Dear Mr Goodman

Dickleburgh and Rushall Neighbourhood Area Application

I write regarding your application received on 23 May 2017 for the designation of the Parish of Dickleburgh and Rushall as a Neighbourhood Area.

The consultation period for the application is now complete and nine representations were received. Most were supportive and raised no adverse comments regarding the Neighbourhood Area. One made detailed comments regarding the location of development in Dickleburgh, one was from a developer highlighting a number of key requirements to which the emerging Neighbourhood Plan should have regard and one from Tivetshall Parish Council noticed a small error in drawing the parish boundary on the map, mistakenly taking in a small part of Tivetshall St Mary Parish. This is not considered to be a significant issue as the letter which accompanied the Neighbourhood Area application states clearly that the neighbourhood area is to consist of the whole area within the parish boundary of Dickleburgh and Rushall. An amended map showing the correct parish boundary will be displayed on the Council's website (a copy is attached to this letter for information).

I can therefore confirm that the Parish of Dickleburgh and Rushall is designated as a Neighbourhood Area and that your Council is therefore the relevant body to prepare a Neighbourhood Development Plan.

If you have any queries please contact me using the details above, or a member of the Planning Policy Team on 01508 533805.

Yours sincerely

Tim Horspole
Director of Planning and Environment
