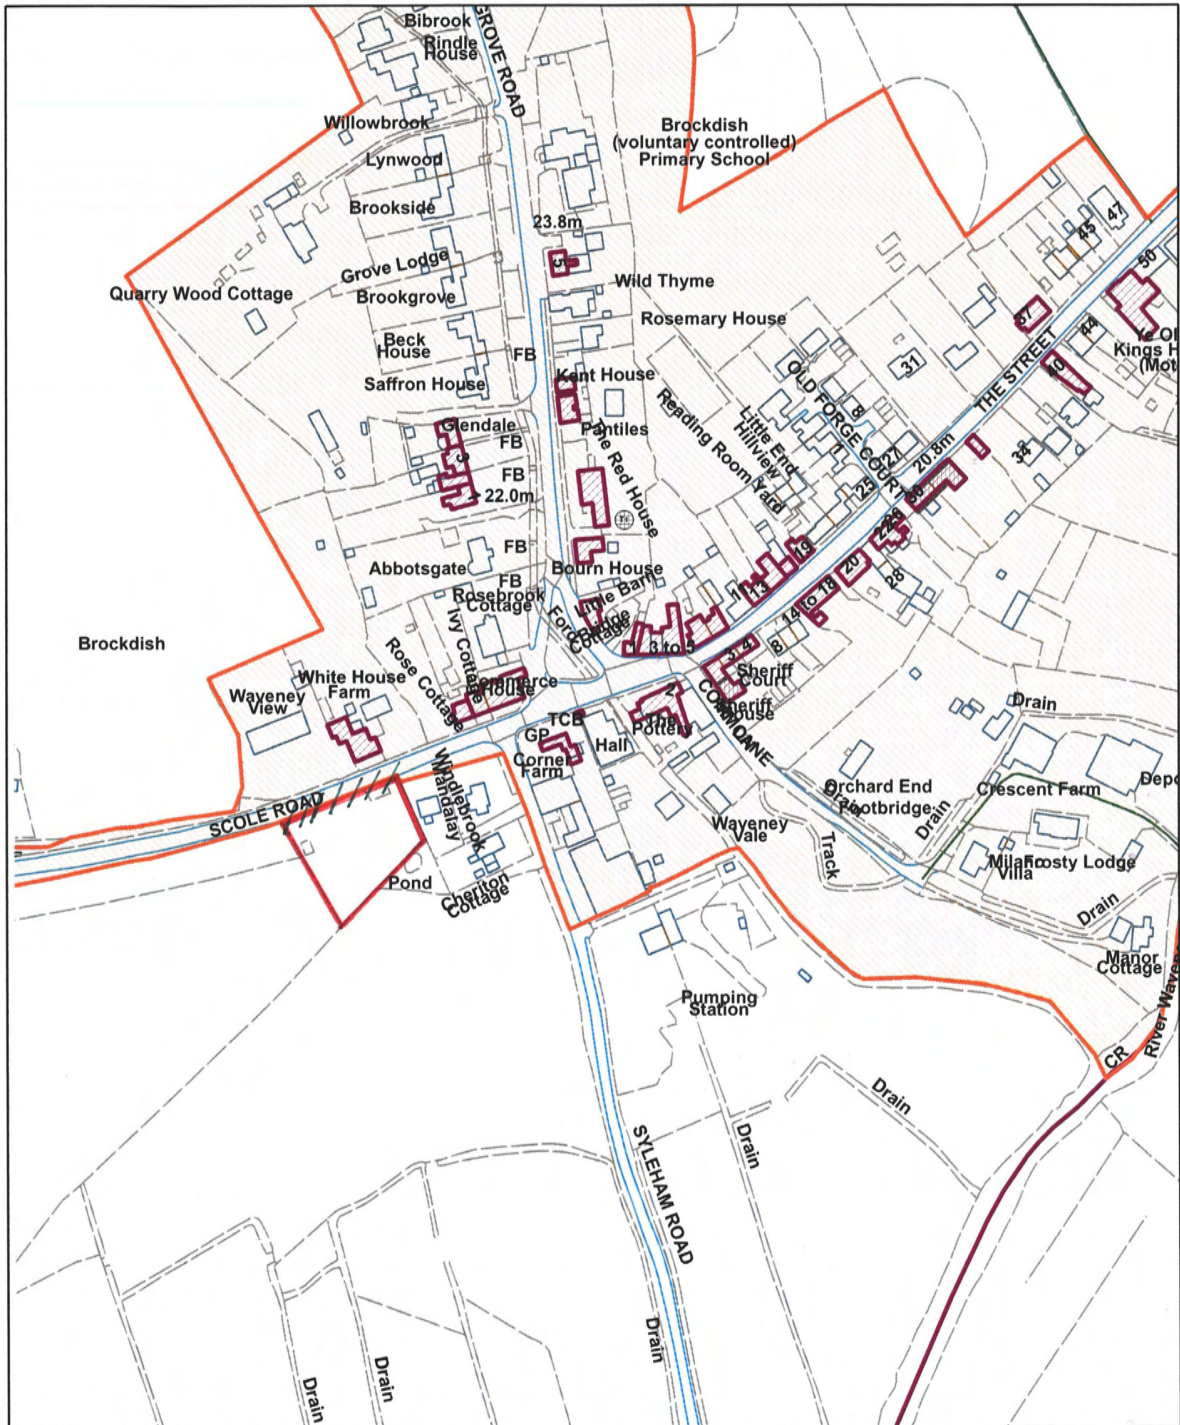

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

No heritage objection to SN4069. During the Conservation Area Appraisal consultation for Brockdish a couple of years ago there was concern at removing the corner area of housing (chalet bungalows) from the CA and that this was connected to allowing this site to be developed in future. However, I can see no heritage reasons why it couldn't be developed, the Conservation Area remains on the north side so its setting will still be taken into account.

<p>The Nursery 21 School Lane</p> <p>Grade II House.</p> <p>House. Circa 1740. Brick with thatched roof. One storey and gabled roof with 2 through-eaves dormers under eyebrow thatching dormer attic.</p> <p>List Entry Number: 1306454 HER Reference: 48683</p>	<p>MEDIUM</p> <p>Its significance is derived from its architecture and age and contribution to the social history of the village.</p> <p>It is of a domestic scale with its principal elevation facing the road. This is the most significant elevation architecturally with the rear having a modern extension and being enclosed within the garden.</p> <p>The house is located to the east of School Road set back from the road forming an attractive terrace along the road with more recent cottages attached to the north. It is therefore the front views and setting of the cottage which are most relevant.</p>	<p>NEGLIGIBLE</p> <p>The house is viewed in the context of the surrounding buildings facing School Road with its focus to the west and it is best appreciated and experienced in views from the road.</p> <p>The proposed site is located to the east, rear. To the rear there is the intervening modern extension and a long garden of around 40 metres with a hedge and trees on the boundary. This line is continued to the north and south by adjacent rear gardens as well as the primary school which maintains the separation from the site. Views of the house's principal elevation, and setting will be unaffected.</p>	<p>None required</p>	<p>NEGLIGIBLE and no harm</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>St Mary's, St Margaret's Way</p> <p>Grade II*</p> <p>Parish Church</p> <p>Mostly C14 but much restored 1892-93. A north vestry was added in 1937.</p> <p>List Entry Number: 1169589 HER Reference: 10329</p> <p>The ruins of St Margaret's medieval church, close by St Mary's in the churchyard. It was in ruins well before the 19th century, and all that remains today is a length of low flint wall, the west wall of the nave.</p> <p>HER Reference: 10330</p>	<p>HIGH</p> <p>The existing church and the significance of the ruins are derived from their age, architecture and social history and the importance of the building to the village.</p>	<p>NEUTRAL</p> <p>The proposed site does not impact directly on this asset. The church is in an enclosed position, setback from School Road with a narrow access along Rectory Lane. It is to the south of a modern cul-de-sac of mid-20th century bungalows. There are some glimpsed views from there and from Run Lane to the west which is the more open vista. There are no significant views of the building or tower in the wider landscape and its setting is largely restricted to its own churchyard.</p>	<p>None required</p>	<p>NEGLIGIBLE: and no harm</p>

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

A significant portion of this site lies within the Seething Conservation Area. Therefore, any development of this site has the potential to impact upon the significance of the Conservation Area.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the conservation area and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

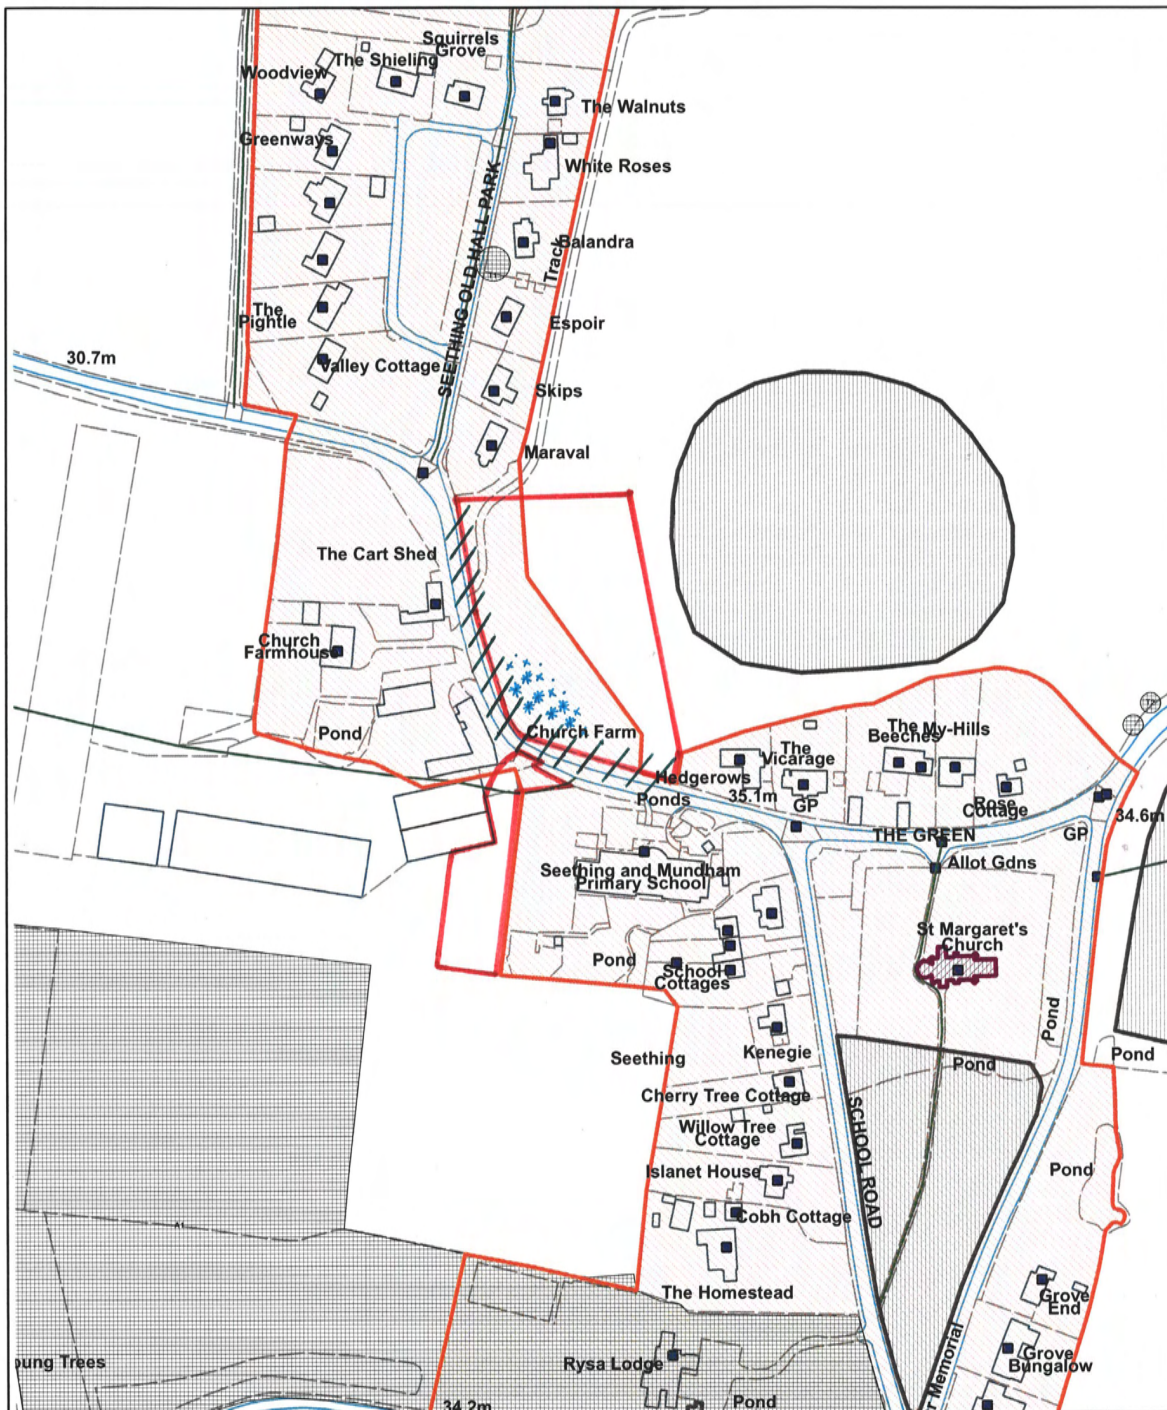

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

I think ideally this should just be the east site/corner. The farmhouse is earlier to mid C19 and perhaps should be listed – lesser quality buildings are. Certainly a non-designated heritage asset and it would be detrimental to develop within its setting to the north. Impact on setting of CA – of which setting of the farmhouse and barns form part. Less in terms of development on other side of road. Although there are views across countryside – in my opinion they are not great and don't see a great reason not to develop here.

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Seething Conservation Area</p> <p>The small rural village of Seething has developed as a linear settlement from north to south.</p> <p>Key Characteristics;</p> <ul style="list-style-type: none"> • Linear settlement originally based on rural agricultural economy • Picturesque mere at the centre of village with Mere House facing the pond to the west • Partially moated village church with triangular green to south 	<p>MEDIUM</p> <p>Existing buildings in the wider context are of mixed architectural character incorporating a range of materials and styles, with village ponds also a feature. The grain in Seething is generally quite spacious especially the more peripheral areas and vegetation remains dominant along the streets. Hedgerows are a key feature throughout the village providing a greater sense of enclosure but a rural feel to the CA. Relatively few buildings are located close to the street, except more toward the centre.</p>	<p>MODERATE</p> <p>The site to the south of Brooke Road is outside but sandwiched between parts of the CA adjacent to a farm complex.</p> <p>The site to the north is half inside the CA, adjacent to the development boundary to the southeast, which is a linear form of development and a small estate to the west.</p> <p>The two sites are located in a distinctly rural part on the edge of Seething. Both would infill gaps in the CA.</p> <p>The development to the north would have a detrimental impact on the CA as it would represent a breakout of the village.</p>	<ul style="list-style-type: none"> • Site layout and design to ensure that the design of the dwellings reflects the best of the village vernacular • Carefully consider the scale and density; for the north site this should be spacious and linear to reflect the existing pattern of development • Retain the green verge along frontage, enhancing this with a hedgerow and set the properties back • Incorporate a village feature (e.g. open space/mere) as a public open space 	<p>MINOR</p> <p>If the mitigation measures are used with careful consideration, a bespoke development can be successfully integrated with the village and respect its relationship to the conservation area then it will result in Less than substantial harm (lower end)</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
		<p>However, given that the site is adjacent to the built environment, whilst there will be an impact it may reasonably mitigated. The density proposed is high given the character/context of the site. The site to the south can be integrated into the existing built form adjacent to the modern school building and behind the agricultural buildings. In addition, the mature vegetation already screens this site so that the church tower is not readily visible.</p>	<ul style="list-style-type: none"> Do not have a rigid straight line boundary to the north, shape this to reflect the rear boundary of the properties to the east and give a more organic rural feel with semi-mature trees planted 	

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>St Margaret's and St Remigius' Church, The Green</p> <p>Grade II* Medieval Parish Church.</p> <p>List Entry Number: 1305988</p> <p>HER Reference: 10444</p>	<p>HIGH</p> <p>Its significance is derived from its age, architecture and social history and its place within the village.</p> <p>The round tower of this church is Norman and it has round arched slit windows typical of this period. The nave is thatched and other windows date to around 1300, in Decorated and Perpendicular styles. South porch has arch braced roof, carved font. Old stained glass.</p> <p>The most dominant views of it in its context are from the south and approaching from the east, the distinctive round tower can be seen from further away.</p>	<p>NEGLIGIBLE</p> <p>The proposed site does not impact directly on this asset. St Margaret's Church is located to the east of School Road and separated from the two sites by intervening land uses, including the modern primary school. It is set back and located within a contained churchyard with a large open space to the south. Whilst the tower can be glimpsed from the sites there would be no significant intervisibility, aside from possibly roof slopes from the church tower, and important contextual views are obscured by the intervening development and vegetation.</p>	<ul style="list-style-type: none"> None required 	<p>NEGLIGIBLE: No harm</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION/ ENHANCEMENT IN PLACE
<p>Seething Hall, Seething Park</p> <p>Grade II Late C18 house with earlier wing to rear, remodelled in late C18. Colour-washed brick. Glazed black pantile roof.</p>	<p>MEDIUM Its significance is derived from its age and architecture.</p> <p>The hall has extensive grounds which add to its presence.</p>	<p>NEUTRAL The hall is set well back from the road and the sites, in landscaped grounds with mature trees surrounding it. There would be no views from/to the sites.</p>	<ul style="list-style-type: none"> • None required 	<p>NEUTRAL: No harm</p>
<p>Undated human remains, 274m (300yds) east of Seething Hall</p> <p>HER Reference: 18305</p>	<p>LOW In 1981 an undated human skull was found after fields to the east of Seething Hall were ploughed.</p>	<p>NEUTRAL The finds have been located to the north of the site. No impact of the proposed development on the find area.</p> <p>Adds to the possibility of further finds in the field. As no finds recorded on the proposed site the impact there is UNKNOWN.</p>	<ul style="list-style-type: none"> • No mitigation required for existing find site • Require investigation on the proposed site prior to development commencing to identify and record any finds 	<p>NEUTRAL: No harm</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF THE PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION OR ENHANCEMENT IN PLACE
<p>The Old Rectory Norwich Road</p> <p>Grade II. This house dates to the 17th century and 19th century.</p> <p>List Entry Number: 1051116 HER Reference: 45718</p>	<p>MEDIUM</p> <p>Its significance is derived from its architecture and age; it has a colour-washed exterior and is built from a brick and timber frame, slate and tile hipped roofs with chimneystack. It comprises a 19th century three-cell range with a 17th century two-cell range to the rear, a central doorcase with fluted pilasters and a plain cornice.</p> <p>Its grandeur is enhanced by its sizeable grounds.</p> <p>There would have been a significant historic connection with the church as the clergy would have walked between the two.</p>	<p>NEGLIGIBLE</p> <p>It is set back from the road frontage in its own well-contained grounds. Separated by the B1332 Norwich Road and substantial vegetation with no significant views between.</p> <p>The Old Rectory is nearly 1km away from the church with no physical or visual connection apart from Church Road. There is no public footpath with additional links or views. Therefore, although the development lies between, it would not impact on any historic significance or connection.</p>	<ul style="list-style-type: none"> Landscaping buffer, to include trees, to the east corner of the site will retain separation with the development and enhance the wider landscape setting 	<p>NEGLIGIBLE: No harm</p>

<p>Manor Farm Norwich Road</p> <p>Grade II. This 18th century house is built from brick with a pantile roof.</p> <p>List Entry Number: 1051114 HER Reference: 48477</p>	<p>MEDIUM</p> <p>Its significance is derived from its age and architecture; it has a rectangular plan. The main façade has five bays and two storeys, the six-panel door is set within a timber porch. The parapet gable has brick kneelers and the property features an off-centre axial chimneystack and a right-hand gable end chimneystack.</p> <p>The setting of its primary elevation is significant, with rural views from Church Road to the south it is visually connected to surrounding fields and that contributes to its significance as a farmhouse.</p>	<p>MODERATE</p> <p>The listed building faces south towards the proposed development site, with approx. 95m from its front façade to the closest boundary. Its setting is currently open, and the building is visible across the field on the horizon from Church Road. If the whole site was developed at the density proposed it would have a significant impact on the setting and views of the listed building. Leaving a field in between the farmhouse would still be within a rural character and helps retain some of the rural setting, however the ability to view the listed building from publicly accessible areas will be significantly reduced.</p>	<ul style="list-style-type: none"> • Layout guidance required so that the plots front Church Road with rear gardens to north to retain the separation and reflect the north-south orientation of Manor Farmhouse • Carefully consider the layout, which should be linear only along Church Road to include a gap due south to allow a view through to the LB and/or space out buildings so that views are maintained • The density would need to be lowered to achieve a development sensitive to the wider rural setting of the listed building and allow for gaps to be left as above • Significant landscaping buffer/open space, to include trees, to the east corner of the site to preserve some views from Norwich Road and Church Road and retain public views across from the play area and school. 	<p>MODERATE</p> <p>If views from the south are retained this element of its significance would be protected then there would be Less than substantial harm (medium)</p>
--	---	--	--	---

Proposed Housing Numbers on site:

Up to 25 dwellings

Regulation 18 Consultation Comments

Historic England comments at Regulation 18 consultation stage:

This site lies just to the north of the grade II* Poplars and grade II listed associated barn. Therefore, any development of this site has the potential to impact upon the significance of these heritage assets through development within the setting of the assets.

We have particular concerns about this site, leading us to question the very principle of development on the site. The extent of the historic settlement is clearly defined, and there are views of the roof of the Poplars across the field in question. Development would impact the setting of these assets.

A heritage impact assessment of the site should be undertaken to assess the impact of the proposed development on the listed buildings and determine if allocation of this site is appropriate, and if it is what mitigation may be required. The findings of the HIA should inform whether the site is allocated and if it is, the policy criterion including any mitigation and enhancement.

Norfolk County Council Historic Environment Service comments prior to the Regulation 18 consultation stage:

Amber score

South Norfolk Council Senior Heritage & Design Officer comments prior to the Regulation 18 consultation stage:

Green. Listed building and barn to south setting not that affected as buildings are orientated to face east/west.

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF THE PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION OR ENHANCEMENT IN PLACE
<p>Poplars Ashwellthorpe Road</p> <p>Grade II* Farmhouse 1586 according to datestones</p> <p>List Entry Number: 1152496</p>	<p>HIGH</p> <p>Its Grade II* significance is derived from its architecture and age; rendered timber frame with returned brick crow-stepped gable-ends, 2 storeys with attic. T plan formed by modern service extension to rear. It is a particularly impressive building in the street scene.</p> <p>Its setting centres on Ashwellthorpe Road.</p> <p>There are some long glimpsed views from Wymondham Road of its roof, chimneys and the crow stepped gable end.</p>	<p>MINOR</p> <p>The building lies to the south of the proposed site. It faces Ashwellthorpe Road and this is its principal elevation. It is set back from the road with a formal garden in front. It has a stable within its grounds to the south and west which gives it a working context.</p> <p>The long views are intermittent from the north and vegetation masks these particularly in the spring/ summer. The views are of the north gable end which is of some significance due to its crow stepped designed. They are most apparent further west along Wymondham Road which would remain. The site would be visible in these views when travelling east so there would be some impact.</p>	<ul style="list-style-type: none"> • Layout and position of dwellings to preserve the long views from Wymondham Road • The consideration of layout will inform the number of dwellings to be achieved which is likely to be lower than the 25 suggested • Open space as a buffer to south of site to retain distance from the building 	<p>MINOR</p> <p>Although there are views of the building these are glimpsed views rather than considered architectural viewpoints. Through careful design of the layout the views may potentially be maintained across the site.</p>

<p>Poplar's barn Ashwellthorpe Road</p> <p>Grade II Barn. C17.</p> <p>List Entry Number: 1050650</p>	<p>MEDIUM</p> <p>Its significance is derived from its architecture and age; weatherboarded and part rendered with thatched roof. 7 bays with an 11 bay clasped purlin roof with arch-braced ties. C19 Interesting painted vane on gable of hunter, raised gun and his dog.</p> <p>Its setting is limited as part of the immediate grouping of buildings.</p> <p>There are some long views from Wymondham Road to the north of its thatched roof.</p>	<p>MINOR</p> <p>The barn lies to the south of the proposed site. It is behind the farmhouse and not visible from the road, it forms part of the working stable area, and the site would not affect this setting.</p> <p>The long views are intermittent from the north and vegetation masks these particularly in the spring/summer. They are most apparent further west along Wymondham Road which would remain. The proposed site would be visible in these views when moving eastwards so there would be some impact.</p>	<p>If the site is developed this barn would benefit from the same mitigation as set out above.</p>	<p>MINOR</p>

IDENTIFIED HERITAGE ASSET(S) AFFECTED BY THE PROPOSED DEVELOPMENT	SIGNIFICANCE OF THE HERITAGE ASSET(S) AND ITS SETTING	IMPACT OF THE PROPOSED DEVELOPMENT ON THE SIGNIFICANCE	IDENTIFIED MITIGATION MEASURES/ ENHANCEMENT OPPORTUNITIES	IMPACT ON THE SIGNIFICANCE WITH MITIGATION OR ENHANCEMENT IN PLACE
<p>Route of Wymondham to Forncett Railway Line Non-designated asset</p> <p>Constructed by Great Eastern and opened in 1881. It had a short operating life, closing to passengers in 1939 and to goods in 1951.</p> <p>HER Reference: 13580</p>	<p>MEDIUM</p> <p>Its significance is derived from its social history; built for trains to reach the north coast without entering Norwich. The only surviving track is a stub at the west end, which is used as sidings. At least one farm bridge, milestone and the piers of a viaduct remain, Ashwellthorpe Station is now a house.</p>	<p>NEUTRAL</p> <p>The route is 250m to the west of the site and it is unaffected by the proposed site.</p>	<p>None required</p>	<p>NEUTRAL: No harm</p>

Part E – Summary of mitigation measures, comments by Historic England and responses from the Council for sites in the VCHAP

Policy	HIA Recommendations	Historic England Recommendations	Council Response
VC ALP1	No HIA prepared	Not applicable	Not applicable
VC BAP1	No HIA prepared	Not applicable	Not applicable
VC ASL1	No HIA prepared	Not applicable	Not applicable
VC GRE1	No HIA prepared	Not applicable	Not applicable
VC GRE2	No HIA prepared	Regulation 19 Consultation: Add new criterion to read: 'Development that preserves and enhances the significance of nearby listed buildings on High Green (including any contribution made to that significance by setting).'	Carried forward site VC GRE2 has been partially constructed and benefits from a recently approved consent to increase the number of dwellings. The Council therefore does not consider this change to be necessary as development of the site is expected to be complete in due course.
VC BAR1	Regulation 19 Consultation: Retention of hedgerow to maintain rural character. Redevelopment of the site has the potential to ENHANCE the setting of the Cock Inn.	Regulation 19 Consultation: Amend criteria 5 to read: '...given to the setting of Sayers Farmhouse and The Cock Inn.'	Retention of hedgerow and setting of Cock Inn referred to in paragraph 4.16 and criteria's 4 and 5 of policy at Regulation 19. The Council does not consider that the suggested amendment to criteria 5 is required as the impact on Sayers Farm and its setting is adequately covered by Policy VC BAR1, as well as other national and local planning policy. Paragraph 4.16 of the Regulation 19 document also notes the separation of the site from the farmhouse by the B1108
VC BAR2	Regulation 18 Alternative Sites and Focused Changes Consultation: Require archaeological investigation on site prior to development commencing.	Regulation 18 Alternative Sites and Focused Changes Consultation: The HIA says that there will be no harm to the significance of the heritage asset. However, we consider this underplays the relationship between the farmhouse, the	Following the completion of the Regulation 18 Alternative Sites and Focused Changes Consultation, this site was recalibrated so development will now take place on the northern half of the site. This mitigates the potential impact on the setting of the

VC BAW1 REV	<p>Regulation 19 Consultation: The dwellings should be considerate of the village vernacular, with reference to the CA Appraisal and in terms of local materials.</p> <p>Retain and reinforce the green hedgerow along the northern part of the frontage travelling towards the CA.</p> <p>Require investigation on the proposed site prior to development commencing to identify and further historic activity.</p> <p>Regulation 18 Alternative Sites and Focused Changes Consultation:</p>	<p>Regulation 19 Consultation: Amend criterion 3 to read... 'Planning applications should be supported by archaeological assessment including the results of field evaluation where appropriate.'</p> <p>Regulation 18 Alternative Sites and Focused Changes Consultation: We note that the revised allocation boundary has been extended to enable a lower density of development. We broadly welcome this approach.</p> <p>We reiterate our previous comments in relation to archaeological investigation for this site.</p>	<p>CA, northern hedgerow and archaeological potential referred to in paragraph 6.7. CA referred to in criteria 2 of policy, Historic Environment Record in criteria 3, retention of northern vegetation in criteria 4 at Regulation 19.</p> <p>The Council considers that criteria 3 highlights the need for archaeology to be considered; however, the Council's experience is that the need for field evaluation prior to an application being determined is exceptional and can be required under NPPF paragraph 200 if necessary.</p>

Policy	HIA Recommendations	Historic England Recommendations	Council Response
	<p>The dwellings should be considerate of the village vernacular, with reference to the CA Appraisal and in terms of local materials.</p> <p>Retain and reinforce the green hedgerow along the northern part of the frontage travelling towards the CA, as well as the hedgerow along the northern boundary.</p> <p>Require investigation on the proposed site prior to development commencing to identify any further historic activity.</p>	<p>Criteria 3 states that the HER should be consulted to determine the need for any archaeological surveys prior to development. However, this is different to the recommendation in the HIA which states that 'Require investigation on the proposed site prior to development commencing to identify and further historic activity'.</p> <p>In our view, some assessment is needed to inform any planning application.</p> <p>We therefore advise that criteria 3 should be amended to read, 'Planning applications should be supported by archaeological assessment including the results of field evaluation where appropriate.'</p>	
VC BRE1	<p>Regulation 19 Consultation:</p> <p>The layout of the development should take into account Pine Tree cottage. There is an opportunity to provide an area of open space on this site and a small informal vehicular parking area to assist with the school overflow parking. Both these features could be located to the south of the proposed allocation site and in closest proximity to the heritage asset, creating a degree of separation. This approach to site layout would also preserve views of the building and its prominent pantile roof.</p>	<p>Regulation 19 Consultation:</p> <p>Consider carefully the most appropriate location for a car park if required.</p> <p>Add the following at criterion 2 'Consideration should be given to the design of the car park to ensure that the grade II listed Pine Tree Cottage including its setting is conserved and enhanced.'</p> <p>Review criterion 1 in relation to frontage development in light of HIA comments.</p> <p>Amend criterion 4 to read 'Planning applications should be supported by archaeological assessment including the</p>	<p>Open space requirement for Pine Tree Cottage referenced in paragraph 7.6 and criteria 5 of policy at Regulation 19.</p> <p>Protection and enhancement of southern hedgerow referred to in paragraph 7.5 and criteria 3 of policy at Regulation 19.</p> <p>Historic Environment Record referred to in criteria 4 of policy at Regulation 19. The policy highlights the need for archaeology to be considered; however, the Council's experience is that the need for field evaluation prior an application being determined is exceptional and can be</p>

Policy	HIA Recommendations	Historic England Recommendations	Council Response
	<p>Landscaping along south boundary would increase the separation and soften the visual impact.</p> <p>This site would need to be investigated prior to development.</p>	<p>results of field evaluation where appropriate.'</p>	<p>required under NPPF paragraph 200 if necessary.</p> <p>The Council considers that the proposed wording is appropriate regarding the suggested school car park. The policy recognises the limited options to improve the current situation and the positive role that the delivery of this site could play in addressing this matter. Both the policy and the supporting text recognise that a demonstrable need for such provision needs to be established and that the site layout and design must protect and enhance the setting of Pine Tree Cottage. The Council does not consider it necessary to repeat criterion 5 with specific reference to a potential car park on-site.</p> <p>The Council is of the opinion that frontage development alongside an area of open space and appropriate landscaping in the south-west corner of the site will protect the setting of the listed building as far as possible. Highways requirements include frontage development to improve highway safety and reinforce the current speed limit along this section of School Road. The Council considers that the policy successfully addresses this concern whilst also protecting the setting of the listed building.</p>

Policy	HIA Recommendations	Historic England Recommendations	Council Response
VC BRO1	<p>Regulation 19 Consultation: Require investigation on the proposed site prior to development commencing to identify and record any further finds.</p> <p>Regulation 19 Pre-Submission Addendum Consultation: Retain, protect and reinforce the trees and mature planting along the northern perimeter of the western half of the site.</p> <p>Require investigation on the proposed site prior to development commencing to identify and record any further finds.</p>	<p>Regulation 19 Consultation: Update the HIA to include the land to the west of the road.</p> <p>Amend criterion 9 to read 'Planning applications should be supported by archaeological assessment including the results of field evaluation where appropriate.'</p>	<p>The HIA has been revised to include the land on the western side of the road and appropriate mitigation measures relating to the landscaping of the site, including the protection of existing mature trees, are included in the site-specific policy.</p> <p>Historic Environment Record was referred to in criteria 9 of policy at Regulation 19. The policy highlights the need for archaeology to be considered; however, the Council's experience is that the need for field evaluation prior an application being determined is exceptional and can be required under NPPF paragraph 200 if necessary.</p>
SN0020SL (Settlement Limit Extension)	<p>Regulation 19 Consultation: No HIA prepared.</p> <p>Regulation 19 Pre-Submission Addendum Consultation: Retention of trees where possible to retain the character of the area.</p> <p>Retention of trees where possible closest to the heritage asset in order to retain the historic character of the area and maintain the setting of the asset as much as possible.</p> <p>Require archaeological investigation on site prior to development commencing.</p>	<p>Regulation 19 Consultation: The land lies within the Brooke Conservation Area and just to the south of The Warren (grade II listed). Any development of the land has the potential to impact on the significance of these designated heritage assets.</p> <p>There does not appear to be an HIA for this site. We recommend the preparation of an HIA for this site ahead of the EiP.</p>	<p>This site is proposed as an extension to the existing settlement limit extension rather than as an allocation. As such, whilst the HIA has been prepared as part of the settlement limit review, a detailed assessment of the impact of proposed development will be undertaken at the planning application stage in accordance with paragraph 200 of the NPPF.</p>

SN0406SL (Settlement Limit Extension)	<p>Regulation 19 Consultation: Development should be linear to reflect the existing built form.</p> <p>Need to carefully consider the density which should reflect the smaller cottages opposite. One or two dwellings only would be appropriate.</p> <p>The dwellings reflect the best of the village vernacular</p> <p>Set the properties back to reflect the existing properties to the north and south with an element of informality</p> <p>Retain the green hedgerow along the frontage and as many of the trees as possible, even if this means reducing the number of dwellings.</p>	<p>Regulation 19 Consultation: We note that HIAs have been completed for two of these sites which identified moderate impacts on the historic environment. A number of helpful mitigation measures were proposed in the HIAs but it is not clear how these recommendations will be carried forward into the Plan as there is no policy for the settlement limit amendments. We therefore have concerns that the potential impacts on the historic environment will not be properly addressed.</p> <p>We suggest that an HIA should be prepared for site SN0588SL.</p>	<p>The Council has not prepared an HIA for SN0588SL as the inclusion of this site within the settlement limit is simply regularising an existing development that has subsequently been granted planning consent and substantially completed.</p> <p>In common with all infill/ windfall development matters relating to the heritage impact of development in this location will have been assessed at the planning application stage.</p> <p>The Council does not consider it necessary to include detailed policies within the VCHAP for settlement limit extensions as a detailed assessment of the impact of proposed development will be undertaken at the planning application stage in accordance with paragraph 200 of the NPPF.</p>

SN3002SL (Settlement Limit Extension)	Regulation 19 Consultation: Require investigation on the proposed site prior to development commencing to identify and record any finds.	Regulation 19 Consultation: We welcome the preparation of the HIA. The HIA identifies the impact as neutral and does not recommend mitigation.	The Council notes the support for the Heritage Impact Assessment and the conclusions that this reaches.
VC HAD1	Regulation 19 Consultation: Ensure development is set back from this frontage particularly in the north-western corner to maintain existing views of the church. Site layout and design to be appropriate to the context of the church and complement the setting of the church rather than detract from it. This will include consideration of the density, spacing, scale and form of buildings. Require investigation on the proposed site prior to development commencing to identify and record any finds record if ditches are present.	Regulation 19 Consultation: Amend criterion 8 to read 'Planning applications should be supported by archaeological assessment including the results of field evaluation where appropriate.'	Layout and design considerations relating to the setting of the church and the Historic Environment Service are referred to in paragraph 43.21 and criteria 6 and 8 of the policy at Regulation 19. The policy highlights the need for archaeology to be considered; however, the Council's experience is that the need for field evaluation prior an application being determined is exceptional and can be required under NPPF paragraph 200 if necessary.

VC WIC2	<p>Regulation 19 Consultation: Consider the site layout which must take the wider setting of the St Andrew and All Saints Church into account and retain views towards and from the Church, including along Hackford Road.</p> <p>Use landscaping along the northern boundary to soften the wider views.</p> <p>Regulation 19 Pre-Submission Addendum Consultation: Consider the site layout which must take the wider setting of the church into account and retain glimpse views towards and from the Church tower where possible, including along Hackford Road.</p> <p>Retain and reinforce landscaping along the northern boundary to soften the wider views.</p> <p>Require further investigation prior to development commencing to identify and record any further finds.</p>	<p>Regulation 19 Consultation: Reword first criteria to read: ‘to conserve and enhance the immediate setting...’ to more closely reflect the NPPF.</p>	<p>Setting and views of the church and landscaping referred to in paragraph 45.12 and criteria 1 and 2 of the policy at Regulation 19.</p> <p>The Council does not consider the changes to Criteria 1 to be necessary. The setting of the asset is referenced in the supporting text and policy and national policy from the NPPF will be applied to any future planning applications alongside the policy in the VCHAP.</p>

Policy	HIA Recommendations	Historic England Recommendations	Council Response
VC WIC3	No HIA prepared	Regulation 19 Consultation: In second criteria, add "Visual impact on and to conserve and enhance St Andrew and All Saints Church and its setting".	Requirement for landscaping to minimise visual impact on St Andrew and All Saints Church and its setting included in criteria 2 of policy at Regulation 19. The Council does not consider that the proposed amendment to the policy text to be necessary. The setting of the assets are referenced in the supporting text and policy and national policy from the NPPF will be applied to any future planning applications alongside the policy in the VCHAP.
VC WIN2	Regulation 19 Consultation: This should have a strong street frontage to retain the character of the CA and fit in with existing local character along the street. The dwellings should be considerate of the local vernacular and distinctiveness, especially in use of materials, with reference to the CA Appraisal. Sensitive frontage design and careful consideration of the gateway into the CA is required with views of the Schools House/Aprils Cottage.	Regulation 19 Consultation: Add criteria to read, 'Consideration of the local vernacular and distinctiveness especially materials, with reference to the CA Appraisal.' Update to criteria 1 to include to design sympathetic to the Conservation Area.	Impact on the Conservation Area and outcomes of HIA referred to in paragraph 46.12 at Regulation 19. Reference to existing character of CA and gateway included in criteria 1 of policy. The Council is of the opinion that the separation of the site from the Conservation Area, as well as the form of the intervening development and the dwellings directly opposite the site, means that a requirement for specific materials on this site is not necessary.
