

## Schedule of Additional Changes to Site Allocations DPD – Proposed Submission

Following the Hearing on the Site Allocations DPD the following Additional Changes have been implemented.

Minor changes are generally regarded as textual and grammar corrections; re-phrasing or limited new text to add clarity; or updates to figures and references which are necessary due to alterations which have been made elsewhere or for which new information has come to light.

The modifications below are expressed either in the conventional form of ~~strikethrough~~ for deletions and **underlining and bold for additions of text**, or by specifying the modification words in *italics*.

The page numbers and paragraph numbering below refer to the Proposed Submission local plan, and do not take account of the deletion or addition of text.

In addition, a number of other very minor changes, such as factual corrections and changes to improve clarity, have also been made.
