Agenda

1. To report apologies for absence
2. Any items of business which the Chairman decides should be considered as a matter of urgency pursuant to Section 100B(4)(b) of the Local Government Act, 1972. Urgent business may only be taken if, "by reason of special circumstances" (which will be recorded in the minutes), the Chairman of the meeting is of the opinion that the item should be considered as a matter of urgency;
3. To Receive Declarations of Interest from Members (please see guidance – page 4)
4. To confirm the minutes of the meeting of Cabinet held on 24 August 2020
(attached – page 6)
5. Updated Delivery Plan post COVID-19; (report attached – page 12)
6. Greater Norwich Homelessness Strategy 2020-2025
South Norfolk and Broadland Rough Sleeper Statement 2020-2025;
(report attached – page 82)
7. Council Tax COVID-19 Hardship Fund 2020-21 Emergency Procedures/Policy
(report attached – page 134)
8. Response to Ministry of Housing, Communities and Local Government (MHCLG)
Consultations (report attached – page 139)
9. Devolution and Local Government Reorganisation; (report attached – page 166)
10. Cabinet Core Agenda; (attached – page 177)
11. Exclusion of the Public and Press

To exclude the public and press from the meeting under Section 100A of the Local Government Act 1972 for the following items of business on the grounds that it involves the likely disclosure of exempt information as defined in paragraph 3 of Part 1 of Schedule 12A to the Act (as amended)

12. Exempt Minute

NOT FOR PUBLICATION by virtue of Schedule 12A Part 1 of Paragraph 3 of the Local Government Act 1972 (as amended)

To receive an exempt minute of the meeting held on 24 August 2020 regarding the
Waste Services Review (to follow)

Agenda Item: 3

DECLARATIONS OF INTEREST AT MEETINGS

When declaring an interest at a meeting Members are asked to indicate whether their interest in the matter is pecuniary, or if the matter relates to, or affects a pecuniary interest they have, or if it is another type of interest. Members are required to identify the nature of the interest and the agenda item to which it relates. In the case of other interests, the member may speak and vote. If it is a pecuniary interest, the member must withdraw from the meeting when it is discussed. If it affects or relates to a pecuniary interest the member has, they have the right to make representations to the meeting as a member of the public but must then withdraw from the meeting. Members are also requested when appropriate to make any declarations under the Code of Practice on Planning and Judicial matters.

Have you declared the interest in the register of interests as a pecuniary interest? If Yes, you will need to withdraw from the room when it is discussed.

Does the interest directly:

1. affect yours, or your spouse / partner's financial position?
2. relate to the determining of any approval, consent, licence, permission or registration in relation to you or your spouse / partner?
3. Relate to a contract you, or your spouse / partner have with the Council
4. Affect land you or your spouse / partner own
5. Affect a company that you or your partner own, or have a shareholding in

If the answer is "yes" to any of the above, it is likely to be pecuniary.

Please refer to the guidance given on declaring pecuniary interests in the register of interest forms. If you have a pecuniary interest, you will need to inform the meeting and then withdraw from the room when it is discussed. If it has not been previously declared, you will also need to notify the Monitoring Officer within 28 days.

Does the interest indirectly affect or relate any pecuniary interest you have already declared, or an interest you have identified at 1-5 above?

If yes, you need to inform the meeting. When it is discussed, you will have the right to make representations to the meeting as a member of the public, but you should not partake in general discussion or vote.

Is the interest not related to any of the above? If so, it is likely to be an other interest. You will need to declare the interest, but may participate in discussion and voting on the item.

Have you made any statements or undertaken any actions that would indicate that you have a closed mind on a matter under discussion? If so, you may be predetermined on the issue; you will need to inform the meeting, and when it is discussed, you will have the right to make representations to the meeting as a member of the public, but must then withdraw from the meeting.

**FOR GUIDANCE REFER TO THE FLOWCHART OVERLEAF. PLEASE REFER ANY
QUERIES TO THE MONITORING OFFICER IN THE FIRST INSTANCE
DECLARING INTERESTS FLOWCHART – QUESTIONS TO ASK YOURSELF**

CABINET

Minutes of a remote meeting of the Cabinet of South Norfolk District Council, held on Monday 24 August 2020 at 9.00 am.

Members Present:

Cabinet: Councillors: J Fuller (Chairman), Y Bendle, M Edney, L Neal, K Mason Billig and A Thomas

Apologies: Councillor: J Worley

Non-Appointed Councillors: C Brown, V Clifford-Jackson, A Dearnley T Laidlaw and S Nuri-Nixon

Officers in Attendance: The Director of Communities (J Sutterby), the Assistant Director Governance and Business Support (E Hodds), the Assistant Director Finance (R Fincham), the Assistant Director of Community Services (S Phelan), the Chief of Staff (H Ralph), the Housing and Health Manager (L Simmonds) and the Internal Consultancy Lead for Waste (S Bruton)

2816 DECLARATIONS OF INTEREST

Cllr T Laidlaw declared an "other" interest in relation to minute number 2823, the Waste Services Review.

2817 MINUTES

The minutes of the Cabinet meeting held on Monday 21 July 2020, were confirmed as a correct record and signed by the Chairman.

2818 ALIGNMENT OF MANDATORY LICENSABLE HOUSES IN MULTIPLE OCCUPATION FEES ACROSS THE TWO COUNCILS

Members considered the report which recommended revisions to the chargeable fees for mandatory licensable Houses in Multiple Occupation (HMO), which accurately reflected the costs of the new single team.

Cllr Y Bendle advised members on the purpose of the report, highlighting the need to create a single consistent charge across both South Norfolk and Broadland Councils.

The Housing and Health Manager presented the report and explained the importance of licensed HMOs. Members noted that the proposal was to reduce the five-year licence fee for South Norfolk from £853 to £825.

The Housing and Health Manager then explained how the fees were calculated, before referring members to Appendices A and B, which provided a detailed breakdown, which was felt to accurately reflect the work and time involved.

The Chairman felt it was clear that the proposed fees were evidence based and fair, and in line with other councils.

Cllr K Mason Billig commended the detailed work carried out by officers and felt the proposed fees to be justified and supported with strong evidence.

Members were supportive of the proposed fees and also agreed the importance of licensing HMOs in terms of regulatory compliance, and providing support to those living in HMO properties.

The vote was taken by roll call and it was unanimously

RESOLVED To agree that the new One Team Council fees for mandatory licensable HMOs are set at:

- a) £825 for a new five-year licence;
- b) £133 for variations on an existing five-year licence; and
- c) £514 for renewal of a five-year licence.

The Reason for the Decision

To ensure that the Council's fees provide true costs that are legally chargeable and defensible if the Council is challenged.

Other Options Considered

To continue with the current charges.

2819 UPDATE TO LOCAL DEVELOPMENT SCHEME

Members considered the report of the Place-Shaping Manager, which sought approval for proposed amendments to the current May 2019, Local Development Scheme.

The Chairman explained that since writing the report, the Government had published a detailed consultation proposing changes to planning legislation, to provide a more accelerated and streamlined approach to the production of a Local Plan. Despite this he stressed the need to move forward with the current Local Plan timetable, under existing legislation.

The Assistant Director of Planning explained that amendments were required to the current Local Development Scheme to reflect changes to the Greater Norwich Local Plan (GNLP) timetable and the introduction of the South Norfolk Village Clusters Housing Allocations Document. She referred Members to pages 36-37 of the agenda which detailed the revised timetables, and members noted that the GNLP was due for adoption in November / December 2022, with the South Norfolk Village Clusters following on soon after.

In response to a question regarding the Village Clusters Allocations Document, the Chairman explained that those parishes / towns not included were those with their own allocations and were likely to be more substantial parishes designated as key service areas. With regard to the Government's White Paper and the proposed changes to the process of developing a Local Plan, the Assistant Director of Planning advised that it was too early to say whether the Council would be required to restart the Local Plan process, should the proposals be agreed. This would be considered in due course in consultation with the Leaders and by the Greater Norwich Development Partnership.

Voting was then carried out by way of a roll call, and it was unanimously

RESOLVED **TO RECOMMEND THAT COUNCIL** approves the proposed amendments to the current, May 2019, Local Development Scheme.

The Reason for the Decision

To ensure that the latest timetable for the production of the GNLP and South Norfolk Village Cluster Housing Allocation Document, is properly reflected in the Local Development Scheme, and is legally compliant.

Other Options Considered

None

2820 COVID-19 RESPONSE – NORFOLK-WIDE FIGHTING FUND

Members considered the report of the Assistant Director of Finance, which sought Cabinet approval to allocate £150,000 to the Norfolk-wide Fighting Fund.

The Chairman introduced the report, explaining that this was an opportunity for the County Council, all District Councils, the Local Enterprise Partnership (LEP) and the Business Rates Pool, to collectively create a fund to offer targeted support to local businesses in Norfolk, in light of the COVID-19 pandemic. He drew attention to the support that had already been provided to South Norfolk businesses, referring to the distribution of grants, and support to the market towns.

Referring to paragraph 1.2 of the report, the Chairman drew attention to the £150,000 sought from the district councils, and he queried the £2 million contribution from the LEP.

The Assistant Director of Finance explained that the LEP had originally been approached for £2 million, however, to date, only a £1 million contribution had been confirmed, although it was possible that this would increase. He advised members that the mechanisms with regard to how the fund would be distributed, were yet to be agreed, and it was therefore proposed that the final decision to commit to the fund should be delegated to the Assistant Director of Finance, in consultation with the Leader of the Council. He stressed the importance of ensuring that South Norfolk Businesses were able to reap back more than the £150,000 investment from the Council.

Cllr L Neal expressed her thanks to the Economic Development Team, who had worked tirelessly to provide proactive advice and support to businesses since lockdown. She added that all monies for grants had now been distributed and she welcomed the additional support this new Norfolk-wide fund would bring.

Members supported the proposals, and stressed the need for a fair and transparent process when allocating funds to local businesses across the County

Voting was then carried out by way of a roll call, and it was unanimously

RESOLVED **TO RECOMMEND THAT COUNCIL** delegates authority to the Assistant Director, Finance, in consultation with the Leader, to allocate £150,000 to the Norfolk-wide Fighting Fund.

The Reason for the Decision

To provide additional support for local businesses.

Other Options Considered

None.

2821 RISK MANAGEMENT POLICY AND STRATEGY

Members considered the report of the Internal Audit Manager, which presented members with the Risk Management Policy and Strategy, for recommendation to Council.

The Chairman introduced the report, stressing the importance of risk management.

The Assistant Director of Governance and Business Support explained that the Policy and Strategy had been endorsed by the Finance Resources Audit and Governance Committee at its meeting on 17 July 2020. She drew attention to paragraph 11 of the report regarding Risk Appetite, advising that this level of risk was endorsed by Management Team.

During discussion, members expressed their support for the risk appetite statement, outlined at paragraph 11.4. The Chairman queried the proposal for Cabinet to review the Strategy only three times a year, and officers clarified that this was to dovetail the performance reporting where it had already been agreed that Quarters 1 and 2 would be reported together, at the end of Quarter 2.

The Chairman suggested, and members agreed that a separate risk review should be presented to Cabinet in Quarter 1, providing members with the opportunity to consider the entirety of the previous year.

Voting was carried out by way of a roll call and it was unanimously

RESOLVED

1. To endorse the risk appetite statement, outlined at paragraph 11.4 of the report;
2. **TO RECOMMEND THAT COUNCIL** approves the Risk Management Policy and Strategy, subject to an amendment at paragraph 14.2, to ensure that Cabinet receives quarterly updates on risks, with a separate review in quarter 1 to examine the previous year's outturn.

The Reason for the Decision

To ensure that risks are identified, evaluated and managed appropriately.

Other Options Considered

None.

2822 EXCLUSION OF THE PRESS AND PUBLIC

It was

RESOLVED: To exclude the public and press from the meeting under Section 100A of the Local Government Act 1972 for the following item of business on the grounds that it involve the likely disclosure of exempt information as defined in paragraph 3 of Part 1 of Schedule 12A to the Act (as amended)

2823 WASTE SERVICES REVIEW

Members considered the exempt report of the Internal Consultancy Lead – Waste, which presented the findings of a detailed business case for the setting up of a joint Local Authority Trading Company (LATC) for the delivery of Waste Services for Broadland and South Norfolk Councils.

Members noted the final business case and discussed the alternative options.

Following detailed discussions, voting was carried out by way of a roll call and it was unanimously

RESOLVED

1. To note the final business case.
2. Subject to a reciprocated decision by Broadland District Council, to
 - a) Agree to the establishment of a jointly owned Local Authority Trading Company as a company limited by shares on the basis set out in the final business case, delegating power to register the company at Companies House to the Director of People and Communities in consultation with the Portfolio Holder for Clean and Safe Environment. This option is subject to Broadland Council agreeing the same.
 - b) Agree the Articles of Association and Shareholders Agreement and delegate any minor changes to the Director of People and Communities in consultation with the Portfolio Holder for Clean and Safe Environment. prior to registration at Companies House.

The Reason for the Decision

To deliver the greatest savings for residents, whilst providing flexibility moving forward, in terms of service changes and potential changes from local government reorganisation.

Other Options Considered

As outlined in the report

2824 EXEMPT MINUTE

The exempt minute regarding the review of Legal Services Provision, was agreed as a correct record.

(the meeting concluded at 11.04 am)

Chairman

Updated Delivery Plan post Covid-19

Report Author(s): Sinead Carey
Strategy & Programmes Manager
01508 533661
scarey@s-norfolk.gov.uk

Portfolio: The Economy and External Affairs

Ward(s) Affected: All

Purpose of the Report:

The purpose of this report is to set out the updated Delivery Plan for 2020/21 which reflects the updated priorities of the Council, following the recent impacts of the Covid-19 pandemic.

It was originally proposed to Council when the Delivery Plan for 2020/21 was agreed, that we would seek to develop a two-year plan for 2021/22, alongside a two-year budget setting process. This had the aim of allowing us to plan effectively into the future and to outline our programme of work for the coming years. With the ongoing impacts of Covid-19 and the constantly changing environment, this report also recommends that Council postpone the development of a two-year Delivery Plan and Budget setting process for the period of one-year and allow for the development of a one-year plan for 2021/22, alongside the budget, returning to Council in February 2021.

Recommendations:

1. To recommend that Council approves the adoption of the updated Delivery Plan for 2020/21.
2. To recommend that Council approves the development of a one-year plan for 2021/22, returning to Councils in February 2021.

1 SUMMARY

- 1.1 Covid-19 has had a significant impact on our residents, communities, businesses and Council and challenges for the future are becoming clearer. In light of these challenges and changing environment in which we operate, this report outlines the resetting and repositioning of the 2020/21 Delivery Plan, which sets out the key pieces of work we plan on delivering leading to April 2021.

2 BACKGROUND

- 2.1 At present, South Norfolk Council has a Joint Delivery Plan for 2020/21 in conjunction with Broadland District Council, which came into effect in April 2020, alongside the Councils' Strategic Plan leading to 2024.
- 2.2 The Delivery Plan (see appendix A) sets out the key activities to be delivered within the first year of the Strategic Plan, broken down into service delivery and major projects/programmes of work. To enable success of the activities to be monitored, the Delivery Plan provides several Delivery Measures which will be reported into Members on a quarterly basis.
- 2.3 The Delivery Plan is broken down into the following areas:
- An introduction to the plan and how it links with the Strategic Plan and vision for the two Councils
 - An overview of where our money comes from and how it is planned to be spent in 2020/21
 - The key Delivery Measures for each priority which will be reported through to Members on a quarterly basis
 - The key activities and budgets which are broken down by directorate
- 2.4 In April 2020, it was anticipated that this plan would be an interim one-year plan for 2020/21, while a new two-year plan was developed for 2021/22, aligned to a new two-year budget setting process.
- 2.5 In late March 2020, the Covid-19 pandemic hit the UK, which is continuing to have significant impacts on our communities, businesses and Council.
- 2.6 In response to the pandemic, the Council in July this year, agreed to the implementation of the organisational Recovery Plan, and to take the opportunity to review, in light of the response and recovery efforts of the pandemic, the key focus areas of the Delivery Plan for 2020/21.

3 CURRENT POSITION/FINDINGS

- 3.1 Following Councils agreement in July to review and update the Delivery Plan, teams across the organisation have been working on identifying the impacts of Covid-19 on the plan and developing a new iteration for Councils consideration.

- 3.2 The updated Delivery Plan for 2020/21 attached to this report outlines the proposed amendments (seen as tracked changed in the report) to be made to the key priority focus areas and projects for the Council. These have been revised taking into account and reflecting:
- The key pieces of work identified in the Recovery Plan (agreed by Council in July)
 - Continuing and ongoing Covid-19 response work
 - Impacts on timescales and key milestones
 - Adjustments to focus areas based on resource allocations
 - Budgetary implications on particular projects/programmes of work
- 3.3 This Delivery Plan currently takes us up to April 2021, where based on original timelines, a new two-year Delivery Plan was due to be developed.

4 PROPOSED ACTION

- 4.1 This report proposes that Council approves the adoption of the updated Delivery Plan for 2020/21.
- 4.2 It was originally proposed to Council when the Delivery Plan for 2020/21 was agreed, that we would seek to develop a two-year plan for 2021/22, alongside a two-year budget setting process. This had the aim of allowing us to plan effectively into the future and outlining our programme of work for the coming years.
- 4.3 With the unpredictable nature of the pandemic and the need to remain as flexible as possible to the changing environment, it is recognised that to now plan the budget and programme of work two years in advance would be increasingly challenging. It is therefore proposed that Council postpone the development of a two-year Delivery Plan and Budget setting process for the period of one-year and allow for the development of a one-year plan for 2021/22, alongside the budget, to return to Council in February 2021. This would mean that we would seek to conduct a full review of the programme of work for 2021/22, taking into account the need to reflect the priorities outlined in the Recovery Plan in the coming year, giving us greater flexibility to adapt our plan as the environment changes.
- 4.4 Engagement with members on the budget and programme of work is proposed to take place prior to the end of the year, with the budget and respective Delivery Plan for 2021/22 returning to Councils for agreement in February 2021.

5 OTHER OPTIONS

- 5.1 Members could choose to retain the original proposal to develop a two-year Delivery Plan for 2021/22 – 2023/24, rather than developing a one-year plan for 2021. This would however, create difficulties planning so far in advance in a constantly changing environment at present.

6 ISSUES AND RISKS

- 6.1 **Resource Implications** – The Delivery Plan is aligned to the budget setting process and are subject to change if the budget changes. The Delivery Plan will feed into the development of service specific plans which will ensure that there are the right resources in place to deliver the plan effectively.
- 6.2 **Legal Implications** – no implications.
- 6.3 **Equality Implications** – no implications.
- 6.4 **Environmental Impact** – no implications.
- 6.5 **Crime and Disorder** – no implications.
- 6.6 **Risks** – no implications.

7 CONCLUSION

- 7.1 In summary, the revised Delivery Plan resets our ambitions for what the Council aims to achieve leading to April 2021, in light of the ongoing implications and challenges of Covid-19. The plan ensures that organisationally, we have a clear overview of our priorities for the coming months and that we have the right resources and plan in place to support the recovery effort for the district.

8 RECOMMENDATIONS

- 1. To recommend that Council approves the adoption of the updated Delivery Plan for 2020/21.
- 2. To recommend that Council approves the development of a one-year plan for 2021/22, returning to Councils in February 2021.

Background Papers

None.

Delivery Plan

2020 – 2021

Two Councils
One Team

Our Delivery Plan for 2020/21

In response to the changing local government environment and the drive to provide the best services to our residents, Broadland and South Norfolk Councils agreed to move forwards with a collaboration in 2017 which has seen the councils develop a single officer team working across the two districts. Our Strategic Plan has outlined our vision to create the best place for everyone now and for future generations, alongside our key priority areas and ambitions for the next four years working as a partnership.

The future of local government is changing - but, the work that we're doing and our partnership approach is putting us in the best place to deal positively and proactively to those changes. To ensure that we remain relevant and up to date, we will be responsive and agile, putting the customer at the heart of everything we do and continuously improving and evolving our services to fit with future demands of both residents and businesses.

We have a target to save £8.6m over the next 5 years as a result of our collaboration together. We aim to achieve this by reimagining and transforming what local government delivers to become the best in class and exemplar at what we do. We recognise that we all have a

responsibility to do all we can to ensure that what we leave behind is better than what we found.

This document, our Delivery Plan, has been developed around these priorities and ways of working and describes our intended activities for 2020/21. This is an interim one year plan, with the ambition to move forward from 2021/22 with a 2 year plan, in line with the Budget Setting process for the Councils.

Our Strategic Plan identifies four priority areas where we focus our resources and efforts. Alongside the priority areas are our ambitions linked to each priority. These priorities and ambitions are underpinned by how we deliver our services through our people and our approach.

It is important that we are able to link our vision, priorities and ambitions, to our service delivery and team and individual objectives. This Delivery Plan is therefore focussed on the three service areas the council is made up of, with each activity carried out being linked back to the key priority areas.

In light of the ongoing impacts of the Covid-19 pandemic, the Delivery Plan for 2020/21

has been updated to reflect our changing programme of work.

The Vision for our Place

THE VISION

Working together to create the best place and environment for everyone, now and for future generations

OUR PRIORITIES, OUR PEOPLE, OUR APPROACH

Growing our economy

- Promote our areas as a place that businesses want to invest in and grow, attracting investment from our areas.
- Build a productive, high-performing and dynamic economy for the future.
- Create an inclusive economy which promotes skills and job opportunities for all.

Supporting individuals and empowering communities

- Ensure that the most vulnerable feel safe and well.
- Empower people to succeed and achieve their aspirations.
- Create and support communities which are connected and are able to thrive.

Protecting and improving our natural and built environment, whilst maximising quality of life

- Take proactive steps to preserve the natural environment.
- Ensure we have the right homes for everyone.
- Build a place that everyone can be proud of.

Moving with the times, working smartly and collaboratively

- Promote a place which has a clear and ambitious offer.
- Provide truly commercial, entrepreneurial and collaborative public services.
- Use the best of technology, customer insight and the right resources to deliver value for money services for our customers.

Where our money comes from

Similar to the wider public sector, Broadland and South Norfolk are operating in a constantly changing financial environment. Instead of reducing the level of the services that we provide to our residents, we have the ambition to move with the times and generate new income streams, alongside using innovative and devolved funding mechanisms to continue to support our services. Central to our long-term financial plan to become more financially self-sustaining, is seeking to generate new income streams by using our capital funding to support the economy to grow.

This plan outlines our spend for 2020/21 by Directorate and by Council. As part of the collaboration and the new one team way of working, a system for apportioning costs and savings across the two Councils has been developed and agreed by auditors, which is based on a % split of 45%(Broadland) and 55%(South Norfolk). This is reflected in the financial tables in this plan.

2020/21 outlook

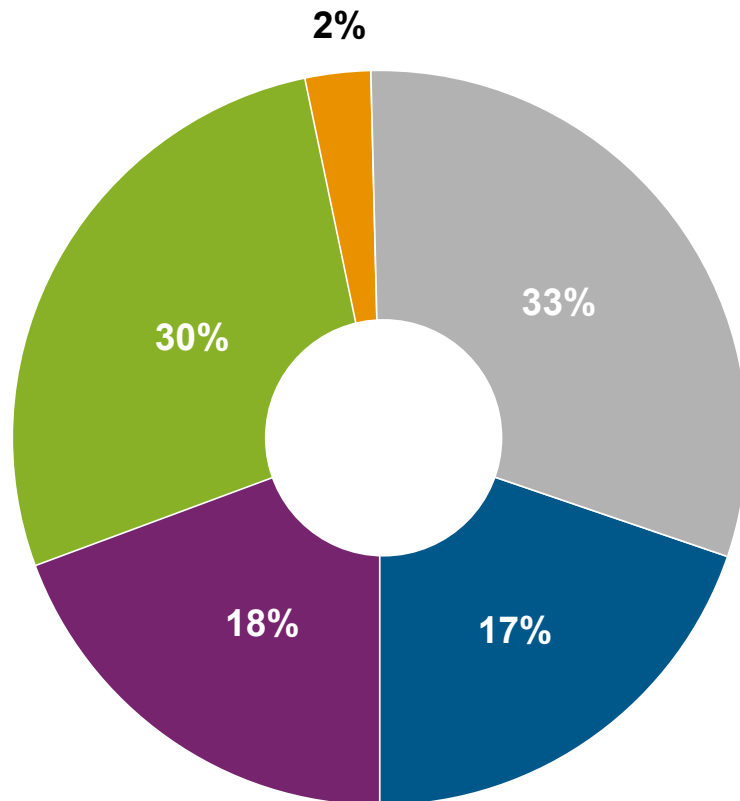

Our total controllable funding for 2020/21 is:

- £17.2m for Broadland District Council
- £31.6m for South Norfolk Council

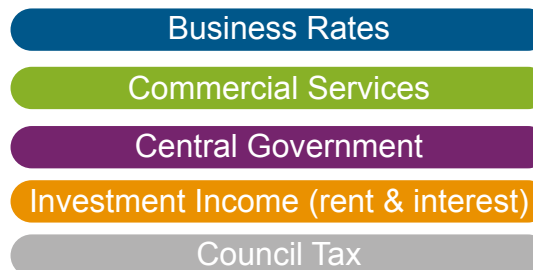

The chart below shows the breakdown of our funding sources:

Broadland District Council

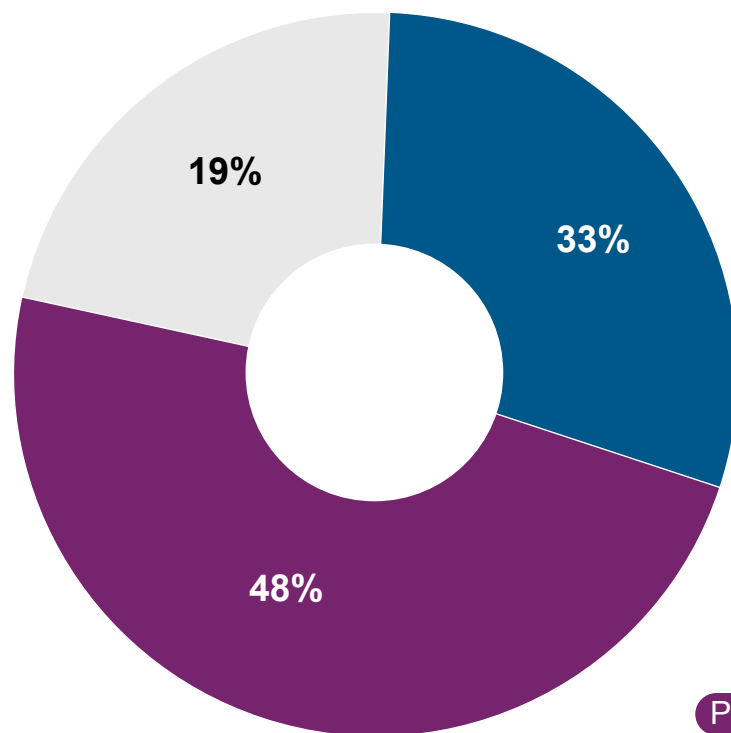

South Norfolk Council

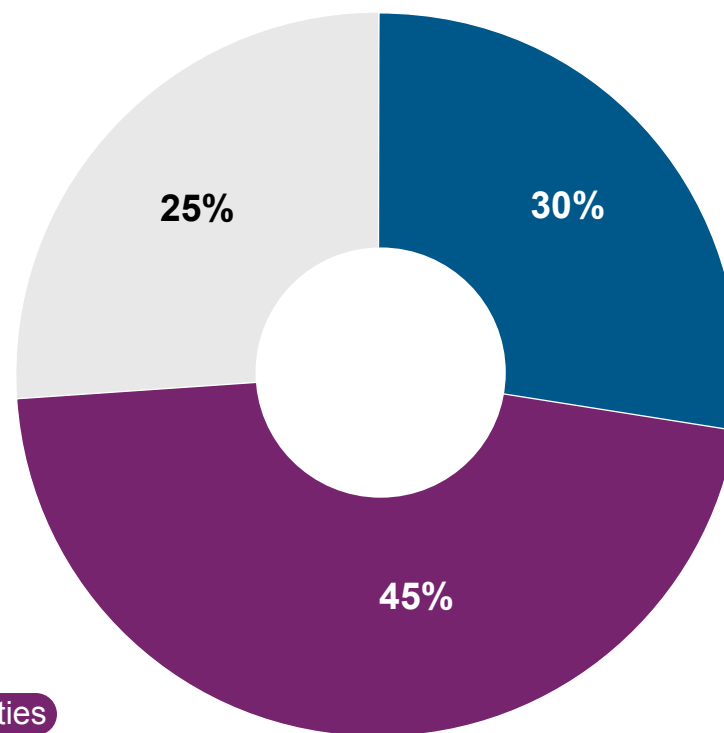

How our budget is to be spent in 2020/21

The charts outline our predicted spend for each of our three directorates and the key activities and projects being delivered is detailed later in the plan. A detailed breakdown of how much our services cost to run can be found in the Budget Books for both Councils'.

Delivery Measures

Our delivery measures aim to track the performance of our services and how well we are achieving our key ambitions. These are reported into Cabinets on a quarterly basis.

Priority	Measure Ref	Activity Ref	Measure of success	What a successful outcome would be	Reporting frequency	Service
	1	N4	Progress towards delivery of the predicted £8.6m savings through the South Norfolk/ Broadland collaboration	£8.6m savings over 5 years and on-going efficiencies. Savings target of £1.632m in 2020/21 as outlined in the Feasibility Study	Quarterly	All teams
	2	Across a number of activities	Customer satisfaction survey (%)	The baseline measure will be ascertained in Q3 of 20/21. Success will look like an increase on that baseline figure.	Quarterly (once baselined)	Innovation, Strategy & Programmes
	3	T1	Staff satisfaction	The baseline measure will be ascertained in Q4 of 19/20. Success will look like an increase on that baseline figure.	Quarterly (once baselined)	OD
	4	P4	Staff absence levels	4% for short term sickness (less than 4 weeks) across the one team	Quarterly	HR
	5	T2	Staff retention	90% retention of workforce, thus ensuring a healthy turnover rate (13.4% based on survey by LGA on average turnover)	Quarterly	HR / OD
	6	P1	% of the organisations workforce who are apprentices and graduate entry roles.	The baseline measure will be ascertained in Q4 of 20/21. Success will look like an increase on that baseline figure.	Quarterly	HR / OD
	7	L5	Collection rate of Council Tax	SNC 98.5% collection rate, BDC 98.9% collection rate – Annual	Annual	Council Tax

Priority	Measure Ref	Activity Ref	Measure of success	What a successful outcome would be	Reporting frequency	Service
	8	L6	Collection rate of Business Rates	SNC 98% collection rate, BDC 99% collection rate – Annual	Annual	Business Rates
	9	Across a number of activities	Number of new jobs created	To meet the target for Greater Norwich as set out in the emerging Local Plan	End of Q4 for the preceding year	Economic Development/ Planning
	10	Across a number of activities	Employment rate	Increase on employment rates for both districts – Annual	Annual	Economic Growth/ Communities and Early Help
	11	Across a number of activities	Those in employment claiming benefits	Decrease on the number of those who are in employment and claiming benefits	Annual	Economic Growth/ Communities and Early Help
	12	Across a number of activities	% of vacant retail space in market towns	The baseline measure will be ascertained in Q4. Success will look like an decrease on that baseline figure.	Quarterly (once baselined)	Economic Growth/ Planning
	13	Across a number of activities	Business survival rates	Increase in the % of business start-ups that survive over one year	Annual	Economic Growth
	14	F10	External funding to support growth	Significant investment to support the delivery of our key projects outlined in the Delivery Plan	Quarterly	Economic Growth
	15	A7	Numbers of vulnerable residents supported by our discretionary prevention services	2,000 residents to be supported by Q4	Quarterly	Communities and Early Help
	16	B3	Annual footfall of customers visiting SNC's leisure facilities and activities to lead healthier and more active lives	5% increase in the annual footfall at all South Norfolk leisure centres by Q4	Quarterly	Leisure

Priority	Measure Ref	Activity Ref	Measure of success	What a successful outcome would be	Reporting frequency	Service
	17	D2	Number of residents supported to live independently	800 persons assisted to live independently by Q4	Quarterly	Communities and Early Help
	18	D2	Delivery of housing standards enforcements	150 proactive and reactive enforcement interventions by Q4	Quarterly	Communities and Early Help
	19	E7	% successful intervention to prevent or relieve homelessness for customers who are homeless or at risk of becoming homeless	80% by Q4	Quarterly	Communities and Early Help
	20	E8	Number of working days taken to process new claims and Change of Circumstances for Housing Benefit/ Council Tax Benefit	It takes 7 days to process new claims and change of circumstances 80% by Q4	Quarterly	Housing and Benefits

A) Communities and Early Help	Communities and Early Help						
	Core purpose of the service: To develop resilience, confidence and capacity within our individuals, families and communities to live healthy, independent and productive lives.						
	Major Projects/Programme of work						
	A1	Redesign our early help and prevention model as part of the transformation agenda: By working closely with partners, Use the learning from the COVID crisis to identify <u>how we can build on the community hub partnership between districts, county council and other partners to develop and</u> have the capacity and capability to effectively manage resident issues before they become crises. This includes: <ul style="list-style-type: none"> Design with partners and establish a common and accessible help hub model Working with the Health and Wellbeing Board to ensure the sustainability of the acute based District Direct model and integration and access of district services through local NHS primary care networks Develop our partnership working and community offer around health and wellbeing priorities including domestic abuse, mental wellbeing and frailty 	A developed and sustainable early help and prevention model of partnership working.	A new model is in place with strong partnership support that has clear ambitions and goals in place to prevent issues escalating – Q 24 District Direct programme is delivering in community hospitals and acute trusts – Q 13 A new community leisure model is in place to support locality working – Q 24	n/a	AD Individuals and Families	 

	A2	Increase our partnership offer around crime and antisocial behaviour: to tackle issues relating to ASB, vulnerability and crime such as County Lines, <u>domestic abuse</u> and modern-day slavery. This includes: <ul style="list-style-type: none"> Develop our response capability through further integration of statutory tools Work with the police control room to understand and better navigate requests for help 	An enhanced partnership model is implemented which tackles crime and Anti-Social Behaviour (ASB)	Integrated team in place with the police — Q13	n/a	AD Individuals and Families	
	A3	Create a district locality offer, including: <ul style="list-style-type: none"> Defining what our locality offer is Working with the County Council to define and implement the Local Service Strategy Working with partners on the One Public Estate Board and developers, to identify local opportunities for cohabitation and service alignment 	Services are delivered as close to the community as possible.	Proposed model identifies opportunities to deploy staff into local areas to improve access to services - Q1 Identified opportunities to share space among four localities — Q4	n/a	Director of People and Communities	
	A4	Improve aspirations and skill of residents, including: <ol style="list-style-type: none"> Work with partners and the Economic Development Team to develop a skills and employment offer to improve public and private sector opportunities <u>to support our economy post COVID such as rolling out a comprehensive one team apprenticeships and internships programme, targeting our hard to recruit areas</u> Improve careers advice in schools and post education to ensure residents are equipped to take up the careers our districts need. 	There is an increase in: <ul style="list-style-type: none"> Number of internships and work experience placements in our organisation Numbers of apprenticeships in hard to recruit areas Schools and businesses attending Norfolk 	The Councils have provided young people with information and advice about careers in local Government — Q14 Choices programme offers all residents in both districts a chance to develop skills for work — Q24	n/a	AD Individuals and Families/AD Economic Growth	

		<p>c) Link schools with community groups to increase 'soft skills' in young people</p> <p>d) Engage with schools, businesses and the Norfolk Skills and Careers Festival to increase aspirations of young people and increase take-up and awareness of local opportunities</p> <p>e) Review of and developing a scalable Choices employment training programme, to be delivered for residents of both districts, with support from our Early Help offer</p>	<p>Skills and Careers Festival</p> <ul style="list-style-type: none">• More people affected by COVID back into employment compared to the national average <p>There is a decrease in:</p> <ul style="list-style-type: none">• School age children who are, or are at risk of being NEET in the districts• Number of benefits claimants in work				
A5	<p>Create a community offer and events brand package Develop and launch a community brand which:</p> <ul style="list-style-type: none">• Aligns our community events,• Maximises sponsorship, community investment and CSR• Engage communities to participate in community events	<p>Commercial partners are engaged and invest, increasing community capacity.</p>	<p>Model developed to enable business to support the Council in improving the environment, our communities and economy – Q3</p>	n/a	AD Individuals and Families		
A6	<p>Embed social value in procurement (<i>looking at the additional value created in service contracts which have a benefit to the wider community</i>):</p> <p>Working with partners to develop and embed social value in procurement helps to develop a more inclusive economy.</p>	<p>There is an agreed policy position, alongside partners, embedded in all contracts.</p>	<p>Q2</p>	n/a	AD Individuals and Families/AD Business Support & Governance		
Operational/Service Delivery (BAU)							
A7	<p>Provision of non-statutory services to support vulnerable residents including:</p>	<p>Residents are supported to avoid</p>	<p>Ongoing</p>	n/a	AD Individuals and Families		

		<ul style="list-style-type: none"> • Help Hub requests for support • Social Prescribing (SNC) • Welfare and debt advice • Emotional Wellbeing and Resilience Service (SNC) • Domestic abuse service • Handyperson service • Pathways (BDC) 	crises. Demand on the Councils and other statutory services is reduced.				
	A8	Safeguarding: Embed a joint safeguarding protocol across the organisation and raise awareness of safeguarding.	A healthy level of reported safeguarding cases which are dealt with quickly and proportionately and staff are suitable trained.	Ongoing	n/a	AD Individuals and Families	
	A9	Develop a community outreach leisure offer: Develop a holistic community outreach leisure offer which aims to improve the capacity, health, wellbeing and activity levels of our communities. Building on and developing good examples, such as: <ul style="list-style-type: none"> • Tots2Teens • GP referrals scheme • Why Weight • 10k races and development of park runs 	There is improvement in the capacity, health, wellbeing and activity levels of our communities.	Ongoing	n/a	AD Individuals and Families/AD Community Services

The service will provide technological solutions to meet customers needs, enabling a good customer service experience. 						
	Major Projects/Programme of work						
	Q1	Implement the Active Directory Trust (network convergence and co-existence)	To join the existing Broadland and South Norfolk networks (utilising the above site to site link) and provide some sharing of core ICT resources between sites.	Implemented - by end of Q1	£10,000	AD Governance & Business Support	
	Q2	Delivery of the single email and calendar platform (Microsoft Office 365) across the two Councils.	To provide a single email and calendar platform across both organisations with the ability to adopt a single common domain name.	Implemented - by end of Q3	£30,000	AD Governance & Business Support	
	Q3	Delivery of the Infrastructure for 'One Network' across the two Councils.	To provide the infrastructure to support common shared platforms, providing a location for future alignment of corporate systems and departmental business systems.	Ongoing to 2022	£770,000	AD Governance & Business Support	

	Q5	Telephony upgrade to include provision of softphones (Broadland)	Short-term upgrade and licencing provide interim softphone capabilities.	Solution implemented - by end of Q1-Q2 as delayed by COVID-19	£29,030	AD Governance & Business Support	
	Q6	Delivery of the Single intranet: to provide a single external website across both organisations adopting a common platform.	To provide an effective internal communications tool for both Members and staff.	Implemented - by end of Q1	n/a	AD Governance & Business Support	
	Q7	Delivery of an effective remote access system for staff, enabling cross site working.	To provide the ability for staff to work effectively between sites and from remote locations.	Fully functioning Due to the impact of COVID-19 an interim solution is in place with a longer-term solution to be implemented for remote working in place by end of Q3 Q4	£69,500 (Spend expected in 2019/20 subject to budget provision)	AD Governance & Business Support	
	Operational/Service Delivery (BAU)						
	Q8	Council-wide IT service operations: Ensure the Councils' IT systems and infrastructure are operating to acceptable service levels. This includes: Service Desk, Infrastructure, Development, Architecture, Systems, Security, GIS & Digital.	Resolution of problems & incidents. Conversion of solutions into standard practices and improvements. Easy to use Self Service capabilities within the IT arena.	Ongoing	n/a	AD Governance & Business Support

GREATER NORWICH HOMELESSNESS STRATEGY 2020-2025
SOUTH NORFOLK AND BROADLAND ROUGH SLEEPER
STATEMENT 2020-2025.

Report Author(s): Victoria Parsons
Policy & Partnerships Officer
01603 430457
victoria.parsons@broadland.gov.uk

Portfolio: Better Lives

Ward(s) Affected: All

Purpose of the Report:

To present the Greater Norwich Homelessness Strategy 2020-2025 and the South Norfolk and Broadland Rough Sleeper Statement 2020-2022.

Recommendations:

1. Cabinet to approve adoption of the Greater Norwich Homelessness Strategy 2020-2025 and the South Norfolk and Broadland Rough Sleeper Statement 2020-2022

1 SUMMARY

- 1.1 This report presents the appended Greater Norwich Homelessness Strategy
- 1.2 2020-2025 and the South Norfolk and Broadland Rough Sleeper Statement 2020-2022 for publication and provides background to the statutory and operational context within which both documents were developed.

2 BACKGROUND

- 2.1 The Homelessness Reduction Act 2017 (HRA) places additional duties on Local Authorities (LAs) that are designed to ensure all households at risk of homelessness receive earlier and more effective interventions. Introduced in April 2018, the act requires authorities to:
 - i. Provide advice and guidance for all households approaching the LA and for the guidance to meet the needs of certain listed groups including those leaving prison, hospital or care and those with mental health issues.
 - ii. To **prevent** those threatened with homelessness from becoming homeless
 - iii. To **relieve** homelessness for those who are homeless

Both **prevention** and **relief** duties last for 56 days but can be ended in several ways in that time.

- 2.2 Additionally, Local Authorities have a statutory duty under the Homelessness Act 2002 to publish Homelessness Strategies at least once every 5 years. South Norfolk and Broadland councils take a sub-regional approach with Norwich City Council in the review and formation of these strategies in acknowledgement of our long history of working in partnership in addition to the movement of residents across district boundaries and the location of services. The document before you is the 4th time we have collaborated on a Homelessness Strategy.
- 2.3 Following publication of the Government's Rough Sleeper Strategy 2018-2022, a request was made by central government that the Homelessness Strategies include a specific focus on rough sleeping. Norwich City Council have an existing, separate Rough Sleeping Strategy which is valid until 2022 while South Norfolk Council and Broadland District Council do not.
- 2.4 In order to meet our duties and provide direction to service delivery, a South Norfolk and Broadland Rough Sleeper Statement has been developed for the period 2020-2022. The statement sets out in clear terms the actions we are going to explore to end rough sleeping across South Norfolk and Broadland.
- 2.5 Development of both documents have also run in parallel with the Best in Class Housing Offer project, where the restructure of the Housing and Benefits teams have provided a key opportunity to undertake a radical reimagining of how the council delivers the housing and homelessness service.

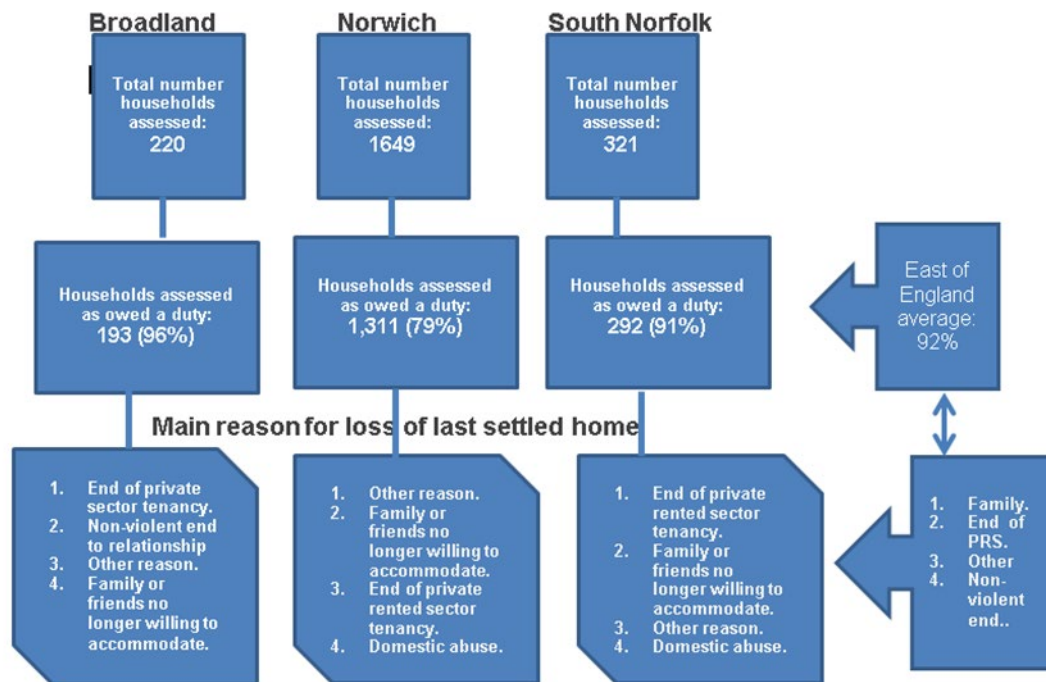

- 2.6 Using funding awarded from the Local Government's Association's (LGA) Housing Advisor Programme (HAP) both Broadland and South Norfolk councils procured an external consultancy firm to undertake in depth reviews in the following key areas.
- i. Exploring the alignment and redesign of our Interim and Temporary Accommodation Pathway
 - ii. Redesign of a Shared Social Housing system
- 2.7 Working with the consultants has enabled the councils to procure additional value into the redesign work through the provision of an impartial viewpoint coupled with a background of innovative thinking when developing customer solutions, partnership working and operating across the public/private sectors. Through this the council has an opportunity to develop a housing service that is the first of its kind.
- 2.8 Findings from the review and recommendations for a leading service offer will be presented to members in the Autumn. However, at the core of all of these elements of the council's housing offer is; a customer centred offer that promotes and increases resilience and provides wrap-around support for those who are in need of extra assistance; the prevention of homelessness and promotion of sustainable housing; and a commitment to working in partnership to achieve it.

3 CURRENT POSITION/FINDINGS

3.1 The Greater Norwich Homelessness Strategy 2020-2025

- 3.2 The Homelessness strategy contains data from the initial 12 months following the introduction of the HRA, and using the Government's new standardised reporting system H-CLIC. However it should be noted that this data is still considered experimental due to differences in software implementation timelines.
- 3.3 As an overview of demand, the chart at 3.4 below provides information on the numbers of households accessing our Housing Options services in 2018/19. The data includes those approaches from households who are homeless or threatened with homelessness and where prevent and/or relief duties under the HRA may apply and does not represent the sum total of approaches to our Housing teams.

3.4 Numbers of households accessing Housing Options Services in 2018/19, presenting as homeless or threatened with homelessness.

3.5 In spite of the difference in numbers and the potential contrast of approaches from urban and rural locations, there are similarities in terms of the main reason for loss of last settled home, with End of private rented sector tenancy and Family or friends no longer willing to accommodate appearing in the top four reasons across the councils in the sub-region.

3.6 To provide focus, the Homelessness Strategy sets out four priorities under which sits a series of actions which are ambitious in scope, realistic to achieve and reflects the urban/rural context within which the strategy is located.

3.7 The priority areas are:

- i. Domestic Abuse
- ii. Preventing Homelessness
- iii. Single and Youth Homelessness
- iv. Financial Inclusion, Welfare Reform and Economic Growth

3.8 The priorities were determined through an analysis of homelessness data, such as that given in 3.4 above, a review of national research and literature, the outcomes of a set of partner engagement workshops and a small sample of service user interviews. The priorities relate not only to actions the local authorities will seek to take but also those in conjunction with local partner organisations.

3.9 The South Norfolk and Broadland Rough Sleeper Statement 2020-2022

- 3.10 Until 2019, rough sleeping numbers in South Norfolk and Broadland had been underestimated. However, an audit undertaken in February 2019 revealed 65 reports of rough sleeping between January 2018 and January 2019. Headline statistics of this audit include; 71% of rough sleepers were male, 10% were over the age of 56; and 43% had indicators for mental ill health and drug and alcohol misuse.
- 3.11 Following this, in early 2019, South Norfolk Council in partnership with Broadland District Council were successful in consecutive bids for funding through the Ministry for Housing, Communities and Local Government's (MHCLG) Rough Sleeper Initiative (RSI) and Rapid Rehousing Pathway (RRP). The shared First Step Service was developed with this funding and provides rapid access accommodation, personal budgets to overcome barriers to accessing accommodation and two Rough Sleeping Coordinators to provide support for those rough sleeping across the two district areas.
- 3.12 First Step was launched in August 2019 and in its first eleven months of operation, have recorded reports of 127 people rough sleeping or at risk of rough sleeping. 60% of people recorded have been supported into accessing accommodation and 41% of those have moved into long-term housing, such as supported accommodation, a socially rented tenancy and securing their own housing.
- 3.13 The success of the project has ensured that the councils were successful in their bid for funding for the 2020/21 year. This enables not only the continuation of the service but allows us to enhance it by opening additional Somewhere Safe to Stay Hubs and staging post accommodation, provision for tenancy start up budgets to enable those moving into long term accommodation to purchase basic equipment. A newly created post of an Assessment and Resettlement Officer is working alongside the Rough Sleeping Coordinators in supporting individuals into the hub or interim accommodation and working with them to secure suitable long-term alternatives. Finally, the councils will be looking to secure units to introduce a Housing First model for those who require additional support.
- 3.14 In addition, in a joint bid with Norwich City Council, South Norfolk and Broadland have secured funding for a Drug and Alcohol Recovery Coordinator. The worker will be located within the Norwich Rough Sleeper Service – Pathways, with whom the First Step service work closely. The coordinator will work with individuals who are rough sleeping across the sub-region from point of entry into the service and through their treatment/recovery journey.
- 3.15 The Rough Sleeper Statement sets out 3 strategic objectives:
- i. Early intervention and prevention of homelessness
 - ii. Improve the range of Temporary Accommodation options across the two councils
 - iii. Reduce the incidence of rough sleeping

3.16 COVID-19

- 3.17 The Coronavirus outbreak and the implementation of nationwide lockdown requirements saw a significant rise in the number of people who are rough sleeping or at risk of rough sleeping supported and accommodated by South Norfolk and Broadland. The predominant source of this increase stemmed from those who had transient arrangements for their accommodation, otherwise known as hidden homelessness. This has provided evidence that although rough sleeping remains very low within both districts, there is a steady number of people who have very little control over their accommodation and remain on the cusp of rough sleeping.
- 3.18 Early in the lockdown period we were asked by central government to offer accommodation to anyone who was street homeless or living in dormitory style emergency accommodation, known as 'Everyone In'. South Norfolk and Broadland Councils are proud to say that they were able to offer accommodation to all those rough sleeping across the local authority areas.
- 3.19 The graph at 3.19 below provides an example of the increase in demand for temporary accommodation experienced by the councils. The increase is accounted for by those accommodated under 'Everyone In' and also increased approaches to the council's Housing and Benefits team by those at risk of homelessness.

3.20 Graph showing temporary accommodation occupancy rates

- 3.21 In terms of recovery from Covid-19, the councils are preparing for this demand to increase further, particularly as we approach:
- The easing of lockdown restrictions providing people experiencing domestic abuse with an opportunity to seek help or flee
 - The easing of lockdown restrictions meaning that people experiencing relationship breakdown or where family or friends no longer willing to accommodate may seek housing assistance
 - The removal of the central government assisted furlough scheme leading to risk of increased job losses

- The ending in September of the moratorium on evictions
- The ending of temporary contracts with accommodation providers such as hotels and large venues that have been accommodating rough sleepers and other households at risk of homelessness
- The removal of additional support for those who are NRPF

3.22 The priorities outlined within the Greater Norwich Homelessness Strategy and the South Norfolk and Broadland Rough Sleeper Statement have been reviewed under the lens of Covid-19 and found to still be highly relevant and more than ever present an opportunity for us to work collaboratively at a local and county wide level to support recovery and prevent homelessness.

4 PROPOSED ACTION

- 4.1 It is proposed that in order to meet our statutory duty under the Homelessness Act 2002, and to make public the council's strategic priorities to prevent homelessness that South Norfolk Council adopts the appended Greater Norwich Homelessness Strategy 2020-2025.
- 4.2 It is further proposed that, to comply with the request from Central Government to include a specific focus on rough sleeping, the council adopts the appended South Norfolk and Broadland Rough Sleeper Statement 2020-2022.
- 4.3 From 2022, as with the Greater Norwich Homelessness Strategy, it is proposed that the councils produce an aligned Greater Norwich Rough Sleeping Strategy. This would reflect our understanding that those who are rough sleeping may migrate into an urban area for reasons of safety and proximity to some services, or they may choose to be less visible in the more rural areas of the sub-region.
- 4.4 On 9th September, the Greater Norwich Homelessness Strategy was approved for adoption and publication by Cabinet members for Norwich City Council.

5 ISSUES AND RISKS

- 5.1 **Resource Implications** – There are no resource implications beyond the existing staff structure and resources allocated for the transformation and improvement programme within the Housing and Benefits team.
- 5.2 **Legal Implications** – The strategy and statement is proposed in order for us to meet our duties under the Homelessness Act 2002.
- 5.3 **Equality Implications** – An Equalities and Communities Impact Assessment is appended to this report
- 5.4 **Environmental Impact** – There are no known environmental impacts.

- 5.5 **Crime and Disorder** – In working to prevent homelessness and rough sleeping through the provision of accommodation and support, including for those who have had contact with the criminal justice system, it is hoped to prevent instances of offending and reoffending.
- 5.6 **Risks** – The current Homelessness Strategy was valid until 31st March 2020. Although production has been delayed with the Covid-19 outbreak, if we do not publish a new strategy we are at risk of non-compliance with our statutory duty under the Homelessness Act 2002.

6 CONCLUSION

- 6.1 Broadland, South Norfolk and Norwich have a long history in working together to prevent homelessness. Adoption of both the Greater Norwich Homelessness Strategy 2020-2025 and the South Norfolk and Broadland Rough Sleeper Statement 2020-2022 provides an overarching and complementary response to the prevention of homelessness and the ending of rough sleeping in our area.
- 6.2 As stated above, the documents will form part of a Best in Class Housing Offer that seeks to deliver a customer centred offer that promotes and increases resilience and provides wrap-around support for those who are in need of extra assistance; the prevention of homelessness and promotion of sustainable housing; and a commitment to working in partnership to achieve it.
- 6.3 Progress of the documents had been delayed with the outbreak of Covid-19. However, this provides the councils with an opportunity to publish strategic priorities that are timely, cognisant with the anticipated increase in demand and subsequent support needs and links into recovery activity at a local and county wide level.

7 RECOMMENDATIONS

- 7.1 Cabinet to approve adoption of the Greater Norwich Homelessness Strategy 2020-2025 and the South Norfolk and Broadland Rough Sleeper Statement 2020-2022.

Equalities and Communities Impact Assessment

Name of Officer/s completing assessment:

Victoria Parsons BDC/SNC
Chris Hancock NCC

Date of Assessment:

Assessment 1 13 07 2020

1. What is the proposed Policy (please provide sufficient detail)?

For the purposes of the assessment the term 'Policy' relates to any new or revised policies, practices or procedures under consideration.

The Greater Norwich Homelessness Strategy 2020-2025 (GNHS)
The South Norfolk and Broadland Rough Sleeper Statement 2020-2022 (RSS)

Greater Norwich is a place where agencies work together to support people who are, or may become homeless. By putting people at the heart of our service delivery we can create a wrap-around offer that helps people to take control of their own circumstances earlier, and stopping them from becoming homeless or returning to homelessness will be our main aim. This will provide people with a firm platform where their health and wellbeing, employment or training opportunities are either maintained or improved.

Covid-19

Much of the data used for the purposes this EqCIA dates to a period prior to the pandemic outbreak. Data is emerging on the impact with initial analysis showing that we are about to enter into a period of sustained recession. The Organisation for Economic Co-operation and Development (OECD) in June 2020 stated that the recovery, after an initial, rapid resumption of activity, will take a long time to bring output back to pre-pandemic levels, and the crisis will leave long-lasting scars - a fall in living standards, high unemployment and weak investment. Job losses in the most affected sectors, such as tourism, hospitality and entertainment, will particularly hit low-skilled, young, and informal workers.

As districts we have been dealing with a rapid increase in demand and are preparing for this demand to extend and increase further into the foreseeable future, particularly as we approach:

- The easing of lockdown restrictions providing people experiencing domestic abuse with an opportunity to seek help or flee
- The easing of lockdown restrictions meaning that people experiencing relationship breakdown or where family or friends no longer willing to accommodate may seek housing assistance
- The winding down of the govt. assisted furlough scheme leading to risk of increased job losses
- The ending in August of the moratorium on evictions
- The ending of temporary contracts with accommodation providers such as hotels and large venues that have been accommodating rough sleepers and other households at risk of homelessness
- The removal of additional support for those who are NRPF

The priorities outlined within the GNHS and RSS are still highly relevant and more than ever present an opportunity for us to work collaboratively at a local and county wide level to support recovery and prevent homelessness.

2. Which protected characteristics under the Equalities Act 2010 does this Policy impact: (indicate whether the impact could be positive, neutral, or negative)			
Protected Characteristic	Potential Impact		
	Positive	Neutral	Negative
Age	✓		
Disability	✓		
Race	✓		
Sex	✓		
Religion or Belief	✓		
Sexual Orientation	✓		
Marriage/Civil Partnership		✓	
Pregnancy/Maternity	✓		
Gender Reassignment	✓		
3. Which additional Communities characteristics does this policy impact?			
Health	✓		
Place inc. Rurality	✓		
Low Income and Poverty	✓		

3. What do you believe are the potential equalities impacts of this policy?

Please include:

- Partnership organisations worked with in the development of this policy
- Evidence gathered to inform your decision
- Where you have consulted, Who and How this has informed the decision/policy
- Any other groups impacted not detailed above

Note: Impacts could be positive, neutral, or negative and impact groups differently

It is not envisaged that there will be negative impacts felt by those with a protected characteristic as a result of both the GNHS and the RSS being implemented. Questions 3 and 4 of this EqCIA details areas where we feel adoption of the strategy and statement will result in positive impacts.

In formulating the GNHS, the RSS and the subsequent EqCIA we have considered local and national data and also findings from consulting with partners through:

- 2 partner's workshops
- Collaborative working with the Mancroft Advice Project (MAP) on the Single and Youth Homelessness priority
- A drop in session for young people through MAP
- A period of public consultation for the draft homelessness strategy from the period Friday 6th March – Monday 1st June 2020

A list of partners is given below.

Areas of Positive Impact

Domestic Abuse

Domestic Abuse disproportionately affects women and children. National statistics state that almost 1 in 3 women aged between 16-59 will experience DA in their lifetime (ONS, 2019). An estimated 20% of children in the UK have lived with an adult perpetrating DA (NSPCC, 2011). In recognition of the impact of DA on young people, the Domestic Bill currently in progress through Parliament was recently amended to recognise children as victims of DA in their own right. At the opposite end of the age spectrum, Safelives reports that on average, older victims experience abuse for twice as long before seeking help as those aged under 61 and nearly half have a disability. (Safelives 2016).

While we recognise the impact of DA on women and children it should also be noted that for those who identify as LGBTQ+, research from Stonewall (2018) suggests that 11% of the LGBTQ+ population have experienced domestic abuse in the previous 12 months; twice as high as the population as a whole. For bisexual women this increases to 13%, and for Trans or non-binary people to 19%. For men, approx. 4.2% of men and 7.9% of women suffered domestic abuse in 2018 (ONS).

From a local perspective, data shows that in the financial year 2018/19 in Greater Norwich 234 households said that the main reason for the loss of their last settled home was because of domestic abuse. The reported number of 234 can be split geographically as follows:

Broadland – 15 households
 Norwich – 177 households
 South Norfolk – 42 households

Equating to nearly one in ten households overall, however, it is also likely that this number will be higher due to under reporting.

We recognise that for those fleeing DA, it can be an extremely worrying and potentially dangerous period of time. This can be exacerbated for some for whom one or more of the protected characteristics may apply in terms of additional barriers due to their sexuality, gender, immigration status, race or religion and geographical location and that our local knowledge of these barriers can be improved. To this end actions identified through the GNHS and RSS aim to facilitate and encourage recognition of DA and to seek help. Importantly, we also want to provide accommodation and support options for people that meets their individual needs and circumstances and to improve our own understanding.

Youth Homelessness

H-Clic data from 2018/19 across the 3 Local Authorities suggests that of those approaching the councils as homeless or at risk of homelessness those in the 18-24 and 25-34 age groups account for just over 52% of all approaches. As the GNHS states, age is clearly a determining factor in people becoming homeless often due to; low wages; lower welfare payments; or where young people are living at home with friends or extended family in often insecure living situations.

In addition, research by the Albert Kennedy Trust in 2016 found that young people who are lesbian, gay, bisexual and transgender comprise up to 24 per cent of the youth homeless population with the main reasons were parental rejection, abuse within the family or being exposed to aggression and violence.

As part of the development of the strategy, officers consulted with youth organisations and held a drop-in afternoon for young people who had experienced homelessness to understand their experiences and views. From the young people we spoke to, it became clear that social housing was viewed by them as a stepping stone to support their immediate housing needs and that they were invested in relocating to secure suitable work or university opportunities with the ultimate goal being home ownership. While the sample size was small, it highlights the aspirations of young people in respect of housing.

The actions identified in the strategy will seek to prevent youth homelessness but also to offer accommodation that is appropriate for their immediate needs while also supporting long-term aspirations.

Rough Sleeping

The South Norfolk and Broadland First Step Service has been operational since August 2019. The service aims to verify reports of rough sleeping in the area and to work with those to provide a swift means of accommodation, assessment of support needs and options for longer term sustainable accommodation. The service also works closely with the Norwich City Pathways rough sleeping service. During the life of the project so far the First Step Service have responded to reports of 127 people rough sleeping. Of those 80% were male with a remaining split of 14%/6% for Female/Gender unknown.

In terms of age, just under half (48%) were aged between 18-34, perhaps reflecting the issues for young people and homelessness given above and also the lower levels of life expectancy for entrenched rough sleepers, 47 for males and 43 for females. Conversely, 4% of the people referred into First Step were aged 60+ (2F, 1M) although it should also be noted that we do not have ages for approx. 15% of the cohort. 6% of those reported identified as being disabled.

The data above provides some demographic detail of people who have been reported into the First Step Service. However, the South Norfolk and Broadland Rough Sleeper Statement clearly sets out the strategic objectives and ambitions to end rough sleeping for all those of no fixed abode or at risk of rough sleeping. Embedding the rapid response work we undertook with partners in relation to Covid-19, we have the opportunity to do this not just at a local level but also within the county.

5. What do you believe are the potential Communities impacts of this policy?

Please include:

- How the policy can meet agreed priorities
- Evidence gathered to inform your decision
- Partnership organisations worked with in the development of this policy

- Where you have consulted, Who and How this has informed the decision/policy
- Any other groups impacted not detailed above

Note: Impacts could be **positive**, **neutral**, or **negative** and impact groups differently

Areas of Positive Impact

Health and Mental Health

Insecurity of housing, homelessness and the threat of homelessness are major contributors to ill health, particularly mental health with studies indicating that existing health conditions are also exacerbated by homelessness or unsuitable housing.

In addition, a 2017 report by the LGA: *The Impact of Homelessness on Health* found that there are correlations between:

- Financial problems and mental health
- Housing insecurity and anxiety, stress, loss of confidence and worry about the future
- Overcrowding and mental health, particularly for children and young people
- Stress, anxiety, depression and other mental health problems and poor housing conditions
- Self-medication with alcohol and drugs.

For those who are rough sleeping, of those supported by the First Step service, 50% reported at least one mental health condition, 36% reported substance misuse and 24% reported alcohol misuse. It is likely that this is subject to underreporting and given the numbers it is also likely that some people will be experiencing one or more of these at the same time.

Both the Greater Norwich Homelessness Strategy and the South Norfolk and Broadland Rough Sleeper Statement aim to have a positive impact on Health. Priority two of the GNHS focusses on preventing homelessness and by taking a wrap-around early preventative approach we can seek to offer a multi-agency response including from health and mental health service providers to identify areas of support that will aim to reduce housing insecurity, promote sustainable options and improve health outcomes. A similar objective has also been recognised within the Rough Sleeper Statement.

In addition, supporting the introduction of the Norfolk Mental Health Hospital Discharge and Homelessness Prevention Protocol will help to prevent people from becoming homeless at the point they are discharged from a Mental Health hospital ensuring that all partner agencies including housing, health and social care are working together to facilitate the most appropriate support and accommodation for that person.

Place inc. Rurality

The sub-region of Broadland, Norwich and South Norfolk is an area of approx. 583 sq miles, just slightly less than that of Greater London and comprises a mix of urban, suburban, town and rural areas. We recognise that each area will have particular challenges in terms of homelessness, for example people who are rough sleeping may gravitate towards the urban centre where there are more likely to be specific services and a greater sense of safety in numbers and some may prefer the rural areas where there is less visibility. In addition, for other contributors of homelessness, such as DA for example, it can be harder to recognise, report and access appropriate support in rural areas (National Rural Crime Network, 2019). Local knowledge of these challenges helps us to work together to prevent homelessness, for example through our Help Hubs, while on a wider level both the GNHS and RSS seeks to contribute to the wider work taking place such as the Greater Norwich Local Plan which aims to meet local housing and economic growth needs whilst also protecting and enhancing the environment.

Poverty and Low Income

H-Clic data from 2018/19 across the 3 Local Authorities suggests that of those approaching the councils as homeless or at risk of homelessness, End of private rented sector tenancy and Family or friends no longer willing to accommodate all feature within the top four reasons for the approach.

When viewing the household types approx. 62% comprised of single adults, with a higher proportion of males and 22% were single parents with dependents with a higher proportion of females. It should be noted that these figures have been averaged over the 3 local authorities for approaches at both the prevention and relief duty stage and there will be variations, for example, 60% of approaches to Norwich City at the relief duty stage were from single males.

While not conclusive, it indicates that affordability of housing where there is only one income is an issue for households in the sub-region, particularly when considered with data above detailing a higher proportion of young people approaching for assistance.

Furthermore, private rental prices average at £404 pm in Norwich for a room in a shared property and £788 across the sub-region for a three bedroom property (ONS, 2020). Applying the salary principle of 30x monthly rent used by letting agents to determine affordability this requires an annual salary £12,409 and £23,640. For those eligible for assistance with housing costs, a welcome rise in Local Housing Allowance (LHA) rates was introduced in April 2020, however there can still be considerable shortfall for households to make up. An average of £45 pm for a room in a shared property to £82 pm for a three bedroom property. It should also be noted that locally approx. 20-25% of households in the sub-region in receipt of help with housing costs are in employment.

The GNHS prioritises financial inclusion and supporting the economic growth agendas across the sub-regional area including through improving access to skills, training and employment opportunities and delivery of affordable housing either through affordable rent or affordable home ownership. This will have a positive impact in terms of increasing housing options for our residents, maintaining that housing and reducing homelessness.

6. How is it proposed that any identified negative impacts are mitigated?

Please include:

- **Steps taken to mitigate, for example, other services that may be available**
- **If a neutral impact has been identified can a positive impact be achieved?**
- **If you are unable to resolve the issues highlighted during this assessment, please explain why**
- **How impacts will be monitored and addressed?**
- **Could the decision/policy be implemented in a different way?**
- **What is the impact if the decision/policy is not implemented?**

As stated above the Greater Norwich Homelessness Strategy and the South Norfolk and Broadland Rough Sleeper Statement seeks to have a positive effect on those who are homeless or at risk of homelessness. However, we also acknowledge that Covid-19 has exacerbated and widened inequalities, particularly amongst:

- People with a BAME background,
- People living in poverty, on low incomes or just finishing their education
- Those in unaffordable, insecure or unsuitable housing,
- People experiencing Domestic Abuse
- People experiencing social exclusion and isolation
- Those with health conditions including mental health

Looking ahead, it is believed that these inequalities and the impacts of them will become more apparent and to that end, this EqCIA will be monitored as part of the annual review process.

Introduction

This document marks the fourth occasion that Broadland, Norwich City and South Norfolk Councils have worked together to develop a homelessness strategy for the Greater Norwich area.

In doing so, we are working from the following key assumptions:

- We will offer wraparound, multi-agency services that puts the individual or household at the centre in order to prevent homelessness.
- We want to prevent and alleviate homelessness in addition to reducing the drivers of homelessness
- We will work in partnership with other statutory services, organisations and the voluntary and community sectors to achieve this.

In order to meet these assumptions, we are focussing on the following four priority areas:

1. Domestic Abuse
2. Preventing Homelessness
3. Single and Youth Homelessness
4. Financial Inclusion, Welfare Reform and Economic Growth

Furthermore, Mental Ill Health can be a significant factor in increasing the risk of homelessness in addition, for those who are homeless or at risk of homelessness there can be a higher incidence of a negative impact on mental health. In this respect, acknowledgement of Mental Health is woven through our priorities instead of as a stand-alone area.

As highlighted above, as local authorities, we cannot work in isolation to prevent homelessness and we would like to thank our Greater Norwich Homelessness Forum (GNHF) partners and wider partners for their input into the development of this strategy and commitment to work with us to implement the actions agreed.

Partner Organisations who have contributed to the development of this draft strategy are:

Adult Social Care Commissioning - Norfolk County Council
Anchor Project – Leeway
Anglia Care Trust
Aylsham Care Trust (ACT)
Breckland District Council

Change, Grow, Live (CGL)
Children's Services Leaving Care Team
Clarion Housing
Community Chaplaincy Norfolk
DWP
Integrated Offender Management - Norfolk Constabulary
Making Every Adult Matter (MEAM)
Mancroft Advice Project
National Probation Service
Norfolk and Suffolk Community Rehabilitation Company (NSCRC)
Norfolk and Suffolk Foundation Trust (NSFT)
Norfolk Community Law Service (NCLS)
Notting Hill Genesis
Orwell Housing Association Ltd
Saffron Housing Trust
Shelter
Solo Housing
Soul Foundation
St Giles Trust
St Martins Housing
Stronger Futures Leaving Care Team - Norfolk County Council
The Benjamin Foundation
The Feed
The Magdalene Group
YMCA
Your Own Place CIC
Youth Offending Team (YOT)

Contained within this strategy is an outline of key legislation implemented during the period of the previous strategy, an overview of the local and national picture. The strategy also lists our four priority areas, proposed actions and the evidence and rationale behind them.

The consultation period ran from 12pm Friday 6th March 2020 until 11:59pm on Friday 01 June 2020¹.

July 2020: Covid-19 statement for greater Norwich homelessness strategy 2020-25

Introduction

Whilst this strategy was out for public consultation the Covid-19 pandemic hit the world. Everyone has been affected by Covid-19 to a lesser or greater extent. As local housing authorities we were asked by central government to "get everyone in." We were asked by central government to "focus on people who are, or are at risk of, sleeping rough, and those who are in accommodation where it is difficult to self-isolate, such as shelters and

¹ Consultation was extended because of Covid-19 pandemic.

assessment centres.” To date we have accommodated well over 100 people into safe accommodation and moved people into more permanent homes. This vital work has been successful in saving lives and keeping people safe whilst we experienced the surge in the pandemic. This work has involved close work with our County Council, health, Police and voluntary sector colleagues. Community help hubs were formed managing the delivery of food supplies and medication to the most vulnerable in the greater Norwich area.

What have we learnt from Covid-19?

There has been tremendous pressures placed on households through the country and locally. It is likely that as a result of the pandemic that there will be medium to long term affects to our economy and local population placing increasing numbers of people at risk of homelessness. In the short term we have seen worrying increases in the number of reported domestic abuse cases, especially in Norwich. Also we have seen a number of businesses close and shed jobs as a result of the economic downturn. There is genuine concern that when the ban on evictions is ended in August 2020 we will begin to see a spike in private sector evictions as a result of households struggling to juggle their household finances with increasing debt. A sign of this has been the increase of households in receipt of welfare payments to help with their housing and daily living costs. It is not clear yet for how long the effects of the pandemic will have on the economy as whole. In a recent survey carried out by the Resolution Foundation found that, “...34 per cent of new UC claimants...are having trouble keeping up with bill payments, 42 per cent have cut back on spending to prioritise housing costs, and over half have already dipped into their savings.”² It is likely that the following groups will continue to be affected by the pandemic:

- Increased levels of domestic abuse
- Young people
- Social renters
- People living in the private rented sector

The government has provided significant help and support to people affected by the pandemic, however, help such as the uprating of Local Housing Allowance levels will make little difference to those households already affected by the continuing household benefit cap that has not been lifted or temporarily removed.

Recovery plans

Each of the three local authorities in greater Norwich has released a recovery or blueprint plan to focus our efforts to help those in our communities worst affected by the pandemic including those who have lost their jobs, are vulnerable or facing uncertain financial times in their lives as well as building and harnessing the social capital that came to the fore as a result of the adversity that was faced.

² Page 65, *This time it's different – Universal Credits first recession*, (Resolution Foundation, May 2020).

We are confident that the priorities that we set in the draft consultation strategy are still relevant in light of the recent pandemic but we will ensure that we will continue review and monitor these priorities during the life of the strategy.

1. Strategic Context and Purpose

The Homelessness Act 2002 requires each local housing authority to review homelessness in its area and to develop a new homelessness strategy every five years. The Homelessness Code of Guidance provides guidance on housing authorities' duties to carry out a homelessness review and to formulate and publish a strategy based on the results of that review.

1.1 Rough Sleeping

For a number of years Norwich has produced a rough sleeping strategy to help tackle and reduce the number of rough sleepers in the city. The current Norwich Tackling Rough Sleeping Strategy 2017-22 will run to the end of 2022, with a new strategy covering the Greater Norwich area running from 2022 (until 2027). South Norfolk and Broadland Councils will publish a Rough Sleeping Statement in 2020 to run until 2022, to cover the interim period before the introduction of the new Greater Norwich Rough Sleeping Strategy. The reason why we publish a separate rough sleeping and homelessness strategy is that we want to give clear focus and ownership of our efforts to reduce rough sleeping in our districts.

The focus of this strategy will be to look at the determinants of homelessness, such as:

- Youth and Single Homelessness
- Domestic Abuse
- Relationship Breakdown
- Low Income
- How we can strengthen our prevention of homelessness duties

1.2 Homelessness Reduction Act (HRA)

The Homelessness Reduction Act was implemented in April 2018.

In addition to the HRA there are two other sets of new regulations:

- The Homelessness Reduction Act (Commencement and Transitional and Savings Provisions) Regulations 2018.
- The Homelessness (Review Procedure) regulations 2018, which set out the procedures for conducting reviews under the Act and list the public authorities to which the duty to refer applies.

As well as the aforementioned, the government published a new statutory Homelessness Code of Guidance, which we as local housing authorities must have regard.

1.3 Duty to Refer

The HRA also brings in new duties to notify a local housing authority of service users they think may be homeless or at risk. This new duty has the potential to prevent more people from becoming homeless by encouraging public bodies to reduce and prevent homelessness.

In Greater Norwich alongside partners we have looked to strengthen this approach by leading and supporting work to produce a number of protocol documents that sets out our commitment to prevent homelessness. These protocols are:

- Greater Norwich & Breckland Criminal Justice Homelessness Prevention Protocol
- Joint Protocol to Address the Needs of Homeless Young People in Norfolk
- Proposed Norfolk Mental Health Hospital Discharge and Homelessness Prevention Protocol

Through this strategy we will commit to ensuring that these protocols are successful, that we are working sooner with individuals and other organisations to help stop homelessness before it begins.

In addition to this we are committed to improving the pathway for people who are homeless leaving hospital settings such as the Norfolk and Norwich University hospital and Hellesdon Hospital and will actively support and promote the long term implementation of initiatives such as District Direct through the actions in this strategy.

2. National and Local Picture of Housing Market

Nationally and locally the housing market has been surrounded by uncertainty caused by the following factors:

- Affordability issues
- Lack of stock
- Continuing political uncertainty
- Fears of interest rate rises³

The government (in 2018) committed itself to a target of delivering an additional 300,000 homes up to the mid-2020s. This target is short of the 340,000 units per year (for fifteen years) that the National Housing Federation (NHF) and Crisis study projected that are required to meet housing need. The actual number of net additional dwellings delivered over the past six years is

³ Royal Institute of Chartered Surveyors (RICS), *Housing Forecast 2019*, London Dec 2018.

significantly short of these forecasts showing that meeting the required number of homes will be difficult to achieve in the future if the current housing market conditions continue.

Net additional dwellings - England, 2012/13 to 2017/18⁴

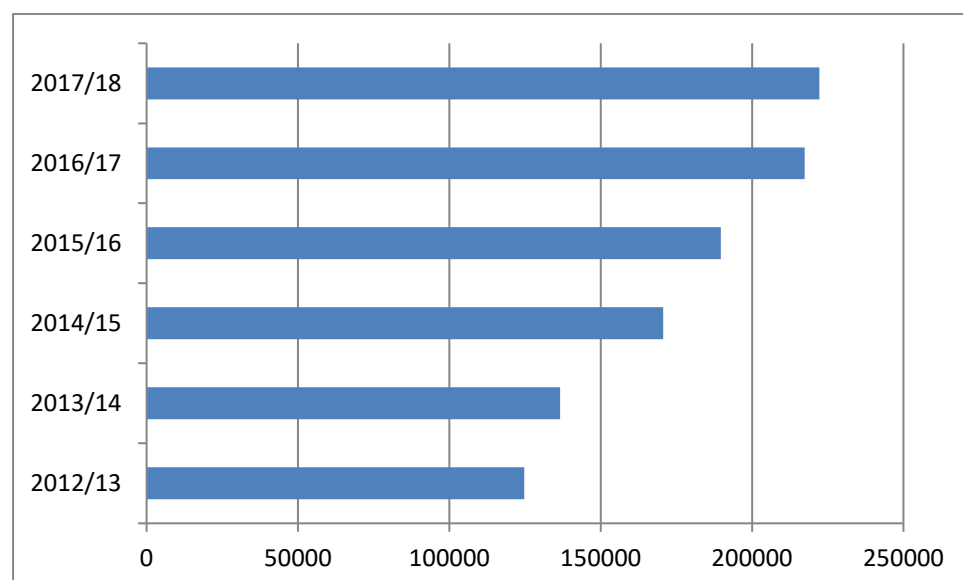

Table 1

2.1 Greater Norwich Housing Market

UK house prices grew by 0.7% in the year to July 2019⁵. In Greater Norwich we have seen larger increases in the average house price of 1.06%, 2.93%, and 2.30% in Norwich, South Norfolk and Broadland respectively pricing more people out of the housing market.

Period	BDC	NCC	SNC	UK average
July 2018	£273,721	£226,359	£285,264	£231,187
July 2019	£280,022	£228,773	£293,633	£232,710

Table 2

Measure	Broadland	Norwich	South Norfolk	Eastern Region
House price to earnings ratio ⁶	9.2 to 1	7.6 to 1	9.1 to 1	10 to 1
Lower quartile house price to earnings ratio ⁷	10 to 1	8.7 to 1	10.3 to 1	10.1 to 1

⁴ MHCLG, *Housing supply; net additional dwellings*, England 2017/18. November 2018.

⁶ Source: Hometrack (accessed 19/08/2019): based on data from the latest Annual Survey of Hours and Earnings and sales and valuations over the last 12 months.

⁷ Ibid.

Table 3

Whilst house prices to earnings ratios are similar in Broadland and South Norfolk areas compared to the East of England, in Norwich these ratios are lower. However, wages tend to be lower in Norwich than South Norfolk and Broadland making the option of people owning their own home more difficult especially for those people on lower incomes.⁸

2.2 Delivery of Affordable Housing⁹

The Strategic Housing Market Assessment 2017 identified the housing need per year across Greater Norwich between 2015-2036 as:

Greater Norwich		Market Housing	Affordable Housing	TOTAL
Flat	1 bedroom	61 (1,285)	130 (2,725)	191 (4,011)
	2+ bedrooms	64 (1,352)	67 (1,404)	131 (2,756)
House	2 bedrooms	154 (3,227)	136 (2,863)	290 (6,090)
	3 bedrooms	781 (16,393)	154 (3,238)	935 (19,632)
	4 bedrooms	237 (4,982)	31 (661)	268 (5,642)
	5+ bedrooms	58 (1,215)	7 (140)	65 (1,355)
Total per year (avg.)		1,355	525	1,880
Total for period of SHMA		28,456	11,030	39,486

Table 4: Source: Fig 83 Central Norfolk SHMA 2017 (annualised, figures rounded)

The affordable housing is further split into affordable housing for rent and for low cost home ownership as follows:

GREATER NORWICH		Affordable Housing for Rent	Low Cost Home Ownership	Total
Flat	1 bedroom	118 (2,488)	11 (238)	129 (2,725)
	2+ bedrooms	54 (1,131)	13 (273)	67 (1,404)
House	2 bedrooms	103 (2,153)	34 (710)	137 (2,863)
	3 bedrooms	108 (2,263)	46 (975)	154 (3,238)
	4+ bedrooms	30 (629)	8 (173)	38 (801)
Total per year (avg.)		413	113	525
Total for period of SHMA		8664	2367	11,030

Table 5: Source: Fig 85 Central Norfolk SHMA 2017 (annualised, figures rounded)

The Greater Norwich Joint Core Strategy (JCS) uses the Strategic Housing Market Assessment (SHMA) as the evidence base for Policy 4 on housing.

⁸ Further information on wages will be accessible in our Homelessness review document that will be published alongside the final strategy document.

⁹ <https://www.greaternorwichgrowth.org.uk/planning/monitoring/> Accessed on 14/02/2020

The policy requires a percentage of affordable housing to be delivered on all developments of 10 dwellings or more, with 30% affordable housing required on developments of 10-15 dwellings and 33% on developments of 16 dwellings or more.

JCS Policy 4 also requires for a tenure split of affordable housing to be 85% affordable housing for rent and 15% as intermediate tenure.

The SHMA found that in Norwich and Broadland based on 35% of household income, 73% (203 of 278¹⁰) and 71%¹¹ of households in housing need could not afford target rent without help with their housing costs (welfare benefits) compared to 60% in South Norfolk. However, both in South Norfolk and Broadland there is a larger percentage of households able to afford affordable rent/home ownership products due to higher household incomes in those areas.

The Greater Norwich Development Partnership (GNDP) has recently published the Annual Monitoring Report (AMR) for 2018/19, which shows delivery in recent years as:

Indicator	Target	Location	14/15	15/16	16/17	17/18	18/19
Net housing completions	Broadland - 706 pa	Broadland	405	598	644	679	640
	Norwich - 477 pa	Norwich	249	365	445	237	927
	South Norfolk - 863 pa	South Norfolk	1027	765	1162	1118	1212
	Greater Norwich – 2,046 pa	Greater Norwich	1681	1728	2251	2034	2779
Affordable Housing Completions	Greater Norwich - 525 pa	Broadland	98	107	237	177	195
		Norwich	50	25	44	56	137
		South Norfolk	95	90	175	298	392
		Greater Norwich	243	222	456	531	724

Table 6: Source: GNDP AMR 2018/19

This table shows that in 2018/19 affordable housing completions have exceeded the current target of 525 completions per year. This marks the highest level of delivery in the last 7 years and is the first time the annual target has been achieved. This level of delivery is clearly linked to the significant increase in overall housing delivery across the Greater Norwich area.

Continuing to meet the delivery target for affordable homes will remain a challenge however. Changes to the planning system mean that affordable housing cannot be required in certain circumstances e.g. due to the vacant building credit or the prior approval of office conversions (measures which have a particularly significant impact in Norwich City).

¹⁰ Fig 102 Central Norfolk SHMA 2017 (annualised).

¹¹ Ibid.

Another challenge to the delivery of affordable housing is that it has proved necessary to reduce the level of affordable housing secured on some sites to ensure that developments are viable. The authorities continue to scrutinise viability assessments submitted by developers to ensure that development meets the affordable housing target as far as possible. In addition, a number of section 106 agreements that accompany development include a “claw back” provision, which may mean that additional affordable housing will be delivered later, via a commuted sum, if viability improves.

The Greater Norwich Local Plan, which is being produced by Broadland District Council, Norwich City Council and South Norfolk Council working together with Norfolk County Council through the Greater Norwich Development Partnership (GNLP) and aims to produce an overarching plan which will help to meet local housing and economic growth needs, whilst also protecting and enhancing the environment.

Going forward the GNLP will allocate sites to deliver the required housing numbers, and will have an affordable housing requirement; however, there will be a delay before the affordable homes are completed.

Further information on the proposed GNLP can be found here:
<https://www.gnlp.org.uk/>

3. Homelessness Review Key Findings

3.1 National Picture

3.11 Summary

The Homelessness Monitor: England 2019 concluded the following in its key findings:

- 71% of local authorities reported that homelessness had been increasing.
- The rise since 2010 in the number of households made homeless by the ending of private tenancies seem finally to have peaked.
- After rapid growth of rough sleeping since 2010, numbers have started to level in England.
- There is not enough social housing to meet housing need.
- Private sector rents seem to be falling however; growth in the private rented sector has exposed many more low-income households to higher housing costs.
- The safety net of housing benefit has now effectively ended for the bulk of private tenants in receipt of benefit across the country, whereby post-housing incomes were protected from erosion below basic benefit levels. Young people under 35 particularly badly affected by LHA and working age benefit freezes.
- Further changes to welfare reform could impact negatively on homelessness numbers, specifically the full roll out of Universal Credit.

- Most local authorities provided encouraging evidence that the HRA is enabling councils to help more people in housing need.

3.12 Private rented sector tenancies

Whilst the private sector can provide households with flexibility around types of housing in terms of where people want to live it is still the most common type of housing a person will be living in when someone asks for help at our council's housing options teams. The English Housing Survey 2018-19 found that for private renters, the average length of residence was 4.4 years, compared to 18.1 and 11.6 for owner-occupiers and social renters. Our H-CLIC 2018-19 figures show that we need to do more to keep people in their private rented homes and help stop people having to move and face unnecessary disturbance in their lives.

3.2 Local Picture

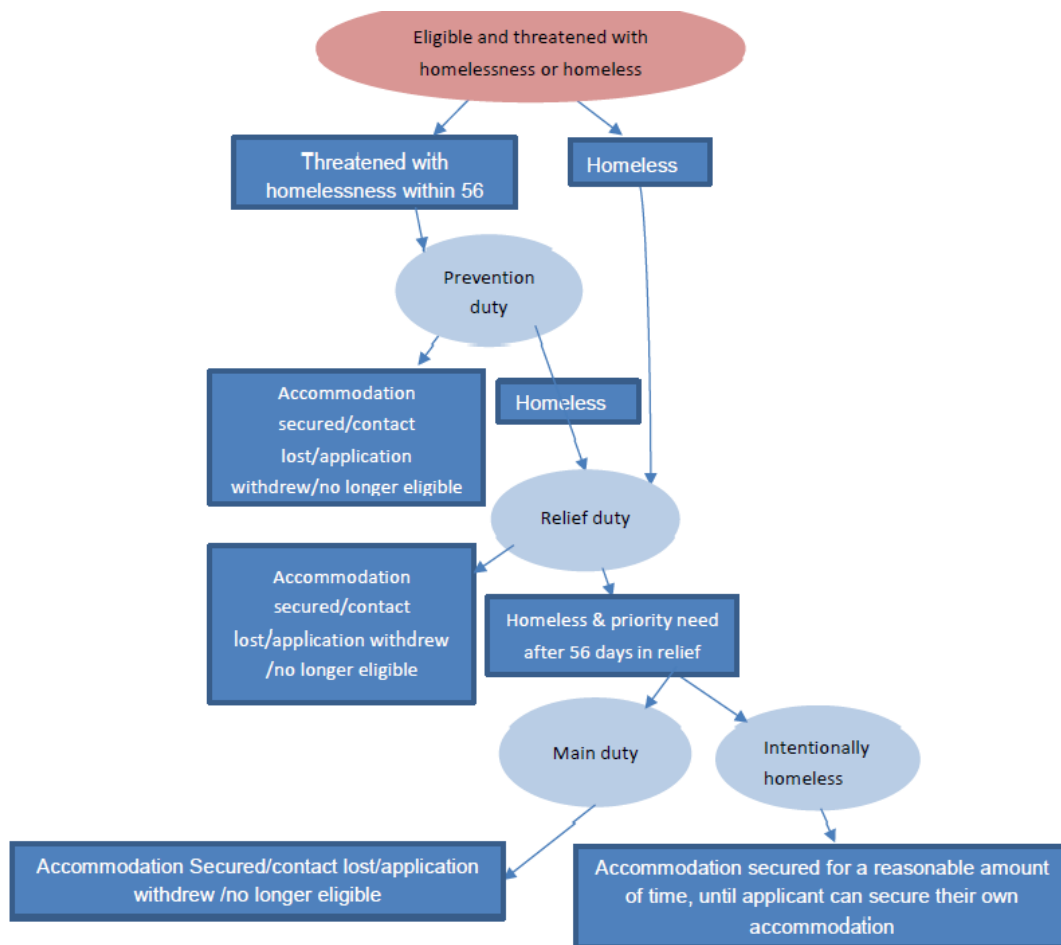

3.21 Better Recording of Homelessness

The Homelessness Reduction Act (HRA) 2017 came into effect on 03 April 2018. The act places a greater emphasis on prevention helping all those people affected by homelessness regardless of priority need. The HRA updated the Housing Act 1996, producing new prevention and relief duties for local housing authorities in England.

With the advent of the HRA, local authorities now use a more accurate method of measuring homelessness compared to previous monitoring regimes. This data should provide local authorities nationally and locally of measuring trends in homelessness and specifically which households are most at risk. Future strategies and reviews will be evidence-based in order that services can be better targeted and responsive to customers' needs.

The (experimental) data collected as part of this new legislation provides a greater depth of information on activities undertaken by local authorities to help or prevent homelessness and the outcomes of these activities. It is hoped that this information can be used to provide a greater understanding of homelessness by understanding the profile of the households that are approaching us for help. The following chart shows how a typical homeless (or threatened with homelessness) household is processed under the new legislation¹²:

¹² MHCLG, Page 3, *statutory homelessness statistical release*, England 2018/19, (March 2019).

We are likely to see increases in the number of homeless households in Greater Norwich by around 4.5% from 2021 to 2026, according to an analysis using the Core Homelessness Model for the South of England in which Greater Norwich is situated for the purposes of this study. ¹³

The study looks at what measures could reduce the rise in core homelessness. The study considers a number of scenarios:

- Cessation of welfare reductions
- Increase in supply of new housing (including affordable, especially in the South of England)
- Extensive homelessness prevention activity by local authorities
- Regional convergence in economic growth by rebalancing growth in areas outside of London and the South East

Core Homelessness Components by English Region and Country, 2011-41

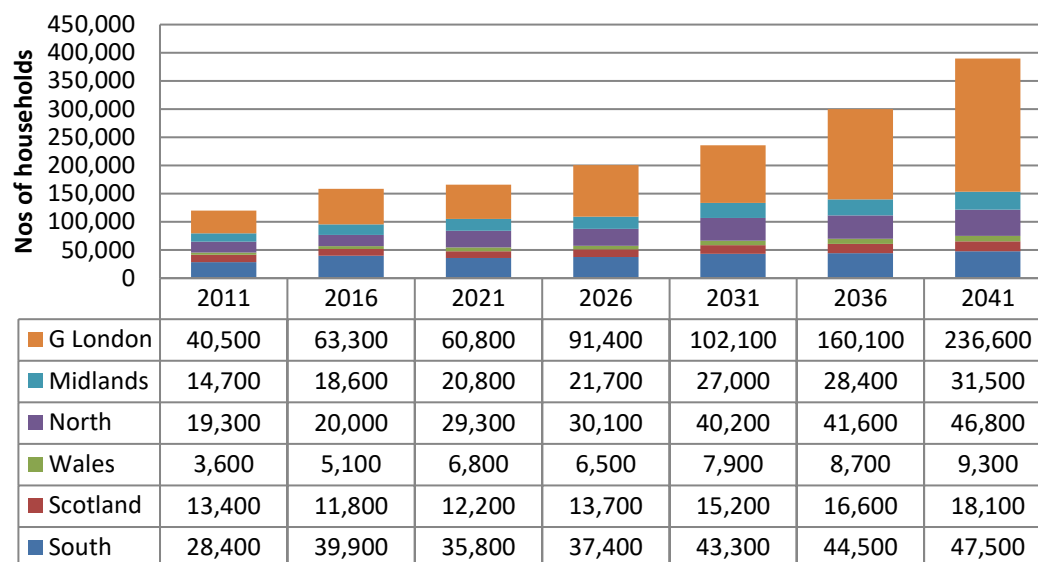

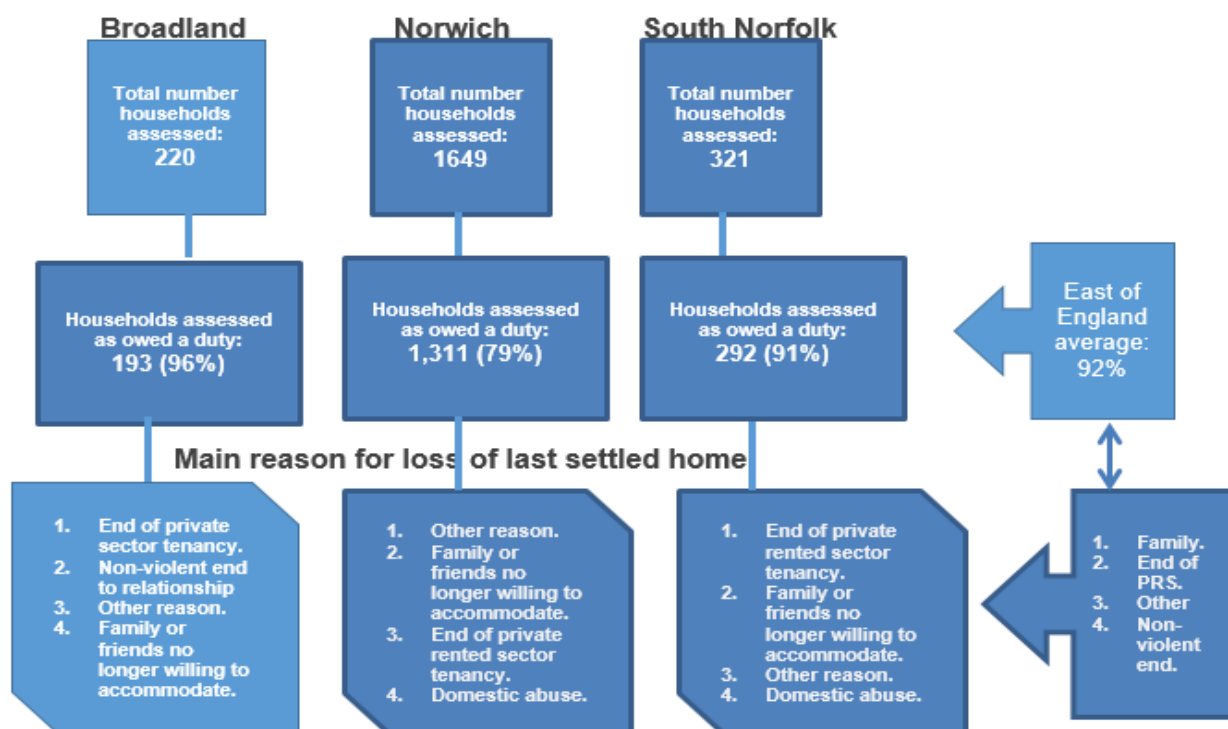

Table 7

3.22 Approaches to Housing Options Services for Assessment under the HRA 2017

The above diagram below shows the number of approaches to our Housing Options teams by households in 2018/19 by households stating that they are homeless or threatened with homelessness.

The statistics show that there were 2,190 households accessing the housing options teams in Greater Norwich, of these 82% were assessed as owed a duty. The main reason for loss of settled home in two of the three districts was end of a private sector tenancy. In Norwich, this reason was the third highest for a household losing their last settled home. It is likely that due to the experimental nature of the analysis, and the high number of 'others' recorded that this was the main reason for loss of last settled home in Norwich as well. The following statistics perhaps provide a clearer indication of the type of tenure households were in at the time of their application:

In common with the Eastern region, private rented is the tenure that most people are living in when approaching their housing options team for help with their housing situation. Living with family is in the top three most common tenures of the Eastern region and Greater Norwich areas, perhaps reflecting the younger cohort of people who face family eviction from their parents. No fixed abode is recorded in the top three of both Norwich and South Norfolk and is likely to include people in very temporary housing such as sofa surfing. In the East this is the fourth most common type of accommodation so it would suggest that both Norwich and South Norfolk are not that dissimilar.

Our approach in Greater Norwich is to try to prevent homelessness before it happens and ideally, persons at risk of homelessness will seek help before they become homeless and will work with every individual producing a Personalised Housing Plan (PHP). The following table shows the situation households find themselves in when they approach us for help.

	Broadland		Norwich		South Norfolk		East
	Nos	%	Nos	%	Nos	%	%
Households Prevented	102	53	876	66	166	57	56
Households Relief	91	47	435	34	126	43	44

Table 8

Both South Norfolk and Broadland councils are comparable to the East in the percentage of people who have their homelessness prevented. In Norwich, we reported a 10% higher figure (than the East) for households prevented from becoming homeless.

3.23 Household Type Seeking Help to Prevent or Relieve their Homelessness

The following information shows the household types that are seeking help with their housing. This information helps us understand the characteristics of the types of households who approach us so that we can put in place more effective interventions.

In Greater Norwich during 2018/19, the most common household type to seek preventative help were single households. This accounts for 66% of all prevention cases in Norwich, 54% in Broadland and 48% in South Norfolk. This household type (in the 2011 Census) accounted for 38%, 26% and 26% of all households in Norwich, Broadland and South Norfolk respectively. This number is even higher when we consider the number of single households who seek help with their homelessness when they are already homeless (relief) ; 83% of all relief cases in Norwich, 62% in Broadland and 61% in South Norfolk compared to 66% in the East. The majority of households who seek help when they are already homeless are single males although in South Norfolk and Broadland the gap is much smaller than Norwich.

Household type	Prevention/Relief			
	BDC	NCC	SNC	East
Single parent with dependents – Male	6/3%	1/1%	2/4%	3/3%
Single parent with dependents - Female	21/26%	19/9%	25/17%	30/20%
Single parent with dependents – Other/Gender not specified	0/0%	0/0%	0/0%	0/0%
Single adult - Male	25/33%	43/60%	31/45%	23/45%
Single adult - Female	29/29%	23/23%	17/16%	20/21%
Single adult – Other/gender not specified	0/0%	0/0%	0/0%	0/1%
Couple with dependent children	8/4%	8/1%	8/10%	13/5%
Couple/two adults without dependent children	10/4%	5/4%	13/7%	7/5%
Three or more adults with dependent children	1/0%	1/1%	2/0%	1/1%

Household type	Prevention/Relief			
	BDC	NCC	SNC	East
Three or more adults without dependent children	1/0%	0/0%	1/1%	1/0%
Not known	0%	0%	0%	0%

Table 9

3.24 Age Bands Owed a Prevention or Relief Duty

Age is clearly a determining factor in people becoming homeless of those households that were owed a Prevention or Relief duty often due to; low wages; lower welfare payments; or where young people are living at home with friends or extended family in often insecure living situations. The following table shows age groups (top 3) as a percentage owed this duty in 2018/19:

Area/Age band	East of England	Broadland	Norwich	South Norfolk
18-24	21%	25%	24%	20%
25-34	31%	30%	29%	27%
35-44	22%	26%	24%	20%

Table 10

Both Norwich and Broadland recorded higher numbers of 18-24 year olds than the Eastern region average.

3.25 Employment Status of Main Applicant Owed a Prevention or Relief Duty (compared to ONS Population Survey)¹⁴

Employment status	East	BDC	NCC	SNC
Registered unemployed	19.97%	8.8% (2.3%)	25.63% (4.1%)	11.99%
Not working due to long term illness/disability	19.63%	21.76% (n/a)	18.54% (26.4%)	31.16%
Full time work	16.09%	20.73%	17.70% (73.3%)	16.78%
Part time work	14.20%	25.91%	11.14%	11.64%
Not seeking work/at home	11.76%	10.36%	6.18%	13.01%
Not registered unemployed but seeking work	4.22%	2.07%	5.57%	1.71%
Retired	2.79%	2.07%	1.68%	6.16%
Student/Training	1.51%	0.00%	1.53%	2.74%
Other	4.71%	3.63%	7.48%	2.74%
Not known	5.12%	4.66%	4.58%	2.05%

Table 11

¹⁴ <https://www.nomisweb.co.uk/reports/lmp/la/1946157237/report.aspx?#is> accessed on 05/02/2020

The employment status of someone who is homeless can have significant consequences for their ability to afford a home. In addition, it is imperative that when people approach us for help that they can continue to stay in employment whilst they receive help to resolve their homelessness. Both Broadland and South Norfolk record lower levels of people asking for help who are unemployed compared to the East. Norwich saw nearly 6% more people who were unemployed compared to the Eastern region average. Around 47% of people who came in to Broadland were in some form of employment compared to 29% and 30% in Norwich and South Norfolk (similar levels to the East). Both Broadland and South Norfolk recorded higher percentages of people who were not working due to long-term illness/disability. Whilst recorded levels of people not working due to a long-term illness are high as a percentage of the working age population (26.4%) in Norwich we saw similar levels to the Eastern region.

4. Development of the Strategy

This is the fourth Greater Norwich Homelessness Strategy that has been produced since 2007. Although led by a small working group comprising a partner lead and the three local housing authorities the process has been co-produced by representatives from the 30 or so different organisations that actively participate in and contribute to the Greater Norwich Homelessness Forum (GNHF).

The Strategy you see before you today has been created over an 18 month period and has been influenced by

- The results of the Greater Norwich Homelessness Review 2018/19 with partners in the GNHF
- Feedback from a series of stakeholder workshops held in 2019
- National and Local Policy

This Strategy will take a more holistic look at homelessness, considering the wider impacts that being without a home can have on an individual whilst recognising that these often come at a high cost – to the individual, the wider community and to the services which seek to minimise the effects of being homeless.

Ultimately it is our aim to reduce the chances of homelessness occurring in the first place and for this reason prevention is at the heart of this strategy. By using early help approaches we will prevent people from becoming homeless in the first place and where this is not possible we will strive to reduce the likelihood that individuals will suffer long term effects of being homeless.

5. Where do we want to be? Our Vision

“Greater Norwich is a place where agencies work together to support people who are, or may become homeless. By putting people at the heart of our service delivery we can create a wrap-around offer that helps people to take control of their own circumstances earlier, and stopping them from becoming homeless will be our main aim. This will provide people with a firm platform where their health and wellbeing, employment or training opportunities are either maintained or improved.”

We will look to achieve this vision by committing to the following four priorities:

1. Domestic Abuse
2. Preventing Homelessness
3. Single and Youth Homelessness
4. Financial Inclusion, Welfare Reform and Economic Growth

6. How will we get there?

6.1 Priority one: Develop and Deliver Flexible Housing and Support Solutions to Enable People to Safely Move on from Domestic Abuse

6.11 Local and National Picture

During the financial year 2018/19 in Greater Norwich 234 households said that the main reason for the loss of their last settled home was because of domestic abuse. It is likely that this number is higher due under reporting. The reported number of 234 can be split geographically as follows:

- Broadland – 15 households
- Norwich – 177 households
- South Norfolk – 42 households

Nearly one in ten households that approach our housing options teams in Greater Norwich will do so because they are fleeing domestic abuse of some kind, often because they lack the economic resources to secure alternative accommodation after leaving an abusive relationship

National statistics state that almost 1 in 3 women aged between 16-59 will experience DA in their lifetime (ONS, 2019) while an estimated 20% of children in the UK have lived with an adult perpetrating DA (NSPCC, 2011). At the opposite end of the age spectrum, Safelives reports that on average, older victims experience abuse for twice as long before seeking help as those aged under 61 and nearly half have a disability. (Safelives 2016).

While we recognise the disproportionate impact of DA on women and children it should also be noted that for those who identify as LGBTQ+, research from Stonewall (2018) suggests that 11% of the LGBTQ+ population have experienced domestic abuse in the previous 12 months; twice as high as the population as a whole. For bisexual women this increases to 13%, and for

Trans or non-binary people to 19%. For men, approx. 4.2% of men suffered domestic abuse in 2018 (ONS). The comparative figure for women is 7.9%

Often the immediate need of a survivor fleeing domestic abuse is safety. Some survivors can stay safely in their home with adaptations to make the home safe. In other cases, people will need some form of transitional housing like a refuge or safe house to help bridge the gap before returning to independent housing. This time can be very unsettling for survivors and their families and the role of housing options teams is to ensure that the transition to safety and future housing options are available.

The national No Woman Turned Away¹⁵ project through Women's Aid provided specialist support to women who faced barriers in their search for a refuge place after fleeing domestic abuse. The barriers may have been due to specialist needs, such as mental health support, no recourse to public funds or supporting four or more children. Of the 309 women supported through the duration of the project, while waiting to access a refuge space; 136 women sofa surfed with relatives, friends and even strangers; 22 women slept rough; 5 women slept rough with their children and 1 woman slept rough while pregnant. Additionally, 59 women experienced further abuse from the perpetrator and 30 women either remained or returned to the perpetrator. It should be noted that this report relates to a small cohort of women, however it highlights the vital importance of an appropriate and safe space to stay when fleeing domestic abuse.

Although there is always, opportunity to improve the offer and co-ordination of support available to those who have experienced Domestic Abuse it is important that we continue to contribute to the current systems. Crucial to this is the MARAC (Multi agency risk assessment conference) and the associated DASH assessment. Through this co-ordinated approach, partners consider the risk and required assistance on a daily basis making sure that there is no delay or gaps in provision provided to those experiencing DA. The DASH report also provides a tool to all professionals to make sure the correct questions are used whilst also ensuring consistency throughout the County.

Through our homelessness review consultation events to help inform this strategy the following issues were raised (in no order of importance):

- Welfare benefit issues with people with no recourse to public funds in refuges making it difficult for them to stay.
- Affordability issues for people accessing refuges who are working as rents are relatively high.
- Alternative affordable accommodation options for people who do not want to access a refuge.

¹⁵ <https://www.womensaid.org.uk/no-woman-turned-away/>

6.12 Actions to Support households Experiencing Domestic Abuse

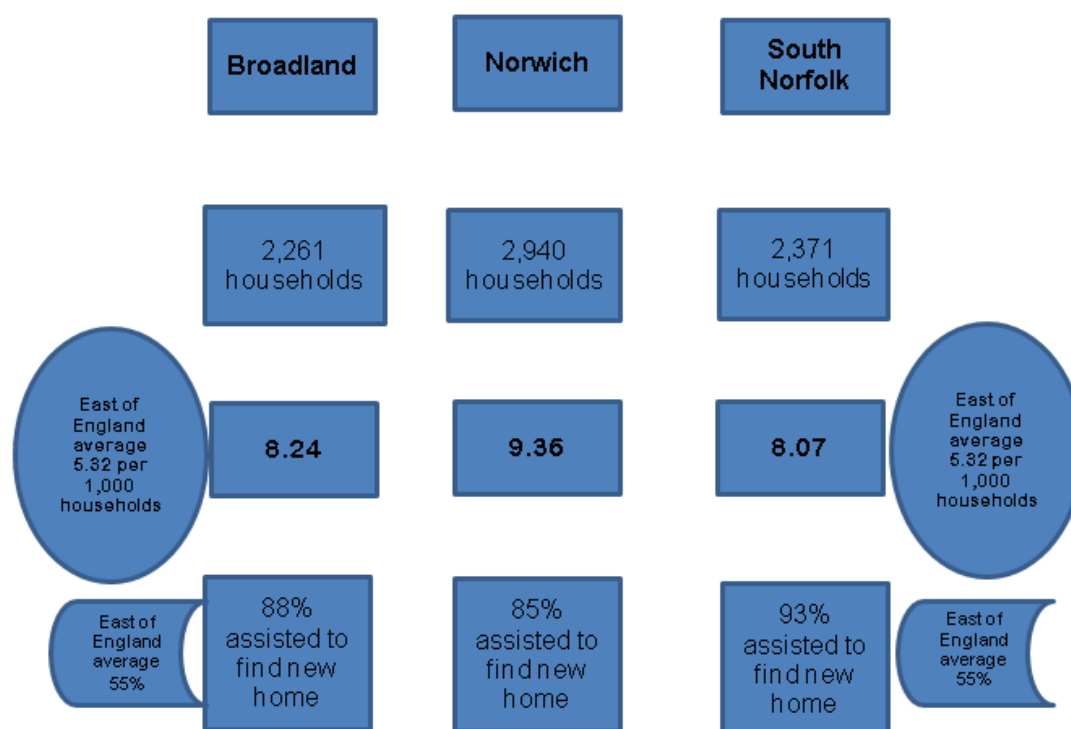

1. Develop and deliver flexible housing approaches to meet the needs of people fleeing domestic abuse, including male victims, people who identify as LGBTQI+ and those with more complex needs, across all tenures that are not currently being met by joint working with voluntary and statutory sector agencies.
2. Provide a consistent Greater Norwich response across our Help/Community Hubs through our funded domestic abuse services and ensuring that resource capacity is sufficient to meet expected demand.
3. Work with DA Services and the Mancroft Advice Project/Youth Advisory Boards to develop a Freedom/Power to Change course for young people.
4. Supporting the outcomes of the proposed Domestic Abuse Bill including the potential for new statutory duties for Tier 1 and Tier 2 authorities to convene DA Partnership Boards for commissioning of 'domestic abuse safe accommodation.'
5. Ensuring specific provision to overcome challenges for those living in a rural area (Particularly relevant for Broadland and South Norfolk District areas).

6.2 Priority Two: Preventing Homelessness

All three local district housing authorities in Greater Norwich has a strong record in preventing and relieving homelessness, the data (from 2013/14 to 2017/18) below shows the number of households that were helped by our housing options teams.¹⁶ The data below also shows a comparative analysis of our homelessness prevention and relief statistics with the rest of the East of England average (per 1,000 households).

¹⁶ This data recording system no longer exists, being superseded by the HRA Act 2017 statistical recording requirements.

Prevention and Relief Statistics for Greater Norwich

6.21 Discretionary Housing Payments

All local housing authorities (LHAs) can access Discretionary Housing Payments (DHP). The scheme allows LHAs to make financial awards to people experiencing financial difficulty with housing costs who qualify for housing benefit or universal credit housing costs. The Government has provided DHP since the introduction of welfare reforms in 2011. Specifically the fund is to help those affected by the following changes:

- Benefit cap
- Removal of the Spare Room Subsidy (Bedroom Tax)
- Local Housing Allowance shortfalls
- Households in financial difficulty

In total during 2018/19 in Greater Norwich £773,934 was awarded (Broadland £128,973, Norwich £469,892 and South Norfolk £174,897) for these purposes and can be broken down as follows (rounded up):

LHA	Benefit Cap	Bedroom Tax	Local Housing Allowance Shortfall	Core Housing Costs
Broadland	21%	44%	22%	13%
Norwich	21%	61%	9%	10%
South Norfolk	28%	41%	18%	12%

Table 12

Figures would suggest that across greater Norwich the households at greatest risk of homelessness have been subject to the removal of the spare room subsidy (bedroom tax). The difficulty for people living in properties that are larger than their requirements is the lack of smaller accommodation being available. The second highest is the benefit cap and this is more likely to affect families with children. Research has found that nationally lone parents head three-quarters of affected households.¹⁷

As the above evidence shows these households affected by welfare reform are more at risk of becoming homeless. The funding allocation for 2019/20 has reduced by 15% compared to 2018/19. This reduction potentially could affect the numbers of households we can help who are struggling to keep a roof over their heads.

6.22 How We Approach Prevention in Greater Norwich

Broadland and South Norfolk

South Norfolk and Broadland, through their one team approach, have created a model whereby prevention is key in managing resource pull, allowing ever more focus on preventing people from facing the incredibly stressful situation where they do not have the security of a home for themselves and their family. We have taken the proactive decision to bring our Housing and Benefit teams together under one management team providing a seamless service to residents. Included within this team are; Housing Solutions Officers, where proactive and outcome focussed decisions are expected; Support Advisers who provide floating support and training, specially trained visiting Benefit Staff who can quickly ascertain housing concerns and full utilisation of our Discretionary Housing Payment fund to make sure we achieve our aim in providing sustainable accommodation to all those who need it

The Housing and Benefit teams are also located within our Help Hub which comprises over 30 partner agencies that deliver 52 different specialisms that all aid in preventing homelessness. Included within are Debt and Welfare advice, Domestic Abuse Advisers, Social Services, and the Police in addition to links with the Norwich City Pathways service and Mental Health support for those at risk of homelessness. This provides easily accessible holistic advice and support to people. The Community Connectors provide a Help Hub presence in our communities, delivering a Social Prescribing programme. Connectors are trained in recognising potential housing issues. This early identification is key for residents to obtain early access to a package of services that meet their needs.

Norwich

Since 2007, NCC has used a prevention-based approach to dealing with homelessness. In the intervening period, this has led to the council being awarded 'Regional Champions', 'Trailblazer' and 'Gold Standard' status to

¹⁷ Page XXIII – 1, CRISIS, *The homelessness monitor: England, 2019*.

recognise the success of our commitment and approach to the prevention of homelessness.

We are committed to providing an accessible service, with duty Homelessness Prevention Advisers available daily on a drop-in basis, providing expert advice to clients in housing need. Through all other channels, Housing Options Officers deal with all of the department's contact, ensuring specialist advice at the first point of contact for all.

Our focus on specialism in housing advice and support extends to the provision of specialist co-ordinators in the areas of domestic abuse, rough sleeping and the private rented sector.

We provide a range of options to our clients and projects which originated in our housing options service including 'LetNCC', which provides 300 units of privately leased accommodation to clients in housing need and 'The Feed', a social enterprise which helps help people who have experienced homelessness, helping people access long term housing, training and employment.

6.23 Actions: What we will do to Prevent Homelessness

1. Continue to monitor the progress of the following protocols including:
 - Greater Norwich & Breckland Criminal Justice Homelessness Prevention Protocol
 - Joint Protocol to Address the Needs of Homeless Young People in Norfolk
 - Proposed Norfolk Mental Health Hospital Discharge and Homelessness Prevention Protocol
2. Undertake quarterly analysis of H-CLIC data to deliver service improvements, monitor levels of homelessness and report this to the Greater Norwich homelessness forum and members.
3. Increase the number of households at risk of homelessness staying in their own homes following contact with our housing options services.
4. Seek to identify funding to deliver upstream homelessness prevention in places of education including wider family networks.
5. Taking a person centred approach - work with our partners in the voluntary and statutory sector to ensure that we use our combined resources effectively to prevent homelessness (for example commissioning of services).
6. Identify gaps and celebrate success in homelessness prevention with members of the Greater Norwich Homelessness Forum to inform and improve service delivery across the statutory and voluntary sector.

7. Identify shared training opportunities with Greater Norwich Housing Options teams and other agencies.

6.3 Priority Three: Single and Youth Homelessness

6.31 Local Picture

What we mean by single homelessness people in the context of this priority is predominantly people in the 16-35 year old age group. Unfortunately, too many people in this group are threatened with, or become homeless in Greater Norwich; this is both a local and a national problem.^{18 19} Through our homelessness review we found that as a whole 55, 53 or 47% (BDC, NCC and SNC) of presentations in 2018/19 were from people in the 16 to 35 year old age group. As previously mentioned both Norwich and Broadland saw slightly higher levels of presentations from this group compared to the Eastern average of 52%; South Norfolk saw slightly lower levels. As a proportion of the population this age group is disproportionately affected by homelessness than older people making up 19% (in BDC and SNC) and 36% (NCC) of our total populations.²⁰

Recorded numbers of 16/17 year olds approaching the Greater Norwich Councils are very low with only 5 individuals approaching for help during 2018/19.

Nationally over the last decade there has been an increase of nearly 700,000 of 20 – 34 year olds living with their parents (this is a 28% increase). The number of households headed by younger people has also fallen in the last decade; rates are 32% lower in London and the South East.²¹ This is reflected locally in the number of people who become homeless following family or parental eviction. All three local authorities in Greater Norwich recorded this accommodation situation (living with family) when they approached us for help as one of the top three reasons for their homelessness. Locally, specialist young person services like Mancroft Advice Project have seen an increase of 23% from 2016 to 2018 in the number of young people accessing their young person housing advice service over the past three years.²² The main reasons for seeking advice were:

- Housing options
- Obtaining hostel accommodation
- Applying as homeless

6.32 Engagement with Young People and External Partners

As part of preparation for this strategy, we consulted statutory, voluntary sector partners and young people to ask them what they thought the priorities

¹⁸ 16 to 25 year olds

¹⁹ 26 to 35 year olds

²⁰ <https://www.norfolkinsight.org.uk/population/report/view/b15822d80ec54439bb12134b7c857bb9/E07000149>

Accessed on 12/02/2020.

²¹ Page XIV, The CRISIS, *The homelessness monitor: England, 2019*.

²² Mancroft Advice Project saw 375,421 and 463 young people in the years 2016, 17 and 18.

where for young people. These are a selection of what they thought at a Greater Norwich Homelessness Forum in December 2018 and January 2019:

Issue	Comments
Care leavers and transitioning to adulthood	<p>Improve variety of options to meet different needs</p> <p>Maintain Joint Protocol to Address the Needs of Homeless Young People in Norfolk</p> <p>Use Personalised Housing Plans (PHPs), include goals and a “plan b” with other options e.g. crisis/respite even when in current accommodation.</p>
Preventative work	<p>18 plus young people should need support (include housing advice and budgeting) and this should be default offer.</p> <p>Proactive work with schools should be considered and other agencies.</p>
Partnership working	<p>Better connection between districts and Children Services needed</p> <p>21-25 year olds not engaging with Children Services or Adult Social Care. Should be better signposting for support.</p>

Table 14

We also spoke to young people who had experienced homelessness and members of the Youth Advisory Board around what their views were around homelessness. We used the St Basils Positive Pathway Framework model to develop their thoughts and suggestions. A sample of their responses are as follows.²³

Subject	Comments
1. Intervention at earliest opportunity to stop youth homelessness	<p>Mandatory education in school that demonstrates key home management and tenancy skills. This should include finance management, taxes and welfare support, where to go for housing support and what to do in housing emergencies.</p> <p>Support services should be easily accessible.</p> <p>Address perceived stigma of social or supported housing.</p>
2. Safeguard young people	<p>More supported housing for young people with less requirements.</p>

²³ The full response from the Youth Advisory Board members will be included in the Greater Norwich homelessness review document and will be published alongside the final strategy.

Subject	Comments
	<p>Independent support workers offered to help young people find and maintain a home.</p> <p>Local support groups in schools or community areas for people struggling with housing issues or homelessness.</p> <p>Specialist support for LGBTQI+ youth. This should include mediation for families.</p>
3. Improve transition for young people to independence	More housing available to young people on benefits and low incomes in areas close to amenities and are inexpensive to run and live in such as Passiv-haus.
4. Develop specialist housing services and intervention	Independent support workers offered to young people to support finding and maintaining a home.

Table 15

6.33 Actions: What we will do about Single and Youth Homelessness

1. Consider and explore options for additional support to help single young people find and maintain a home.
2. Enable the provision of affordable single person homes.
3. Explore funding streams to provide mediation for young people and families before crisis wherever possible.
4. Seek to achieve a commitment from all housing providers to identify, promote and further develop specific models of housing supply that helps young adults gain independence.

6.4 Priority four: Financial Inclusion, Welfare Reform and Economic Growth.

The increase in the cost of housing is one of a number of areas that have had a sustained impact on the cost of living (explored in more detail below). In addition, the range of sustained austerity measures implemented since 2010 and the increase of necessary expenditure is putting unsustainable pressure on people and families finances.

Those on low incomes are less likely to have access to the best offers and interest rates for bank accounts and credit borrowing. They are also more likely to be paying more for their utilities and insurance products.²⁴ For those living in rural areas, this gap can be more pronounced as public transport options are limited and, where the household has access to a car, this could be through high interest credit or could be for a much older car which will have

²⁴ Select Committee on Financial Inclusion 2017

an increased likelihood of higher tax and maintenance costs. Similarly, choice can be reduced even in the simple terms of how groceries are purchased and access to the internet. Either because it is too expensive or there is a lack of suitable options in the area in which they live.

To add, the implementation of self-serve technology is becoming more widely spread. With sustained pressure on public sector finances, organisations may turn to technology to streamline how services are accessed and to provide efficiencies. UC being the best-known example of this. Self-serve can be a positive step as it allows people to access a more flexible service at the time that suits them. However, this needs to be provided as a suite of options to meet the accessibility requirements of our residents, for example, those without internet access and those with additional support or complex needs.

Welfare reform, often prompted by Universal Credit has caused hardship within the sub-region.²⁵ The principles of Universal Credit are sound in that they aim to allow people to be prepared to move into work, gain greater budgeting capacity and react quickly to changes in income thus avoiding overpayments and debt. Where there have however, been continued issues, is through its implementation and where it has been used to create savings throughout the period of austerity the country has faced.

Linked to this is the use of zero hours contracts and the gig economy, employment types which have grown exponentially within the last 6 years and with those who work in this sector more likely to claim UC as an in-work benefit. There are some advantages to this type of work for some people, in that they provide flexibility to workers who do not want to commit to contracted hours. However, uncertain hours, low pay and concerns over the administration of UC makes it difficult to budget too far ahead and decreases resilience where individuals may seek other, more sustainable, training and employment opportunities.

In terms of the cost of housing in relation to income, the latest figures show that in recent years rents in England and Wales have grown 60% quicker than wages.²⁶ Those who previously would have purchased are finding the prospect much more difficult.

Additionally, this is represented through the Local Housing Allowance gap between what is actually available to those claiming Housing Benefit or the Housing element of Universal Credit and rental charges within the region. A recent published report²⁷ found that nationally only 5.6% of homes that are advertised fall within or below what is available within the benefit system. To add to this many Landlords are refusing access to their properties to those claiming benefits.

²⁵ The Trussell Trust 2019

²⁶ [\(Shelter 2018\).](#)

²⁷ [McClenaghan et al, 2019](#)

The ongoing increase in the pull on people's finances can make the prospect of purchasing or even privately renting a property unachievable meaning that options for the simple provision of a home are significantly reduced.

6.41 Poverty and Homelessness

"There is also now extensive international evidence on the interrelationship between poverty and domestic violence,²⁸ which in turn is a key trigger for homelessness amongst women and children.²⁹ Thus people facing poverty may find their social as well as material capital depleted, while also being more likely to experience personal circumstances that lay them open to homelessness, again reinforcing the potential interconnectedness between structural and more personal or interpersonal causes of homelessness."³⁰

We also know that family and other 'anchor' social relationships – argued to be an especially important 'buffer' to homelessness³¹ – can be put under considerable strain by the stressors associated with poverty in the household.³²

Research by Crisis³³ has found, based on extensive research that the drivers of homelessness in its different forms are:

- Poverty
- Availability of housing that is affordable and accessible
- Extent that local authorities employ the full range of prevention measures
- Use of unsuitable forms of temporary accommodation
- Demographics of people including age and household composition (single people and lone parents) and persons with complex needs

6.42 Destitution^{34,35}

A report by the Joseph Rowntree Foundation (JRF) published in 2017 updated an earlier study in 2015 providing an overview of the level of destitution in the UK and the main drivers for its existence. Destitution was measured using face to face interviews and a review of quantitative data

²⁸ Fahmy *et al.*, 2016

²⁹ Hutchinson *et al.*, 2015

³⁰ Bramley & Fitzpatrick, *Homelessness in the UK: who is most at risk?*, Housing studies, 2018

³¹ (Johnson *et al.*, 2015; Lemos, 2000; Tabner, 2010)

³² Ibid. Johnsen & Watts, 2014; Pinderhughes *et al.*, 2007

³³ Bramley, G, 2017, *Homelessness projections: Core homelessness in Great Britain, Summary report*, Heriot Watt University

³⁴ People are destitute if:

a) They have lacked two or more of these six essentials over the past month, because they cannot afford them:

- ☐ shelter (have slept rough for one or more nights)
- ☐ food (have had fewer than two meals a day for two or more days)
- ☐ heating their home (have been unable to do this for five or more days)
- ☐ lighting their home (have been unable to do this for five or more days)
- ☐ clothing and footwear (appropriate for weather)
- ☐ Basic toiletries (soap, shampoo, toothpaste, toothbrush).

³⁵ Fitzpatrick, S & Bramley, G *et al.*, *Destitution in the UK 2018*, JRF, 2018.

provided district level national-level estimates. People found destitute were more likely to be:

- Migrant groups
- Single men under 35
- Living in rented accommodation or are living in temporary or shared living arrangements
- Sleeping rough

The study found that there were a number of reasons for why people fell into destitution including:

- Multiple debts
- Benefit gaps, delays, sanctions and freezes
- Disability and ill health
- Housing benefit not covering rental costs
- Low paid work with erratic hours worked
- Relationship breakdown (including domestic abuse) combined with debt and housing difficulties

Norwich (and Oxford) was found to be in the top decile on overall estimated destitution in the UK amongst predominantly former industrial centred local authorities and inner London Boroughs. The table below compares Norwich to the other greater Norwich local authorities (10=high to 1=low).

Area	Migrant	Complex Needs	UK other	All destitute
Norwich	8	10	8	10
South Norfolk	3	5	1	2
Broadland	1	5	2	2

Table 16

6.43 Economic Growth

The built-up Norwich urban area extends beyond the Norwich City Council boundary, with extensive suburban areas on the western, northern and eastern sides. The population of the urban area is estimated to be 220,000; around 28 per cent of the urban population lives in Broadland and a further 7 per cent lives in South Norfolk.

The city centre of Norwich is a catalyst for economic growth across Greater Norwich, encouraging investment into the area. However an ongoing trend has been a movement of jobs away from the Norwich local authority area to the urban fringe. Much of this has been brought about by the provision of high-quality office space in out-of-town business parks in the adjoining local authorities. In addition, market towns at Diss, Harleston and Aylsham and

other local employment sites provide accessible employment for rural areas.³⁶

³⁷

One of the key roles Councils play in the sustained delivery of economic opportunities is by attracting the right business for our demographic, future proofing our economy to make sure that there are suitable opportunities to our residents. Where opportunities to diversify present themselves, It is vital that we co-ordinate, alongside the DWP and partners, for example, the New Anglia Local Enterprise Partnership (LEP); and the Greater Norwich Growth Board (GNGB) in addition to training providers to make sure that our residents are well placed to meet the demands of businesses located in our districts, ensuring our area remains attractive to investment.

Our role as local planning and housing authorities closely compliments economic growth delivery, in addition to making sure those who need extra support have access to it.

6.44 Actions

It is essential that the role of the Greater Norwich Councils is to co-ordinate and prioritise economic sustainability and growth to provide access to opportunities for our residents.

1. Supporting the Inclusive Growth agenda at a County and Local Authority level – Improving access to skills, training and employment opportunities
2. Building the right properties - Learning from the great achievements made within each Council over the last 5 years and to continue to produce sustained delivery of affordable housing and social energy efficient properties with sustainable tenures.
3. Economic Delivery – Support and enable the delivery of the ambitions of the Economic Strategies and the Greater Norwich Local Plan across the local authority areas,
4. Explore and develop our offer to increase accessibility and availability – ensuring we can enable residents and customers to access services at the right time and location for them

7. Monitoring of the strategy

To ensure we are taking a proactive approach to preventing and reducing homelessness, we will review this homelessness strategy annually with our partners through the Greater Norwich Homelessness Forum (GNHF) and its thematic sub-groups.

³⁶ Norwich Economic Strategy 2019-2024

³⁷ <https://www.gnlp.org.uk/assets/Uploads/Reg-18-Final-Strategy-Document-0702.pdf>

The 2021 review will take place as part of the work into the next iteration of the Rough Sleeper Strategy 2022-2025.

The GNHF will also provide annual review and challenge points to measure that we are achieving the actions set out in this strategy and help us to identify where they may need to be amended, for example to meet a priority not currently identified or where there are changes in legislation.

8. Glossary of Terms

Term	Definition
Bedroom Tax	Formally known as the 'Spare Room Subsidy'. Housing Benefit or Universal Credit Housing element is reduced if classed as having one or more spare bedrooms in a council or socially rented property. The maximum rent that can be covered is reduced by: 14% for 1 spare bedroom 25% for 2 or more spare bedrooms
Benefit Cap	Limit on the total amount of certain benefits you can get if you are working age. The benefit cap affects those households getting Housing Benefit or Universal Credit. If the cap affects the household; Housing Benefit or Universal Credit is reduced.
Broad Rental Market Area (BRMA)	The BRMA is an area defined by the Valuation Office Agency and is an area of residential accommodation within which a person could move and still have access to similar services of a similar standard. Each BRMA has its own set of LHA rates. Your postcode defines which BRMA in which you live.
Choice Based Lettings (CBL)	Choice based lettings gives a household the chance to apply for empty council and housing association properties that the council or housing association advertises (Currently Norwich and South Norfolk Council's operate this system).
Clinical Commissioning Group	Clinical Commissioning Groups are responsible for implementing the commissioning roles as set out in the Health and Social Care Act 2012. From April 2020, the 5 Norfolk and Waveney CCGs will merge and become Norfolk and Waveney Clinical Commissioning Group with one Governing Body and Leadership Team.
Commuted Sums	The main objective of a local authority should be to deliver the affordable homes on-site as part of a new development. However, on some developments this may not be possible and there may be sound planning or housing reasons where off site delivery can be justified and it may be acceptable to take an off-site commuted sum of broadly equivalent value in lieu of part or all of the affordable housing provision on a site. The developer must pay the Council money to enable the equivalent affordable housing to be built or provided on another site. This payment is called a commuted sum and it is agreed

Term	Definition
	and secured via a planning obligation under Section 106 of the Town and Country Planning Act 1990. This is the legal mechanism which makes a development proposal acceptable in planning terms that would not otherwise be acceptable
Consumer Price Index (CPI)	A measure of changes in the purchasing-power of a currency and the rate of inflation. The consumer price index expresses the current prices of a basket of goods and services in terms of the prices during the same period in a previous year, to show effect of inflation on purchasing power.
DASH (Domestic abuse, stalking and harassment and honour based violence risk identification, assessment and management model)	Common checklist for identifying and assessing risk for use by practitioners.
Discretionary Housing Payments (DHP)	Local housing authorities have the ability to authorise DHP to those who may require some financial assistance in order to meet their housing costs.
Duty to Refer	A formal duty placed on public bodies under the Homelessness Reduction Act 2017 to refer individuals or are homeless or threatened with homelessness into a local authority of the individuals choosing. Public bodies are; prisons (public and contracted out); youth offender institutions and youth offending teams; secure training centres (public and contracted out) and colleges; probation services (community rehabilitation companies and national probation service); jobcentre plus; accident and emergency; services provided in a hospital; urgent treatment centres; and hospitals in their capacity of providing in-patient treatment; social service authorities.
Early Help and Family Support	Giving the right help to children and their families at the earliest opportunity. For those who need more help than their usual support network but do not meet the criteria for formal intervention within Children's Services
First Step	The Rough Sleeping Service available in South Norfolk and Broadland. Provision of short-term accommodation and support provided by Rough Sleeping Coordinators
Greater Norwich Homelessness Forum	Quarterly forum held by Norwich City and Broadland & South Norfolk Councils. Representatives attend from statutory, commissioned and VCSE organisations. The forum will be the mechanism through which the strategy is monitored.
Greater Norwich Local Plan 2018-2038 (GNLP)	The Greater Norwich Local Plan (GNLP) is being produced by Broadland District Council, Norwich City Council and South Norfolk Council working together with Norfolk County Council through the Greater Norwich Development Partnership (GNDP). It includes policies which will be used to determine planning applications in

Term	Definition
	the Greater Norwich area and will identify sites for new homes, jobs, community facilities and infrastructure
Health and Wellbeing Boards	Statutory bodies introduced in England under the Health and Social Care Act 2012. According to the Act, each upper-tier local authority in England is required to form a health and wellbeing board as a committee of that authority.
Help Hubs	Areas within local authorities for co-location of local authority and other services, for example; Housing, Children's Services, Community Safety, Domestic Abuse services, Social Prescribing. Each local authority has a Help Hub but they will differ in operation and some of the services offered.
Homelessness Reduction Act 2017	Places additional duties on local authorities; provide advice and guidance for all households approaching the LA and to meet the needs of certain listed groups including those leaving prison, hospital or care and those with mental health issues ; to prevent those threatened with homelessness from becoming homeless; to relieve homelessness for those who are homeless. Both prevention and relief duties last for 56 days but can be ended in several ways in that time
House of Multiple Occupation (HMO)	A HMO is a building, or part of a building that is occupied by persons who do not form a single household - in other words, are not family members. From 1 st October 2018 all HMOs that are let to 5 or more unrelated tenants who form more than one household and who share toilet, bathroom or kitchen facilities require a licence from the local authority
Joint Strategic Needs Assessment (JSNA)	The means by which CCGs and local authorities describe the future health, care and wellbeing needs of the local populations and to identify the strategic direction of service delivery to meet those needs.
Let NCC	Norwich City Council's private sector leasing scheme.
Local Housing Allowance (LHA)	Local housing allowance is housing benefit that helps pay the rent if you rent from a private landlord.
Looked After Children (LAC)	Looked After - a provision made under the Children's Act 1989 in England and Wales, whereby a local authority / Health and Social Care Trust has obligations to provide for, or share, the care of a child or young person under 16 years of age where parent(s) or guardian(s) for whatever reason are prevented from providing them with a suitable accommodation or care. A child is 'looked after' if he or she is provided with accommodation.
Multi-agency risk assessment conference (MARAC)	A MARAC is a risk management meeting where professionals share information on high risk cases of domestic violence and abuse and put in place a risk management plan.
Not in Employment, Education or Training (NEET)	A young person who is no longer in the education system and who is not working or being trained for work.

Term	Definition
No Fixed Abode (NFA)	A person having no permanent residence.
Pathways	Rough Sleeping Service in the Norwich City and Broadland areas. Consists of 8 partner agencies, provision of accommodation and support.
Severe Weather Emergency Protocol (SWEP)	People sleeping rough in Greater Norwich can access emergency accommodation and support during periods of exceptionally cold weather through the SWEP.
Sofa surfing	Staying temporarily with various friends and relatives while attempting to find permanent accommodation.
Strategic Housing Market Assessment (SHMA)	The Strategic Housing Market Assessment (SHMA) was updated in June 2017 Its purpose is to set out the <u>Objectively Assessed Need (OAN)</u> for housing in the local planning areas of Broadland, Breckland, North Norfolk, Norwich and South Norfolk together with the Broads Authority, including affordable housing, and will be used by the commissioning authorities as a shared evidence base to inform the preparation of Local Plans.
Supported Lodgings	Supported Lodgings is an accommodation scheme for vulnerable young people aged 16-24 across Norfolk. Supported Lodgings provides young people who find themselves with nowhere to live and little to no support network, with a safe, supportive place to stay in the homes of local people.
Universal Credit	A benefit for those who are not working or on a low income. It is replacing six other benefits; Housing Benefit, Income Support, Income Based Jobseekers Allowance, Income Based Employment and Support Allowance, Child Tax Credits and Working Tax Credits and is paid monthly.

SOUTH NORFOLK AND BROADLAND

ROUGH SLEEPER STATEMENT

2020 - 2022

1. INTRODUCTION

This document articulates the South Norfolk and Broadland Councils joint objectives for tackling rough sleeping across our two districts. The statement is complimentary to the Greater Norwich Homelessness Strategy 2020 to 2025 which is currently under development and will be adopted by the three Greater Norwich Councils in 2020. This Rough Sleeper Statement is a short term document that will last through to 2022 when the joint ambition is for the creation of a Greater Norwich Rough Sleeper Strategy.

COVID-19

The Coronavirus outbreak and the implementation of nationwide lockdown requirements saw a significant increase in the number of people who are rough sleeping or at risk of rough sleeping supported and accommodated by South Norfolk and Broadland. The predominant source of this increase stemmed from those who had transient arrangements for their accommodation, otherwise known as hidden homelessness. This has provided evidence that although rough sleeping remains low within both districts there is a steady level of people who have very little control over their accommodation and remain on the cusp of rough sleeping.

Statistically people who are rough sleeping have an increased incidence of substance and alcohol misuse, domestic abuse and pre-existing health, including mental health conditions that could impact on ability to recover from a Covid-19 infection and in addition to being less likely to have access to means to self-isolate effectively. Life expectancy for entrenched rough sleepers is also considerably lower than average life expectancy at 47 compared to 79 for males and 43 compared to 82 for females (ONS).

To this end, early in the lockdown period Dame Louise Casey wrote to all Local Authorities across England requesting that anyone who was street homeless or currently living in dormitory style emergency housing was to be accommodated within 24 hours, to minimise the risk of them contracting Covid-19, known as 'Everybody In'. South Norfolk and Broadland Councils are proud to say that they were able to offer accommodation to all those rough sleeping across the local authority areas.

We continue to find that those who have approached us fall within the medium to high risk categories making sourcing accommodation very difficult however in all cases we have succeeded. We continue to work with our supported accommodation providers to encourage move on and utilise subsequent voids. Long term however the whole sector is seeing this as an opportunity to end rough sleeping within the County. We are therefore working very closely and are an intrinsic link in making sure that the services people need to avoid rough sleeping, including floating support, increased co-ordination within health and substance

misuse and incorporating a Housing First model. This model will be delivered within the timeframe of this statement

The impacts of Covid-19 are expected to be long lasting and both this Rough Sleeper Statement and the Greater Norwich Homelessness Strategy 2020-2025 builds on the solid foundations of practice developed both before and during the pandemic.

2. CONTEXT

The context to this statement is articulated through a range of legislative and best practice documents. These include -

Homelessness Reduction Act 2017 (HRA)

The HRA placed new duties on local authorities that are designed to ensure all households at risk of homelessness receive earlier and more effective interventions. Those new duties include **Prevent** to stop homelessness happening, and **Relieve** to find suitable alternative accommodation in a timely manner and before the main homelessness duty is taken.

Making Every Adult Matter (MEAM)

The MEAM approach helps local areas design and deliver better co-ordinated services for people experiencing multiple disadvantage. It's currently being used by partnerships of statutory and voluntary agencies in 27 local areas including the Greater Norwich area as part of the Pathways Partnership.

Rough Sleeper Strategy 2018 - 2022

The Ministry of Housing, Communities and Local Government Rough Sleeper Strategy sets out central governments plans to halve rough sleeping by 2022 and end it by 2027. It includes a range of commitments, intended both to help those who are sleeping on our streets or currently at risk of doing so, and to lay foundations for a system focused on prevention, early intervention and a rapid re-housing approach to recovery. The Strategy has been accompanied by a number of bidding rounds to secure funding for new and innovative interventions to reduce rough sleeping and to enable the rapid re-housing of those who have been homeless. In 2019 the two Councils successfully secured significant funding to develop the First Step service and a continuation funding bid for 2020/21 was also successful.

The Welfare Reform Act 2012

This legislation led to the most significant change to the welfare system in decades and the creation of Universal Credit. UC is a single payment that encompasses up to what was previously six different benefits. Over the same timescale Local Housing Allowance has remained unchanged and no longer reflects the cost of housing locally. Broadland and South Norfolk Council areas are in the process of rolling out UC and although demand on housing services has unquestionably increased, the full impact of these changes are as yet unknown.

3. STRATEGIC OBJECTIVES

Objective 1. Early Intervention and Prevention of Homelessness

To achieve this the two Councils will:

- Work in partnerships with statutory and voluntary sector colleagues to develop a collaborative and innovative housing offer to prevent homelessness.
- Further develop, and make permanent, the Broadland and South Norfolk First Steps Rough Sleeper Service.
- Continue to work with, and support, those accommodated during the Covid-19 lockdown period to secure sustainable accommodation solutions.

Objective 2. Improve the range of temporary accommodation options across the two Councils

To achieve this the two Councils will:

- Through the First Steps model increase our outreach and upstream approach providing tailored support where and when needed
- Work to prevent the need for Temporary Accommodation through sustainable accommodation options.
- Design and implement a Best in Class Temporary Accommodation pathway

Objective 3. Reduce the Incidence of Rough Sleeping

To achieve this the two Councils will:

- Implement a Housing First approach to sustainable accommodation for those who are rough sleeping or at risk of rough sleeping.
- Work with partners to ensure those rough sleeping can access the appropriate accommodation, support and advice to prevent re-occurrence
- Utilise rough sleeper funding and cold weather funding to ensure we run a no second night out approach throughout the year

4. MONITORING PROGRESS

Measures to monitor delivery against this joint Rough Sleeper Statement have been developed and will be reported as part of the two Councils performance management framework. The measures developed thus far include

- Rough Sleeper Count data
- Total number of homelessness decisions
- Number of placements in temporary Accommodation by type
- Average length of stay by type (bed & breakfast and self-contained)

This statement will be reviewed annually.

Council Tax COVID-19 Hardship Fund 2020-21 Emergency Procedures/Policy

Report Author(s): Richard Dunsire
Housing and Wellbeing Senior Manager
01508 533620
rdunsire@s-norfolk.gov.uk

Portfolio: Better Lives

Ward(s) Affected: All Wards

Purpose of the Report:

In March 2020 as a response to the Covid-19 Pandemic Government announced Local Authorities would receive a grant to support working age economically vulnerable residents. We now require authorisation from cabinet to retrospectively consider the policy.

Recommendations:

Cabinet retrospectively agrees the policy for Council Tax COVID-19 Hardship Fund 2020-21, so we can continue to administer hardship fund following the central government guidelines.

1 SUMMARY

- 1.1 Since March 2020 South Norfolk Council has administered the Council Tax Covid-19 Hardship Fund, following guidance issued by the Ministry of Housing, Communities and Local Government. We are now retrospectively obtaining authorisation from cabinet as the funds were issued under discretionary powers s13A(1)(c) Local Government Finance Act 1992.

2 BACKGROUND

- 2.1 As part of the Government response to the Covid-19 pandemic in March 2020 it was announced that Local Authorities would receive an allocation of a £500m new grant funds to support working age economically vulnerable residents.
- 2.2 South Norfolk received £756,235 to administer the fund. Guidance of the Fund was issued to Local Authorities in March 2020 by the [Ministry of Housing, Communities and Local Government](#). Following the instruction from central government officers took immediate action to facilitate this function making sure the money was provided to those who needed it most at the earliest possibility however it is now necessary to take obtain authorisation from cabinet so that officers can align Council tax policy to reflect the instruction.

3 CURRENT POSITION/FINDINGS

- 3.1 Since March the Benefits Team have administered and been making awards to reduce Council Tax bills and support working age vulnerable residents who have faced extreme financial hardship due to Covid-19.
- 3.2 Please find attached in Appendix A the full the procedures and proposed policy the team has been working to in making the awards under s13A(1)(c) Local Government Finance Act 1992.
- 3.3 As part of the Government guidance South Norfolk will be awarding all working age residents who receive Council Tax Support during the financial year 2020-21 a further reduction in their annual bill of up to £150.00. If the resident's liability is less than £150.00 their liability will be reduced to nil.
- 3.4 As part of the fund South Norfolk Council have allocated £100,000.00 to Covid-19 Severe Hardship Fund for residents of the Local Authorities. As detailed in the guidance from MHCLG (Ministry of Housing, Communities and Local Government) Local Authorities could establish a local approach to use any remaining grant within their allocation to deliver support to their most vulnerable residents. The Covid-19 Severe Hardship Fund is to support working age residents who are experiencing severe hardship due to the Coronavirus pandemic.

4 PROPOSED ACTION

- 4.1 Due to the immediate action required the team acted following government guidelines and we are proposing that this continues during this financial year to support residents affected by Covid-19.

5 OTHER OPTIONS

- 5.1 As this is a retrospective policy and following the guidelines set out by Ministry of Housing, Communities and Local Government, we are limited to alternative options.

6 ISSUES AND RISKS

- 6.1 As South Norfolk was issued with guidance and a grant to administer the fund, we were limited to the support we could administer to residents.
- 6.2 **Resource Implications** – there were no resource implications and the team have been able to administer the funds during business as usual.
- 6.3 **Legal Implications** – any awards made have been issued under discretionary powers s13A(1)(c) Local Government Finance Act 1992.
- 6.4 **Equality Implications** – please note there is no requirement to do a separate equality impact assessment, as this is included in previous assessments completed for Council Tax Support
- 6.5 **Environmental Impact** – There are no environmental impacts of the policy.
- 6.6 **Crime and Disorder** – There should be no impact to crime and disorder
- 6.7 **Risks** –the risk to South Norfolk would be a financial overspend, this is being monitored and will be reported to Cabinet if required.

7 CONCLUSION

- 7.1 During the pandemic Officers took immediate action to follow the guidance and facilitated the functions making sure money was provided to residents who needed it most at the earliest opportunity.
- 7.2 Under the guidance the team have been able to reduce Council Tax bills for Working Age residents in receipt Council Tax Support and support our most vulnerable working age residents who have suffered severe financial hardship due to the pandemic.

8 RECOMMENDATIONS

- 8.1 Cabinet retrospectively agrees the policy for Council Tax COVID-19 Hardship Fund 2020-21, so we can continue to administer hardship fund following the central government guidelines.

APPENDIX A

South Norfolk Council

Council Tax COVID-19 Hardship Fund 2020-21 Emergency Procedures/Policy

Background

As part of the Government response to the Covid-19 pandemic in March 2020 it was announced that Local Authorities would receive an allocation of a £500m new grant funds to support working age economically vulnerable residents.

South Norfolk £756,235

Guidance of the Fund was issued to Local Authorities in March 2020 by the [Ministry of Housing, Communities and Local Government](#). Following the instruction from central government officers took immediate action to facilitate this function making sure the money was provided to those who needed it most at the earliest possibility however it is now necessary to take obtain authorisation from cabinet so that officers can align Council tax policy to reflect the instruction.

Summary

The Council Tax COVID-19 Hardship Fund is not an award of Council Tax Support but is a grant allocation to reduce working age residents Council Tax liability, if they are in receipt of Council Tax Support/Reduction, under discretionary powers s13A(1)(c) Local Government Finance Act 1992.

As recommended in the guidance South Norfolk will be awarding all working age residents who receive Council Tax Support during the financial year 2020-21 a further reduction in their annual bill of up to £150.00. If the resident's liability is less than £150.00 their liability will be reduced to nil.

Residents will not be required to apply for the additional hardship fund, this will be awarded automatically if they are already in receipt of Council Tax Assistance or if they qualify within the financial year 2020-21.

How will residents be notified

Residents who are eligible for the Council Tax Covid-19 Hardship fund will receive a new Council Tax bill informing them of the award and their new instalments to pay.

Additional Discretionary Support

As part of the fund South Norfolk Council have allocated £100,000.00 to Covid-19 Severe Hardship Fund for residents of the Local Authorities. As detailed in the guidance from MHCLG (Ministry of Housing, Communities and Local Government) Local Authorities

could establish a local approach to use any remaining grant within their allocation to deliver support to their most vulnerable residents.

The Covid-19 Severe Hardship Fund is to support working age residents who are experiencing severe hardship due to the Coronavirus pandemic.

The amount applicants can receive is limited and the fund will not cover bills such as phones, television subscriptions, sky, virgin, utility bills, credit cards, car loans etc. It is for essentials for daily living such as food.

How to apply for Covid-19 Severe Hardship Fund

The application for the Covid-19 Severe Hardship Fund is to be made online, we will support residents who are unable to do this or don't have access to the internet.

When considering any application, the circumstances of the whole household are to be taken into account. We will assess what steps have been taken by them to maximise income, for example applying for Welfare Benefits or other discretionary payments already available, if they have contacted their landlord, mortgage provider and any other debtors for payment holidays etc.

If the household has any savings, capital or investments they will generally not qualify for the Covid-19 Severe Hardship Fund.

To process the application, we will require to see proof of bank account, and details of income, we will also check residency in the district using systems already held.

The Benefits Team may request (reasonable) evidence in support of an application. If the information is not provided within the time given, this will be treated as a withdrawal of the application by the applicant and it will be refused as such.

The period of the award of Covid-19 Severe Hardship Fund will be for a maximum 5 weeks, for example to allow the applicant to apply and receive welfare benefits, furlough payments from employer etc. On a case by case basis we may consider a further application however there will be a full investigation into why other welfare systems are not sufficient and what action will be needed to avoid a further need. We will do this within our one Housing and Benefit team and in conjunction with our partners within the early help hub thus allowing all aspects to be considered including but not limited to housing and money advise

Method of Payment

Payment of the Covid-19 Severe Hardship fund will be made directly into the applicant's bank account.

Bank details used for Council Tax Direct Debit payments will generally be used, if the applicant does not give consent for this or does not pay by direct debit the Benefits Team will contact them for details and evidence.

Please note that any underspend of the COVID-19 Severe Hardship Fund will be put back to the Council Tax Covid-19 Hardship, as detailed above.

Portfolio:

Cllr John Fuller - External Affairs and Policy, Cllr Lisa Neal –
Stronger Economy

Ward(s) Affected:

All

Purpose of the Report:

To outline the key issues and to agree the Council's consultation responses to the following consultation documents issued by the Ministry of Housing, Communities and Local Government (MHCLG):

- Changes to the current planning system – due 1 October
- White Paper: Planning for the future – comments due 29 October

Recommendations:

1. To agree the draft responses to the following MHCLG consultation documents as outlined in appendices 1 and 2 of this report:
 - Changes to the current planning system
 - White Paper: Planning for the future
2. Delegate any updates to these responses to the Director of Place in consultation with the Leader and Portfolio Holder for Stronger Economy

1 SUMMARY

- 1.1 The purpose of the report is to advise Members of the general direction of travel and key changes proposed by MHCLG on the future of the planning regime. Members are also asked to agree the responses, as drafted, on the questions posed in these consultation documents or propose revisions to these draft responses.

2 BACKGROUND

- 2.1 The Government published two documents relating to the planning system for consultation on 06 August 2020. The first document, a White Paper entitled “Planning for the Future”, sets out plans to undertake a fundamental review of the planning system. The second is a consultation on shorter-term changes to the planning system. Consultation on Planning for the Future closes on 29 October 2020. Consultation on “changes to the planning system” closes on 1 October 2020.
- 2.2 This report outlines the key themes in each paper and how these proposed changes may have an impact on the future of planning moving forward.

3 CURRENT POSITION/FINDINGS

A summary of each consultation document is as follows:

3.1 Changes to the current planning system

The proposed changes in this paper cover the following areas:

- Changes to the standard methodology for assessing local housing need
- Securing First Homes
- Lifting the small sites threshold, below which affordable housing would not be required from 10 homes to either 40 or 50 homes.
- Extending the current Permission in Principle provisions to major development

Each of the above bullet points are explored further under the following sub-headings:

Standard Methodology for the assessment of local housing need

3.2 Context/Background

The standard methodology is a formula set by Government which identifies a minimum annual housing need figure which Councils are expected to use for strategic planning purposes. Because the housing need figure is a core factor in the strategic planning for an area and will shape the future of a place the importance of the standard methodology should not be underestimated.

Wider policy proposals which will set binding housing requirements are set out in “Planning for the Future” but in advance of these changes being implemented “Changes to the current planning system” sets out a revised method for calculating local housing need.

The purpose of changes to the standard methodology are to:

- ensure the methodology is more agile in up-to-date data (the current methodology relies on the 2014-based household projections);

- achieve a better distribution of homes, reflecting current and emerging high-demand areas and those areas where housing is least affordable;
- ensure that the outcomes of the methodology are more predictable; and, perhaps most critically;
- ensure that the housing market can deliver 300,000 homes annually and one million over the course of the current parliament.

By directing that sufficient land should be released government intends to ensure that the supply of housing land does not become a limiter in achieving national housing aspirations.

3.3 Government's proposed approach

The Government's new approach includes three amendments to the current standard methodology:

- a) Take account of current levels of housing stock in a local authority area as well as projected household growth.
- b) Increased emphasis on, and responsiveness of, the required affordability adjustment
- c) Removing the cap on housing requirement that limited the increases an individual authority could face.

3.4 National Impact

At a national level, government has concluded that the impact of the new standard methodology will result in:

- a national housing need of 337,000 per year;
- 76% of the national local housing need being focused in local authorities classified as urban;
- 141 authorities (excluding London boroughs) having a change of over 25% when compared to the higher of what most areas have recently planned for.

3.5 Transition Arrangements

The Local Plan will be expected to meet the minimum targets set out in the new standard methodology subject to the following transitional arrangements:

From the date revised guidance is published:

- a) Authorities which have already undertaken a Regulation 19 consultation (members are advised that a Regulation 19 consultation is one of the final stages of the plan making process) be given 6 months to submit their plan for examination;
- b) Authorities which have not undertaken a Regulation 19 consultation be given 3 months to publish their Regulation 19 consultation and then a further 6 months to submit their plan to the Planning Inspectorate.

3.6 Next Steps

Government intends to implement this change through an update to national planning practice guidance following the outcome of the consultation.

In order for the Greater Norwich Local Plan (GNLP) to benefit from these transitional arrangements the process to adopt the plan will need to be accelerated. However, if the accelerated timetable is not met then work on the current GNLP will have to cease and work would begin on preparing for a local plan under the new planning regime. If this happens the GNLP will need to ensure that it meets its requirements under the revised standard methodology.

Securing First Homes

- 3.7 The Government intends to set out in national planning policy that a minimum of 25% of all affordable housing units secured through developer contributions should be First Homes. In addition, in order to be deemed “policy compliant” affordable housing delivered under the new policy should capture the same amount of value for affordable housing.
- 3.8 The Government proposes two options for how the tenure mix of the remaining 75% of affordable housing required is negotiated. Crudely:

- First homes replace other affordable home ownership products e.g. shared ownership, with the remaining tenure split requirements spread proportionally over the remaining 75%;
- or
- Local authorities and developers can negotiate the tenure mix for the remaining 75%.

Government is considering whether Build to Rent schemes, which are currently exempt from affordable housing requirements, should be exempt from the requirement to provide First Homes. First Homes would be exempt from the payment of CIL like other tenures of affordable housing.

Plan making authorities would have discretion to increase the minimum 30% discount to 40% or 50% where it is justified by local evidence.

Where negotiations on planning applications are significantly advanced then it has been indicated that local authorities should have the flexibility to accept other tenure mixes, although consideration should be given as to whether First Homes could be easily substituted for another tenure at 25% or a lower proportion.

3.9 Exception Sites*

The current entry-level exception sites policy set out in national policy would be replaced by a First Homes exception policy. First Home exception sites would not be subject to the 1-hectare restriction currently set out for entry-level exceptions in the NPPF but should still be proportionate to the size of the settlement.

It is proposed that the current rural exception sites policy should be retained as a vehicle for delivering affordable housing in designated rural areas. Government considers this an underused mechanism however and will update planning guidance in due course.

*note: exception sites are currently sites that are not allocated for development but are granted planning permission as an exception in order to deliver affordable housing to meet an identified need in an area.

Lifting the small sites threshold (supporting small and medium-sized developers)

- 3.10 Government recognises that SME builders can make an important contribution to overall housing supply but that they have been in long-term decline and were hit hard by the last

recession and are now under further pressure due to Covid-19. To support SMEs, government is proposing to reduce the burden of planning contributions on SMEs for a time limited period.

To this end, Government intends to raise the small sites threshold (the level below which contributions to affordable housing should not be sought) from 10 to 40 or 50 new homes. This threshold is to be raised for an initial period of 18 months. To illustrate this change a development of 30 new homes would currently be expected to provide circa 10 affordable homes as part of the scheme. This inevitably reduces the return on a site. Therefore under this proposal, and for a temporary period of 18 months, there will be no requirement to provide affordable homes on such a site.

3.11 Next Steps

It is possible that these changes could be taken forward through the introduction of a Written Ministerial Statement in the autumn.

Extension of the Permission in Principle consent regime

- 3.12 Permission in Principle was introduced in 2017 by giving local planning authorities the power to grant Permission in Principle to suitable sites allocated on registers of brownfield land. Planning permission by application for minor development (sites for fewer than 10 dwellings) was introduced in 2018.

Permission in Principle is designed to separate decision making on “in principle” issues addressing land use, location and scale of development from technical matters such as the design of buildings, tenure mix, transport and environmental matters.

As part of its approach to supporting economic recovery, Government wants to make it easier for developers and landowners to secure Planning Permission in Principle. To do this it intends to:

- Extend the Planning in Principle by application routes to major sites of 10 or more dwellings (subject to Environmental Impact Assessment or Habitat Regulations Assessment).
- Remove the 1,000sqm/1-hectare cap for applications for Planning Permission in Principle, the requirement that housing must occupy the majority of the overall scheme proposed will remain.
- Set a new banded fee structure, which reduces the overall cost of applying for Planning Permission in Principle.
- Provide further guidance on the purpose, process and benefits of Planning Permission in Principle.

3.13 Next Steps

Subject to consultation, Government intends to introduce amendments to the regulations by this autumn to come into force by the end of the calendar year.

White Paper – Planning for the Future

The key changes in the White Paper can be summarised as follows:

3.14 Local Plans

The Government intends to simplify the role of Local Plans so that they focus on identifying land under one of three categories –

- **Growth areas:** these are areas which are suitable for substantial development. Land identified as being in a growth area will automatically be treated as benefitting from outline planning permission for development. The type and form of the development would be specified in the Plan. It is envisaged that this category will include land suitable for comprehensive development, including new settlements and urban extension sites, and areas for redevelopment, such as former industrial sites or urban regeneration sites.
 - **Renewal areas:** these are areas which are suitable for some development, such as gentle densification. This would include existing built up areas where smaller scale development is appropriate. It could also include small sites within or on the edge of villages and towns. There would be a statutory presumption in favour of development being granted for the uses specified as being suitable in each area. Local authorities could continue to consider the case for resisting inappropriate development of residential gardens.
 - **Protected areas:** protected areas are where an area, because of its environmental and/or cultural characteristics, would justify more stringent development controls to ensure sustainability. This would include areas such as Green Belt, Areas of Outstanding Natural Beauty (AONBs), Conservation Areas, Local Wildlife Sites, areas of significant flood risk and important areas of green space. At a smaller scale it can continue to include gardens in line with existing policy in the National Planning Policy Framework. It would also include areas of open countryside outside of land in *Growth* or *Renewal* areas.
- 3.15 Local Plans should set clear rules rather than general policies for development. General development management policies will be set nationally, with a more focused role for Local Plans in identifying site and area-specific requirements, alongside locally produced design codes.
- 3.16 As a result of the above points the primary focus of plan-making will be on identifying areas for development and protection and on shaping *Growth* areas and *Renewal* areas by the drafting of design codes and masterplans. The National Planning Policy Framework would become the primary source of policies for development management and there would be no provision for the inclusion of generic development management policies which simply repeat national policy within Local Plans
- 3.17 Local Plans should be subject to a single statutory “sustainable development” test, and unnecessary assessments and requirements that cause delay and challenge in the current system should be abolished. This would mean replacing the existing tests of soundness, updating requirements for assessments (including on the environment and viability) and abolishing the Duty to Cooperate
- 3.18 It will be a requirement that Local Plans are built on standardised, digitally consumable rules and data, enabling accessible interactive maps that show what can be built where. The data will be accessed by software used across the public sector and by external PropTech entrepreneurs to improve transparency, decision-making and productivity in the sector.
- 3.19 In parallel to the interim arrangements for the standard methodology referred to above the White Paper also addresses the **standard method for establishing housing**

requirement figures. A local area's housing requirement figure will not be set locally but it will be set by Government and it is intended to ensure enough land is released in the areas where affordability is worst and stop land supply being a barrier to enough homes being built.

- 3.20 In the current system the combination of the five-year housing land supply requirement, the Housing Delivery Test and the presumption in favour of sustainable development act as a check to ensure that enough land comes into the system. The proposed approach should ensure that enough land is planned for, and with sufficient certainty about its availability for development, to avoid a continuing requirement to be able to demonstrate a five-year supply of land. However, having enough land supply in the system does not guarantee that it will be delivered, and so proposed to maintain the Housing Delivery Test and the presumption in favour of sustainable development as part of the new system
- 3.21 **Local Plans will be developed over a fixed 30-month period**
- 3.22 **Neighbourhood Plans** should be retained as an important means of community input, and Government will support communities to make better use of digital tools

Development Management

- 3.23 The Government want to move to a position where all development management policies and code requirements, at national, local and neighbourhood level, are written in a machine-readable format so that wherever feasible, they can be used by digital services to automatically screen developments and help identify where they align with policies and/or codes.
- 3.24 It is also envisaged that there will be a streamlined development management process with automatic planning permission for schemes in line with plans. Areas identified as *Growth* areas (suitable for substantial development) would automatically be granted outline planning permission for the principle of development, while automatic approvals would also be available for pre-established development types in other areas suitable for building.
- 3.25 In areas suitable for development (*Renewal* areas), there would be a general presumption in favour of development established in legislation (achieved by strengthening the emphasis on taking a plan-led approach, with plans reflecting the general appropriateness of these areas for development).
- 3.26 In areas where development is restricted (*Protected* areas) any development proposals would come forward as now through planning applications being made to the local authority (except where they are subject to permitted development rights or development orders), and judged against policies set out in the National Planning Policy Framework
- 3.27 It is anticipated that planning applications will be shorter and more standardised. The amount of key information required as part of the application should be reduced considerably and made machine-readable
- 3.28 Government propose that there should be a clear incentive on the local planning authority to determine an application within the statutory time limits. This could involve the automatic refund of the planning fee for the application if they fail to determine it within the time limit. But Government also want to explore whether some types of applications should be deemed to have been granted planning permission if there has not been a timely determination, to ensure targets are met and local authorities keep to the time limit in the majority of cases

- 3.29 Government also want to make it easier for those who want to build beautifully through the introduction of a fast-track for beauty through changes to national policy and legislation. This could include automatically permitting proposals for high-quality developments where they reflect local character and preferences.
- 3.30 Government will publish a National Model Design Code to supplement the guide, setting out more detailed parameters for development in different types of location: issues such as the arrangement and proportions of streets and urban blocks, positioning and hierarchy of public spaces, successful parking arrangements, placement of street trees, and high quality cycling and walking provision, in line with our wider vision for cycling and walking in England.
- 3.31 To support the transition to a planning system which is more visual and rooted in local preferences and character, a body to support the delivery of provably locally-popular design codes will be set up, and it is proposed that each authority should have a chief officer for design and place-making.
- 3.32 Propose to legislate to widen and change the nature of permitted development, so that it enables popular and replicable forms of development to be approved easily and quickly, helping to support 'gentle intensification' of our towns and cities, but in accordance with important design principles
- 3.33 Requirements for environmental assessment and mitigation need to be simpler to understand and consolidated in one place so far as possible, so that the same impacts and opportunities do not need to be considered twice
- 3.34 From 2025, Government expect new homes to produce 75-80 per cent lower CO2 emissions compared to current levels. These homes will be 'zero carbon ready', with the ability to become fully zero carbon homes over time as the electricity grid decarbonises, without the need for further costly retrofitting work.

Developer Contributions

- 3.35 The Community Infrastructure Levy and the current system of planning obligations will be reformed as a nationally set, value-based flat rate charge (the 'Infrastructure Levy').
- 3.36 The single rate, or area-specific rates, would be set nationally. It would aim to increase revenue levels nationally when compared to the current system. Revenues would continue to be collected and spent locally. As a value-based charge across all use classes, Government believe it would be both more effective at capturing increases in value and would be more sensitive to economic downturns. It would reduce risk for developers, and would reduce cashflow difficulties, particularly for SME developers. In areas where land value uplift is insufficient to support significant levels of land value capture, some or all of the value generated by the development would be below the threshold, and so not subject to the levy. In higher value areas, a much greater proportion of the development value would be above the exempt amount, and subject to the levy.
- 3.37 To better support the timely delivery of infrastructure, Government would also allow local authorities to borrow against Infrastructure Levy revenues so that they could forward fund infrastructure. Enabling borrowing combined with a shift to levying developer contributions on completion of a development, is intended incentivise local authorities to deliver enabling infrastructure, in turn helping to ensure development can be completed faster.

Enforcement

- 3.38 As part of the implementation of our planning reforms, Government want to see local planning authorities place more emphasis on the enforcement of planning standards and decisions. Government will also seek to strengthen enforcement powers and sanctions.

4 PROPOSED ACTION

- 4.1 To respond to the questions outlined in both consultations documents having regard to the summary of the changes contained in this report. The draft responses are attached in appendices 1 and 2.

5 OTHER OPTIONS

- 5.1 There is no requirement to respond to these consultations and so Members could choose to not comment.

6 ISSUES AND RISKS

- 6.1 It is acknowledged that the changes proposed in this consultation will radically alter the planning regime and shape our area but as this is only a consultation at this stage the final changes are not known at this time. Consequently, it is not possible to identify any key risks. However, as referred to above Members are advised that the proposals will require the current GNLP process to be accelerated or alternatively, if sufficient progress is not made by the end of this year, the current process will cease and work will start on preparing for a local plan under the new regime.

6.2 Resource Implications

When the changes are implemented they will have an impact on resources. It is likely that greater resource would be focused on the plan making process, design codes and masterplanning and Government anticipate that this would relieve some of the current resource pressures on development management. Government also envisage greater resource being directed at planning enforcement.

Although the details of the new regime are yet to be developed the fact that outline planning permission would be automatically granted in Growth areas could lead to a significant drop in planning application fees.

6.3 Legal implications

None directly

- 6.4 **Equality Implications** - an Equalities and Communities Impact Assessment is not required at this time.

6.5 Environmental Impact

There are none directly to consider as part of the consultation process.

6.6 **Crime and Disorder**

There are none directly to consider as part of the consultation process

6.7 **Risks**

There are none directly to consider as part of the consultation process

7 **CONCLUSION**

- 7.1 To note and to agree the direction of travel as outlined in the two papers and this report and to respond to the consultation questions as outlined in appendices 1 and 2.

8 **RECOMMENDATIONS**

- 8.1 Cabinet is asked to:

1. Agree the draft responses to the following MHCLG consultation documents as outlined in appendices 1 and 2 of this report:

Changes to the current planning system

White Paper: Planning for the future

2. Delegate any updates to these responses to the Director of Place in consultation with the Leader and Portfolio Holder for Stronger Economy

Appendices

Appendix 1: Planning for the Future consultation response

Appendix 2: Changes to the current planning system consultation response

Background Papers

[MHCLG Planning for the Future White Paper August 2020](#)

[Changes to the current planning system August 2020](#)

APPENDIX 1

Proposed responses to the questions outlined in the MHCLG White Paper: Planning for the Future

1. What three words do you associate most with the planning system in England?

2(a). Do you get involved with planning decisions in your local area?

Yes

2(b). If no, why not?

N/A (we are a local planning authority)

3. Our proposals will make it much easier to access plans and contribute your views to planning decisions. How would you like to find out about plans and planning proposals in the future?

Whilst this question is not directly relevant to this Council because it is the local planning authority, the Government's intention to make it easier to access plans and contribute to planning decisions is fully supported.

It should be noted that whilst improved online access is crucial it is essential that non electronic means of engagement are available for those who do not have access to IT.

4. What are your top three priorities for planning in your local area? (select from the following list)

- **Building homes for young people**
- **Building homes for the homeless**
- **Protection of green spaces**
- **The environment, biodiversity and action on climate change**
- **Increasing the affordability of housing**
- **The design of new homes and places**
- **Supporting the high street**
- **Supporting the local economy**
- **More or better local infrastructure**
- **Protection of existing heritage buildings or areas**
- **Other – please specify**

Suggested response:

1. Supporting the local economy and jobs to ensure we have a strong, enterprising, productive and broad-based economy
2. Building new homes ensuring we have high quality new homes to meet the growing and changing needs of current and future residents. To ensure we have timely delivery to meet our housing needs we need to ensure the timely delivery of infrastructure to support growing communities.

3. Unlocking the substantial commitment and deliver new dwellings already granted consent

5. Do you agree that Local Plans should be simplified in line with our proposals?

Suggested response:

Yes, we agree that local plans need to be simplified, and this should not be at the expense of democratic engagement and ensuring that local planning authorities have the resources to deliver plans in a timely manner.

To develop the 3 areas will require significant analysis as part of the plan making process and community engagement.

We are concerned that frontloading the local plan process, which we welcome, will put additional pressure on statutory consultees who will need to engage in this process. At present many struggle to comment within the statutory timescales for planning applications. We question whether nationally there are the resources available to engage with most local planning authorities at the same time.

Expertise and resources will be needed for local planning authorities to undertake character appraisals for a whole district to inform design codes. It will take time to develop these and articulate them in the plan for the three areas and to then digitise this.

There is a concern that allocations will be based on less evidence.

It will take time to establish new IT systems and data sets to be able publish documents and consult on the allocations.

Clarification will be needed as to whether neighbourhood plans will need to be prepared in the same way and will reflect the details in the local plan. If they are not updated alongside the new local plan, to similar design standards, then they will soon be out of date. This has the potential to create conflict in the decision-making process which Government is seeking to simplify.

Director of Place comment: The need to simplify Local Plans is evident to anyone who has a basic understanding of the planning system. The principle of identifying land in one of 3 different areas - growth, renewal or protected - is sound. Furthermore, the need for comprehensive and constructive local engagement, especially with Parish and Town Councils, will be crucial to the success of the new, simplified plans and significant resource will need to be directed to such engagement at the outset of the new plan making process. The issues raised in the suggested response above are legitimate concerns which will need to be addressed in the details of the new regime. Members are also advised that the concerns regarding the time required to adequately prepare for adopting a plan under the new regime are reasonable concerns but there is nothing to stop the local planning authority commencing these preparations prior to the new regime being implemented. This could potentially put the Council on the 'front foot' and be at the vanguard of the new regime.

6. Do you agree with our proposals for streamlining the development management content of Local Plans, and setting out general development management policies nationally?

Suggested response:

The principle of having generic policies to cover the majority of subject areas (e.g. neighbour amenity, highway safety, heritage setting, landscape character) is supported but consideration needs to be given to how local characteristics or specific requirements to address local constraints are addressed in a national policy framework.

Neighbourhood plans would also need to be simplified accordingly.

7(a). Do you agree with our proposals to replace existing legal and policy tests for Local Plans with a consolidated test of “sustainable development”, which would include consideration of environmental impact?

Suggested response:

There is insufficient information at present to answer this in detail as it is not clear how environmental protection will be secured. It may be difficult to front load any mitigation without assessing and knowing the environmental impacts of the plan.

It is hoped that there will be a statutory duty for national consultees to be involved at this stage. Again, we have concerns that there will be adequate resources and skills available at a national level.

Consideration needs to be given to how Appropriate Assessments are to be carried out as part of the new regime.

Director of Place comment: the current legal and policy tests for Local Plans are onerous and they slow the current plan making process down. They result in substantial amounts of additional information and it is questionable whether this information adds significant value to the final, adopted plan. Full consideration of the environmental impact is very important and the concerns raised above will need to be addressed by Government, but this must be constantly balanced with the other strands of sustainable development, notably the economic and social impacts.

7(b). How could strategic, cross-boundary issues be best planned for in the absence of a formal Duty to Cooperate?

Suggested response:

This Council is a partner in the Greater Norwich Development Partnership (GNDP). This has been a highly successful partnership and has been seen as an exemplar of joint working for planning and the delivery of growth for many years. Whilst it is recognised that the formal Duty to Cooperate has created many challenges for local authorities across the country it is important to acknowledge that planning issues are not restricted to local authority boundaries and communities are likely to adversely impacted by a lack of ‘joined up’ planning. Therefore local authorities should be incentivised to work together and plan together to deliver growth across wider geographical areas.

In addition informal relationships already exist in Norfolk, with the Norfolk Strategic Planning Framework made up of all 7 LPAs in Norfolk which seeks to encourage cross boundary planning. This sort of informal relationship should also be encouraged and incentivised.

To rely on the new digital local plan to inform cross boundary issues will take time to develop. Will the Government be setting up a national IT platform?

8(a). Do you agree that a standard method for establishing housing requirements (that takes into account constraints) should be introduced?

Suggested response:

Yes. To support the development of quick local plans a simpler methodology has to be implemented.

However, the numbers arising from a standard methodology must be realistic and deliverable. At present the figures arising from the proposed standard methodology for this Council are not deliverable.

We will also need a mechanism to plan for affordable housing needs and the needs of different groups and ensure that these are delivered to meet the requirements of all future residents.

8(b). Do you agree that affordability and the extent of existing urban areas are appropriate indicators of the quantity of development to be accommodated?

Suggested response:

Yes. However, there is a need to take account of capacity to deliver growth in these areas and ensure that some local authorities are not required to deliver less houses than they have in the past.

Furthermore, these indicators should not be used in a manner that precludes rural areas and there needs to be a balance with sustaining rural settlements by allowing development

9(a). Do you agree that there should be automatic permission for areas for substantial development (Growth areas) with faster routes for detailed consent?

Suggested response:

Yes. To ensure this is implemented effectively resources will need to be available at the plan making stage to ensure that sites are capable of being delivered.

Currently site allocation is effectively an outline permission. There is also a need to fully understand how developer contributions are going to be secured and how will the loss of planning application fee income be mitigated?

The confidence of existing communities in the proposed regime will very much depend on the engagement process during plan making and the level of detail that can be agreed at the “reserved matters” stage.

Notwithstanding the support for faster routes for detailed consent the benefits of this proposal will be undermined if delivery is subsequently stalled by landowners and/or developers. Therefore there needs to be stronger incentives or sanctions for landowners and/or developers who fail to deliver the development in an expedient manner. For example the Council could be entitled to step in to secure the land at pre-allocation land values and deliver the site itself.

Director of Place comment: This proposal gives greater certainty to developers and communities about future growth in an identified area of growth. However, it is crucial that local communities, parish and town councils and other stakeholders are fully engaged in the new plan making process and that we direct adequate resources at this front end engagement. It will also require us to direct significant resources at ensuring high quality design codes and masterplans at the front end of the process.

9(b). Do you agree with our proposals above for the consent arrangements for Renewal and Protected areas?

Suggested response:

Yes.

9(c). Do you think there is a case for allowing new settlements to be brought forward under the Nationally Significant Infrastructure Projects regime?

Suggested response:

Yes, where promoted and supported by the local planning authority. Comprehensive and clear scale parameters would be required.

However, there is also an opportunity to plan for these through the new local plan process.

Director of Place comment: it is anticipated that the new housing numbers in Greater Norwich will increase under the new regime and in order to meet this need the Greater Norwich Partners will have to give serious consideration to identifying a site for a new settlement. However, a new settlement generates very high upfront infrastructure costs and there is a clear argument that if this area is going to plan for, and deliver, a new settlement then it should be backed and supported by Government to help deliver it.

10. Do you agree with our proposals to make decision-making faster and more certain?

Suggested response:

Yes. Proposals for speeding up the process and greater certainty for applicants are welcomed. However, as stated in the response to 9(a) there needs to be greater certainty of speedy delivery by landowners and developers. At present South Norfolk has extant planning permission for 7,494 homes and there needs to be greater pressure placed upon the whole development sector to bring these permissions forward to delivery.

Consideration must be given to the resource implications required to set up systems and for this to be available and implemented by all local planning authorities.

The potential lack of public engagement at the application stage is also a concern.

11. Do you agree with our proposals for digitised, web-based Local Plans?

Suggested response:

Yes, but consideration will still need to be given for other platforms as not all members of the public have access to IT

Resources and funding will be needed to facilitate this.

12. Do you agree with our proposals for a 30-month statutory timescale for the production of Local Plans?

Suggested response:

Yes. We support the principle of speeding up the plan making process.

13(a). Do you agree that Neighbourhood Plans should be retained in the reformed planning system?

Suggested response:

Yes. Reviews will need to run in parallel to the new Local Plan

It should be noted that there are concerns regarding the requirement for web-based data and the affordability of this for parish and town councils.

13(b). How can the neighbourhood planning process be developed to meet our objectives, such as in the use of digital tools and reflecting community preferences about design?

Suggested response:

Additional funding will be required to support the neighbourhood planning process.

14. Do you agree there should be a stronger emphasis on the build out of developments? And if so, what further measures would you support?

Suggested response:

Yes, there should be a stronger emphasis on delivery.

The cost and delivery of infrastructure is an issue and the funding of this should be front loaded to enable quick build outs.

Anything arising from the new planning regime which increases the risk to developers is likely to result in lower delivery rates

15. What do you think about the design of new development that has happened recently in your area?

Not sure or indifferent / Beautiful and/or well-designed / Ugly and/ or poorly-designed / There hasn't been any / Other – please specify

Suggested response:

A high proportion of development in this Council's jurisdiction is well designed and appropriate for its context. However, there are pockets of mediocre development and this tends to be where national housebuilders build at scale in a manner that is less imaginative.

There is also a growing tendency for developers to reduce their own development costs and pass these costs onto future occupiers. Examples include a larger proportion of homes being accessed via private, unadopted roads and open/play space funded by resident funded management companies. This can lead to a gradual, long term erosion of the quality of these areas.

16. Sustainability is at the heart of our proposals. What is your priority for sustainability in your area?

Less reliance on cars / More green and open spaces / Energy efficiency of new buildings / More trees / Other – please specify

Suggested response:

Social sustainability and social mobility – maintaining the vitality and viability of our communities and enhancing the opportunities for all residents to prosper

17. Do you agree with our proposals for improving the production and use of design guides and codes?

Suggested response:

A national design guide is likely to be very generic and will not reflect local characteristics or distinctiveness, plus there will be a need to undertake further local guides. Reliance on national codes will not address local distinctiveness and it could result in national housebuilders developing the same style of houses throughout the country.

It is therefore likely that further guides to reflect the local characteristics of different areas within the district will be required.

Local authorities will need time to get all of this in place to an adequate standard and to ensure that there is effective input from the local community.

18. Do you agree that we should establish a new body to support design coding and building better places, and that each authority should have a chief officer for design and place-making?

Suggested response:

Yes. However, any new body must have a clear remit and responsibility which does not duplicate other bodies.

19. Do you agree with our proposal to consider how design might be given greater emphasis in the strategic objectives for Homes England?

Suggested response:

Yes

20. Do you agree with our proposals for implementing a fast-track for beauty?

Suggested response:

No. See above comments regarding concerns about design codes. Beauty and design are very subjective and could be interpreted in more than one way and therefore it is extremely difficult to pre-empt and fast track schemes that are deemed beautiful. Beauty is more than a tick box exercise and is unlikely to be achieved by such a fast track scheme.

21. When new development happens in your area, what is your priority for what comes with it?

More affordable housing / More or better infrastructure (such as transport, schools, health provision) / Design of new buildings / More shops and/or employment space / Green space / Other – please specify

Suggested response:

The health and wellbeing of new and existing residents delivered through community integration, affordability, infrastructure (including 'green') and access to services.

22(a). Should the Government replace the Community Infrastructure Levy and Section 106 planning obligations with a new consolidated Infrastructure Levy, which is charged as a fixed proportion of development value above a set threshold?

Suggested response:

Yes. This proposal will be clearer for developers and assist SMEs

22(b). Should the Infrastructure Levy rates be set nationally at a single rate, set nationally at an area-specific rate, or set locally?

Suggested response:

Nationally at an area-specific rate

22(c). Should the Infrastructure Levy aim to capture the same amount of value overall, or more value, to support greater investment in infrastructure, affordable housing and local communities?

Suggested response:

The value should be at least comparable to current CIL to ensure continuity of existing infrastructure investment programmes.

It will be important to have clear guidance on how a new IL relates to existing committed CIL spending. There may need to be some form of ring fencing of existing CIL commitments as there is a danger that existing CIL payments will be converted into the IL with the submission of a new planning application? This would have a very damaging impact upon our existing infrastructure delivery programme and our repayment of borrowing for existing infrastructure projects.

22(d). Should we allow local authorities to borrow against the Infrastructure Levy, to support infrastructure delivery in their area?

Suggested response:

Yes

23. Do you agree that the scope of the reformed Infrastructure Levy should capture changes of use through permitted development rights?

Suggested response:

Yes. In addition existing exemptions such as self-build and self-commissioned homes should be removed.

24(a). Do you agree that we should aim to secure at least the same amount of affordable housing under the Infrastructure Levy, and as much on-site affordable provision, as at present?

Suggested response:

Yes

24(b). Should affordable housing be secured as in-kind payment towards the Infrastructure Levy, or as a 'right to purchase' at discounted rates for local authorities?

Suggested response:

We strongly support the principle of mandatory on-site delivery of affordable housing. It is accepted that treating it as in-kind delivery of the Infrastructure Levy is reasonable. We note that footnote 16 confirms that a S106 planning obligation could still be used, and we also support this approach, with which housebuilders are already familiar.

On-site delivery has proved to be achievable for many years, and it has the advantage of 'instant' provision. We are aware that in some places it can be very difficult to acquire suitable sites and to spend commuted sums (or the future Infrastructure Levy) in a timely cost-effective way.

24(c). If an in-kind delivery approach is taken, should we mitigate against local authority overpayment risk?

Suggested response:

Yes

24(d). If an in-kind delivery approach is taken, are there additional steps that would need to be taken to support affordable housing quality?

Suggested response:

All housing should follow the same design code and 'internal standards' principles. If such internal standards are not to be required in all homes, it would be important to ensure quality (especially internal space standards and the potential for suitability for wheelchair-users).

25. Should local authorities have fewer restrictions over how they spend the Infrastructure Levy?

Suggested response:

Yes. A limited relaxation of the restrictions would be welcomed but it should not undermine the need to deliver infrastructure to support growth. The current restriction for parish and town councils' spend of CIL receipts may be appropriate: "anything that is concerned with addressing the demands that development places on an area"

25(a). If yes, should an affordable housing 'ring-fence' be developed?

Suggested response:

Yes

26. Do you have any views on the potential impact of the proposals raised in this consultation on people with protected characteristics as defined in section 149 of the Equality Act 2010?

Suggested response:

While digitalisation of the planning process seems appropriate it is important that steps are taken to ensure that those who would not or cannot access adequate broadband, for example some older people, people on low incomes and those living in rural areas, have a fair method of accessing the process.

In relation to the national design code consideration should also be given to improving accessibility standards in housing. People with physical disabilities will not be able to obtain a suitable home if internal design standards for accessibility/mobility are not specified. Design requirements linked to Part M of the Building Regulations (Category 2 and Category 3) would overcome this problem.

Appendix 2

Proposed responses to the questions outlined in the MHCLG consultation: Changes to the current planning system

Q1: Do you agree that planning practice guidance should be amended to specify that the appropriate baseline for the standard method is *whichever is the higher of* the level of 0.5% of housing stock in each local authority area OR the latest household projections averaged over a 10-year period?

Suggested response:

Yes. It is important that the methodology ensures that built up areas deliver an appropriate amount of housing and taking account of existing housing stock could assist with this.

Q2: In the stock element of the baseline, do you agree that 0.5% of existing stock for the standard method is appropriate? If not, please explain why.

Suggested response:

It is appropriate that the percentage applied ensures that built up areas continue to deliver at their historic rates as a minimum.

Q3: Do you agree that using the workplace-based median house price to median earnings ratio from the most recent year for which data is available to adjust the standard method's baseline is appropriate? If not, please explain why.

Suggested response:

Yes

Q4: Do you agree that incorporating an adjustment for the change of affordability over 10 years is a positive way to look at whether affordability has improved? If not, please explain why.

Suggested response:

It makes sense to take account of the cost of housing and apply this as an adjustment to the housing figures, but there is a need to ensure it doesn't place too great a burden on an area which may make delivery of the housing figures unrealistic.

Q5: Do you agree that affordability is given an appropriate weighting within the standard method? If not, please explain why.

Suggested response:

The weighting is not necessarily a problem in isolation, but when the measures in Q3 and Q4 above are multiplied it is evident that the burden upon a local area is potentially unreasonable and unrealistic.

Do you agree that authorities should be planning having regard to their revised standard method need figure, from the publication date of the revised guidance, with the exception of:

Q6: Authorities which are already at the second stage of the strategic plan consultation process (Regulation 19), which should be given 6 months to submit their plan to the Planning Inspectorate for examination?

Suggested response:

Yes. However, if the above concerns regarding unreasonable housing numbers are not addressed under the new regime longer transition periods should be applied to avoid a significant number of developers making predatory applications in light of much higher housing numbers. This is even more important if any form of housing delivery test and 5 year land supply is to be retained.

Q7: Authorities close to publishing their second stage consultation (Regulation 19), which should be given 3 months from the publication date of the revised guidance to publish their Regulation 19 plan, and a further 6 months to submit their plan to the Planning Inspectorate?

If not, please explain why. Are there particular circumstances which need to be catered for?

Suggested response:

Yes

Q8: The Government is proposing policy compliant planning applications will deliver a minimum of 25% of onsite affordable housing as First Homes, and a minimum of 25% of offsite contributions towards First Homes where appropriate. Which do you think is the most appropriate option for the remaining 75% of affordable housing secured through developer contributions? Please provide reasons and / or evidence for your views (if possible):

i) Prioritising the replacement of affordable home ownership tenures and delivering rental tenures in the ratio set out in the local plan policy.

ii) Negotiation between a local authority and developer.

iii) Other (please specify)

Suggested response:

Option i.

Local Planning Authorities have Housing Needs Assessments which provide evidence of affordable housing need by tenure, number of bedrooms and property type. This evidence should be used (as now) to achieve affordable homes for people who cannot benefit from First Homes. We are content that, having top-sliced the 25% affordable home ownership obligation, option (i) enables the Council to deliver affordable homes for rent and other affordable ownership tenures. This is extremely important in areas such as Broadland and South Norfolk, where about 90% of general needs affordable homes are delivered through s106 agreements, and there is unmet housing need.

With regards to current exemptions from delivery of affordable home ownership products:

Q9: Should the existing exemptions from the requirement for affordable home ownership products (e.g. for build to rent) also apply to this First Homes requirement?

Suggested response:

Paragraph 62 of the NPPF provides 4 exemptions from the requirement to include affordable home ownership. These are where the site

- a) provides solely for Build to Rent homes;
- b) provides specialist accommodation for a group of people with specific needs (such as purpose-built accommodation for the elderly or students);
- c) is proposed to be developed by people who wish to build or commission their own homes; or
- d) is exclusively for affordable housing, an entry-level exception site or a rural exception site.

Build to Rent (a) can deliver Affordable Private Rent. This is a new tenure, and on balance we feel that such sites should remain exempt so that the potential benefits can be established in practice.

Specialist accommodation (b) should remain exempt so that the accommodation can be directed towards the designated groups without potential adverse influences.

Custom build sites (c) should also remain exempt to provide flexibility over affordable housing obligations (although we note that there are likely to be few such sites which exceed the proposed small sites threshold).

Sites exclusively for affordable housing (d) should remain exempt. It is important that Registered Providers and local authorities have the necessary flexibility to provide affordable homes which meet local needs, and they can take advantage of funding opportunities from Homes England and other sources (such as commuted sums). We note that the reference to entry-level exception sites will be superseded by the new First Homes exception sites.

Q10: Are any existing exemptions not required? If not, please set out which exemptions and why.

Suggested response:

No. See Q9 above.

Q11: Are any other exemptions needed? If so, please provide reasons and /or evidence for your views.

Suggested response:

We suggest exempting community-led developments (generally via Community Land Trusts), which might not be 100% affordable housing.

Q12: Do you agree with the proposed approach to transitional arrangements?

Suggested response:

Yes.

Q13: Do you agree with the proposed approach to different levels of discount?

Suggested response:

Yes. We agree that evidence justifying discounts of 40% or 50% should be via the local plan, and that any such increased discounts should not be offset by fewer First Homes.

Q14: Do you agree with the approach of allowing a small proportion of market housing on First Homes exception sites, in order to ensure site viability?

Suggested response:

Yes, but 'small proportion' must be defined to provide certainty. We suggest setting a maximum percentage of total dwellings.

We believe that a range of percentages will be necessary to take account of variations in land values and build costs

Q15: Do you agree with the removal of the site size threshold set out in the National Planning Policy Framework?

Suggested response:

No. We have concerns that a site size based only on being proportionate in size to the existing settlement cannot be applied reasonably to a village with 100 dwellings and a large market town with 10,000 dwellings. In particular, we have concerns that a 'proportionate' site adjacent to a large market town could generate large developments on unallocated sites without generating CIL to deliver the necessary infrastructure. Consequently, we wish the current maximum site area of one hectare to be retained.

The current definition (... or exceed 5% of the size of the existing settlement) is unclear, and it is therefore inadequate. The criterion by which 'proportionate in size to the existing settlement' is to be assessed must be unambiguous and quantified. We suggest using the number of dwellings as the criterion.

The current arrangement of proportionality linked to a 1 ha. cap has the potential to work well:

- In smaller settlements, the 5% proportion provides a reasonable limit so that the settlement is not overwhelmed by a single, disproportionate development.
- For larger settlements, a 1 ha. limit prevents substantial developments which would not contribute the necessary infrastructure provision.

Therefore, we wish the 1 ha. cap to be retained.

We have concerns that First Homes exception sites could lead to an over-supply of the tenure. The knock-on effect could be to slow the development of allocated sites which are relying on cash-flow from First Homes. Therefore, we urge MHCLG to consider limiting exception sites in locations which already have a good supply of planning permissions for First Homes.

If this is pursued, then 'proportionate' would need to be defined.

Q16: Do you agree that the First Homes exception sites policy should not apply in designated rural areas?

Suggested response:

Yes, we accept that the proposal is a viable way forward. Designated rural areas were not created for planning purposes and provide a somewhat crude and inconsistent basis for planning policy. Ideally, there would be a comprehensive review of 'rural' designations, but we accept that such an exercise is not possible in time to affect current proposals.

Q17: Do you agree with the proposed approach to raise the small sites threshold for a time-limited period?

(see question 18 for comments on level of threshold)

Suggested response:

No. It is our experience that small sites deliver a significant number of new affordable homes and at present there is no significant evidence to demonstrate that the overall delivery of small sites has slowed as a result of Covid 19. Raising the threshold will potentially cause confusion, slow delivery as developers re-apply for permission under the temporary arrangements and benefit the landowner rather than the SME/developer. It will also lead to a loss of new affordable housing. Therefore SMEs should be assisted in other ways rather than lifting the threshold.

Q18: What is the appropriate level of small sites threshold?

i) Up to 40 homes

ii) Up to 50 homes

iii) Other (please specify)

Suggested response:

The existing threshold of 10 should be retained.

Q19: Do you agree with the proposed approach to the site size threshold?

Suggested response:

No

Q20: Do you agree with linking the time-limited period to economic recovery and raising the threshold for an initial period of 18 months?

Suggested response:

See response to Q17

Q21: Do you agree with the proposed approach to minimising threshold effects?

Suggested response:

Yes

Q22: Do you agree with the Government's proposed approach to setting thresholds in rural areas?

Suggested response:

Yes

Q23: Are there any other ways in which the Government can support SME builders to deliver new homes during the economic recovery period?

Suggested response:

Homes England should use SMEs as partners to assist delivery

Q24: Do you agree that the new Permission in Principle should remove the restriction on major development?

Suggested response:

Yes

Q25: Should the new Permission in Principle for major development set any limit on the amount of commercial development (providing housing still occupies the majority of the floorspace of the overall scheme)? Please provide any comments in support of your views.

Suggested response:

No.

Q26: Do you agree with our proposal that information requirements for Permission in Principle by application for major development should broadly remain unchanged? If you disagree, what changes would you suggest and why?

Suggested response:

Yes

Q27: Should there be an additional height parameter for Permission in Principle? Please provide comments in support of your views.

Suggested response:

Yes. Such a parameter will help control the impact of taller development proposals.

Q28: Do you agree that publicity arrangements for Permission in Principle by application should be extended for large developments? If so, should local planning authorities be:

- i) required to publish a notice in a local newspaper?
- ii) subject to a general requirement to publicise the application or
- iii) both?
- iv) disagree

If you disagree, please state your reasons.

Suggested response:

Local planning authorities should be subject to a general requirement to publicise the application but there should be no requirement to publish a notice in the local newspaper.

Q29: Do you agree with our proposal for a banded fee structure based on a flat fee per hectare, with a maximum fee cap?

Suggested response:

Yes, but it shouldn't be less than the current outline fee.

Q30: What level of flat fee do you consider appropriate, and why?

Suggested response:

As referred to above it shouldn't be less than the current outline fee.

Q31: Do you agree that any brownfield site that is granted Permission in Principle through the application process should be included in Part 2 of the Brownfield Land Register? If you disagree, please state why.

Suggested response:

Yes

Q32: What guidance would help support applicants and local planning authorities to make decisions about Permission in Principle? Where possible, please set out any areas of guidance you consider are currently lacking and would assist stakeholders.

Suggested response:

There is very little guidance on what, in decision-making terms, "location" is concerned with (the scope of permission in principle being limited to location, land use and amount).

Q33: What costs and benefits do you envisage the proposed scheme would cause? Where you have identified drawbacks, how might these be overcome?

Suggested response:

The text in the consultation document implies that the proposed measure will require applicants to "establish upfront, and at minimal cost, whether sites are suitable for residential development." However, if a reliable and cost-effective pre-application service is provided by a local authority the same information should be available to prospective applicants.

Q34: To what extent do you consider landowners and developers are likely to use the proposed measure? Please provide evidence where possible.

Suggested response:

There has been limited uptake of the current PiP regime to date and therefore it remains unclear whether a significant number of landowners and developers will use the proposed measures.

Q35: In light of the proposals set out in this consultation, are there any direct or indirect impacts in terms of eliminating unlawful discrimination, advancing equality of opportunity and fostering good relations on people who share characteristics protected under the Public Sector Equality Duty?

If so, please specify the proposal and explain the impact. If there is an impact – are there any actions which the department could take to mitigate that impact?

Suggested response:

The dominance of First Homes will lead to a reduction in the availability of other affordable home ownership tenures, especially shared ownership. This includes anyone who might achieve ownership through a tenure requiring less savings:

- People with physical disabilities, whose design requirements are likely to make a First Home too expensive.
- People with learning disabilities, whose incomes tend to be lower than suffices to buy a First Home.
- Older people, whose savings and pensions tend to be lower than suffices to buy a First Home.
- Young people, who have to wait until their income suffices to buy a First Home.

Devolution and Local Government Reorganisation

Report Author(s): Trevor Holden
Managing Director
mdtobdcandsnc@s-norfolk.gov.uk

Portfolio: External Affairs and Policy

Ward(s) Affected: All

Purpose of the Report:

The Government has announced its intention to publish a Recovery and Devolution White Paper in the autumn, setting out its plans for the devolution of powers alongside its intentions to increase the number of unitary and combined authorities and elected Mayors. This report provides an overview of the current context and developments and potential next steps for South Norfolk.

Recommendations:

1. Council to note the current developments for devolution and local government reorganisation nationally.
2. Subject to the issue of the white paper or demonstrable intent by Central Government to progress Local Government Reorganisation; to endorse the use of officer time and resource within current budgets, where appropriate and with agreement by the Leader of the Council, in order to undertake preparatory work to ensure the council's readiness to respond appropriately to the Recovery and Devolution white paper which is anticipated to be published in the autumn.

1 SUMMARY

- 1.1 This report provides information on the current context for local government reorganisation and devolution nationally in anticipation of the publication of the Government's Recovery and Devolution White Paper.
- 1.2 The Government has announced over the past few months its intention to publish the White Paper in the autumn, which will set out its plans for the devolution of powers, freedoms and flexibilities alongside intentions to increase the number of unitary and combined authorities and elected Mayors.

2 BACKGROUND

- 2.1 Although there are separate processes for devolution and local government reorganisation, the two agendas are linked and provide different impacts and opportunities for councils and local areas.

Devolution:

- 2.2 Devolution is the transfer of power from Central Government to national, sub regional and local governments. The term is also be used to describe transfer of powers from Local Government to Town and Parish Councils.
- 2.3 English Devolution has usually taken the form of “devolution deals” where government agrees to devolve funding and powers to a Combined Authority (CA). Government preference has been that CAs are headed by a directly elected mayor under a Mayoral Combined Authority (MCA). Devolution deals tend to focus on boosting the local economic growth, with a focus on housing, skills, transport, planning and investment to stimulate economic growth.
- 2.4 In the last round of devolution deals, Norfolk worked with Suffolk, Cambridgeshire, Peterborough and the New Anglia LEP to consider an East Anglia devolution deal. Several councils rejected the proposals, so in 2016, work started on the development of separate deals that would create two Combined Authorities chaired by elected mayors – one for Norfolk and Suffolk and one for Cambridgeshire and Peterborough.
- 2.5 In essence the ‘deal’, coupled with an elected Mayor, proposed additional powers to direct other parts of the public sector, additional flexibilities over housing and passenger transport and was supported by guaranteed funding of £30m per year for 30 years with the powers to leverage that cashflow into borrowing to invest in infrastructure up front. The Norfolk and Suffolk proposals would have secured significant additional funding and powers to support economic growth, employment, health, infrastructure, housing, skills, flood and coastal management.

- 2.6 Cambridgeshire and Peterborough negotiated a deal giving them greater control over transport, skills, business support and other areas. Government published the agreed deal in March 2017.
- 2.7 A significant amount of work was invested in negotiating a Norfolk and Suffolk deal which, at the time would have been one of the most significant deals in England. The deal was withdrawn in 2016 as it was not supported by every local council, a condition at that time for the deal to go ahead. The requirement for an elected Mayor proved to be a major obstacle. The law requires complete unanimity from Councils who must all assent to the creation of a combined authority. Without unanimity, proposals fail and the deal falls away. These provisions are contained in the *Local Government and Public Involvement in Health Act 2007*, with some of its provisions modified by the *Cities and Local Government Devolution Act 2016*.
- 2.8 The Government has indicated to presentations to the Local Government Association in early July and in Norfolk during a Ministerial Briefing later in the month that it considers Devolution to be a central plank of their economic and recovery strategy. In these briefings it was recognised that in some areas getting unanimous support of all authorities may be difficult and that a second approach is considered.
- 2.9 That second approach involves undertaking a structural reorganisation of local Government in an area. As will be discussed below, the statutory test is lower. The Secretary of State, following consultation, needs to be satisfied that a 'broad cross section of support' exists from 'stakeholders'. This is a materially lower bar to change and the establishment of the Mayoral Combined Authorities set out in the government's Manifesto to deliver.

Local Government Reorganisation (LGR)

- 2.10 Currently, Norfolk is a two-tier area, meaning that it has a County Council and seven District/Borough councils. The respective authorities deliver different services.

- 2.11 Under Local Government reorganisation the government has set out that any proposal to change the existing structures should:

- a. Improve local governance arrangements and service delivery in an area
- b. Have a good deal of local support across the area
- c. Represent a credible geography for each new Unitary Authority

These provisions were set out by the then Secretary of State, James Brokenshire, in a written statement on 22 July 2019 which set out the criteria used by the Government to assess requests for restructuring.

- 2.12 LGR in Norfolk would result in a reduction from the current eight Local Authorities, into a smaller number of larger councils who deliver the full range of local services for the area. It is anticipated that Government will outline the detailed requirements for Devolution and LGR in the White Paper, however, it is widely trailed to include:

- a. Roadmap for devolution and the establishment of about 30 mayors across England.
- b. Confirm Government's intention to link devolution deals with the establishment of new unitary councils, with local government reform being a prerequisite for any devolution deal.
- c. Outline a strong preference for Mayoral Combined Authorities. The Government has signalled that future Devolution money will be taken from the Shared Prosperity Fund and prioritised to areas with an Elected Mayor. Press reports have characterised this as 'No Mayor, No Money'.
- d. Optimal population figures for any new authority in a range of 300,000 – 400,000 or 400,000 to 500,000 with a hard upper boundary of 600,000 residents.
- e. That any proposal would need to use existing council boundaries as the building blocks for any new authority with very limited exceptions for which a strong case would need to be made for the Secretary of State to agree a 'modification'.
- f. Unlike a devolution deal it is anticipated that local government reform will not require the support of each affected authority but will be required to demonstrate "wide support" for any new model
- g. That the MHCLG can only sponsor a finite number of deals at any one time and a series of 'waves' is anticipated. It is not clear whether Norfolk would be considered in a first, second or even third wave. Nor is it clear what 'first mover advantage' might entail until the White Paper is published.

National examples of devolution and local government reform

- 2.13 Nationally ten devolution deals have been secured so far – nine of these for Mayoral Combined Authorities (Greater Manchester, Sheffield City Region, West Yorkshire, North of Tyne, Tees Valley, West Midlands, Liverpool City Region, Cambridgeshire/Peterborough and West of England) and one for a unitary authority (Cornwall Council) – providing devolved powers for a range of functions including transport, skills, employment, health, land and housing, police, fire and finance.
- 2.14 Local government reorganisation since 2010 has also led to the formation of a number of new unitary authorities (Bournemouth, Christchurch and Poole, Dorset, Buckinghamshire, West Northamptonshire and North Northamptonshire).

National debate

- 2.15 In recent weeks, a number of different aspects to the devolution and local government reform debate have been shared widely.
- 2.16 The County Councils' Network (CCN) through two recent reports, have given particular regard to the creation of up to 30 Mayoral Combined Authorities (MCA)

alongside Local Government Reorganisation, reducing the overall number of Councils in two tier areas through the adoption of larger unitary councils.

- 2.17 The District Councils' Network (DCN) has also set out its position on devolution and reform preferring recovery to reorganisation, outlining districts effective track-record of service delivery and that proposals of large County-scale unitaries would be less local, less agile and less responsive to local need.
- 2.18 In parallel, clarity around the budget and organisation of Adult Social Care, the most significant Local Government Expenditure remains to be outlined.

3 CURRENT POSITION/FINDINGS

- 3.1 As with previous discussion on any devolution deal, there would be much for the Council to consider and it would be prudent to plan for the potential implications of the White Paper, in order to be in the best possible position to achieve the optimal result for our area in terms of powers, funding and outcomes.
- 3.2 Considerations for the future may include:
- What is the level of inward investment offered as part of the deal?
 - What are the devolved powers available as part of the deal?
 - Who would Norfolk wish to join with in any Combined Authority and what powers would be held at this level?
 - If LGR was required, in order to achieve any deal, is the investment worth the reorganisation?
 - What would any subsequent reorganisation look like?
 - What is the right solution for the residents of South Norfolk?
- 3.3 Even as this report was being written the speculation over Devolution and Local Government reorganisation continues, this is a fast moving debate with claims and counter claims as well as speculation from experience, we have learned that devolution and or Local Government Reorganisation will be perceived differently by different organisations and that the agenda may or may not deliver the anticipated change.

4 PROPOSED ACTION

- 4.1 At this stage, in advance of the detail of the White Paper, it is difficult to progress in-depth consideration of the Councils response and position to devolution and LGR.
- 4.2 However, in order to ensure that the Council is well prepared and able to respond to the outcomes of the White Paper, consideration needs to be given as to what this could mean for our area, for our communities and businesses. It is therefore proposed to dedicate officer time and resource to better understand the size of any potential deal and more fully, the potential implications of entering into a devolution

deal and possible LGR. This would allow for the Council to take an informed position following the launch of the anticipated White Paper.

5 ISSUES AND RISKS

- 5.1 **Resource Implications** – The report proposes officer time and resource is utilised to investigating the impacts of the anticipated White Paper.
- 5.2 **Legal Implications** – No implications.
- 5.3 **Equality Implications** – No implications.
- 5.4 **Environmental Impact** – No implications.
- 5.5 **Crime and Disorder** – No implications.
- 5.6 **Risks** – No implications.

6 CONCLUSION

- 6.1 The government Devolution and Recovery white paper due to be published in the autumn is likely to set out significant implications and opportunities for local authorities and local areas.
- 6.2 In order to respond effectively to these agendas, it is proposed the council should undertake preparatory work to ensure it is in the best position to respond to the White Paper but also to seize any opportunities it brings for our area and our communities, working with neighbours as appropriate.

7 RECOMMENDATIONS

- 1. To note the current developments for devolution and local government reorganisation nationally.
- 2. Subject to the issue of the white paper or demonstrable intent by Central Government to progress Local Government Reorganisation; to endorse the use of officer time and resource within current budgets, where appropriate and with agreement by the Leader of the Council, in order to undertake preparatory work to ensure the council's readiness to respond appropriately to the Recovery and Devolution white paper which is anticipated to be published in the autumn.

Appendix – Summary of legislation on local government reorganisation and devolution

The below provides a summary of the key legislation that is related to the creation of devolution deals, combined authorities and forms of local government reorganisation.

Local Government and Public Involvement in Health Act 2007

This act gives effect to¹:

- the Government's proposals for reform of the local government system in England
- the Government's proposals for reform of the arrangements for patient and public involvement in the provision of health and social care services
- a commitment to expand the legislative competence of the National Assembly for Wales in the field of local government

The act comprises of 17 parts as outlined below:².

1. **Structural and boundary change in England** – provides a means for re-organising two-tier local government into a single tier (including financial provisions relating to land disposal, contracts and reserves in local authorities undergoing reorganisation) and for altering boundaries of local government areas
2. **Electoral arrangements** – enables district councils in England in some circumstances to change their scheme for elections where they wish to do so
3. **Executive arrangements for England**
4. **Parishes** – relates to carrying out community governance reviews and parish council styles and additional powers
5. **Co-operation of English authorities with local partners etc** – relates to Local Area Agreements and strengthened powers for overview and scrutiny committees
6. **Byelaws** – simplified procedures for making and enforcing local authority byelaws
7. **Best value**
8. **Local services: inspection and audit**
9. **The Commission for Local Administration in England**
10. **Ethical standards** – conduct of local authority members and employees
11. **Joint waste authorities** – creation of these
12. **Entities controlled etc. by local authorities**
13. **The Valuation Tribunal for England**
14. **Patient and public involvement in health and social care**
15. **Powers for National Assembly of Wales**
16. **Miscellaneous**
17. **Final provisions**

¹ [Local Government and Public Involvement in Health Act 2007, explanatory notes](#)

² [Local Government and Public Involvement in Health Act 2007, explanatory notes](#)

Key points of relevance to devolution and local government reorganisation:

Creating a new unitary authority³: The procedure for this can be found in sections 1-7 of the act. The Secretary of State can ‘invite’ a proposal from a local authority to make a proposal for a county or district, or group of districts, to become unitary. The Local Government Boundary Commission for England (LGBCE) can be, but need not be, asked for advice on any matter related to the proposal. Regulations may be made covering how local authorities should go about preparing their proposal. The Secretary of State may then make an order implementing the proposal, or s/he may reject the proposal. The regulations must be approved by both Houses of Parliament. In practice, such regulations are normally debated in the Lords but not in the Commons. The Government has published guidance indicating the criteria on which it would assess proposals for mergers or restructuring

Local Democracy, Economic Development and Construction Act 2009

The act⁴:

- creates greater opportunities for community and individual involvement in local decision-making
- provides for greater involvement of local authorities in local and regional economic development

Its key provisions include⁵:

- provisions to secure greater involvement of people in the workings and decision-making processes of local public authorities
- provisions to ensure that councils respond to petitions and can consider other matters raised by citizens in their area
- a new duty for local authorities to assess economic conditions
- a joint duty on regional development agencies and local authorities to produce a single regional strategy
- powers for councils to co-operate in promoting economic development
- establishing a new body to represent the interests of housing tenants in England at national level
- new powers for audit authorities to appoint auditors to, and to produce public interest reports on, entities connected with local authorities
- making the Boundary Committee for England a separate body from the Electoral Commission
- improving the operation of construction contracts particularly as regards cash flow and adjudication

It comprises of 9 parts as outlined below:⁶.

³ [Local government in England – structures, House of Commons Library, June 2020](#)

⁴ [UK Parliament](#)

⁵ [UK Parliament](#)

⁶ [Local Democracy, Economic Development and Construction Act 2009, explanatory notes](#)

1. **Democracy and involvement**
2. **Local authorities: governance and audit**
3. **Local government boundary and electoral change**
4. **Local authority economic assessments**
5. **Regional strategy**
6. **Economic Prosperity Boards (EPBs) and combined authorities** – makes provisions for the establishment of EPBs and combined authorities, including provisions on duties for transport and economic development and regeneration functions
7. **Multi-area agreements**
8. **Construction contracts**
9. **Final provisions**

Key points of relevance to devolution and local government reorganisation:

- **Establishing a new combined authority**⁷: A local authority or authorities may carry out a ‘governance review’, which must publish a ‘scheme’ recommending the creation of a combined authority. Publication of the scheme requires the consent of the local authority areas included in the scheme. The Secretary of State may then agree to create a combined authority via secondary legislation. This route has been used by all the combined authorities established to date.

Cities and Local Government Devolution Act 2016

This act provides the legal framework for the implementation of devolution deals with combined authorities and other areas⁸. It comprises of nine parts as outlined below:⁹.

1. **Reports about local devolution** – places a statutory duty on the Secretary of State to provide annual reports to Parliament setting out information about devolution in all areas of England
2. **Mayoral combined authorities** – includes provisions for forming new mayoral combined authorities from groups of authorities or existing combined authorities, the appointment of mayors and deputy mayors, specifying the powers of mayors and setting mayoral combined authority precepts
3. **Combined authorities: additional functions** – enables the making of provisions allowing combined authorities to exercise functions other than economic development, regeneration and transport
4. **Combined authorities: accountability**
5. **Combined authorities and Economic Prosperity Boards (EPBs): areas and procedures** – removes geographical restrictions for establishing EPBs or combined authorities that currently prevent authority areas from being non-contiguous or doughnut-shaped, amends the process required to establish or

change a combined authority, including how to add or remove an area to/from an existing combined authority

6. **Combined and local authorities: governance, constitution, and functions** – allows the making of provisions about local authorities' governance and boundary arrangements, constitution and members, which could be used in devolution deals with areas where it may not be appropriate to establish a combined authority. Arrangements that allow the Secretary of State to use this power without the consent of all relevant local authorities expired on 31 March 2019. This section also covers the transfer of powers between local authorities in an area, including a requirement to continue to fulfil statutory duties regarding the operation of the NHS and health services. It also removes the existing moratorium on petitions for changing governance arrangements in areas that have directly elected mayors, elected under the *Local Government Act 2000*.
7. **Sub-National Transport Bodies (STBs)** – covers their creation
8. **National Park authorities**
9. **Final provisions**

Key points of relevance to devolution and local government reorganisation:

- **Forming a new combined authority¹⁰**: The Secretary of State may decide to establish a combined authority, if the councils in the relevant area consent. The Secretary of State must hold a public consultation, unless one has already been carried out locally and a 'scheme' has been published. The Secretary of State must be satisfied that the establishment of a combined authority is likely to "improve the exercise of statutory functions" in the area in question.
- **Forming a new mayoral combined authority¹¹**: The Secretary of State can make an order following a proposal being made by each county and district council within the area, or by an existing combined authority. An order can also be made without a proposal being made if the appropriate authorities consent, or at least two of the constituent councils and the combined authority consent. In this case, the Secretary of State must change the area of the combined authority by removing nonconsenting constituent councils.
- **Devolution of powers without establishing a combined authority¹²**: The sections on Combined and local authorities: governance, constitution, and functions allow the making of provisions about local authorities' governance and boundary arrangements, constitution and members, which could be used in devolution deals with areas where it may not be appropriate to establish a combined authority. Arrangements that allow the Secretary of State to use this power without the consent of all relevant local authorities expired on 31 March 2019. This section also covers the transfer of powers between local

authorities in an area, including a requirement to continue to fulfil statutory duties regarding the operation of the NHS and health services. It also removes the existing moratorium on petitions for changing governance arrangements in areas that have directly elected mayors, elected under the *Local Government Act 2000*.

- **Boundary change¹³:** Section 15 of the Act gives the Secretary of State general powers to disapply the provisions of the 2007 Act in respect of boundary change. The initial aim was to provide an expedited procedure for creating unitary authorities, and for reviewing ward boundaries and councillor numbers within local authorities or for the review of local authority areas. Where a new combined authority is to be created, this would allow the simultaneous creation of unitary authorities, if this was desired locally. The 2016 Act permitted this disapplication only where the 'relevant authorities' consent – i.e. those which would be directly affected by a proposal. A section of the Act permitting restructuring where only one of the affected authorities consented expired on 31 March 2019.
- **Permission for councils in two-tier areas to join a combined authority¹⁴:** Some district councils have sought to join combined authorities outside their county areas. The 2009 Act gave county councils a veto over district councils doing this. The 2016 Act removed this veto: so a county cannot now be prevented from joining by its district councils, and a district cannot be prevented by its county council. Furthermore, where a district joins a combined authority but a county council does not, the 2016 Act also permits county powers for the district's area to be transferred to the combined authority. However, where a district council wishes to leave a combined authority of which its county council is not a member, both the district and the county council must consent.
- **Permission for combined authority boundaries to include 'exclaves'¹⁵:** The 2009 Act prevented combined authorities including 'exclaves' - i.e. areas that are geographically detached from the main body of the authority. This prohibition was also removed by the 2016 Act.
