## MM1

Ref	Page	Policy/ Paragraph
MM1	95	Para 7.16 and table below

7.16 Pending clarification of the NDR's delivery or otherwise, the existing commitment of 1400 dwellings in the Sprowston Fringe can take place without improvements to Postwick Junction. Subject to acceptable improvements to Postwick junction (in the form of Postwick Hub or a suitable alternative) there is significant potential for further development in the growth triangle before confirmation of the delivery of the NDR. The table below summarises the current understanding of this potential.

Location	Level of growth supported by current evidence	Constrained development
Growth Triangle	At least 1600 dwellings (plus 200 exemplar at Rackheath prior to Postwick junction improvements)	New employment allocation at Rackheath
Smaller sites in Broadland NPA	Delivery of the smaller sites allowance will be dealt with on a site by site basis	
Broadland Business Park	Development of existing allocation and new allocation (approx 18ha incl c50,000m <sup>2</sup> B1)	
Airport area		New employment allocation

*Insert the following text:*

7.16 Pending clarity on Postwick Hub's and the NDR's delivery, the table below summarises the current understanding of development potential offered by the strategic locations in the Broadland NPA as at 2013. The delivery of the smaller sites allowance in the Broadland NPA will be dealt with on a site by site basis as the dependence on Postwick junction and the NDR will vary with location.

Development that can come forward in advance of improvements to Postwick Junction:	
Growth Triangle	1440 committed dwellings in the Sprowston Fringe
Rackheath	200 dwellings on the proposed exemplar development at

	<u>Rackheath (in addition to 94 existing consented dwellings)</u>
<u>Further development that can come forward following improvements to Postwick Junction and in advance of confirmation of delivery of the NDR:</u>	
<u>Growth Triangle</u>	<u>At least 1600 dwellings</u>
<u>Broadland Business Park</u>	<u>Development of existing allocation and new allocation (approx. 18ha including c50,000m2 B1)</u>
<u>Development that cannot come forward until confirmation of delivery of the NDR:</u>	
<u>Growth Triangle</u>	<u>All remaining housing in the Growth Triangle and new employment allocation at Rackheath</u>
<u>Airport Area</u>	<u>New employment allocation</u>

## MM2

Ref	Page	Policy/ Paragraph
MM2	96	New section Paras 7.19-20 and Policies 21 and 22

*Insert new section as follows:*

### **Implementation and delivery within the Broadland part of the Norwich Policy Area**

7.19 Following the adoption of the Joint Core Strategy in March 2011 a court judgment remitted parts of the previously adopted plan for further consideration. This judgment remitted specific elements of the proposals within the Broadland part of the Norwich Policy Area and in particular: a) the Old Catton, Sprowston, Rackheath, Thorpe St Andrew Growth Triangle (including employment growth at Rackheath but excluding employment land at Broadland Business Park and the airport); and b) 2000 homes proposed on smaller sites throughout the Broadland part of the Norwich Policy Area. These proposals were resubmitted for further examination, and policies 21 and 22 were necessary in order to ensure the soundness of this part of the JCS. For the avoidance of doubt, policies 21 and 22 below apply only to the proposals previously remitted by the Court order.

7.20 Between the original adoption of the JCS and consideration of the remitted proposals, key infrastructure items serving the Broadland part of the NPA were not progressed at the rate envisaged in the original JCS. Because of this, and the further scrutiny of the remitted elements of the plan in the light of updated government guidance about the housing land supply and deliverability of the plan proposals, it was considered necessary to strengthen policy with regard to a positive approach to sustainable development, monitoring and housing land supply. Progress regarding delivery of housing land will be rigorously monitored against targets. If monitoring reveals that the Broadland part of the NPA will significantly under deliver in terms of a 5-year housing land supply (plus the "additional buffer" required in national policy), then action will be taken to address this as set out in policy 22.

#### **Policy 21: Implementation of proposals in the Broadland part of the Norwich Policy Area**

When considering development proposals in their part of the Norwich Policy Area Broadland District Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the National Planning Policy Framework. It will always work proactively with applicants jointly to find solutions which mean that proposals can be approved wherever possible, and to secure development that improves the economic, social and

environmental conditions in the area.

Planning applications that accord with the policies in this Local Plan (and, where relevant, with policies in neighbourhood plans) will be approved without delay, unless material considerations indicate otherwise.

Where there are no policies relevant to the application or relevant policies are out of date at the time of making the decision then the Council will grant permission unless material considerations indicate otherwise – taking into account whether:

- Any adverse impacts of granting permission would significantly and demonstrably outweigh the benefits, when assessed against the policies in the National Planning Policy Framework taken as a whole; or
- Specific policies in that Framework indicate that development should be restricted.

#### **Policy 22: Action to ensure the delivery of housing land in the Broadland part of the Norwich Policy Area**

In addition to the JCS review “trigger” set out in paragraph 7.18, if any Monitoring Report (MR) produced after two full years from the adoption of this part-JCS Local Plan demonstrates that there is a significant shortfall (as defined below) in the 5-year supply of housing land (plus the “additional buffer” required in current national policy) affecting the Broadland part of the Norwich Policy Area (NPA), then the Councils will take the course of action specified below to address the identified shortfall.

The Councils will consider that a significant shortfall has arisen if the MR (produced annually) shows there to be less than 90% of the required deliverable housing land (as defined in current national policy).

In the event of an identified shortfall, the Councils will produce a short, focussed Local Plan which will have the objective of identifying and allocating additional locations within the whole NPA area for immediately deliverable housing land to remedy that shortfall, in accordance with the settlement hierarchy set out in paragraph 6.2 of the JCS. The Local Plan will cover such a time period as may reasonably be considered necessary for the delivery delay or shortfall (however caused) to be resolved.

## MM4

## MM6

Ref	Page	Policy/ Paragraph
MM6	114 147	- Appendix 7

### **Appendix 7: Implementation Framework and Critical Path outside of the Broadland part of the Norwich Policy Area**

The framework lists infrastructure required to facilitate development promoted in this JCS. It is early work and is not intended to be an exhaustive or precise list of the entire infrastructure that will be needed by 2026. Additional infrastructure will be needed beyond this date, ~~including in the growth triangle where 3,000 dwellings are proposed after 2026.~~ This table was correct at late 2010 and relates only to infrastructure that is not required to deliver any aspect of the plan that was previously remitted. Updated information on the schemes listed is contained within the published LIPP available on the GNDP website. Updated information on infrastructure schemes needed in part to support some element of the previously remitted growth proposals in the Broadland part of the NPA is available in Appendix 7a.

The GNDP will manage a delivery programme supporting the implementation of this Joint Core Strategy. The programme will be developed through the Local Investment Plan and Programme (LIPP). As decisions are made locally and nationally on prioritisation and funding of infrastructure, the content, phasing and priorities of this list will be amended accordingly. This will happen via the LIPP process which will be subject to regular review.

The definition of the three levels of priority is derived from the Greater Norwich Infrastructure Needs and Funding Study (INF 1; in particular see Page 194) but expands the Study's definition to explicitly recognise the differential impact on the overall strategy. Consequently, the categories are:

**Priority 1 - Infrastructure** is fundamental to the strategy or must happen to enable physical growth. It includes key elements of transport, water and electricity infrastructure and green infrastructure requirements from the Habitats Regulation Assessment. Failure to deliver infrastructure that is fundamental to the strategy would have such an impact that it would require the strategy to be reviewed. This particularly applies to the NDR and the associated package of public transport enhancement. The sustainable transport requirements of the strategy and much of the development to the north of the built up area is dependent on these key elements of NATS.

**Priority 2 - Infrastructure** is essential to significant elements of the strategy and required if growth is to be achieved in a timely and sustainable manner. Failure to address these infrastructure requirements is likely to result in the refusal of planning permission for individual growth proposals, particularly in the medium term as pressures build and any existing capacity is used up.

**Priority 3 - Infrastructure** is required to deliver the overall vision for sustainable growth but is unlikely to prevent development in the short to medium term. The overall quality of life in the area is likely to be poorer without this infrastructure. Failure to address these infrastructure requirements is likely to result in the refusal of planning permission for individual growth proposals.

**Table 1 – Infrastructure Framework** shows infrastructure requirements to support growth across the JCS period.

**Table 1 – Infrastructure Framework**

Infrastructure Framework: Priority 1 projects 2008 - 2016							
<i>The base date for the Strategy is 2008. This table includes projects from 2008 - 2011 (the adoption of the Strategy) and 2011 - 2016 (the first 5 years of delivery post adoption)</i>							
Waste Water							
<i>The table below lists the Priority 1 infrastructure requirements to deliver the Joint Core Strategy. The categories of infrastructure that are viewed as Priority 1 are Transport, Green Infrastructure (relating to the Habitats Regulations Assessment) and Utilities.</i>

## MM7

Ref	Page	Policy/ Paragraph	Main Modification
MM7	-	New Section	Insert new Appendix 7a, to follow Appendix 7

### Appendix 7a: Implementation Framework and Critical Path inside the Broadland part of the Norwich Policy Area

The framework lists infrastructure required to facilitate development promoted in this JCS. It is early work and is not intended to be an exhaustive or precise list of the entire infrastructure that will be needed by 2026. Additional infrastructure will be needed beyond this date, including in the growth triangle where at least 3,000 dwellings are proposed after 2026. This table was correct at June 2013 and relates only to infrastructure that is required to deliver any aspect of the plan that was previously remitted. Updated information on the schemes listed is contained within the published LIPP available on the GNDP website.

The GNDP will manage a delivery programme supporting the implementation of this Joint Core Strategy. The programme will be developed through the Local Investment Plan and Programme (LIPP). As decisions are made locally and nationally on prioritisation and funding of infrastructure, the content, phasing and priorities of this list will be amended accordingly. This will happen via the LIPP process which will be subject to regular review.

The definition of the three levels of priority is derived from the Greater Norwich Infrastructure Needs and Funding Study (INF 1; in particular see Page 194) but expands the Study's definition to explicitly recognise the differential impact on the overall strategy. Consequently, the categories are:

**Priority 1 Infrastructure** is fundamental to the strategy or must happen to enable physical growth. It includes key elements of transport, water and electricity infrastructure and green infrastructure requirements from the Habitats Regulation Assessment. Failure to deliver infrastructure that is fundamental to the strategy would have such an impact that it would require the strategy to be reviewed. This particularly applies to the NDR and the associated package of public transport enhancement. The sustainable transport requirements of the strategy and much of the development to the north of the built up area is dependent on these key elements of NATS.

**Priority 2 Infrastructure** is essential to significant elements of the strategy and required if growth is to be achieved in a timely and sustainable manner. Failure to address these infrastructure requirements is likely to result in the refusal of planning permission for individual growth proposals, particularly in the medium term as pressures build and any existing capacity is used up.

**Priority 3 Infrastructure** is required to deliver the overall vision for sustainable growth but is unlikely to prevent development in the short to medium term. The overall quality of life in the area is likely to be poorer without this infrastructure.

Failure to address these infrastructure requirements is likely to result in the refusal of planning permission for individual growth proposals.

**Table 1 – Infrastructure Framework** shows infrastructure requirements to support growth across the JCS period.

**Table 1 – Infrastructure Framework**
**Infrastructure Framework: Priority 1 projects 2008 – 2016**

*The base date for the Strategy is 2008. This table includes projects expected to be delivered from the base date up to 2016 (the first 5 years of delivery post adoption of the non-remitted parts of the JCS)*

**The table below lists the Priority 1 infrastructure requirements to deliver the Joint Core Strategy. The categories of infrastructure that are viewed as priority 1 are Transport, Green Infrastructure (relating to the Habitats Regulations Assessment) and Utilities**

## Infrastructure Framework: Priority 2 projects 2008-2016

*The table below lists the Priority 2 infrastructure requirements to deliver the Joint Core Strategy. The three categories of infrastructure that are viewed as Priority 2 are Education, Healthcare and Green Infrastructure. The Health Authority will take a flexible approach to the provision of hospital beds. Locations will be determined by the Health Authority at a later date. It is presumed funding will come through the AMP.*

NOTE: All schools in the period 2008-16 are expected to be covered by S106 or are covered by Children's Services funding

## Infrastructure Framework: Priority 2 projects 2016-2021

### Education

ED1	60 place pre-school	Old Catton, Sprowston, Rackheath and Thorpe St Andrew Growth Triangle	Norfolk County Council	0.54	Childrens Services/CIL	2021	Infrastructure Needs and Funding Study 2009

<b>Community facilities: 2021-2026</b>							
CF 1	Community facilities 300sq metres of community space plus 4 indoor sports courts	Old Catton, Sprowston, Rackheath and Thorpe St Andrew Growth Triangle	Broadland District Council	2.54	Private companies / Developers / Local authorities/ CIL	2026	Infrastructure Needs and Funding Study 2009

## MM8

Ref	Page	Policy/ Paragraph	Main Modification
MM8	-	New Section	Insert new Appendix 8a, to follow Appendix 8

## Appendix 8a – Additional monitoring framework for the Broadland part of the Norwich Policy Area

Spatial Planning Objective 1: To minimise the contributors to climate change and address its impact.			
Policy: 1, 3, 5, 6, 7, 9, 10, 11, 12, 13, 14, 18, 19			
Indicator (& type)	Main Agencies	Targets	Source
Percentage of residents who travel to work: a) by private motor vehicle; b) by public transport; c) by foot or cycle; and d) work at or mainly at home.	Norfolk County Council / Developers / LPAs	Decrease in a) and increase in b), c) and d) over plan period	ONS (Census)

Spatial Planning Objective 2: To allocate enough land for housing, and affordable housing, in the most sustainable settlements.			
Policy: 4, 9, 10, 11, 12, 13, 14, 15, 16, 17, 19, 20, 21, 22			
Indicator (& type)	Main Agencies	Targets	Source

Housing land supply within Broadland part of the NPA	LPAs/Developers	To have more than 90% of the required deliverable housing land (as defined in current national policy) in the rolling 5-year supply of housing land (plus the 'additional buffer' required in current national policy).	LPAs
--	-----------------	---	------

Spatial Planning Objective 4: To promote regeneration and reduce deprivation

Policy: 5, 6, 7, 9, 10, 11, 12, 19, 20

Indicator (& type)	Main Agencies	Targets	Source
Unfit housing – percentage of overall housing stock not meeting "Decent Homes Standard"	LAs	Decrease over plan period	LAs

Spatial Planning Objective 7: To enhance transport provision to meet the needs of existing and future populations while reducing travel need and impact

Policy: 3, 6, 7, 9, 10, 12, 13, 14, 15, 16, 17, 19, 20

Indicator (& type)	Main Agencies	Targets	Source
Percentage of residents who travel to work: a) by private motor vehicle; b) by public transport; c) by foot or cycle; and d) work at or mainly at home.	Norfolk County Council / Developers / LPAs	Decrease in a) and increase in b), c) and d) over plan period	ONS (Census)

<p>Spatial Planning Objective 8: To positively protect and enhance the individual character and culture of the area.</p> <p>Policy: 2, 5, 7, 8, 10, 11, 12, 13, 14, 15, 16, 17, 18, 20</p>			
Indicator (& type)	Main Agencies	Targets	Source
Heritage at risk – number and percentage of: a) Listed Buildings; and b) Scheduled Ancient Monuments on Buildings at Risk Register	LPAs	Year on year reduction	LPAs

<p>Spatial Planning Objective 9: To protect, manage and enhance the natural, built and historic environment, including key landscapes, natural resources and areas of natural habitat or nature conservation value.</p> <p>Policy: 1, 3, 5, 10, 11, 12, 13, 14, 15, 16, 17, 18, 20</p>			
Indicator (& type)	Main Agencies	Targets	Source
Heritage at risk – number and percentage of: a) Listed Buildings; and b) Scheduled Ancient Monuments on Buildings at Risk Register	LPAs	Year on year reduction	LPAs
