Independence

Members of the Scrutiny Committee will not be subject to whipping arrangements by party groups.

Member leadership

Members of the Committee will take the lead in selecting topics for and in questioning witnesses. The Committee will expect members of Cabinet, rather than officers, to take the main responsibility for answering the Committee's questions about topics, which relate mainly to the Council's activities.

A constructive atmosphere

Meetings of the Committee will be constructive, and not judgmental, accepting that effective overview and scrutiny is best achieved through challenging and constructive enquiry. People giving evidence at the Committee should not feel under attack.

Respect and trust

Meetings will be conducted in a spirit of mutual respect and trust.

Openness and transparency

The Committee's business will be open and transparent, except where there are sound reasons for protecting confidentiality. In particular, the minutes of the Committee's meetings will explain the discussion and debate, so that it could be understood by those who were not present.

Consensus

Members of the Committee will work together and, while recognising political allegiances, will attempt to achieve consensus and agreed recommendations.

Impartial and independent officer advice

Officers who advise and support the Committee will give impartial and independent advice, recognising the importance of the Scrutiny Committee in the Council's arrangements for governance, as set out in the Constitution.

Regular review

There will be regular reviews of how the overview and scrutiny process is working, and a willingness to change if it is not working well.

Programming and planning

The Scrutiny Committee will have a programme of work. Members will agree the topics to be included in the work programme, the extent of the investigation to be undertaken in relation to resources, and the witnesses to be invited to give evidence.

Managing time

The Committee will attempt to conclude the business of each meeting in reasonable time. The order of business will be arranged as far as possible to minimise the demands on the time of witnesses.

1284 MINUTES

The minutes of the meeting held on Wednesday 27 January 2021, were confirmed as a correct record.

Minute No: 1280 – BRIEFING REPORT ON RECENT FLOODING IN SOUTH NORFOLK

The Assistant Director of Regulatory provided an update on the work undertaken following the Committees recommendations, he advised that:

- An article for the Link magazine was being prepared to provide residents with the relevant and up-to-date information on flooding support and prevention.
- 2 separate officer roles created to cover environmental enforcement and emergency incident response.

- A briefing for Town and Parish Councils had been arranged for April to cover local emergency response plans and resilience response groups.
- The Norfolk Strategic Flood Alliance had commenced a review on sandbags and methods of flood defence. Officers had decided to delay the review of the Councils own policy on sandbags until the outcome of the Flood Alliances review was known.

1285 BRIEFING REPORT ON HOW THE PLANNING SYSTEM ASSESSES FLOODING ISSUES

The Portfolio Holder, Cllr L Neal introduced the report and asked the Committee to consider the planning related contributing factors of the recent flooding and recommend improvements that the Council could implement.

The Assistant Director of Planning presented the briefing to the Committee where she outlined how planning officers assess planning applications and form decisions in line national advice and the Council's own development plan. She also advised members that the current Water Management Officer would soon be leaving the Council and that Members could consider expanding the role into a full-time post.

In response to member's question, the Development Manager advised that flood boards were not currently a condition in planning applications, and as the Council directs developments out of flood zone 2-3 areas it was not considered to be a relevant condition which could be added.

During a discussion on the types and importance of responses from statutory consultees, the Assistant Director of Planning informed members that Anglian Water commented on all applications which involved foul water and surface schemes, she noted that they were an important consultee and that planning officers have delayed determination in the past in order to receive the statutory response. She also advised the committee that consultee requests went the lead local flood authority for all applications of 10 or more properties, however they advised they would only respond to consultations on developments of 100 or more properties, due to a lack of resource in their department. The Council's own Water Management Officer provided consultee responses on applications of 1-10 properties and could where needed provide comments on applications of over 10 properties.

Several members noted their disappointment that the lead local flood authority were not responding to consultee requests of less than 100 properties.

One member queried whether there was evidence that a lack of maintenance of drainage systems contributed to the recent flooding in the district. The Assistant Director of Planning stated that the Council did not have evidence of

whether or not this contributed to the recent flooding. She advised members that the Council's current planning practice did not request completion reports from developers as evidence that works had been carried, however this could be added as a condition to applications if the committee felt it necessary, after further discussion the committee agreed that this recommendation should be made.

In response to comments that members would like to see factual local knowledge put forward by Parish Councils to be accessed by the lead local flood authority and environmental agency, the Assistant Director of Planning confirmed to members that evidence provided by Town and Parish Councils were already passed on as additional evidence, but highlighted that developer were responsible for the flood risk on their site only and not the local area.

Members discussed the possibility of expanding the role of the Water Management Officer into full-time position, where it was agreed that this increase in capacity would provide an opportunity for increased proactive work to take place.

In response to a members query regarding flooding caused by developments and not lack of maintenance, the Assistant Director of Regulatory advised that no figures were available, and explained that flooding was often the result of an accumulation of sources and not from a single source.

After further discussion, it was

RESOLVED

1. To note the contents of the report
2. To recommend that:
 - a. Training regarding the role of planning in regard to how the planning system assesses flooding issues be provided to all members

 - c. An additional condition be added to all relevant planning application approvals, requiring a verification report to be submitted to provide assurance that drainage has been installed and meets relevant requirements, in line with paragraph 2.34 of the report
3. To note the Committee's disappointment that the Lead Local Flood Authority does not comment on planning applications of less than 100 houses.

1286 ANNUAL REVIEW OF THE SCRUTINY COMMITTEE 2020/21

The Chairman introduced the report on the activity of the Scrutiny Committee over the last year. He highlighted to members that the recommendations of the committee were taken seriously and often implemented by Cabinet.

One member requested an update on the proposal for temporary free parking in the market towns which was brought before the committee in August. The Chairman advised that this proposal was withdrawn after the August meeting as there was no indication at the time that a 3rd lockdown would occur and explained that this work was delegated to officers for a decision. He requested that officers provide a report to the committee at its next meeting.

It was then,

RESOLVED

1287 SCRUTINY WORK PROGRAMME AND CABINET CORE AGENDA
